COMMONWEALTH OF KENTUCKY

DEPARTMENT OF MILITARY AFFAIRS

OFFICE OF THE ADJUTANT GENERAL

FRANKFORT 40601

15 December 1969

The Honorable Louie B. Nunn  
Governor of Kentucky  
The Capitol  
Frankfort, Kentucky

Dear Governor Nunn:

In compliance with Paragraph 7, Section 36.040, of the Kentucky Revised Statutes, 1962, this Annual Report of the activities of the Department of Military Affairs is transmitted. This report is for the period 1 July 1968 through 30 June 1969.

Respectfully submitted,

LARRY C. DAWSON  
Major General, Ky NG  
The Adjutant General

The Adjutant General

The Department of Military Affairs is the official State Agency for all military matters pertaining to the Commonwealth and is headed by The Adjutant General, a constitutional officer appointed by the Governor.

By constitutional authority, the Governor is the Commander in Chief and The Adjutant General is the Commanding General of the Kentucky Army and Air National Guard. The Adjutant General is the executive head charged with directing and coordinating all activities of the Department.

Functions of the Department

The Department's functions include organizing, equipping, housing and training units of the National Guard in close coordination with the Department of the Army as relates to the Army National Guard, and the Department of the Air Force as relates to the Air National Guard. The Department maintains a War Records Section in which are permanently filed records of service of Kentucky veterans who have served in all wars in which the Commonwealth has been engaged; microfilms the records of the Kentucky Veterans Bonus; provides a civil defense plan of action in the event of disaster, or emergencies; constructs and maintains facilities for the proper housing of units of the National Guard and other functions of the Department. All these functions are carried out through the Administrative Division, Facilities Division, Army National Guard Division, Air National Guard Division, and the Civil Defense Division.

The organization of the Department and the functions of the Divisions are shown in the following chart.

All Federal funds provided for the support of the National Guard are allotted to The Adjutant General and are disbursed by the United States Property and Fiscal Officer, who is a National Guard Officer in Active Federal Service.

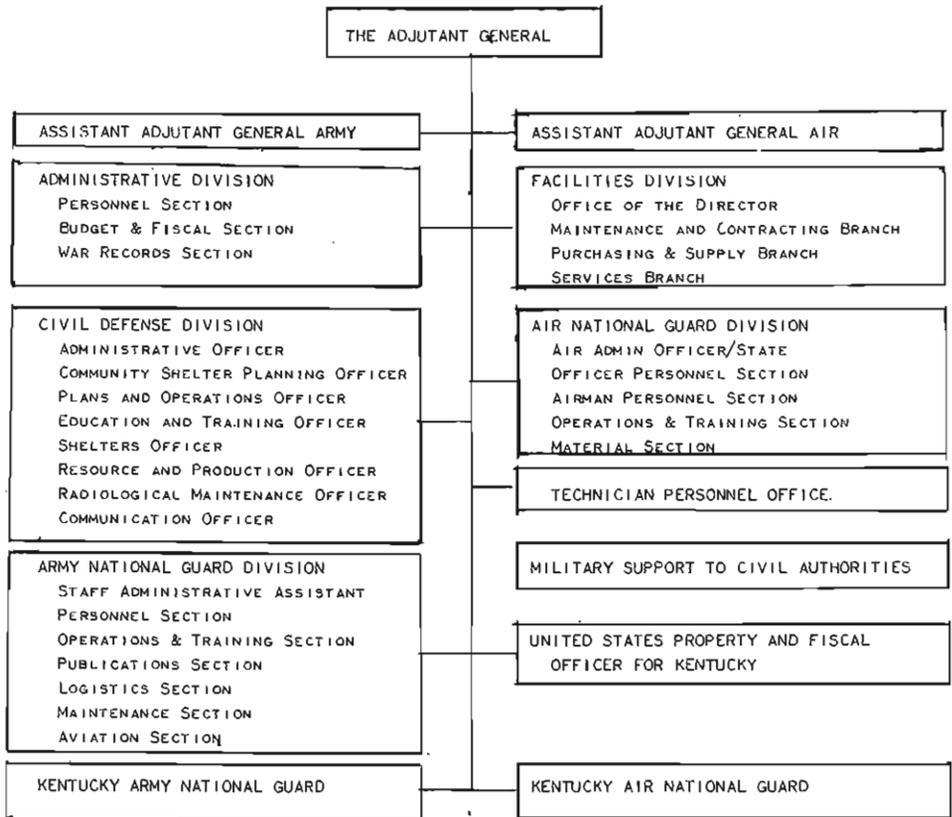

State financial support and the expenditures of the Department are indicated in the Administrative Division section of this report.

## ADMINISTRATIVE DIVISION

Mission and Organization

The Administrative Division is organized to carry out the functions of personnel management; budget and fiscal operations; maintenance and

ORGANIZATION CHART  
DEPARTMENT OF MILITARY AFFAIRS

custody of war records; the preparation and editing of a wide variety of Department correspondence for The Adjutant General, particularly that concerning military activities which is referred to the Department from the Office of the Governor; and, the coordination of the other administrative functions of the Department which are not primarily military in nature.

Budget and Fiscal Section

The Budget and Fiscal Section is staffed with two accountants. The accountants aid in the preparation of budgets for the Department and its Divisions each biennium, submit a monthly financial statement of each account, exercise controls to insure that expenditures do not exceed budget allocations, maintain ledgers for all accounts paid, and files on all fiscal matters. Receipts from the Federal Government and other miscellaneous receipts are processed by this section. All documents are pre-audited before transmittal to the Department of Finance and all expenditure reports from the Department of Finance are post-audited with the Departmental ledgers.

The accountants also maintain records on all salaries paid from State funds to include State Active Duty for Kentucky National Guard members, as well as detailed payroll ledgers and fiscal records of employment. Utilities and minor accounts are paid from the Petty Cash Fund which is administered by this section. The financial report prepared by this section follows:

### Personnel Section

The Personnel Section is responsible for the personnel management of State-paid employees of the Department. This includes the procurement, assignment, classification, utilization, pay, leave, promotion, safety, incentives and separations of all State-paid employees necessary for the operations of the Department and its Divisions. A personnel folder is established and maintained for each employee in which is filed the complete record of his employment to include appointment, promotion, change of assignment, retirement credit earned, records of leave, etc.

It is the responsibility of the Personnel Officer to see that the personnel functions are carried out in accordance with the rules and policies prescribed by the State Commissioner of Personnel and The Adjutant General.

The number of employees by Division of the Department of Military Affairs is as follows:

Number of Employees by Divisions

	State Employees	*Guard Technicians
Adjutant General's Office-----	4	0
Administrative Division-----	5	0
Army National Guard Division-----	3	9
State Maintenance Office-----	0	4
Combined Support Maintenance Shop-----	0	44
Aviation Maintenance Shop-----	0	12
Organization Maintenance Shops-----	0	53
Unit Technicians-----	0	96
Military Support to Civil Authorities--	0	3
Technician Personnel Office-----	0	3
U.S. Property and Fiscal Office-----	0	50
Air National Guard Division-----	1	2
Shewmaker Air National Guard Base-----	0	163
Facilities Division-----	42	0
Civil Defense Division-----	29	0
Active Militia Division-----	0	0
Kentucky Disabled Ex-Servicemen's Board--	15	0
TOTAL-----	99	439

\*Guard Technicians are Civil Service Employees both in the excepted service and in the competitive service and are subject to Civil Service retirement. They are appointed, reassigned and relieved by The Adjutant General subject to Civil Service rules and regulations. They are paid 100% by the Federal Government.

War Records Section

The War Records on file in our office date back to the War of 1812. Also on file are the records of Commissions of the Officers in the "Co Stalk" Militia from the beginning of statehood to the commencement of War of 1812. These records prove to be very valuable to genealogists. During the past year, the hobby of tracing ancestors for the family tree has become more prevalent.

Casualty lists for World War I, World War II, the Korean Conflict and the Vietnam War are on file in our office. Requests pertaining to the names of these veterans from the different counties are increasing considerably. The majority of these requests are for publicity in the news media and for erecting monuments in the memory of the hometown war heroes, who had given their lives in the service of their country.

This section, as reported in the 1967-68 Annual Report, is the Central File for all casualty reports from the Vietnam War. As of 30 June 1969, there are 885 casualties recorded for Kentucky servicemen who have died in Vietnam.

All inquiries concerning the Kentucky Veterans Bonus are directed to this office for information regarding the applicant's payment of the bonus, returning documents submitted by the applicant in order to substantiate his or her claim, and all requests for making application. Since the Kentucky Veterans Bonus Program terminated on 31 December 1962, we have received approximately 800 requests and we have returned approximately 182 applications (which are not included in the request count) from veterans or their beneficiaries, who had not filed or inquired about the Bonus during the authorized period. Numerous inquiries regarding a Bonus for the Kentucky veterans who had served in Vietnam are also on file in our office.

DD 214 Forms which have become inactive are still being received daily. During the last reporting period we had estimated approximately 70,000 DD 214 Forms on file, and of these, 48,600 had been alphabetized. As of today there are approximately 62,000 alphabetized. This project is being accomplished whenever we have free time from the more demanding duties of this office.

Requests are received daily for Kentucky Army National Guard and the Kentucky Air National Guard statements of service and retirement points from former members of the Guard, in order to establish proof of military service for those who joined regular components, data for employment, social security, etc.

When active officers and enlisted men in the Kentucky Army National Guard have completed twenty years of service, statements of service are compiled and retirement points are computed. These certified statements of service are then forwarded to the National Guard Bureau, Washington, D.C., for a "Certificate of Notification of Eligibility for Retired Pay at Age Sixty".

We consider the War Records Section in the Department of Military Affairs to be one of the best and most complete set of records on the Kentucky Veterans as compared to any state in our country.

We strive constantly to provide the best service possible to the citizens of Kentucky and to the out-of-state residents, interested in obtaining the military records of the Kentucky Veterans.

## ARMY NATIONAL GUARD DIVISION

The Army National Guard Division is organized to assist The Adjutant General in administering the affairs of the Kentucky Army National Guard. Most of the employees which comprise the staff of the Division are technicians under the United States Civil Service and paid entirely out of Federal funds. There are over 200 technicians employed in the Army National Guard in Frankfort and throughout the State where armories and maintenance shops are located. The Adjutant General has a dual role with regard to the affairs of the Kentucky Army National Guard. As The Adjutant General and Executive Head of the Department of Military Affairs, he is responsible for coordinating all activities relating to personnel, organization and training, and logistical support of the Kentucky Army National Guard. As Commander of the Kentucky Army National Guard, he coordinates the operations of the various Guard units during periods of annual field training or other periods of active duty. The mission of the National Guard Division consists primarily of assisting The Adjutant General in carrying out the first part of the dual role. For the second part, he has a part-time National Guard Staff which functions as an integral unit of the Kentucky Army National Guard. This staff assists in a training status which is paid for out of Federal funds. An Organization Chart follows.

To accomplish this mission the Division is organized as follows:

### The Adjutant General

Although overall supervisory responsibility is inherent in the title of Adjutant General, he is primarily concerned with coordination of activities involving two or more sections of the Division and with effecting any necessary liaison with other Divisions of the Department. To assist the Adjutant General, The Chief, National Guard Bureau, authorized and the Federal Government provides the funds for an individual with the title of Staff Administrative Assistant. The Adjutant General uses the Administrative Assistant for the purpose of coordination and to supervise the personnel section.

### Personnel Section

The functions of this section are divided into four distinct areas. These are:

- a. Officer Personnel Actions - Including all records and allied correspondence relating to commissions, physical examinations, transfers, promotions and releases involving the more than 400 officers in the Kentucky Army National Guard.
- b. Enlisted Personnel Actions - Including all records pertaining to enlistments, physical examinations, transfers, promotions, and discharges involving over 4,000 enlisted men of the Kentucky Army National Guard.
- c. Policies and programs relating to recruiting and maintenance of strength by the National Guard units.

d. General Correspondence - Pertaining to Reports of Survey, inspection reports, field training, and other matters similar in nature. This includes testing of enlisted personnel in their military occupational specialty.

#### Operations and Training Section

The functions of this section involve the following listed areas:

a. Organization and/or Reorganization Actions -- To include the development and implementation of all plans regarding the organization of new units, deactivation of units, or changes involving the organizational structure or location of existing units.

b. Training - The training functions of this section involve a number of separate yet allied areas. Among these are:

(1) Developing plans and programs designed to insure adherence, by Kentucky Army National Guard Units, to training directives prescribed by the Department of the Army.

(2) Administering a Service School Program to insure the most efficient utilization of Federal funds authorized to support attendance of National Guard Personnel at Active Army Schools. This activity includes the review and processing of applications and subsequent publications of orders authorizing attendance.

(3) Reserve Enlistment Program - To include the review and processing of applications and publication of active duty orders for new recruits required to undergo training at an active Army Training Center.

(4) Coordinating with representatives of First United States Army and the National Guard Bureau regarding annual field training sites and dates.

(5) Maintenance of all records and allied correspondence pertaining to the status of training of all Kentucky Army Guard units.

c. Operations - Involves actions relating to units participating in State Active Duty, mobilization readiness reporting and support of the State Officer Candidate School.

#### Logistics Section

This section is manned only by the United States Property and Fiscal Officer whose function with the Division is to provide technical advice and assistance in all matters relating to the logistical support of the Kentucky Army National Guard. As he has an identical responsibility with the Air National Guard, the USPFO maintains a separate office and staff who assist him in accounting for

Federal property and funds allotted to both the Kentucky Army and Air National Guard. The functions of the USPFO will be covered elsewhere in this report.

### Maintenance

This section is concerned with matters pertaining to the maintenance of Federal property furnished to the State for use by National Guard units. Functions of the section involve the following listed activities.

- a. Developing policies and programs designed to support a maintenance program.
- b. Providing technical advice and support to Commanders of Guard units in matters relating to maintenance of equipment..

The Chief of this section is also charged with the operation of a Combined Support Maintenance Shop which will be covered later in this report.

### Aviation Section

It is the responsibility of this section to exercise central control for The Adjutant General over army aircraft assigned to the Kentucky Army National Guard and to keep The Adjutant General advised on the status of all matters pertaining to army aviation.

### Publications Section

It is the responsibility of the Publications Section to provide all necessary publications and blank forms for the Kentucky Army National Guard units and activities. Service to the Air National Guard is limited to Air National Guard publications and blank forms.

The Publications Section is operated as directed by the Chief, National Guard Bureau, in National Guard Regulations 2-2, 2-3, National Guard Pamphlet 2-2-1 and other pertinent administrative directives.

"Pin-point" distribution, which was initiated for SRF units in the fourth quarter of FY 66, has functioned smoothly during the year. This system of distributing and requisitioning of publications by SRF units puts them on the same basis as Active Duty units of the U.S. Army. It is anticipated that all National Guard units will be on "pin-point" distribution system in the future.

The Kentucky Army National Guard is supplied with Department of the Army technical publications from the St. Louis Adjutant General Publications Center, St. Louis, Missouri. Administrative and training publications and all Department of the Army blank forms are supplied from the Baltimore Adjutant General

Publications Center, Baltimore, Maryland. National Guard Bureau publications and forms are supplied direct from the National Guard Bureau, Washington, D.C.

### Military Support to Civil Authorities

This activity is responsible for developing plans for military assistance to Civil Authorities during emergency situations which may arise in the State, such as civil disorders, natural disasters, enemy attack, etc.

### General

The paragraphs above have described briefly the responsibilities and functions of the Army National Guard Division within the Department of Military Affairs. They do not, however, depict the broad activities of the Kentucky Army National Guard. For example, while there are well over 200 technicians who are United States Civil Service employees and paid for out of Federal funds working for the Army National Guard, there are only three State employees in the Division. This necessitates The Adjutant General providing assistance from his office. Consequently, in order to properly depict the functioning of the Army National Guard Division and to provide statistical information the following paragraphs will be devoted to various activities of the Kentucky Army National Guard.

The following functional chart depicts both the organizational structure and individuals staffing the Army National Guard Division as of 30 June 1969.

### Mission

By virtue of existing Federal and State laws, the Kentucky Army National Guard occupies a dual status; (1) In its role as a Reserve Component of the United States Army, the National Guard is required to comply with Federal policies, regulations and procedures and is subject to immediate Federal mobilization upon call by the President of the United States; (2) In addition, it is subject to call by the Governor of the Commonwealth, when needed to preserve law and order or to provide aid during a natural disaster.

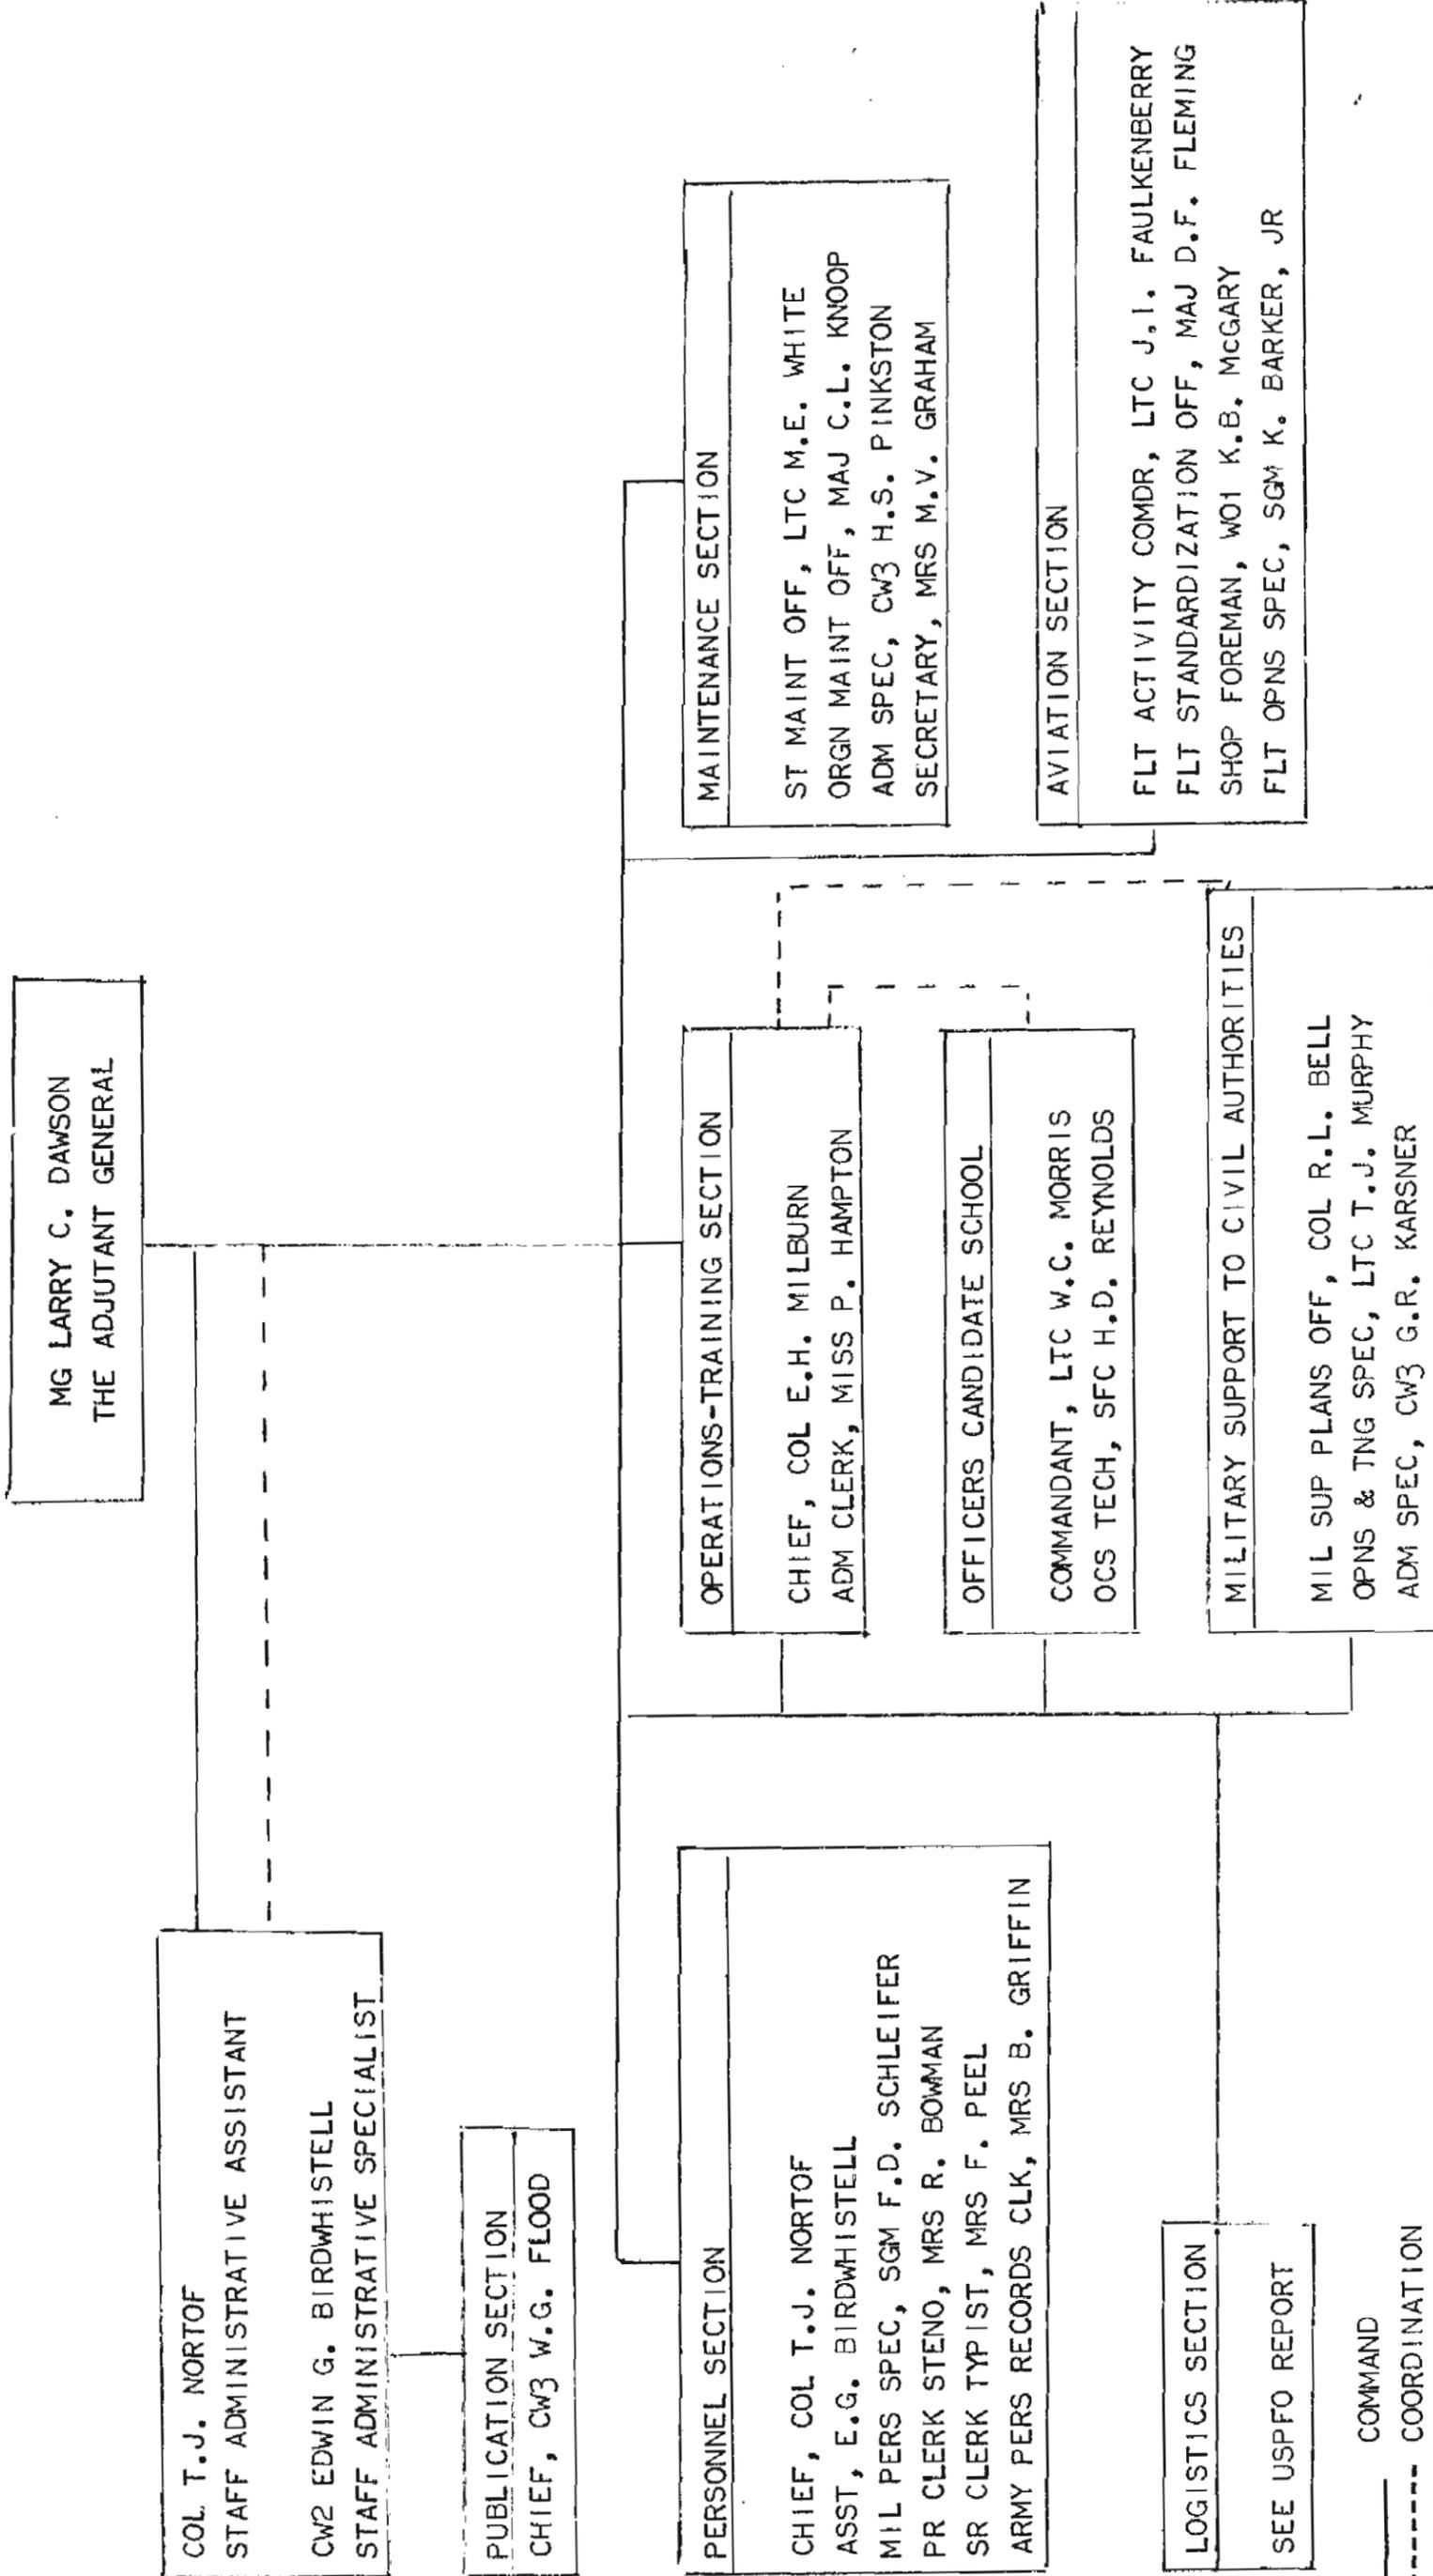

In understanding the dual status of the Guard as discussed above, its mission immediately becomes apparent and can be stated as follows: The primary mission of the Kentucky Army National Guard is to develop both combat and combat support military units ready upon call by the President, for deployment in the event of armed conflict and capable of responding to call, by the Governor, when needed to preserve law and order or provide aid.

### Organization

The number and type of units comprising Kentucky's Army National Guard Troop Allotment remained unchanged during Fiscal Year 69. The only significant reorganization actions effected during the reporting period are listed below:

a. On 1 May 1969, the 4th Bn (8"SP), 138th Arty (SRF II) was redesignated the 1st Bn (8"SP), 623d Arty (SRF).

ORGANIZATION  
ARMY NATIONAL GUARD DIVISION

COMMAND  
----- COORDINATION  
\* STATE EMPLOYEES

b. The State Hqs & Hqs Detachment was reorganized, effective 1 March 1969, under Table of Distribution NGW8A2AA.

In May 1969, a directive stating the 438th Aviation Co (AML) would be withdrawn during the 1st Quarter, Fiscal Year 70 was received from the Department of Army. Negotiations, with a view toward obtaining a unit or units to replace the 438th, were initiated immediately.

These negotiations resulted in obtaining authority to organize the 441st Medical Detachment (Hel Amb), the 23d and the 38th Signal Platoons (FWD Area), in Lexington. Authority to reorganize the 438th Military Police Co (Gd) to the 438th MP Co, TOE 19-7-G was also obtained. Actions implementing the above are scheduled for July and August.

A Troop List of Kentucky Army National Guard Organizations and Units/ Detachments along with the home station location and Commander's name of each unit appears below.

Strength

The strength authorized for units of the Kentucky Army National Guard throughout Fiscal Year 69 was 356 Officers, 89 Warrant Officers and 4367 Enlisted Men for an aggregate of 4812. (This does not include the 2nd Bn, 138th Arty currently in Vietnam).

Although the total authorized is 4812, this figure is reduced by means of a strength ceiling prescribed by the National Guard Bureau. Consequently, attaining an assigned strength of 4812 is impossible.

This strength ceiling, known as authorized manning level, fluctuated during the year from 95.0% to 97.4% of 4812. Manning level strengths and actual strengths for each month are listed below:

<u>LAST DAY OF</u>	<u>AUTHORIZED MANNING LEVEL STRENGTH</u>	<u>ACTUAL STRENGTH</u>
July 1968	4584	4619
August 1968	4584	4535
September 1968	4584	4522
October 1968	4584	4550
November 1968	4584	4529
December 1968	4584	4525
January 1969	4682	4548
February 1969	4682	4573
March 1969	4682	4564
April 1969	4729	4623
May 1969	4729	4773
June 1969	4729	4706

### Training

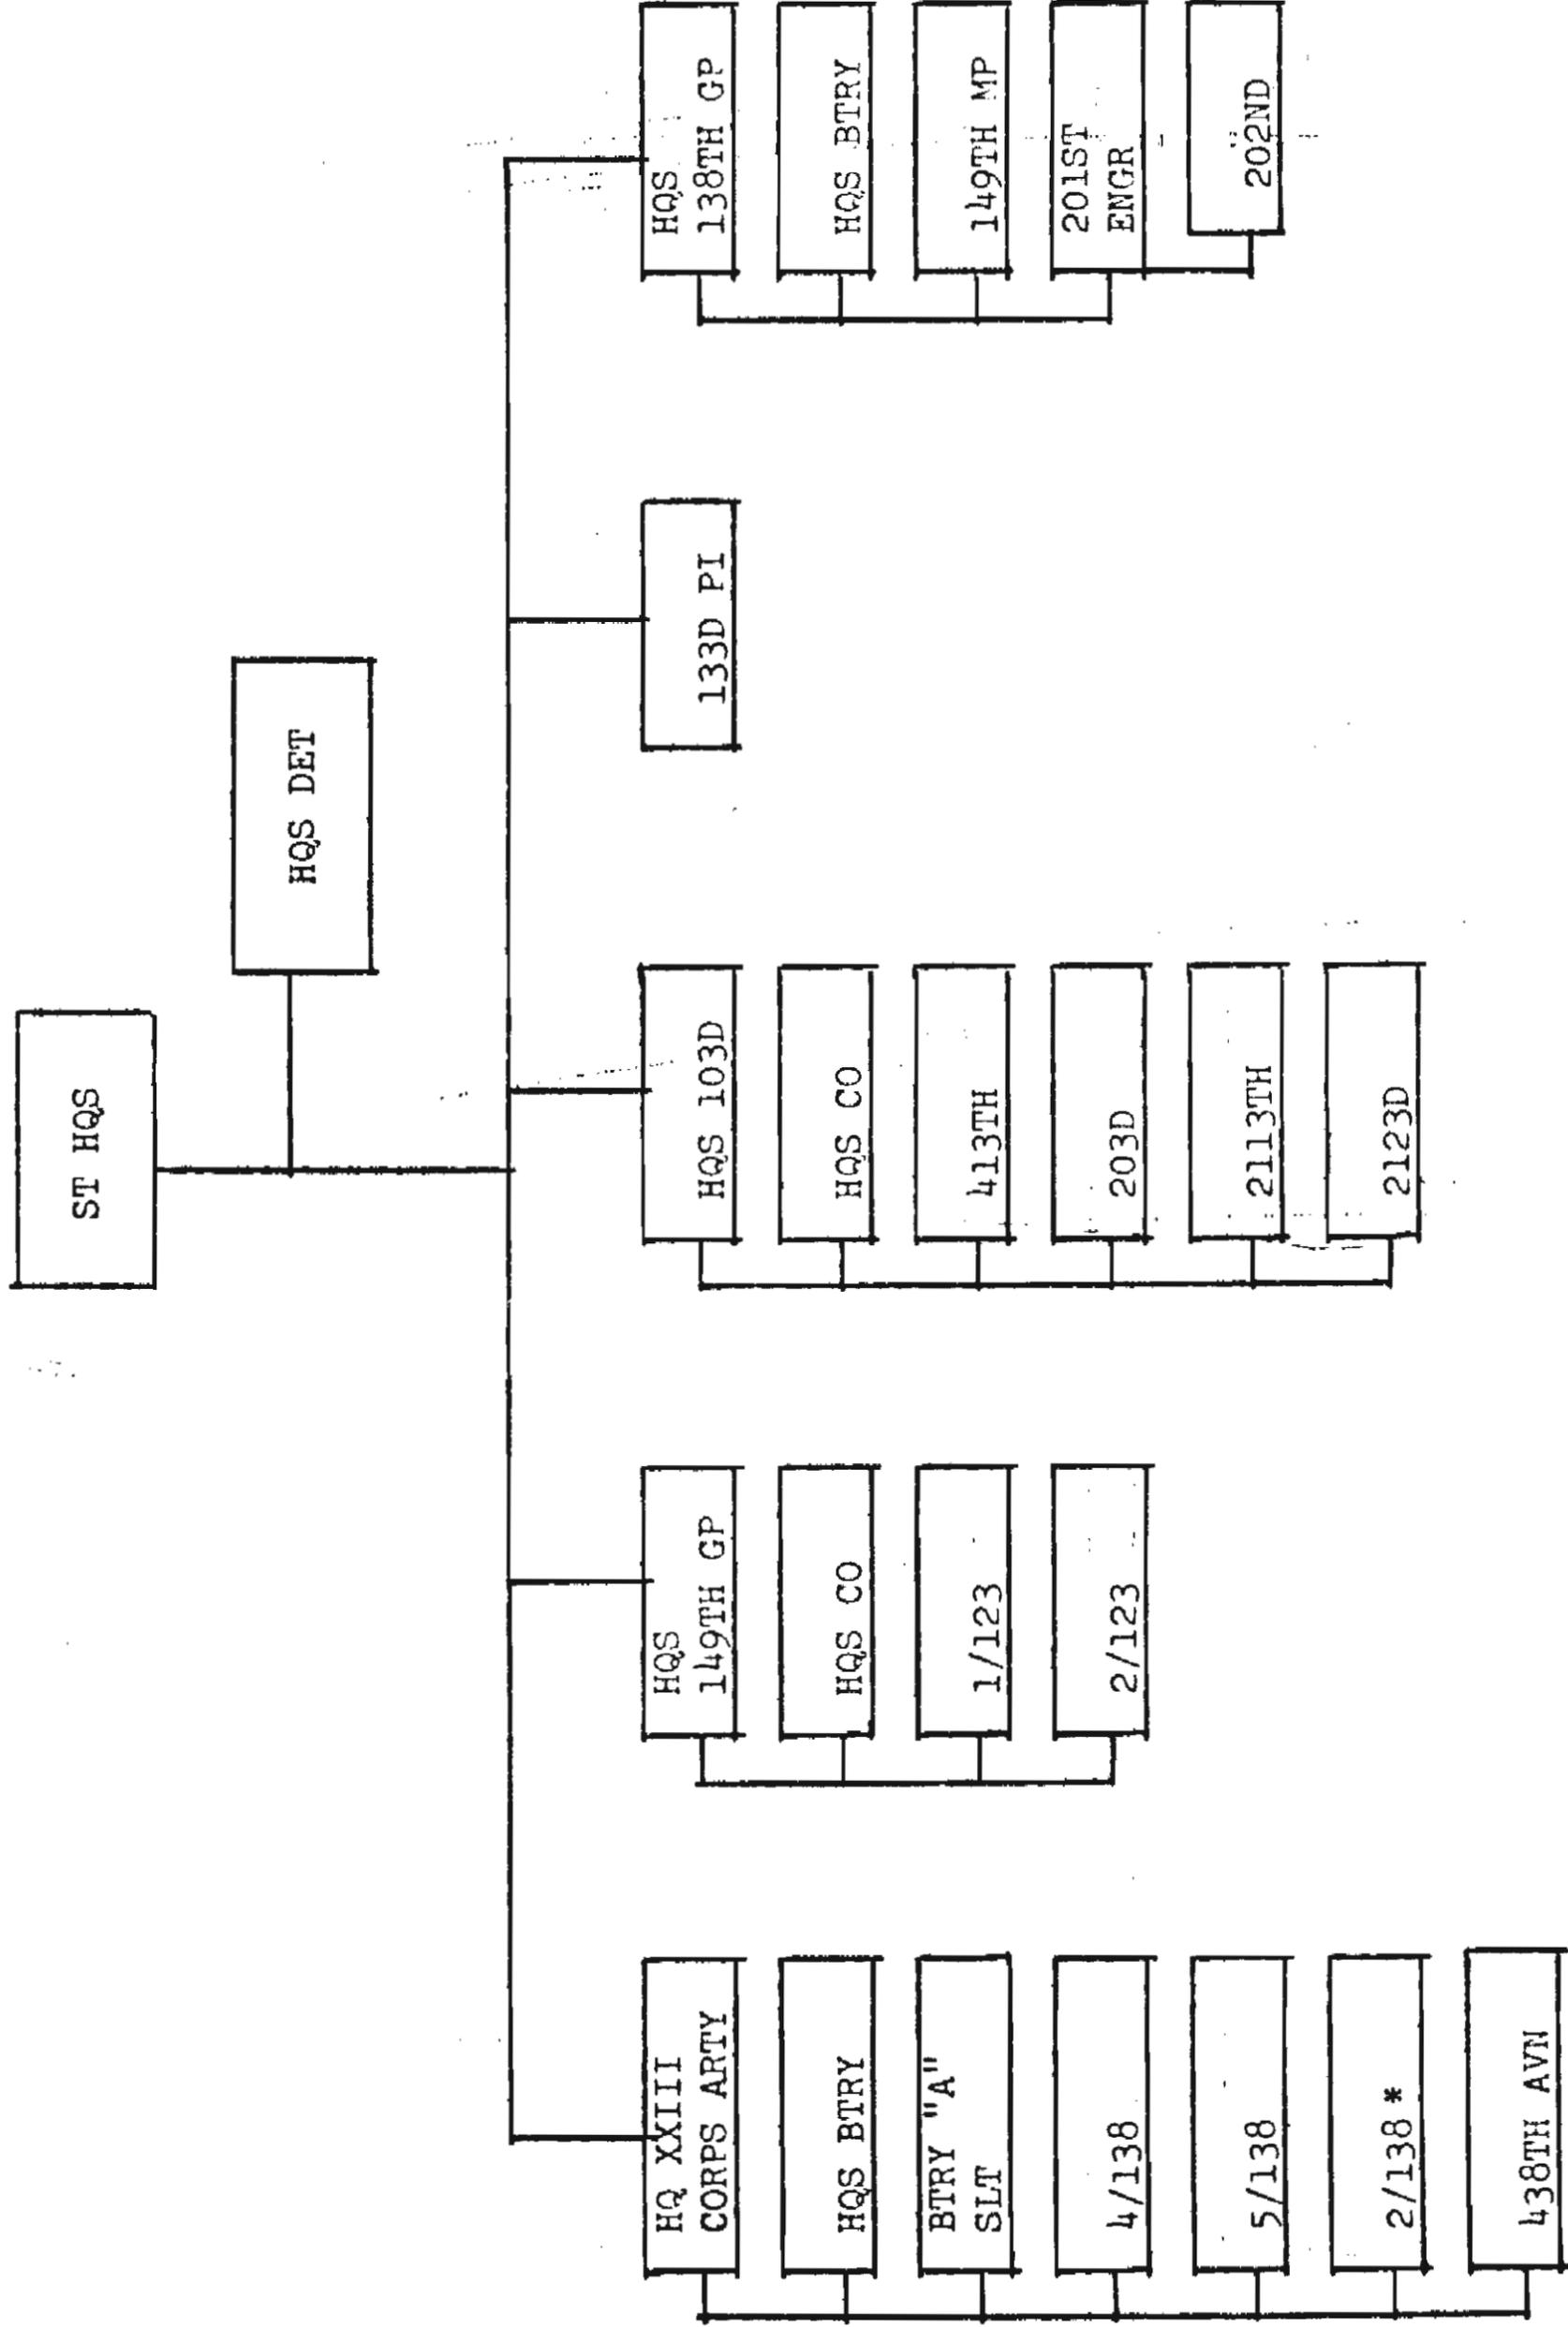

The training objective of Army National Guard Units is to achieve the highest level of training possible commensurate with available time and resources. Army Training Programs published by Department of Army prescribes, by type of unit, the specific training which must be completed by any unit in order to be combat ready.

Kentucky units are at varying levels in completing the required training. However, during AFT 69, all units made steady advancement. During Annual Field Training all units were rated satisfactory by training evaluators representing the Commanding General, First United States Army.

In addition, all units received satisfactory ratings during Annual General Inspections conducted by the Inspector General, First United States Army. These inspections were conducted at the respective home station of each unit.

In order to reduce the span of control and achieve maximum effective training supervision, the Army National Guard is organized as shown on the following chart:

ORGANIZATIONAL CHART KENTUCKY ARMY NATIONAL GUARD

\* Effective upon release from Federal status

## Annual Field Training

Army National Guard Units are required to conduct fifteen days of field training annually. This provides an opportunity to conduct training exercises in a simulated combat environment.

Units attending annual field training during the period of this report and the location of the training sites are as shown below:

Annual Field Training Schedules are prepared on a calendar year basis, consequently, a unit or units may attend two annual field training periods during a given fiscal year.

### Officer Candidate School

Kentucky National Guard Officer Candidate School Class Number 11-69 began Phase I at Frankfort, Kentucky on 20 July 1968 with an enrollment of 72 candidates. Sixty-seven members of this class successfully completed Phase III during Annual Field Training 1969 at Fort Knox, Kentucky and will be awarded diplomas during graduation exercise scheduled for 25 July 1969.

The enrollment and graduates for the school's eleven years of operation are as follows:

<u>OCS Class No.</u>	<u>1-59</u>	<u>2-60</u>	<u>3-61</u>	<u>4-62</u>	<u>5-63</u>	<u>6-64</u>	<u>7-65</u>	<u>8-66</u>

### Service School Program

The Army Service School Program is designed to familiarize personnel with the latest Army doctrine in addition to qualifying individuals in their current military assignment. The schools have integrated active army, USAR and National Guard to ensure that the same instruction is received by all components of the army.

During the period of this report 111 members of the Army National Guard have attended these service schools, with an expenditure of Federal Funds totaling \$105,900.

The following courses were attended by members of the Kentucky Army National Guard during the period of this report.

### Special Tours of Duty

During FY 69, the Chief of National Guard Bureau requested the Kentucky Army National Guard furnish qualified officers to serve active duty tours at the Bureau for the purpose of assisting with special projects.

Each officer upon completing his active tour was commended for his outstanding performance. A summary of duty performed by each officer is as follows:

CW4 James L. Strange served three months and assisted the Army Personnel Division in revising procedures pertaining to retirement of National Guardsmen.

CPT Paul T. Ryan was on active duty for three months and assisted the Logistics Division in preparation of Tables of Distribution and Allowances.

LTC Marshall E. White spent five days with the Logistics Division assisting with revision of NGR 76 pertaining to Command Maintenance Management Inspections (CMMI).

In addition to the above, Major General Larry C. Dawson, The Adjutant General, accepted an invitation extended by the Department of Army, to make an inspection visit in February to the 2nd Bn, 138th Arty deployed in South Vietnam. On return General Dawson reported that, based upon his observation all units of the battalion were conducting their combat operations in an outstanding manner. The battalion was assigned a mission of general support of the XXIV Corps. The Commanding General of the XXIV Corps Artillery, in briefing General Dawson, stated the battalion was an outstanding unit.

The Army National Guard received an additional mission for Derby Day, 3 May 1969, Churchill Downs, Louisville, Kentucky to provide support for the local police and the secret service in protecting the President of the United States, Richard M. Nixon, who attended the Derby as the guest of Louie B. N. Governor of Kentucky. The operation was successful in spite of the additional requirement also placed on the Guard by the visiting dignitaries and the visiting Republican Governors, who had recently attended a conference in Lexington, Kentucky. The support was provided without any additional costs or troop increase.

### Personnel

The personnel section supervises the MOS (Military Occupational Specialty) testing program. This is conducted each quarter. During the period of the report, the following numbers were tested and the results obtained:

<u>Period</u>	<u>No. Tested</u>	<u>No. Failures</u>
August 1968	227	5
November 1968	253	9
February 1969	412	32
May 1969	<u>695</u>	<u>Not rec'd</u>
TOTAL	1,587	46

The number of failures are below the National average. Although the passing score is 70, to be promoted to grade E-5 through E-9 requires a score of 110. The Adjutant General may waive this requirement if justification supports the request.

All units are required to maintain four waiting lists of personnel that desire to enlist in the ARNG. The waiting list consists of the individuals name, birth date and the date he applied for enlistment. Applicants are placed on the waiting list in one of four categories:

Category I - Prior service personnel

II - Personnel between the ages of 17-18½

III - Personnel over 18½ and 20 years of age

IV - Personnel over 20 years of age

Actual attendance at Unit Training Assemblies has averaged better than 90%.

There were 47 officers separated from the Ky ARNG and 60 initial appointments.

There were 666 separations and 648 enlistments during FY 69.

The retention rate of enlisted personnel who have either extended or reenlisted in the Ky ARNG has averaged 40%. This is above the National average.

Combat Casualties

The 2d Bn 138th Artillery on Active Duty in The Republic of Vietnam had the following listed personnel killed in combat action as of 30 June 1969:

Carr, Bertram A. SGT	Svc Btry	1 Jun 69
Brown, Harold M. SSG	C Btry	11 Jun 69
Chappel, Luther M. 1SG	C Btry	19 Jun 69
Collins, David B.	C Btry	19 Jun 69
McIlvoy, Joseph R. SP4	C Btry	19 Jun 69
Moore, James T.	C Btry	19 Jun 69
Simpson, Ronald E. SP4	C Btry	19 Jun 69

Awards and Decorations

The Adjutant General awarded the following State Medals during FY 69:

a. Ky Medal for Valor	3
b. Ky Distinguished Service Medal	14
c. Ky Medal for Merit	31
d. Ky Commendation Ribbon	25
e. Ky Faithful Service Medals	8
	<hr/>
	81

The 413th Heavy Equipment Maintenance Company, located in Frankfort, was awarded the Eisenhower Trophy for being the best all around unit in the Ky ARNG

for the year. Co B 2d Bn 123d Armor, Henderson, was awarded a Certificate of Maintenance for the best maintenance of all equipment during the year.

## Maintenance

General. The maintenance of all Federal equipment assigned to the Kentucky Army National Guard is the direct responsibility of The Adjutant General of Kentucky. The State Maintenance Officer is responsible to The Adjutant General for: (1) The establishment of a state-wide maintenance program; (2) The organization and operation of the Combined Support Maintenance Shop; and (3) Provide technical advice to the USPFO, Army Aviation Maintenance Shop, and commanders (on matters pertaining to maintenance). The organization of the maintenance activities is shown on the following chart.

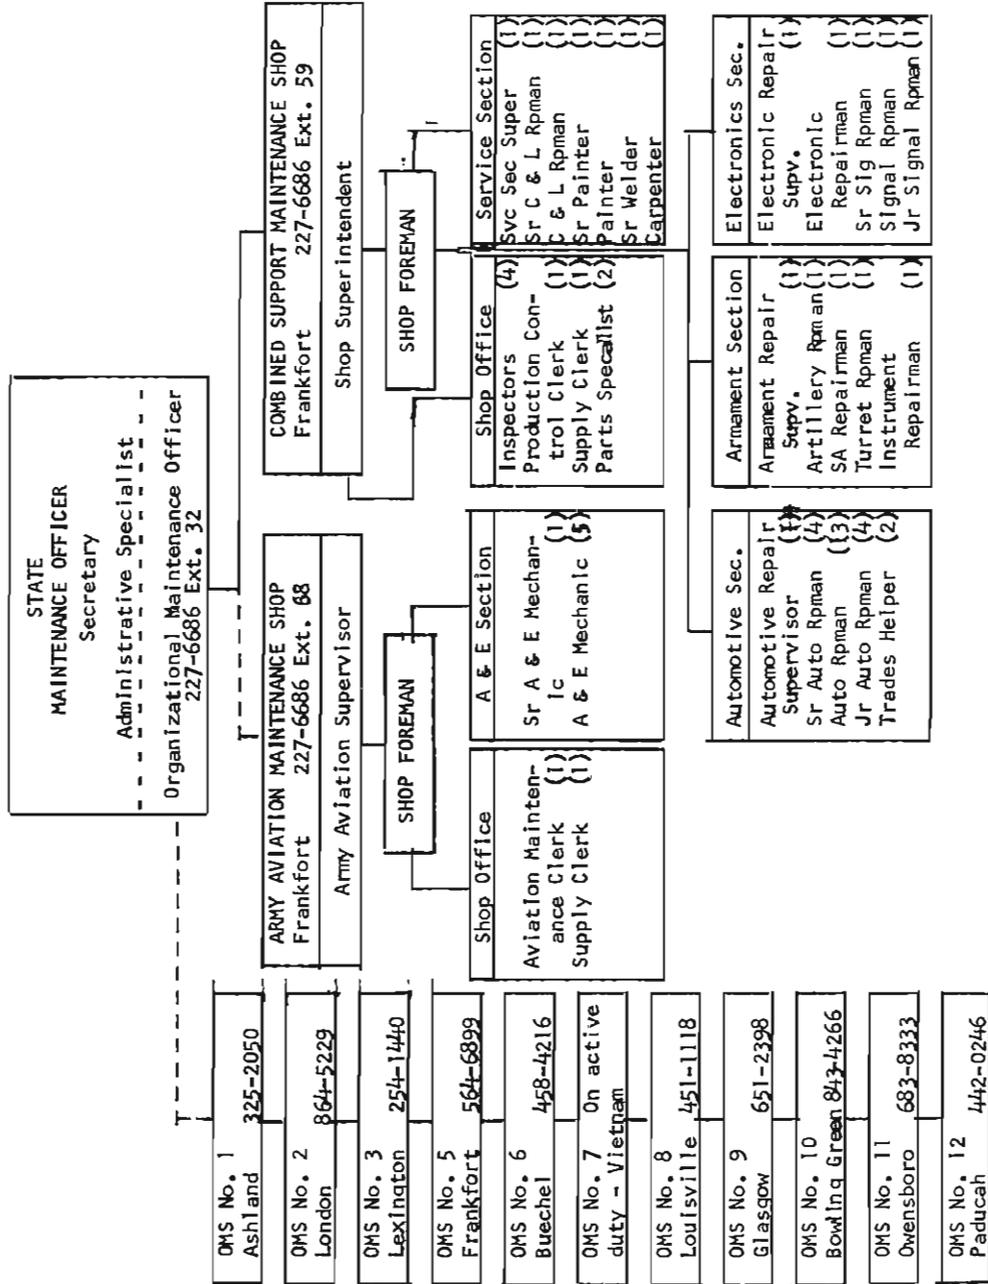

The categories of maintenance for the Army has been changed from five to four since the initiation of the TAFERS. (The Army Equipment Readiness System). The categories of maintenance are: (1) Users, (2) Organizational, (3) Support, (4) Depot Combined Support. The overall change gives a ready record of equipment condition and it also streamlines the maintenance support. There are Organizational Maintenance Shops (OMS) located throughout the State. They provide with the unit personnel category 1 and 2 maintenance. The Combined Support Maintenance Shop is located at Frankfort and provides category 3 and some of 4. The Federal Government pays 102 technicians to man the shops.

First United States Army inspects the program annually. A superior rating was received in the Calendar Year 1968.

A Command Maintenance Management Inspection (CMMI) is conducted annually by the State Maintenance Officer under the supervision of The Adjutant General. The Unit that attains the highest standard of maintenance for the year receives a certificate from the Chief, National Guard Bureau. B Company, 1st Battalion 123d Armor, Hopkinsville, Kentucky was awarded the certificate for 1968.

The problem of aging equipment continues to be a prime concern of all personnel. Repairs are becoming more expensive because of parts and the man hours required to keep it operational. Repair limitations have been decreased by the Government making it very difficult to retain vehicles that could normally be repaired.

Combined Support Maintenance Shop. The Combined Support Maintenance Shop located at the Boone National Guard Center, Frankfort, Kentucky was established for the purpose of performing maintenance categories three and four (repair, overhaul, and rebuild) and to furnish personnel to conduct Command Maintenance Management Inspections (CMMI) on all equipment, except aircraft, assigned to the Kentucky Army National Guard. The Administrative Motor Pool is a responsibility

of the CSMS for the purpose of furnishing administrative transportation to organizations and activities within a geographical area. An inspection was made of the CSMS by the Inspector General, First United States Army, who rated the shop as superior.

Organizational Maintenance Shops. There are eleven established Organizational Maintenance Shops in Kentucky with a total of fifty-three technicians. The operation of OMS is a responsibility of the Commander. The responsibility of Organizational Maintenance Shops is to furnish support to user and organizational maintenance. The Organization Maintenance Officer, who also assists the State Maintenance Officer, provides the operational and technical guidance. They also operate an administrative storage compound to provide storage for vehicles not required by units for training.

Army Aviation Maintenance Shop. The Army Aviation Maintenance Shop has the responsibility for organizational and field maintenance of all aircraft assigned to the Kentucky Army National Guard. During the preceeding year, the aircraft assigned were flown 1,766 hours without a major accident.

#### Military Support to Civil Authorities

The Military Support to Civil Authorities Section is manned by three full-time technicians. These are a Military Support Plans Officer, an Operations and Training Specialist and an Administrative Specialist.

The Section, currently quartered in Boone National Guard Center, has established and maintains active liaison and coordination with applicable military forces located within the Commonwealth; with certain Federal, State, and local civil authorities; with counterparts in States contiguous to Kentucky; and with First U.S. Army.

This section was originally the Office of Military Support to Civil Defense, but with the increase of civil disturbances, school uprisings, and other disorders, it was changed to its present designation to support agencies within the State for Civil defense, civil disturbance, natural disaster and, major disaster emergencies.

To comply with National directives this section implemented a priority program to complete 32 hours Control of Civil Disturbance Training. Approximately 5000 members of the Army National Guard and 600 Air National Guardsmen received this training. In addition, specialized classes were given to junior officers and NCO's.

The adequacy of the priority training and advance planning programs was substantiated by the exemplary manner in which civil disturbance crises have been handled.

Briefly outlined herein are the highlights of accomplishments which greatly increased the Guard's efficiency in meeting civil disturbances wherever they occur.

A State plan was developed containing policies, instructions and procedures. Copies of the State plan received wide distribution and is being used for continuous reference.

Mayors, Chiefs of law enforcement departments, and State Police were contacted and conferences held in order that all concerned would know the procedures to be employed in requesting assistance, chain of command, control, and areas of responsibility in the event of troop employment. In several cases the section assisted agencies in preparing their plans and in a few cases prepared the local plan completely.

All members of the section have completed special schooling in various related fields to be better prepared to assist in any type of emergency.

Further, during this period the section conducted a 16 hour course on Radiological Monitoring for some 600 National Guardsmen and also conducted two special courses for the Highway Department training some 60 civilian employees in this field.

In addition, and because of constant change at both National and State level, all plans written by this section have been closely monitored and up-dated as the needs dictated.

#### U.S. ARMY ADVISOR GROUP (ARNGUS) KENTUCKY

##### General

The Senior U.S. Army Advisor for the Commonwealth of Kentucky is COL Arthur L. Bakewell, USA. He commands and coordinates the duties of all Army Advisors in the State; acts as liaison between the Army Commander and the State Adjutant General, and serves as military advisor to the State Adjutant General.

##### Mission

The primary mission of advisor personnel assigned to the United States Army Advisor Group, Kentucky Army National Guard, is to advise and assist in the training of the organizations and units of the Kentucky Army National Guard. Specifically, Army Advisor personnel are required as a normal function to accomplish the following:

Further the efficiency of the unit or units to which they are assigned through appropriate assistance and advise to the responsible commander.

Regularly attend the training of those units located at their permanent stations for which they have advisor responsibility. Attendance at these unit training assemblies take precedence over all other assemblies.

Attend annual field training camps as directed by the Senior Army Advisor.

Verify the attendance of all federally recognized Army National Guard personnel when present at a unit training assembly or other authorized assembly for inactive duty training.

Verify all unit training assembly and other inactive duty training rolls of Army National Guard personnel under their advisory jurisdiction.

Maintain suitable files of orders, circulars, regulations and official documents issued by Department of the Army, Army Commander, and State authorities.

### Organization

The United States Army Advisor Group is organized under Table of Distribution 1A-W2KPAA03 as a Class One Activity under the jurisdiction of the Commanding General, First United States Army. The Advisor Group is authorized 12 Officers and 16 Enlisted Men. Advisor offices are maintained at each battalion or higher headquarters. Location of Advisor Offices and assignment of advisory personnel are indicated in the chart which follows.

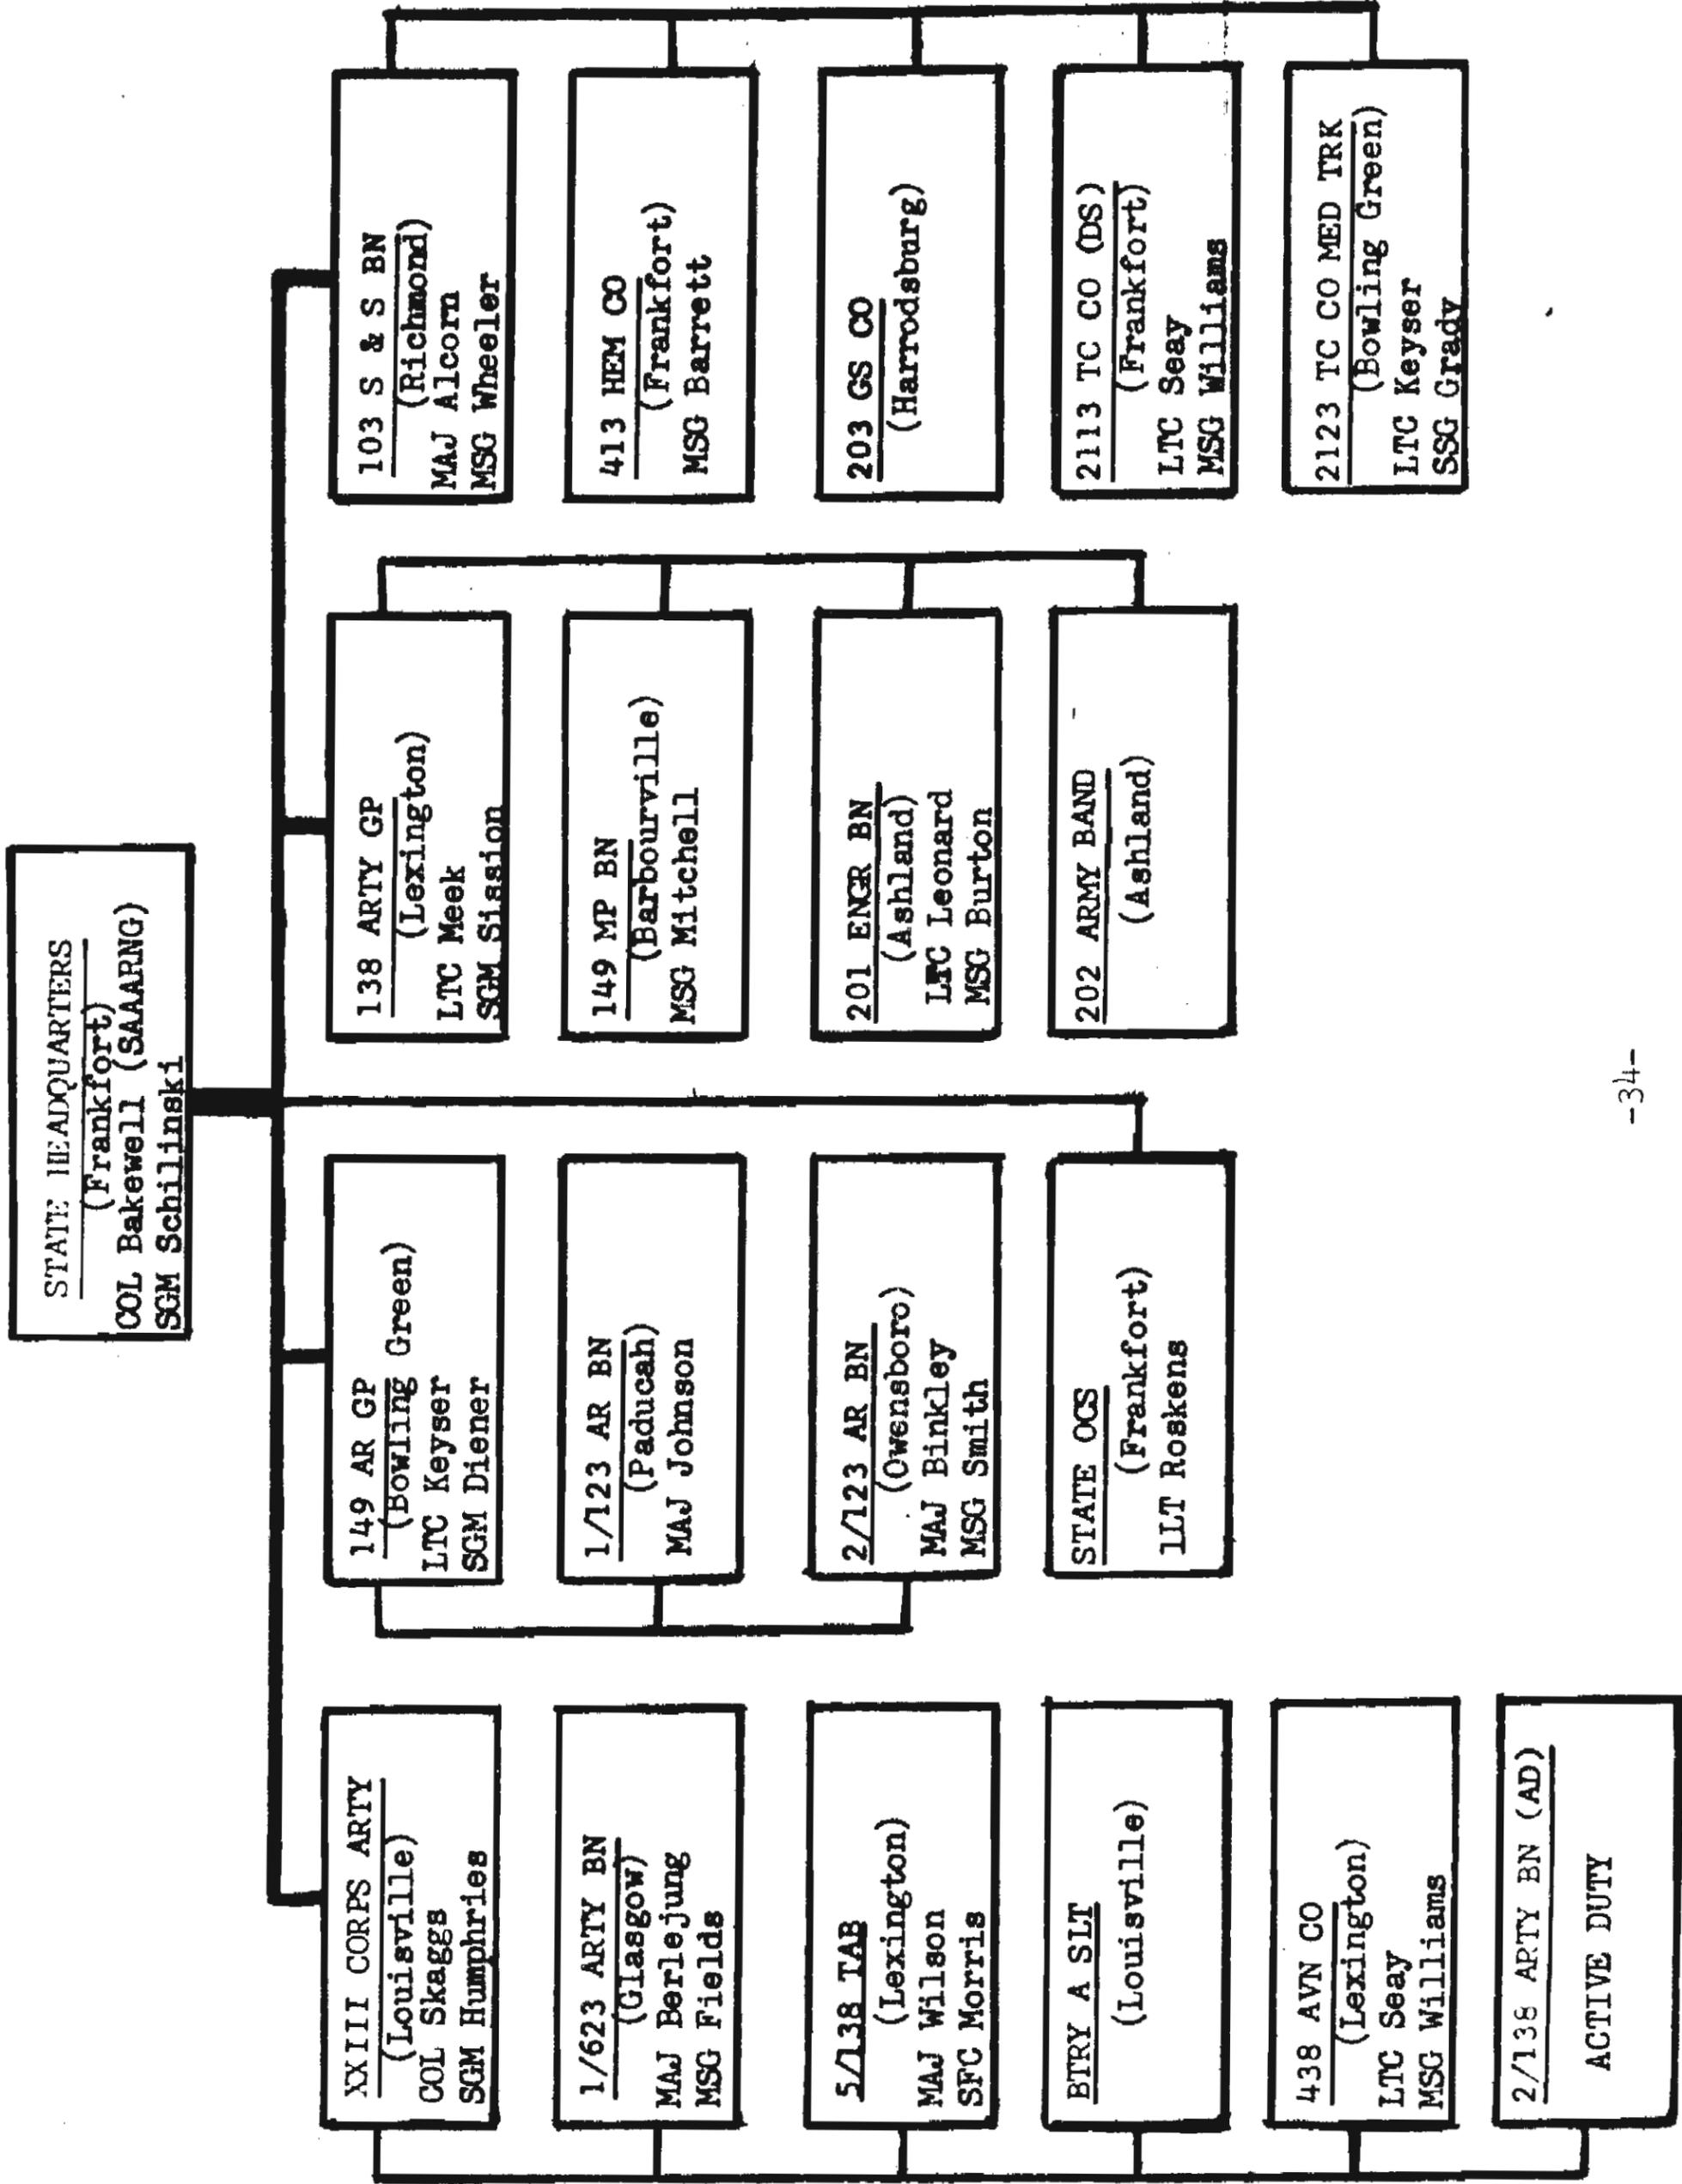

### Personnel

On 30 June 1969 The operating strength of the Army Advisor Group (NG) was 11 Officers, 1 Warrant Officer and 16 Enlisted Men as compared to 6 Officers and 20 Enlisted Men at the beginning of the reporting period. Known losses are 1 Warrant Officer and 1 Enlisted Man. At the conclusion of the reporting period the Army Advisor Group was at 85% of authorized officer strength and 100% authorized enlisted strength.

### Accomplishments

All officer and enlisted advisors in the Advisor Group visited subordinate units at least twice monthly. During the past fiscal year the Advisor Group placed heavy emphasis on unit training requirements, organizational maintenance

ASSIGNMENT OF ADVISOR PERSONNEL  
 US ARMY ADVISOR GROUP (ARGUS) KENTUCKY  
 (As of 30 June 1969)

procedures and unit readiness. Considerable improvement was noted in all of these areas.

Officers from this Group were assigned to evaluate Annual Field Training (AFT) of reserve component units at Camp Pickett, Virginia and Camp Drum, New York. The evaluators assisted the units by reporting to the commanders deficiencies and outstanding performances observed in evaluating the effectiveness of unit training.

An additional responsibility of members of the Advisor Group is the notification and assistance of next of kin of missing, wounded or deceased members of the United States Army whose next of kin reside in the Commonwealth of Kentucky. In fiscal year 1969 the Advisor Group handled 81 primary notifications and 30 survivor assistance cases.

#### TECHNICIAN PERSONNEL OFFICE

Fiscal Year 1969 was a highlight year for the approximately 450 technicians of the Air and Army National Guard of Kentucky. Public Law 90-486 enacted by Congress during the first quarter of the Fiscal Year clarified the status of these employees by placing them under Civil Service effective 1 January 1969. This included the approximately 180 technicians of the Air and Army National Guard called to active duty early in 1968. Prior to 1 January 1969 these employees were classified as State employees but were paid entirely from Federal funds administered by the United States Property and Fiscal Officer for Kentucky. In June 1969 approximately 165 technicians of the Kentucky Air National Guard returned to technician duty after a tour of active duty in excess of a year. Fifteen technicians of the Army National Guard remain on active duty in Viet

Another highlight of the technician program was the decision of The Adjutant General to combine both Air and Army Guard technicians under one personnel office instead of the two personnel offices utilized prior to 1 January 1969. This decision of The Adjutant General has worked out very satisfactorily.

#### UNITED STATES PROPERTY AND

#### FISCAL OFFICER

##### Mission

The United States Property and Fiscal Officer for Kentucky is Major Willis R. Hodges, USAF. A reserve officer on active duty, Major Hodges is accountable for federal property and funding allocated to support the Kentucky Army and Air National Guard. He acts as a federal controller and logistics manager for The Adjutant General of Kentucky.

## Organization

Following a 13 year manning stalemate, federally paid technicians at the USPFO Frankfort complex were increased from 40 to 50. Fiscal 1969 also brought demobilization of the 123d Tactical Reconnaissance Wing and returned 29 technicians to employment by USPFO assistants at Louisville's Shewmaker ANG Base.

## Army National Guard

Solidification and preparation keynoted fiscal 1969 Army logistical operations. Acquisitions, distributions, transfers and disposals of material solidified the equipment base of reorganized Ky ARNG elements. The replacement of 32 combat tanks by 40 later models, receipt of 300 radio sets and issues of light weight green uniforms to enlisted personnel were welcome improvements.

Preparations for the return from Vietnam of the Second Howitzer Battalion, 138th Artillery, included computing equipment allowances, requisitioning and pre-positioning of material at Buechel.

Army Guard supply transactions increased sharply over the 1968 level. The USPFO:

- a. Processed 24,057 unit requests for authorized federal property.
- b. Issued 24,651 line items of equipment and supplies.
- c. Submitted 12,096 requisitions to defense depots.
- d. Processed 7,125 property turn-in requests.
- e. Reported 1,354 line items of excess property for disposal.
- f. Sold 14,288 line items valued at \$35,886.63 through the Self Service Supply Center.
- g. Submitted 302 equipment status changes to the National Guard Bureau.
- h. Improved the mobility, fire power and communication capabilities of Ky ARNG organizations as shown by the chart at the end of this section.

After a 1968 decline, transportation of personnel and equipment increased 100% during 1969. The following data reflects the impact of additional training allocations and major equipment turn overs.

- a. Transportation requests issued - 266.
- b. Incoming shipments on bills of lading - 1,119.
- c. Outgoing shipments on bills of lading - 281.
- d. Incoming parcel post shipments - 5,151.
- e. Outgoing parcel post shipments - 1,160.
- f. Tonnage received or shipped - 2,658.

The USPFO Data Processing Center continued to simplify existing systems and develop useful management data. Three new programs were added to meet National Guard Bureau reporting and internal control requirements.

a. Logistics Management Report - used at all Ky ARNG levels to analyze and evaluate the previous year's activity and to justify federal funding for logistical support.

b. Maintenance Performance Data - designed to meet an NGB reporting requirement and to provide management data on work performance and time utilization by Combined Support Maintenance Shop technicians.

c. Officer and Enlisted Personnel Reporting System - to report current status of officers and enlisted personnel to NGB.

Following the major Ky ARNG reorganization in 1968, the requirement for an annual USPFO audit of each federal property account was waived to allow in depth auditing of selected accounts. The following list includes major Ky ARNG property accounts, their locations and applicable audit ratings.

Note 1 - Scheduled for comprehensive audit during fiscal year 1970.

Fiscal 1969 Army National Guard funding totaled \$4,667,650 or \$857,640 above the 1968 level. The increase allowed procurement of light weight green uniforms and provided \$289,640 for critical equipment and repair parts. The additional funding, however, did not keep pace with equipment requirement. At the end of fiscal 1969, unfinanced demands exceeded \$560,000. An expenditure summary for the year follows:

Army National Guard Expenditures  
Fiscal Year 1969

<u>Account Numbers</u>	<u>Descriptions of Materials/Services</u>	<u>Funded Fiscal 1969</u>
2430	Medical Care in Non-Army Facilities	\$ 18,400
3110	Personnel Cost, Annual Field Training	1,123,750
3115-	Clothing (Less REP Training Costs)	107,800
3116		
3117-	Subsistence, Inactive Duty	67,100
3120		
3122	Clothing Cost, REP Training	61,600
3130	Personnel Costs, Schools	112,100
3140-	Personnel Costs, Miscellaneous	17,150
3150		
3700	Civilian Personnel Pay	2,241,420
3733-	Equipment and Repair Parts	600,600
3734		
3700	Other Supplies and Services	317,730
	TOTAL	<u>\$4,667,650</u>

The USPFO completed 1,807 Army purchases at a cost of \$231,132 and 118 transactions for the Air National Guard totaling \$61,364. Although more repairs and utilities contracts were let, the federal prohibition on major construction continued. Contracts awarded during fiscal 1969 are listed below:

FEDERAL CONTRACTS  
FISCAL YEAR 1969

<u>LOCATIONS</u>	<u>DESCRIPTIONS</u>	<u>COSTS</u>
Shewmaker ANG Base Louisville	Air Service Contract	\$100,000.00
USPFO Ky, Frankfort	Army Service Contract	\$ 71,066.66
Shewmaker ANG Base Louisville	Interior Painting, Operations & Training Building	\$ 4,800.00

Shewmaker ANG Base Louisville	Modification of Elec- trical Service	\$ 1,983.55
US Army Support Det. Kingsmill, Ohio	Service Support Agreement	\$ 180.00
Organization Maintenance Shop, Glasgow	Modifications to Heating System	\$ 5,893.75
Week End Training Site Fort Knox	Repairs and Utilities Agreement	\$ 3,790.00
Shewmaker ANG Base Louisville	Kentucky ANG Billeting Accommodations	\$ 9,450.00
Shewmaker ANG Base, Louisville	Modification of Message Center	\$ 9,990.00
Shewmaker ANG Base Louisville	Field Usage Contract	\$ 7,200.00
	TOTAL	\$215,353.96

Civilian technicians of the Army and Air National Guard were placed under federal Civil Service retirement and insurance programs on January 1, 1969. The close-out of state connected programs, reviews of new personnel documents and preparation of payroll change slips were accomplished by USPFO payroll technicians. During the fiscal year, 1,992 payroll change slips were required. The Comptroller and EAM supervisor also implemented new data processing payroll and reporting procedures. Other technician changes included:

- a. Conversion of wage board technicians to the Coordinated Federal Wage Schedule.
- b. Initiation of payroll deductions for savings accounts.
- c. Demobilization and Civil Service conversion of Air National Guard technicians ordered to federal active duty in January 1968.

#### Air National Guard

Following mobilization of the Kentucky Air National Guard on January 23, 1968, logistical support was provided by the ANG Base supply account until July 15, 1968. Pursuant to an agreement between the gaining command and the National Guard Bureau, the support was furnished without reimbursement.

Mobilized units were deployed during July 1968, leaving a technician holding detachment of two (2) officers, six (6) airmen, and five (5) female employees. The stock control account shipped 9,500 items of supplies and equipment with the departing units. Approximately 2,600 items were left in storage at home station.

All buildings except the base supply warehouse and hangar were secured and a detachment headquarters was established in the warehouse. While the units were absent, the interior of the administration building was renovated, the heating plant, air conditioning system and other base facilities were improved by cooperative action with the Facilities Division, Department of Military Affairs.

During late spring 1969, 20 officers and airmen returned to Shewmaker Base to prepare for demobilization of the 123d Tactical Reconnaissance Wing. The National Guard Bureau provided \$230,000 for restocking the base warehouse, base fuel supply and for reinstating equipment accounts. The 123d Wing was demobilized and fully operational as an Air Guard force before June 30, 1969.

Air National Guard funding was extremely limited while the units were on active duty. Shortly before their release, NGB allotted \$230,000 for procurement of equipment and supplies. A summary of expenditures from direct funding follows:

# STATUS OF KY ARNG EQUIPMENT

Based on 100% for funded and 80% for Nonfunded Equipment

#### AIR NATIONAL GUARD DIVISION

Headquarters, Kentucky Air National Guard and the Holding Detachment were the only Air National Guard units remaining in State service during almost all of this period. Total strength ranged from 9 officers and 29 airmen, 1 July 1968 to 13 officers and 152 airmen 31 May 1969. The major strength change was due to authorization to recruit 100 non-prior service personnel between February and May 1969. Those personnel were to replace anticipated losses of units demobilized from Federal service, 9 June 1969.

With a small operating staff the 100 personnel goal was met on time. Nearly 200 personnel were examined to meet the requirements of the various speciality quotas. Processing consisted of:

Contacting personnel on waiting list.

Giving and grading qualifying exams.

Giving complete physical exams.

Preparing enlistment and allied papers.

Cutting enlistment orders.

Requesting and publishing active duty orders.

Supplying unit clothing.

Arranging for transportation to basic training.

In addition to the above, 21 prior service personnel were processed for enlistment. Two pilot trainees were processed, approved and sent to flying training courses. They are undergoing training and expect to graduate in May and June 1970. One officer was released early from active duty. This was Lt Col Cooper, Medical Officer, who performed all the physical examinations, with the assistance of only one Medical Technician. The other officer joined the unit from the Tennessee ANG.

Col Yahne, Assistant Adjutant General for Air, with a limited staff prepared the base and equipment to have it operationally ready upon the units' demobilization. Supply and equipment shortages were determined and requisitions prepared with excellent results. Close liaison, including several trips to Richards-Gebaur Air Force Base, was maintained between the active units and the Holding Detachment.

The 123d Wing's activity and accomplishments are set forth in the following pages. The Air National Guard and the State of Kentucky can well be proud of them.

### Operations

The period 1 July 1968 through 9 June 1969 covered by the report found the 123d Tactical Reconnaissance Wing serving on extended active duty with the United States Air Force. It was the first time that the wing had served together on active service with all of its components and with its tactical air units in particular, even though some of the members who were recalled on 26 January 1968, had been separated from the Wing and reassigned individually when the wing moved from Louisville.

This gave Wing units an opportunity for this unparalleled demonstration of operational capability, although, as may be seen later, the conditions were sometimes out of the ordinary. The Wing headquarters was consolidated and reorganized at Richards-Gebaur Air Force Base, Mo., shortly after the beginning of the period. All assigned squadron aircraft were deployed to Missouri on 18 July and leadership of the consolidated wing was continued under the command of Brig. Gen. Jack H. Owen. Other staff positions were assigned under the UDL authorization to members who were formerly members either of the Kentucky or Nevada Air National Guard. The 123d Tactical Reconnaissance Group, so long a part of the familiar operations of the Kentucky unit, was temporarily laid aside, as was the designation of the 152d Tactical Reconnaissance Group of the Nevada Air National Guard. Group Commanders (Lt Col) Lawrence A. Quebbeman of Kentucky and (Col) James W. Dalzell of Nevada were assigned new positions as were other squadron and unit commanders and key staff personnel.

Under the reorganization, the third to be undergone by the Wing since federalization six months earlier, the Tactical Air Command enhancement program of highly-mobile and self-sufficient tactical (flying) squadrons was placed into effect. Immediate strains were felt in many areas as former Air National Guardsmen were confronted with concepts, manning documents, and regulations unfamiliar to them, and to many who might otherwise have given helpful advice and assistance from higher commands. Nonetheless, the augmented flying squadrons were readied, mobility plans smoothed out, and kits of spare parts were prepared for any eventuality.

The events which ensued are now history. Pilots from the Kentucky unit, the 165th Tactical Reconnaissance Squadron, commanded by Lt Col Quebbeman, were shortly to find themselves operating in the most extreme climatic conditions possible to have on the American continent. Heavy workloads were imposed, and vital missions flown. The result is also history and can be expressed in the letters of appreciation and congratulations which were later to be received. From Panama to Alaska, and from Kansas City to Fukuoka, the impact of the professional attitudes, the flying skill, and the esprit de corps of Kentucky airmen were felt--literally--around the world.

It is not possible to delve into the intricate set of balances behind world events, nor to probe beyond the information which can now be published in this report, but the situation which demanded the recall of Kentucky Air National Guard Units did indeed weigh heavily upon the security of the Free World, and upon its sensitive geopolitical balance. Tributes paid to the units of the 123d Wing from the Pacific Air Command attest to the fact that the men and aircraft were truly in demand, and that an essential purpose was fulfilled, particularly in the deployment of the 165th TRS to Itazuke Air Base, Japan. There were indeed moments of dissatisfaction and many cases in which individuals could not, or did not, understand why they had been recalled. However this did nothing to diminish their accomplishment of mission, or contribution to the overall defense posture of the nation.

Ideally speaking, the men of the unit called to duty together would have chosen to remain together--if at all possible. As events transpired, this was not to be. And yet, just as with the men who served with the 123d from 18 July 1968, through their deactivation at Shewmaker Air National Guard Base on 9 June 1969, those who served elsewhere were a credit to the Commonwealth. A number received varying forms of commendation, and the Commander-In-Chief of U.S. Forces in the Pacific praised the total effort of all Air National Guardsmen who assisted in various roles in that theater of operations.

Men and units of the Kentucky Air National Guard on active duty completed many flying missions. The 165th by itself processed 284,251 feet --over 53 miles--of photographic film, turned out more than 250,000 prints, flew more than 7,000 hours and completed more than 4400 sorties in tactical flying. At the same time, the men of the 165th flew further, more often, and accomplished

more targets than any other wing unit. Without comparable records to substantiate larger claims, their record was at least enviable, compared with similar active duty units of the Air Force operating outside of the combat theaters of Southeast Asia.

### Personnel

With the reorganization in June and July, 1968, came a major realignment of wing personnel, a realignment that in some instances created problems. Headquarters, 123d Tactical Reconnaissance Wing and Group: 104 officers and 650 airmen had been mobilized in January, 1968. In July, 381 were deployed with the unit to Richards-Gebaur Air Force Base, Mo., another 131 were declared surplus and transferred to 30 bases in the United States and another 173 men were in excess and were sent to 11 bases overseas. Aside from the dislocations involved, the unit was reorganized; relocated; and reorganized again, all in two months' time. A problem associated with the reorganization was the loss of rank in certain line authorizations. This meant that wing staff officers, in certain instances, were separated from the group which transferred to Richards-Gebaur because they were more than one grade higher in rank than called for on the UDL. (See table -- Disposition of Unit Personnel)

Concurrent with the move to Richards-Gebaur a new unit was created, first designated the 4423d Field Maintenance Squadron and later restyled as the 123d Field Maintenance Squadron. Personnel for this unit came from the Consolidated Aircraft Maintenance Squadrons at Shewmaker in Kentucky and from May ANG Base in Nevada. Also absorbed in the FMS were personnel from supply units at Reno and Louisville. The augmented tactical squadrons were, of course, much larger than before, containing some maintenance and supply personnel, more intelligence personnel, and a realigned photographic processing laboratory crew.

### Deployments - 165th Tactical Reconnaissance Squadron

Six RF-101s were deployed from 16 August through 26 September 1968 to Elmendorf Air Force Base, Anchorage, Alaska to assist the Alaskan Air Command in clearing a backlog of reconnaissance work. During this mission "Cool Optic II", approximately 55,000 feet of film was exposed and processed, about 25,000 prints were made. One hundred thirty-three sorties were flown for a total of 168 flying hours.

Two pilots from the 165th assisted the U.S. Army in Operation Cold Mass III at Ft. Riley, Kansas on 4 October, 1968. One thousand feet of film was exposed from which 18,000 prints were made.

Aircrews and support personnel from the Wing's 165th Tactical Reconnaissance Squadron participated in a rotational deployment to the Panama Canal Zone from October 1968 to January 1969, participating in mission "Coronet Sombrero". A total of 312 targets was accomplished. One hundred twenty-six missions were flown for a total of 234.7 flying hours.

Two aircraft and crews of the 165th staged out of Shaw Air Force Base, South Carolina on 4 October 1968 to provide reconnaissance support for the 82d Airborne Division, Ft. Bragg, S.C. Two fragged missions were flown per day for a total of 21 flying hours. Several thousand feet of film was exposed and pilots completed 10 sorties.

On 14 November 1968 two pilots flew aerial photography of target impact areas at Fort Campbell, Kentucky for the 4th Battalion, 39th Artillery, Fort Bragg, N.C. in support of Operation "Boldshot/Brimfire I". More than 2000 feet of film was processed and printed.

Two pilots, one photo intelligence officer, two crew chiefs and one photo maintenance specialist of the tactical squadron deployed to Puerto Rico on 29 November 1968 to accomplish early intelligence and photographic work for exercise "Boldshot/Brimfire", to include vertical strip photography of the landing zone area on Vieques Island. Two pilots flew 12 sorties for a total of 26 flying hours and the photo specialists directed the processing of more than 4,000 feet of film. While in the Caribbean, the 165th also photographed vertical coverage of Puerto Rico International Airport and Ramey Air Force Base, Puerto Rico and forwarded oblique coverage of Ramey Air Force Base.

On 15 January 1969, Lt Col Quebbeman, Commander of the 165th Tactical Reconnaissance Squadron (Augmented), deployed with an advanced party via C-141 aircraft to Itazuke Air Force Base, Japan. The remainder of the squadron was airlifted to Itazuke in four loads, completing the deployment on 2 February, 1969. The squadron mission was to accomplish reconnaissance study targets within South Korea on a priority basis. During its deployment phase of operations in the Far East the 165th completed 1,195 sorties and compiled 1,580 hours of tactical flying. Its precision processing laboratories produced 78,951 feet of aerial film and made 3,350 prints for using agencies, of good to excellent quality. The squadron completed redeployment to the United States on 22 April 1969, including the movement of all RF-101 aircraft and mission equipment which had been originally moved to Itazuke by the 154th Tac Recon Sq in July 1968.

## DISPOSITION OF UNIT PERSONNEL

123rd Tactical Reconnaissance Wing and 123rd Tactical Reconnaissance Group,  
Standiford Field, Louisville, Kentucky

<u>TOTAL MOBILIZED</u>	<u>DISCHARGED</u>	<u>DEPLOYED WITH UNIT</u>	<u>INDIVIDUALS TO CONUS BASES</u>	<u>INDIVIDUALS TO OVERSEAS BASES</u>
754 (104 Off) (650 Amn)	69	381 (R-G)	131 (30 bases)	173 (11 bases)

COMMENTS: Of the 69 discharged, 64 were for expiration of term of service, five for hardship. 381 officers and airmen were deployed as a unit to Richards-Gebaur AFB, Missouri. The 131 officers and airmen sent individually to CONUS bases went to 30 Stateside locations. The 173 officers and airmen assigned to overseas bases were sent to the following locations:

KOREA - 156 to six bases

JAPAN - 14 to two bases

SOUTH VIETNAM - one to one base

THAILAND - one to one base

LIBYA - one to one base

---

173 to 11 overseas bases

One great bonus was reaped, however, following activation. Training requirements for upgrading skills of personnel immediately moved back to zero in terms of the time allowed to progress to the next higher skill level. This meant everyone in airman ranks who had not achieved a qualified skill level was given an additional six months to a year or more in which to meet the requirements. In the main, these on-job training requirements posed no difficulty for operational sections; it was shortages in certain skill areas which could not be counteracted until filler personnel began arriving from regular Air Force sources. Otherwise, the unit was abruptly reminded that support personnel who were transferred overseas as being surplus to unit needs because the 123d was going to a "manned" base at Richards-Gebaur were badly needed once the unit reached Missouri. The Aerospace Defense Command installation simply lacked adequate support and service personnel to provide many essential services -- particularly in civil engineering and security police.

#### Budget and Fiscal Operations

At Richards-Gebaur the only comptroller function provided for the Wing was a management analysis section--an officer and seven airmen to perform all fiscal functions (all Wing sections suffered from low manning authorizations). Records-keeping, payments, reporting to higher headquarters, accounting, finance and budget were included in this one section, and most of the assigned personnel were graphics specialists (artist-draftsmen). A special program of cost reduction, "Prime '69", resulted in the appointment of a budget working group in July by General Owen. It included a resource monitor from each squadron who assisted the management analysis officer in planning Wing finances. The budget for fiscal year 1969 for elements of the wing at Richards-Gebaur was: Military pay, \$7.1 million; aviation petroleum, oil and lubricants, \$1.6 million; other operations and maintenance, \$1.4 million, for a total budget of \$10.1 million. Nearly all funds were allocated from Tactical Air Command's regular funds; however, \$100,000 of the operations and maintenance expense came from funds previously budgeted for Southeast Asia. That money was spent deploying the units to Itazuke Air Base, Japan, for temporary duty with the Pacific Air Forces.

#### Letters and Messages of Appreciation

In each instance of a major operational commitment on the part of the 123d Tactical Reconnaissance Wing there have been letters or messages of appreciation for the unit's contribution. The following is a list of major communications of this type.

Letter of Commendation, General William W. Momyer, Commander  
Tactical Air Command

Message of Commendation for Outstanding Performance, Admiral  
John McCain, Commander-In-Chief, Pacific Forces

Letter of Appreciation, Brig Gen A. W. Holderness Jr,  
Commander, Headquarters Air Forces Korea

Letter of Appreciation--123rd TRW, Maj Gen Kenneth O. Sanborn,  
Commander Hq United States Air Forces Southern Command

Letter of Appreciation, Brig Gen W. E. Davis Jr., Commander,  
835th Air Division

Letter of Appreciation, Maj Gen Jay T. Robbins, Commander,  
Twelfth Air Force

Letter of Appreciation, Brig Gen Joseph G. Wilson, Asst DCS/Opns,  
Tactical Air Command

Letter of Appreciation, Maj Gen T. E. Moore, Commander, Alaskan  
Air Command

Letter of Appreciation, Lt Gen Thomas K. McGehee, Commander,  
Fifth Air Force (PACAF)

Letter of Appreciation, Col Ben Matlick, Commander, 348th Cmbt  
Spt Gp (PACAF)

Not included above, but of noteworthy consideration, is the plaque  
presented to the 165th Tactical Reconnaissance Squadron by Lt Gen Thomas  
K. McGehee, Commander of Fifth Air Force (PACAF) for "outstanding service  
in the defense of South Korea".

Personnel of the 123d Tactical Reconnaissance Wing Awarded the Air Force  
Commendation Medal for Outstanding Service During Mobilization of the  
Kentucky Air National Guard.

## Casualties During Mobilization of the Kentucky Air National Guard

Captain Robert W. Sawyer, rated pilot, was killed on 5 August 1968 when the military aircraft (RF 101) he was piloting crashed south of Richards-Gebaur AFB, Missouri.

Staff Sergeant Ralph G. Baumgart, non-rated, was killed on 3 February 1968 when the light civilian aircraft he was piloting crashed at Lanesville, Indiana.

## Reconstitution of the 123d Tactical Reconnaissance Wing, Kentucky Air National Guard

Personnel of the Kentucky Air National Guard, less those separated while on active duty and those who elected to remain on active duty, returned to Shewmaker ANG Base from various bases of assignment during the latter part of May 1969, on temporary duty for separation processing. Personnel was released effective 9 June 1969 and reverted to State control effective 10 June 1969. The 123d Tactical Reconnaissance Wing and subordinate units, including those units located in Arkansas and Nevada, were reorganized effective 10 June 1969. During the period 1 July 1968 to 30 June 1969 the Kentucky Air National Guard had a net loss of 14 officers and 34 airmen. Strength regression was held to a minimum as a result of the effective recruiting program conducted by the Holding Detachment, Shewmaker ANG Base, while the wing was on extended active duty. The mission of the wing, that of Photo and Visual reconnaissance, was not changed upon reorganization. Current organization is shown in the charts which follows this section. The following is a list of Commanders, Kentucky Air National Guard units, as of 30 June 1969:

Hq Ky ANG	Colonel Verne M. Yahne
123d Tac Recon Wing	Brig Gen Jack H. Owen
123d Tac Recon Group	Lt Col Lawrence A. Quebbeman
165th Tac Recon Squadron	Lt Col William J. Semonin
123d Cons Acft Maint Squadron	Maj Harold R. Scott
123d Combat Support Squadron	Lt Col Charles C. Sauer
123d Supply Squadron	Maj Harry T. Greschel
123d Tactical Hospital	Lt Col Samuel L. Cooper
123d Communications Flight (Spt)	Maj Norris C. Delph
165th Weather Flight (M/F)	No officers assigned

## FACILITIES DIVISION

### Mission

The Facilities Division is concerned with the planning, programming, management, budgeting and co-ordination necessary for the procurement, construction and maintenance of adequate land and structural facilities for training of the Kentucky National Guard. In its mission the Division accomplishes the following:

1. Acquires land for training sites and the construction of Armories, vehicle and aircraft maintenance shops, and related structures.

2. Effects liaison for such acquisition and construction with Engineering, Budget and Property Utilization Staffs of the Commissioner of Finance; the designing architects and engineers; the Attorney General; the United States Property and Fiscal Officer; the unit commanders and community representatives concerned; the National Guard Bureau, Washington, D. C.; and in instances of joint construction with the United States Army Reserve, with representatives of the Chief, Army Reserve and Commanding General, First United States Army.

3. Initiates contracts for, or performs with assigned maintenance personnel, all maintenance or alterations required to maintain Kentucky National Guard training and support facilities in an acceptable state of readiness and repair.

4. Budgets for, reviews, and approves payment for utility costs and other normal operating expenses of Kentucky National Guard facilities.

5. Performs or initiates purchases to secure Commonwealth financed items of equipment, tools, and materials required for maintenance and operation of armories and other facilities, and the Office of the Adjutant General.

6. Co-ordinates the disposition of obsolete and inadequate structures or properties. Acts on easements across or sale of State land under jurisdiction of the Department of Military Affairs when required for highway right-of-way, county or municipal expansion or relocation of utility or sanitary services, or in connection with community industrial development.

7. Audits accounts of Commonwealth financed and owned property and equipment, monitors Maintenance and Contingent Funds maintained by Kentucky National Guard installations, and performs all inspections necessary for the proper accomplishment of the Division mission.

## Organization

The functions of overall supervision, planning, programming, management, budgeting and liaison inherent in accomplishing the mission are centralized in the office of the Director, who co-ordinates all aspects of new construction and major contractual maintenance, repair or alteration projects.

The Maintenance and Contracting Section performs functions necessary for effective planning, co-ordination and accomplishment of maintenance, repair and alteration aspects of the Division mission.

The Purchasing and Supply Section performs all functions necessary to accomplish the purchasing, auditing, operating cost payment, and supply missions of the Division.

The Services Section performs all maintenance and repair actions that can be accomplished with assigned personnel and equipment, and inspects for the Division those maintenance, repair and alteration operations performed under contract by commercial contractors. The branch also provides direction and supervision for the security and custodial personnel of the Boone National Guard Center, Frankfort, Ky. An organization chart for the Facilities Division is shown on the following page.

## Facilities

Under the supervision of The Adjutant General, the Director of the Facilities Division co-ordinates construction, maintenance, and repair of property used by the Kentucky Army and Air National Guard in thirty-seven communities throughout the Commonwealth. These structures and their land sites have a current estimated value of approximately \$15,000,000. Locations of facilities by types are shown on the map at the end of this section.

### Air National Guard

The Kentucky Air National Guard facilities are located at Shewmaker Air National Guard Base, Standiford Field, Louisville, Kentucky. The cost of construction of these facilities was paid by the Federal Government. All costs for maintenance and operations of the facility are normally shared by the Commonwealth on a 25% basis.

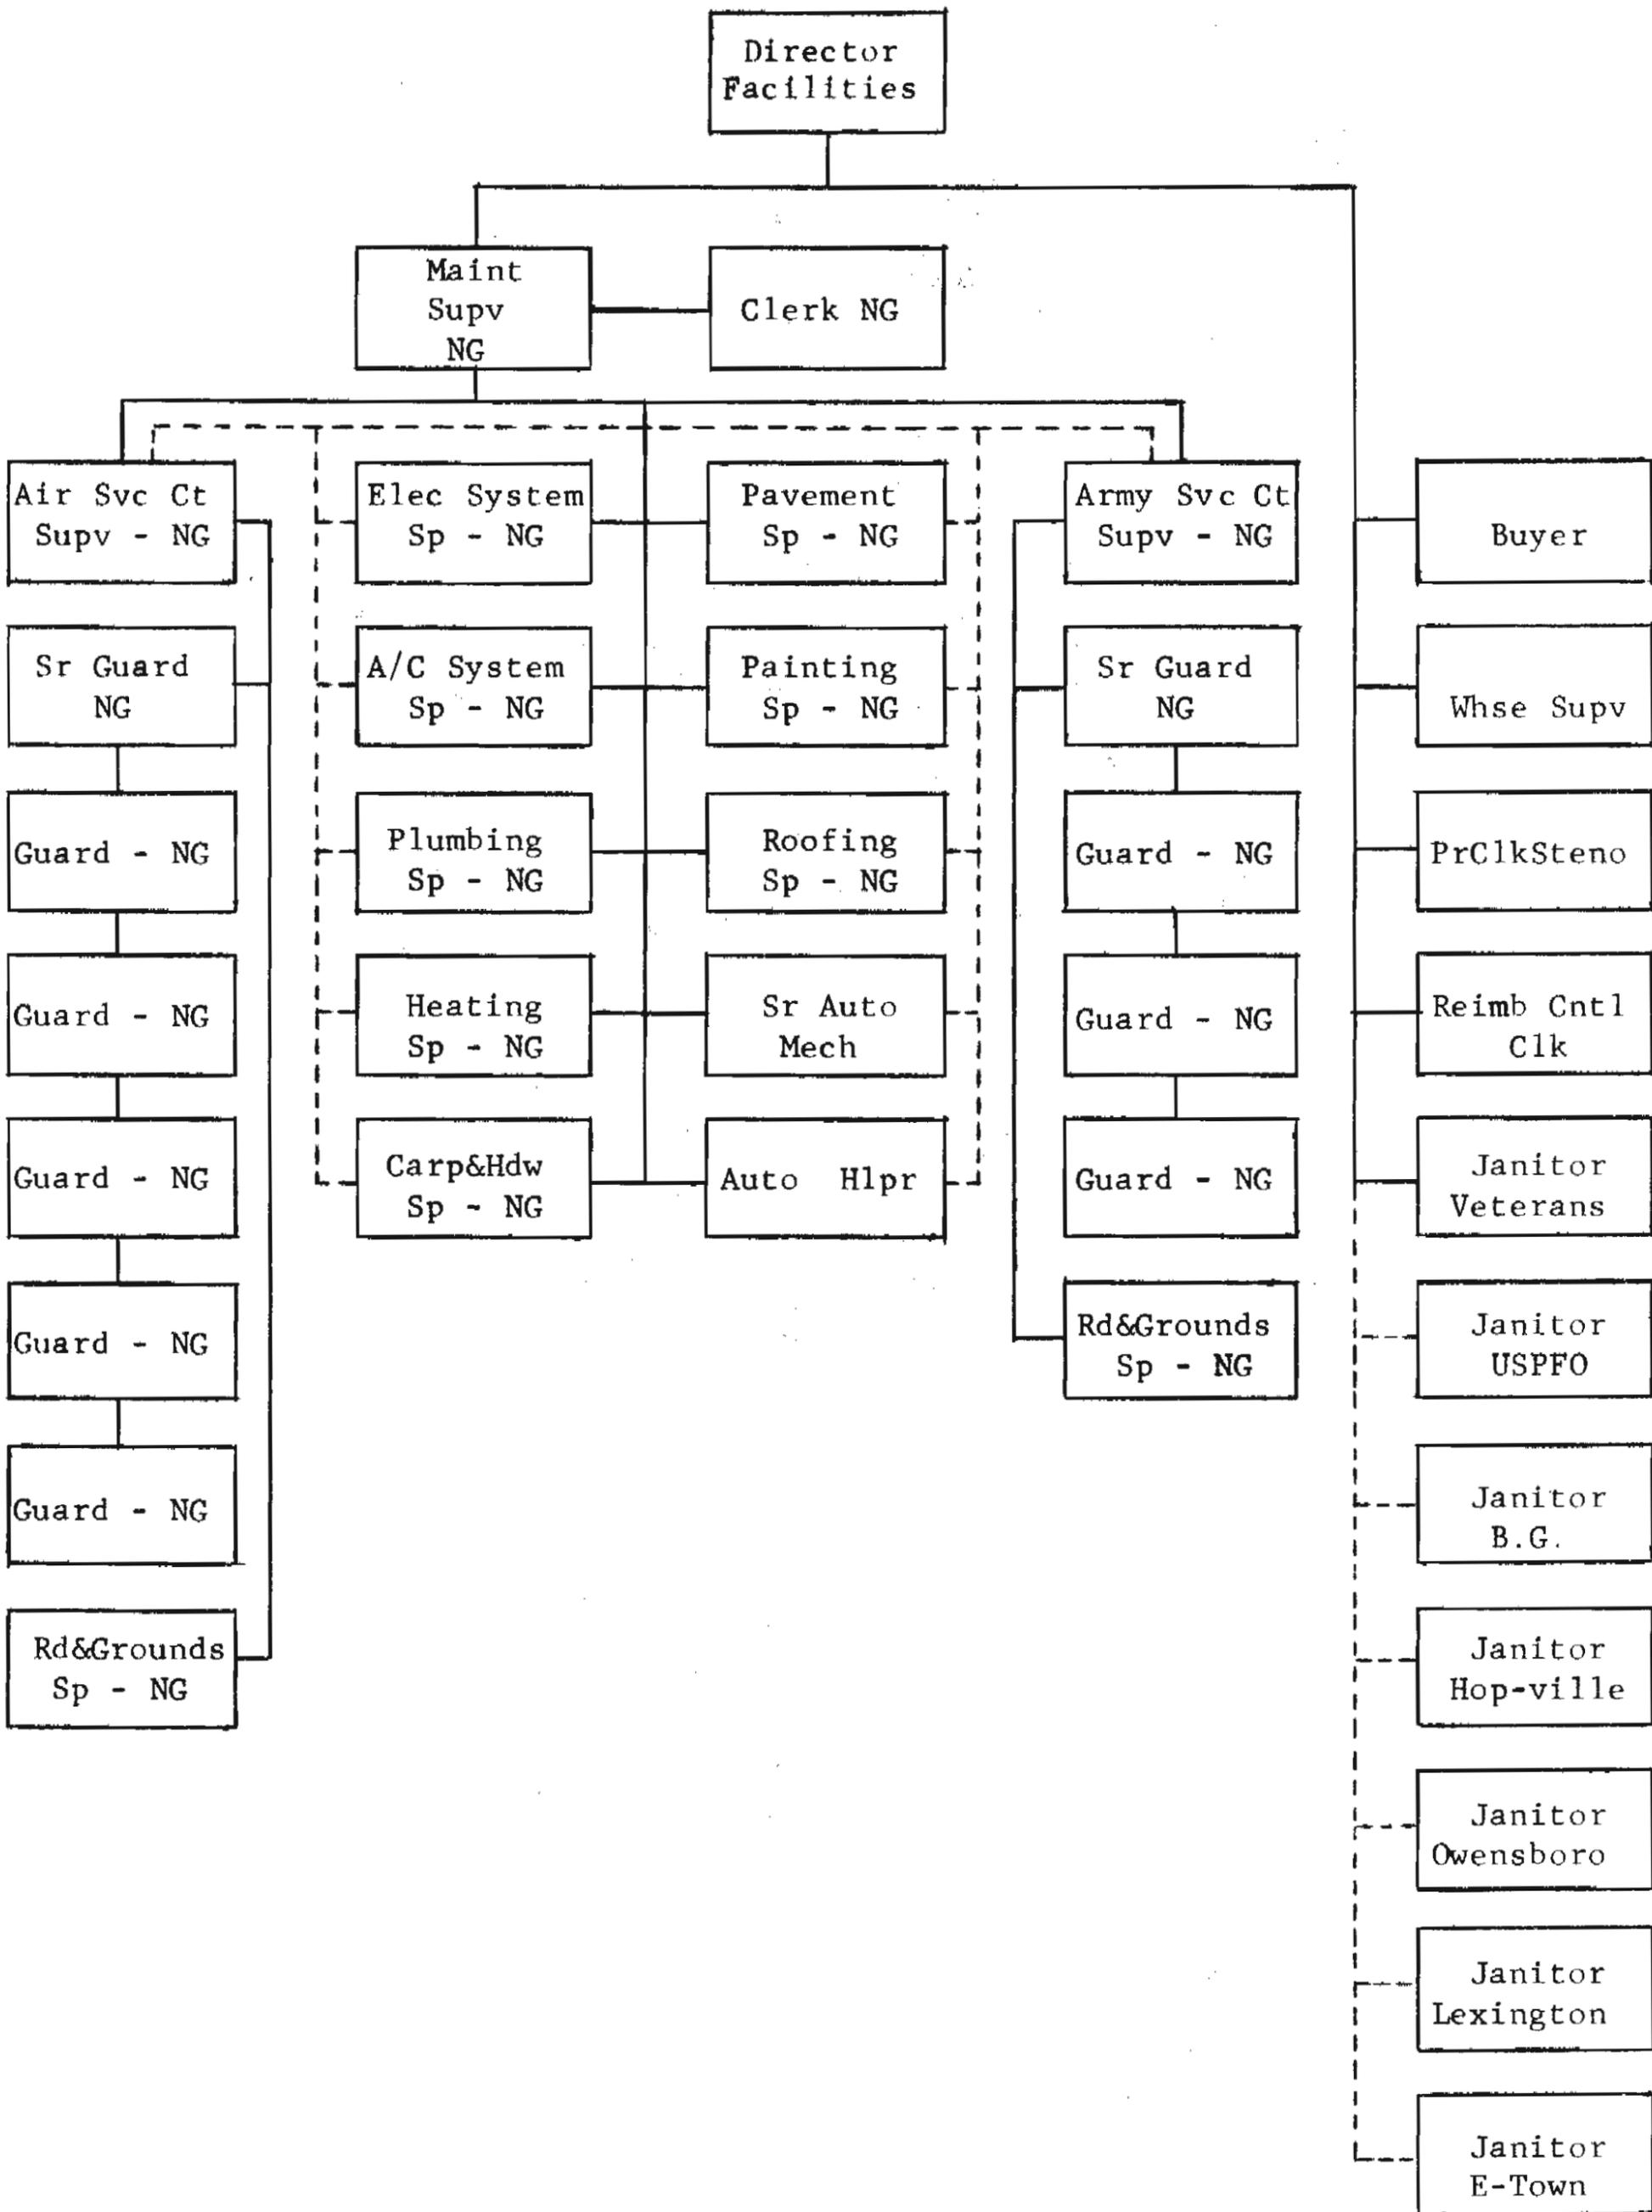

Because of the activation of the Air National Guard units the Federal Government continued to assume the costs of maintenance and operation of the base during the fiscal year.

A total of \$105,500.00 in Federal funds were devoted to minor alterations, maintenance and operation of the base during the fiscal year.

### Army National Guard

Kentucky Army National Guard facilities include 34 active armories, five armories inactive by reason of replacement with new facilities or call of units to active Federal Service, ten organizational maintenance shops, nine

motor vehicle storage buildings, two outdoor ranges and outdoor training areas, and seven other structures housing administrative warehousing and equipment maintenance functions of the Army National Guard.

Two minor construction projects were completed with Federal Funds totaling \$7,880 for addition of heating system in the Organizational Maintenance Shop at Glasgow and in the Wash and Steam Building at the Combined Support Maintenance Shop at Frankfort, Kentucky.

A total of \$97,456 was expended toward maintenance of National Guard Facilities. Major maintenance projects included a new roof at Ashland, Kentucky at a cost of \$14,463.

### Funding Report

In the Fiscal Year 68-69 approximately \$427,352 was expended in maintaining, improving and operating Kentucky Army and Air National Guard facilities. Of this amount the Federal Government provided \$172,632 and the Commonwealth the remainder of \$254,720.

### Major Construction

While the construction of the facilities will not begin until Fiscal Year 69-70, authorization was received during this Fiscal Year to develop plans for construction of a new Army Aviation Maintenance Shop at Frankfort, Kentucky, an Organizational Maintenance Shop at Louisville, Ky. and a new Three-Unit Armory at Lexington, Ky. State funds to cover the Commonwealth share of the cost of these projects will be funded through sale of Department facilities surplus to present and anticipated needs and other savings resulting within the Department.

## DIVISION OF CIVIL DEFENSE

### Mission

The mission of the Division of Civil Defense, as outlined in Kentucky Revised Statutes 39.401, is the preparation for and the carrying out of all emergency functions, other than functions for which military forces or other federal agencies are primarily responsible; to prevent, minimize and repair injury and damage resulting from disaster caused by enemy attack, sabotage, or other hostile action, or by fire, flood or other causes. These functions include, without limitation, fire fighting services, rescue, engineering, air raid warning services, communications, radiological, chemical and other special weapons of defence, evacuation of persons from stricken areas, emergency welfare services, emergency transportation plan protection, temporary restoration of public utility services, and other functions related to civilian protection, together with all other activities necessary or incidental to preparation for and carrying out of the foregoing functions.

## Organization

The organization of this Division is shown by the Organization Chart. The Administrative Section is responsible for: Security and intelligence; budget and fiscal; office management; supplies and equipment; reports, records and statistics; correspondence and files; publications control and distribution; contributions and program participation; vehicle dispatch and maintenance; surplus property donation program; and educational training aids.

The Education and Training Section is responsible for: Public Affairs; public relations; education and training programming; public information; Office of Civil Defense, State and local school programs; training and education publications control; and the coordination of the Medical Self-Help Program; Civil Defense Adult Education Program, Rural Civil Defense Program; and the University of Kentucky's Civil Defense Training Program.

The Plans and Operations Section is responsible for: Radiological defense; disaster operations; damage assessment; plans and operations programming; State, county and city plans; and research and development.

The Resources and Production Section is responsible for: Continuity of government, resources management; coordination of industrial planning; coordination of flood activities; development of operational uses of food, water, transportation, health, welfare, manpower, petroleum, fuels and energy; economic stabilization; construction and housing; telecommunications; electric power; and service trades.

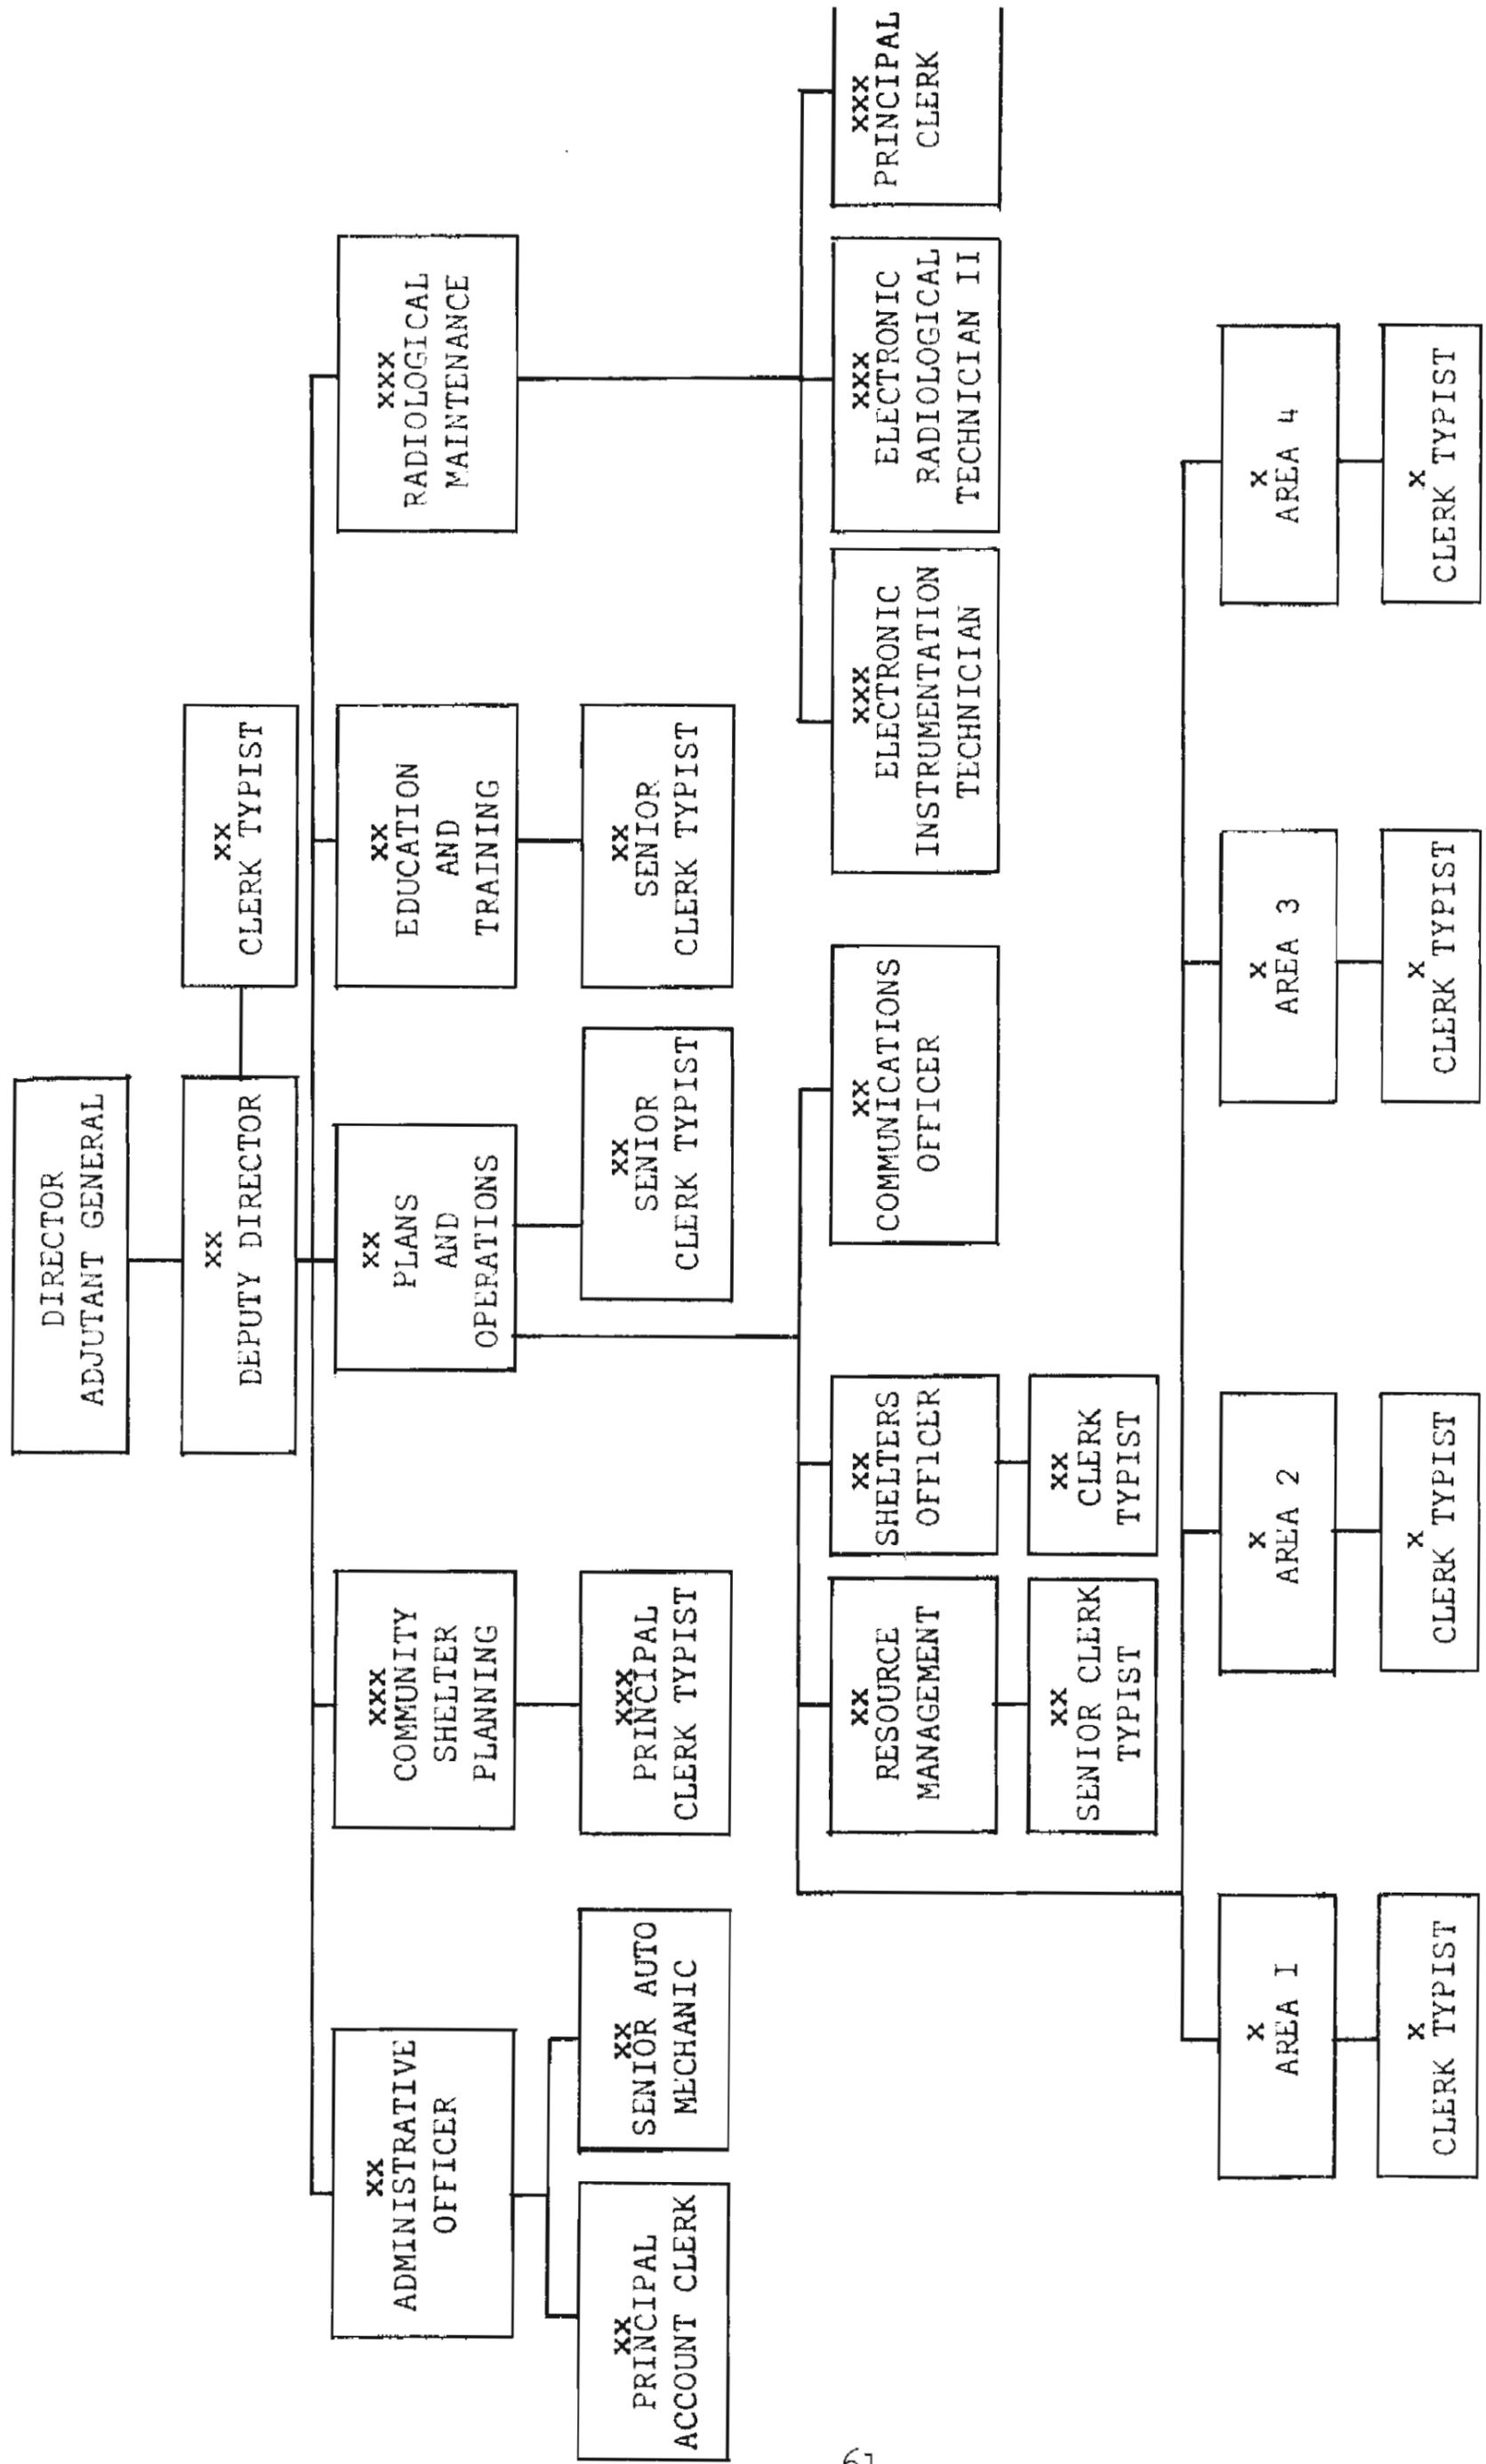

The Shelters Section is responsible for: Shelter licensing, marking, and stocking program; shelter development program, shelter management program; Emergency Center Development program; and the Shelter Development Program for schools.

The Communications Section is responsible for: Operation Communications programming; warning; and operational communications.

The Community Shelter Planning Section is responsible for: Assisting in the development and coordination of plans and programs for the development and maintenance of community shelter plans; furnishing direct technical planning assistance to communities not having contracts with the Federal Government; co-ordinating development of community shelter plans by communities receiving direct federal assistance for preparation of their community shelter plans.

Civil Defense Area Directors; Each of the four Area Directors act for the State Director in advising and assisting local jurisdictions in the establishment and operation of their programs. They report directly to the State

Director and keep him informed on progress and operations in their areas. They co-ordinate all policies, plans and programs with the State Staff. Geographical areas of assignment are shown on the Area Chart.

Civil Defense Coordinators: State agencies are responsible for assisting Civil Defense in normal as well as emergency operations. Their responsibilities are listed in the Emergency Operations Plan for the Commonwealth, and each of these agencies has been involved in the co-ordination of State assistance in natural disasters.

State agencies directly involved in support of Emergency Operations are:

Department of Health - Health services, medical supplies, chemical, biological and radiological measurements, mortuary services.

Department of Economic Security - Welfare and manpower.

Department of Agriculture - Food/feed products, chemical, biological and radiological measurements.

Department of Public Safety - Law and order, traffic control, communications, fire fighting.

Department of Highways - Communications, engineering, RADEF, traffic control.

Department of Motor Transportation - Transportation facilities.

State agencies indirectly involved in Support of Emergency Operations are:

Department of Personnel - Personnel pool.

Department of Commerce - Resumption of commerce and industry.

Department of Education - School protection, safety, teaching.

Department of Natural Resources - RADEF, communications, rural fire control.

Department of Banking - Monetary credit and financial structure.

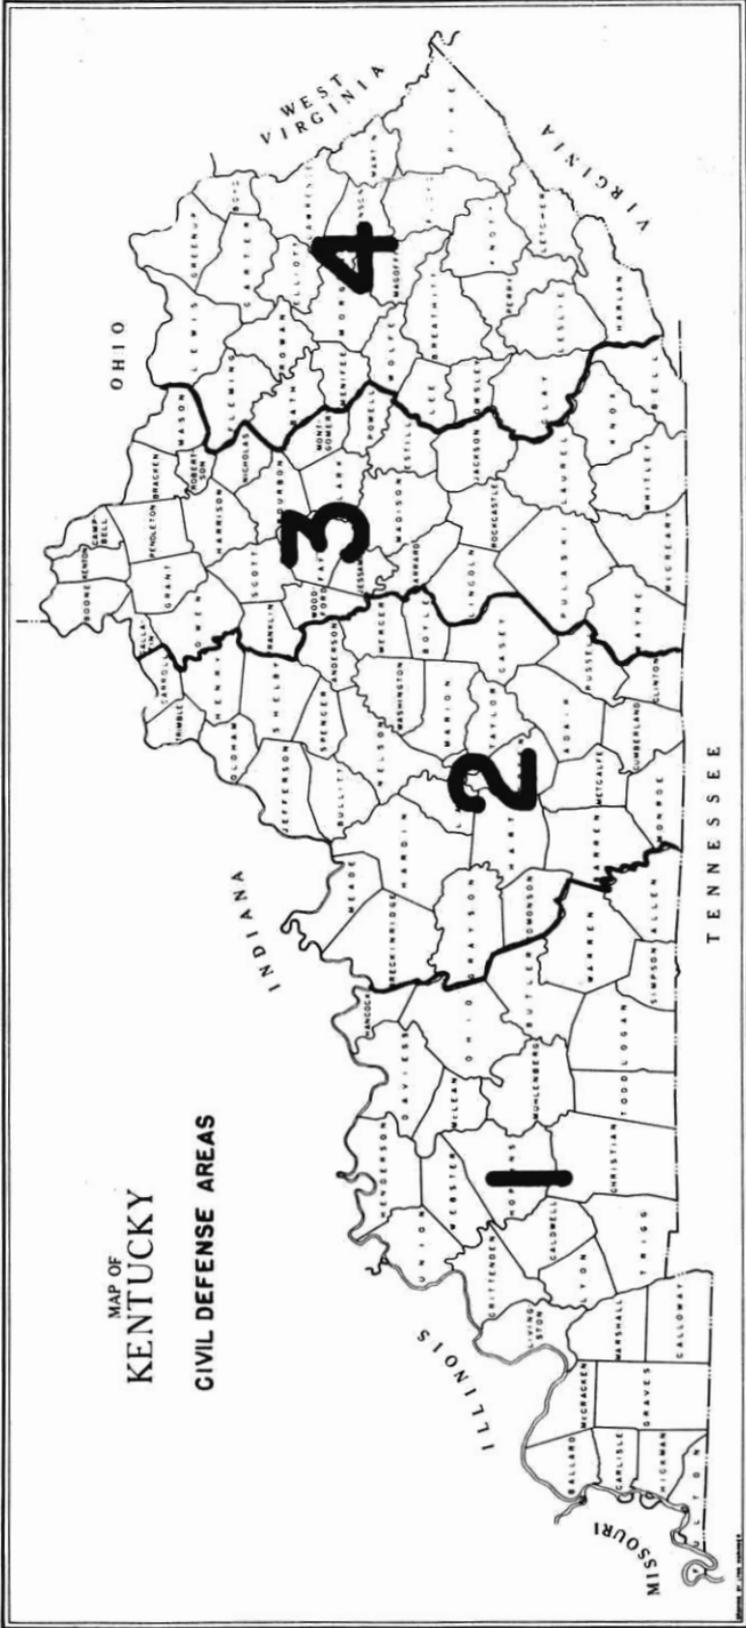

Department of Fish and Wildlife Resources - Emergency Portable Radio communications and fish and game for food.

Department of Aeronautics - Airlift.

Department of Mines and Minerals - Mine Rescue Operations.

Department of Revenue - Petroleum, oil and lubricants control and distribution.

Department of Finance - Accounting procedures.

Legislative Research Commission - Research on needed legislation.

Public Information Office - Emergency Information.

Department of Archives and Records - Storage of records.

County/City Civil Defense Organization/Units: Under the provisions of Kentucky Revised Statutes 39.415, each city and county in the Commonwealth of Kentucky is authorized and directed to establish a local Civil Defense Organization/Unit in accordance with the State Civil Defense Plan and Program. County Civil Defense Organizations have been established in all of the counties of Kentucky. One hundred and seventy-two (172) cities have established Civil Defense Units.

### Funding

Local governments and State agencies have continued to improve their Civil Defense readiness through the Matching Funds Program, the Personnel Administrative Expense Program, Surplus Property Donation Program and the Federal Contributions Program (Hardware). The funds were made available under Public Laws 85-606 and 921.

During Fiscal Year 1968, the Division of Civil Defense, State agencies and the local political subdivisions spent a total of \$407,012.20 for Personnel and Administrative costs. One half of the total amount was furnished by the Federal Government. The following is a list of the P & A counties and their expenditures for Fiscal Year 69.

<u>Fiscal Year 1969</u>	<u>Federal Share</u>
Civil Defense, Division of	\$162,103.94

Whitley County	586.33	48.65
Woodford County	6629.42	544.90
Division of Civil Defense	4649.97	768.00
Department of Fish & Wildlife Resources	523.25	133.00
Division of State Police	3381.18	635.00
	<u>\$179,375.45</u>	<u>\$18,503.10</u>

The expenditures listed under the "Service Charge" column represent the cost to the Civil Defense Organization/Units and are for a charge made by the Division of Surplus Property, Kentucky Department of Education, for acquiring, storing and issuing the property. The service charge represents only a small fraction of the actual value of the property donated. The actual value of the property when purchased new by the Federal Government is listed in the "Acquisition Cost" column.

Civil Defense Activity

During the past year Civil Defense has continued to show progress in various areas of the Civil Defense program. The following paragraphs are examples of the accomplishment attained during Fiscal Year 1969.

Education & Training

University of Kentucky Civil Defense Extension Program:

<u>COURSE</u>	<u>NO. OF COURSES CONDUCTED</u>	<u>GRADUATES</u>
Radiological Monitoring for Instructors	2	17
Shelter Management Instructor	2	23
Planning & Operations	1	27
Radiological Defense Officer	1	5
Emergency Operations Simulation Training	7	226
Public Official Conferences	20	999

Kentucky Department of Health

The Office of Health Mobilization co-ordinates the Medical Self-Help Program which is being taught in 98% of Kentucky High Schools and Adult organizations. During FY 69, 71,828 individuals received Medical Self-Help instruction.

Kentucky Department of Education

A 12 hour Civil Defense Adult Education course was conducted for 3,114 Kentuckians in FY 69 for the purpose of familiarizing individuals with their responsibility to family and community in the event of a natural or nuclear disaster.

## Kentucky Division of Civil Defense

This division is the coordinating agency between State and Local Civil Defense Organizations. Radiological Monitoring and Shelter Management were prime areas of training for this division during the fiscal year. A total of 26 Monitoring courses were given with 378 Kentuckians being certified as monitors.

### Resources and Production Officer

During FY 69 there were numerous goals accomplished in the continual updating distribution and related briefings of individuals involved in the Kentucky Emergency Resource Management Plan. Distribution and related briefings to State and private sector individuals for the above period was 150, making a total of 307. With the exception of an isolated few, the above total figure concludes initial distribution to these two groups.

The remaining group of individuals to be briefed and given a copy of the plan, is all County Judges. Of the 120 judges to be briefed 30 have already been so informed. Upon completion of distribution of the plan to all judges there will remain approximately 40 plans to be used as replacements, or for issuance to new individuals appointed to the Resource Management Organization.

In order to maintain and update the Emergency Resource Management Plan, three separate changes were mailed to all participating individuals informing them of the current plan status. These changes covered three separate time frames.

During this period a proto-type Economic Stabilization County level plan was completed, which emphasized food rationing after the plan would be activated. In this regard the Resource Officer briefed a group of school officials at the University of Kentucky Community College in Elizabethtown, Kentucky. Similarly another group of school officials were briefed at Eastern Kentucky State University, Richmond, Kentucky.

A recapitulation of this period of activity:

- |   |            |
|---|------------|
| (1) Distribution and related orientation of <u>Emergency Resource Management Plan</u> to State & Private Sector Individuals.  | <u>100</u> |
| (2) Total Distribution, including - County Judges   | <u>337</u> |
| (3) Stage III Office of Emergency Preparedness exercise involved 2 months of planning with all of Region II participating. Final Stage III State meeting was held on September 18, 1968 with 35 State and Private Sector individuals participating. The Resource Officer then attended the Stage III Test Seminar in Olney, Maryland on November 20 and 21, 1968. Meetings <u>2</u> |            |

(4) The Resource Officer also attended the Region II Emergency Petroleum & Gas Administration exercise in Pittsburgh, Pennsylvania. (September 26 & 27, 1968) and Region III Economic Stabilization meeting in Richmond, Virginia, on December 10, 1968. The purpose of the meeting was to plan future programs for these two plans and especially the rationing phases of both areas.

Meetings 2

(5) A county level Economic Stabilization proto-type plan was written during this period. A meeting with Mr. Wendell Butler in this regard was held to discuss school participation and the food rationing aspects of the plan. Two briefings for local school authorities were held to initiate food rationing registration plans.

Meetings 3

Plans Written 1

(6) Distribution of Emergency Resource Management Plan to County Judges

30

(7) State resources were inventoried and designated by counties in books designed for use in the Emergency Operating Center. Major categories inventoried were, Food, Health (physicians, dentists, etc.), Fire fighting equipment, transportation (cars, trucks, etc) and other areas.

(8) During the latter part of June 1969, Kentucky experienced heavy rains in the south and southwest counties causing heavy damages to property and loss of life. The Resource Officer started initial contact work with the 11 Counties and 8 Cities in anticipation of the Presidential declaration of major disaster for this area.

### Communications

RACES (Radio Amateur Civil Emergency Service). The Communications section and the RACES Radio Net participated in the Civil Air Patrol-Civil Defense Test on September 6 and 7, 1969. Civil Air Patrol and Mission Control were located in the Emergency Operations Center and Civil Defense radio equipment was used for all Civil Air Patrol-Civil Defense communications during the 36 hour test. Remote control equipment was installed to operate from the Emergency Operations Center, the radio nets of the Department of Highways, Division of State Police, Division of Forestry, and Department of Fish and Wildlife.

NACOM I and II. The NACOM I and II communications systems were active and are tested weekly.

State Radio Systems. The Radio Systems operated by the State Police, Highway Department and Division of Forestry were available for Civil Defense purposes. Fish and Wildlife completed a radio system consisting of 11 base stations and 136 portable mobile units that are available for Civil Defense emergency use.

Emergency Broadcast System. The Emergency Broadcast System has been tested regularly and provisions have been made to transmit both video and voice over WAVE-TV directly from the Emergency Operations Center located in the basement of the Capitol.

A transceiver has been installed in the Emergency Operations Center to provide the Governor entrance into the Emergency Broadcast System through Radio Station WFKY.

National Warning Service. A teletypewriter receiver was installed to receive severe weather warnings directly from the Environmental Science Service Administration Weather Station, Standiford Field, Louisville, Kentucky, to furnish severe weather information to State Agencies and political subdivisions.

### Plans & Operations

The following activities and progress were recorded in this office during Fiscal Year 69.

#### 1. Plans

- a. Maintained currency in State Emergency Operations Plan.
- b. Published 22 prototype annexes and appendices to be used as guides for local Emergency Operations Plans. The remainder will be published this Fiscal Year.
- c. Published "Operation Snowplow" to be used to evacuate State employees from the Frankfort area in event of severe snowstorm.
- d. Updated Emergency Operations Procedures.
- e. Established severe weather warning procedures for schools through Kentucky Educational Televesion System.
- f. Established Simulated Natural Disaster Exercise procedures for Statewide use.

#### 2. Operations

- a. Coordinated state aid in Bullitt County as a result of minor tornado in Spring of 1969.
- b. Coordinated State and Federal Aid in Allen, Butler, Cumberland, Hopkins, Logan, Monroe, Muhlenberg, Simpson, Todd, Warren, and Webster Counties as a result of flooding between 22 June and 1 July. A Presidential declaration for application of PL 875 was requested and approved through OEP.
- c. Activated Allen and Estill Counties. Emergency Preparedness Program.

## Radiological Instrument Shop

The RADEF Maintenance and Calibration Facility located in the Arsenal Building, Frankfort, Kentucky was established in mid 1965 with contracts to the Federal Government to maintain all Radiological equipment in the State of Kentucky. All material, money, and equipment granted by the Federal Government.

During the period of 1 July 1968, through 30 June 1969 volume of work consisted of:

Instruments repaired, inspected and serviced	11,703
Kits processed	1,907
Instruments calibrated	9,813
Dosimeter chargers (modified & repaired)	1,243
Sites inspected (operational & shelter)	705
School training kits processed	287
Approximate repair cost per instrument	\$2.02

In addition to above totals 3340 instruments were salvaged and disposed of in accordance with State and Federal regulations. Each instrument replaced with a new or current model.

The RADEF facility also supplies sources and training instruments for monitoring classes held at various times and locations throughout the State.

The entire State was covered during this time.

During the Fiscal Year shop personnel have received 624 hours of specialized training to increase their capabilities. The kit exchange program as of 31 June 1969 has resulted in over 95% of State and Federal agencies within the State as being complete and with up-to-date equipment.

### Shelter Officer

This section is responsible for locating, licensing and stocking of fallout shelter spaces to be used in the event of a nuclear attack. During Fiscal Year 69 the shelter section produced the following:

	<u>30 June 68</u>	<u>30 June 69</u>	<u>Net Gain FY 69</u>
Shelter spaces located	2,260,557	2,268,837	8,280
Shelter spaces licensed	717,977	1,750,394	32,417
Shelter spaces stocked	934,951	960,097	25,146

### Community Shelter Planning

The Kentucky Office of Community Shelter Planning was established in 1966 to develop practical procedures by which the citizens of each county can make the most efficient use of available fallout protection, and to

## Organization

The Kentucky Disabled Ex-Service Men's Board is an independent agency of the State government within the meaning of KRS Chapter 12. However, in certain administrative and fiscal policies and procedures it falls within the jurisdictional framework of the Department of Military Affairs.

The Agency is organized as follows: (1) The Executive Board, (2) The Administrative and Operations Section, (3) The Claims Section, and (4) The Field Services Section.

### The Executive Board

KRS Chapter 36.065 provides that the Adjutant General of Kentucky shall act as the Chairman of the Board, and that the Governor shall appoint the four other authorized members, each of whom shall be a veteran with service during time of war or hostilities wherein American troops were engaged in conflict with an armed enemy.

The law further provides that insofar as it is practicable the Governor, in making the appointments to the Board, may give due consideration to a fair representation on the Board of nationally recognized veterans' organizations active in Kentucky, based upon the size of their membership in this State.

The members of the Board, who are appointed to four year terms, receive no compensation for their services, but shall be reimbursed for their actual and necessary traveling expenses and lodging incurred in the proper performance of their duties in or out of this State.

As of 30 June 1969, the Executive Board consisted of Major General Larry C. Dawson, Kentucky National Guard, as the Chairman; Honorable Harold Y. Saunders, Shelbyville, Kentucky as the member representing the Department of Kentucky, The American Legion; Honorable John Vicini, Lynch, Kentucky as the member representing the Department of Kentucky, The Veterans of Foreign Wars of the United States; Honorable Harold R. Turpin, Richmond, Kentucky as the member representing the Department of Kentucky, The Disabled American Veterans; and Everette S. Stephenson, Louisville, Kentucky as the member at large. Mr. Homer W. Eversole, Louisville, Kentucky is the Director of the Board.

### Administrative and Operations Section

The Administrative and Operations Section, together with the Claims Section, is located in the Veterans Administration Regional Office Building at 1405 West Broadway, Louisville, Kentucky.

The Administrative and Operations Section is staffed by the Director, a Principal Clerk Stenographer, a Senior Clerk and two Clerk Typists.

## The Claims Section

The Claims Section is staffed by the Principal Claims Examiner, who is also the Assistant Director, a Senior Claims Examiner, a Claims Examiner and a Clerk Stenographer. Clerical and other support is furnished to this section by personnel in the Administrative and Operations Section.

## The Field Service Section

Local counseling service and assistance are provided throughout the Commonwealth by employing a system of Field Representatives to visit each County Seat on a regular monthly basis. Each Field Representative to visit each County Seat on a regular monthly basis. Each Field Representative is assigned to a definite geographic area of responsibility. They are eight in number and numerically designated from West to East across the State with an additional one, the ninth, being assigned to the 500 bed Veterans Administration Hospital, Louisville, Kentucky

The districts vary in size from nine to eighteen counties in number. Controlling factors in determining the size of each district are veteran population, institutional requirements such as the Kentucky Children's Home, State Mental and Tuberculosis Hospitals, the Veterans Administration Hospitals at Lexington, Cincinnati and Huntington, State Penal Institutions, etc., and economy in mileage and travel costs.

## Functions

In consonance with its assigned mission, the functions of the agency are designed to provide basic assistance to Kentucky's veterans of the Armed Forces of the United States, their widows, orphans, or dependents, in the proper preparation, presentation and prosecution of their claims for compensation, pension, hospitalization, education, and training and other benefits to which they may be legally entitled.

The agency considers its mission to be always of a humanitarian nature, and to this end it provides counsel and guidance to veterans, their widows and orphans, and dependents concerning various problems. These problems frequently cover social security, unemployment, welfare, family services and missing veterans, or recovery of accrued military pay, lost or destroyed discharges, review of unsatisfactory discharges, back military pay, decorations, headstones and markers, prisoner of war claims, reemployment rights, gratuity pay and travel pay.

The agency is frequently called upon to render assistance to the members of Congress, the Governor, the State Legislature and other State, County and City officials in solving veterans' problems for their constituents.

The community relations aspect is not overlooked, and information on veterans' rights and benefits is furnished to civic, church and veterans groups and to city and county officials when it is requested by them.
