OFFICE OF THE ADJUTANT GENERAL

FRANKFORT 40601

15 December 1968

The Honorable Louie B. Nunn
Governor of Kentucky
The Capitol
Frankfort, Kentucky

Dear Governor Nunn:

In compliance with Paragraph 7, Section 36.040, of the Kentucky Revised Statutes, 1962, this Annual Report of the activities of the Department of Military Affairs is transmitted. This report is for the period 1 July 1967 through 30 June 1968.

Respectfully submitted,

ALLAN K. CARRELL
Major General, Ky NG
The Adjutant General

The Adjutant General

The Department of Military Affairs is the official State Agency for all military matters pertaining to the Commonwealth and is headed by The Adjutant General, a constitutional officer appointed by the Governor.

By constitutional authority, the Governor is the Commander in Chief and The Adjutant General is the Commanding General of the Kentucky Army and Air National Guard. The Adjutant General is the executive head charged with directing and coordinating all activities of the Department.

Functions of the Department

The Department's functions include organizing, equipping, housing and training units of the National Guard in close coordination with the Department of the Army as relates to the Army National Guard, and the Department of the Air Force as relates to the Air National Guard. The Department maintains a War Records Section in which are permanently filed records of service of Kentucky veterans who have served in all wars in which the Commonwealth has been engaged; microfilms the records of the Kentucky Veterans Bonus; provides a civil defense plan of action in the event of disaster, or emergencies; constructs and maintains facilities for the proper housing of units of the National Guard and other functions of the Department. All these functions are carried out through the Administrative Division, Facilities Division, Army National Guard Division, Air National Guard Division, and the Civil Defense Division.

The organization of the Department and the functions of the Divisions are shown in the following chart.

All Federal funds provided for the support of the National Guard are allotted to The Adjutant General and are disbursed by the United States Property and Fiscal Officer, who is a National Guard Officer in Active Federal Service.

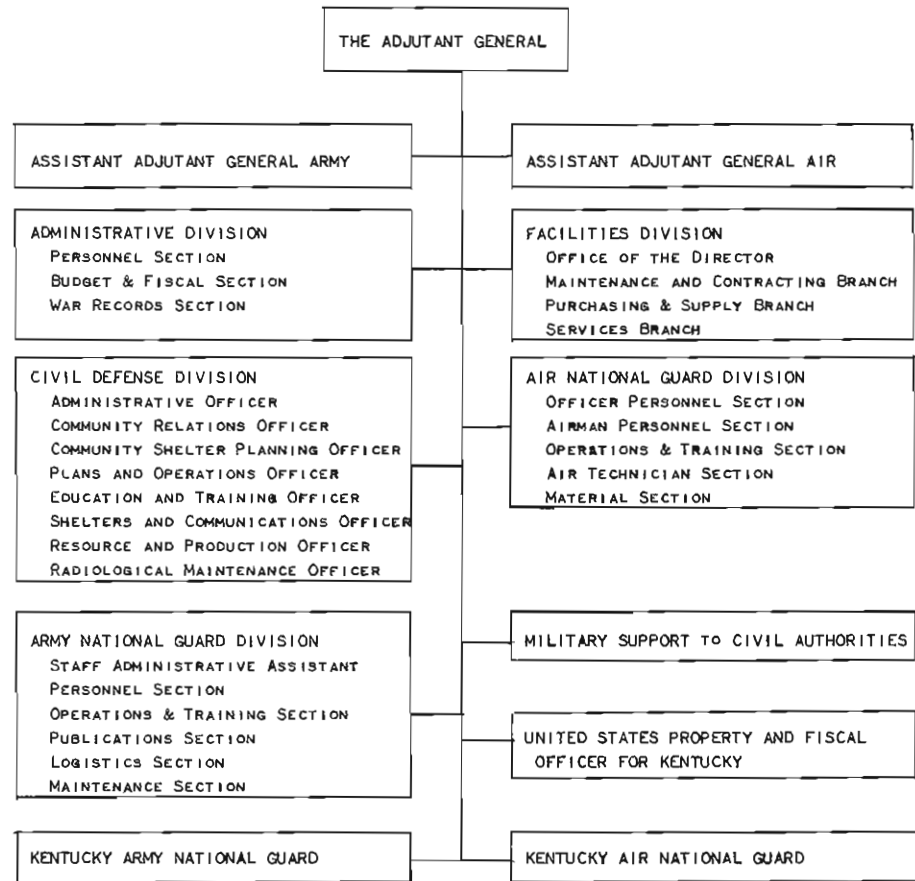

State financial support and the expenditures of the Department are indicated in the Administrative Division section of this report.

ADMINISTRATIVE DIVISION

Mission and Organization

The Administrative Division is organized to carry out the functions of personnel management; budget and fiscal operations; maintenance and

ORGANIZATION CHART
DEPARTMENT OF MILITARY AFFAIRS

custody of war records; the preparation and editing of a wide variety of Department correspondence for The Adjutant General and the Deputy Adjutant General, particularly that concerning military activities which is referred to the Department from the Office of the Governor; and, the coordination of the other administrative functions of the Department which are not primarily military in nature. During this period the Veterans Division was abolished and its functions transferred to the Administrative Division.

Budget and Fiscal Section

The Budget and Fiscal Section is staffed with two accountants. The accountants aid in the preparation of budgets for the Department and its Divisions each biennium, submit a monthly financial statement of each account, exercise controls to insure that expenditures do not exceed budget allocations, maintain ledgers for all accounts paid, and files on all fiscal matters. Federal Vouchers for reimbursement to the State are initiated in this section and receipts from the Federal Government and other miscellaneous receipts are processed by this section. All documents are pre-audited before transmittal to the Department of Finance and all expenditure reports from the Department of Finance are post-audited with the Departmental ledgers.

The accountants also maintain records on all salaries paid from State funds to include State Active Duty for Kentucky National Guard members, as well as detailed payroll ledgers and fiscal records of employment. Utilities and minor accounts are paid from the Petty Cash Fund which is administered by this section. The financial report prepared by this section follows:

Personnel Section

The Personnel Section is responsible for the personnel management of State-paid employees of the Department. This includes the procurement, assignment, classification, utilization, pay, leave, promotion, safety, incentives and separations of all State-paid employees necessary for the operations of the Department and its Divisions. A personnel folder is established and maintained for each employee in which is filed the complete record of his employment to include appointment, promotion, change of assignment, retirement credit earned, records of leave, etc.

It is the responsibility of the Personnel Officer to see that the personnel functions are carried out in accordance with the rules and policies prescribed by the State Commissioner of Personnel and The Adjutant General.

The number of employees by Division of the Department of Military Affairs is as follows:

Number of Employees by Divisions

	State Employees	*Guard Technicians
Adjutant General's Office-----	2	4
Administrative Division-----	5	0
Facilities Division-----	24	0
Army National Guard Division-----	4	10
State Maintenance Office-----	0	4
Combined Support Maintenance Shop-----	0	45
Aviation Maintenance Shop-----	0	12
Organization Maintenance Shops-----	0	39**
Unit Technicians-----	0	84**
Air National Guard Division-----	7	15**
Military Support to Civil Authorities-----	0	3
Civil Defense Division-----	26	0
U.S. Property and Fiscal Office-----	1	40
Active Militia Division-----	0	0
Kentucky Disabled Ex-Servicemen's Board-----	17	0
TOTAL-----	86	246

*Guard Technicians are appointed by and are subject to the authority of The Adjutant General. Technicians are also subject to the Kentucky Employees Retirement System, however, they are paid (100 percent) by the Federal Government based on a Federal pay scale. These employees are subject to the personnel rules and regulations of the Federal Government instead of the Commonwealth.

**The Army and Air National Guard Technicians were reduced by approximately 200 Technicians because of the callup of the 2d Bn 138 Artillery and the Air NG 123d Tac Recon Wg.

War Records Section

At the start of this reporting period, the Veterans Division was in the process of microfilming the locator and control card files for the Kentucky Veterans Bonus. This has been completed and the film is on file in this office.

The Master Card Files, consisting of approximately 450,000 cards, have been purged and are used for locating the claim number of the veteran, for reference to inquiries concerning the payment of the bonus, the return of discharges, marriage licenses, birth certificates, and other documents that were submitted by the applicants in order to substantiate his or her claim.

DD Form 214's, which have become inactive, are received daily from Selective Service. There are approximately 70,000 DD 214 forms on file and of these approximately 48,600 have been alphabetized. This has not been completed due to the fact that other duties were more demanding as personnel decreased.

Numerous letters are received requesting information on a Kentucky Veterans Bonus for service in Vietnam. A file is maintained for all requests regarding such a bonus.

This section is the Central File for all casualty reports from the Vietnam War. At the present time there are 550 names of Kentucky servicemen who have died in Vietnam. These names are compiled on 3 X 5 cards by county for future reference.

Many requests are being received daily in the War Records Section for statements of service from various agencies and individuals for Kentuckians who have been members of the Kentucky National Guard, in order to provide proof of military service and other data for employment, social security, and Veterans Administration benefits.

This section has been engaged in compiling approximately 180 Kentucky Army National Guard statements of service, and computing retirement credit points, of the active officers and enlisted men who have completed over twenty years of creditable service for retirement purposes. This is a requirement of the National Guard Bureau.

This Section also furnishes upon request, statements of service for Kentuckians who have served in the various wars, dating back to the War of 1812.

In May 1968, the Veterans Division was combined with the War Records Section. Together they provide a central file for all Kentucky veterans who have served in the Armed Forces of the United States, the Kentucky National Guard, and the Active Militia, dating back to the War of 1812.

An inclosure has recently been installed in the War Records Section to better insure the safety of the valuable files and records in this Section.

ARMY NATIONAL GUARD DIVISION

The Army National Guard Division is organized to assist The Adjutant General in administering the affairs of the Kentucky Army National Guard. A total of fourteen individuals comprise the staff of the division, however, this figure does not include the 261 technicians employed in the United States Property and Fiscal Office, Combined Support Maintenance Shop and National Guard units throughout the Commonwealth. The Adjutant General has a dual role with regard to the affairs of the Kentucky Army National Guard. (1) As the Adjutant General and Executive Head of the Department of Military Affairs, he is responsible for coordinating all activities relating to personnel, organization and training, and logistical support of the Kentucky Army National Guard. (2) As Commander of the Kentucky Army National Guard, he coordinates the operations of the various Guard units during periods of annual field training or other periods of active duty. The mission of the National Guard Division consists primarily of assisting The Adjutant General in carrying out the first part of the dual role. For the second part, he has a part-time National Guard Staff which functions as an integral unit of the Kentucky Army National Guard.

To accomplish this mission the Division is organized as follows:

Office of the Director

Although overall supervisory responsibility is inherent in the title of Director, he is primarily concerned with co-ordination of activities involving two or more sections of the Division and with effecting any necessary liaison with other Divisions of the Department. To assist the Director, The Chief, National Guard Bureau, authorizes and the Federal Government provides the funds for an Executive Assistant who has the title Staff Administrative Assistant to The Adjutant General. The Adjutant General being the Director, uses his Executive Assistant as Deputy for the purpose of coordination.

Personnel Section

The functions of this section are divided into five distinct areas. These are:

(a) Officer Personnel Actions -- Including all records and allied correspondence relating to commissions, physical examinations, transfers, promotions and releases involving the 500 officers in the Kentucky Army National Guard.

(b) Enlisted Personnel Actions -- Including all records pertaining to enlistments, physical examinations, transfers, promotions and discharges involving approximately 5,000 enlisted men of the Kentucky Army National Guard.

(c) Civilian Technician Actions -- Including all administrative matters relating to the employment, leaves, travel authorizations, pay increases and releases involving the 246 civilian technicians employed by the Kentucky Army National Guard.

(d) Policies and programs relating to recruiting and maintenance of strength by the National Guard units.

(e) General Correspondence -- Pertaining to Reports of Survey, inspection reports, field training, and other matters similar in nature.

Operations and Training Section

The functions of this section involve the following listed areas:

a. Organization and/or Reorganization Actions -- To include the development and implementation of all plans regarding the organization of new units, deactivation of units, or changes involving the organizational structure or location of existing units.

b. Training -- The training function of this section involves a number of separate yet allied areas. Among these are:

(1) Developing plans and programs designed to insure adherence, by Kentucky Army Guard units, to training directives prescribed by the Department of the Army.

(2) Administering a Service School Program to insure the most efficient utilization of Federal funds authorized to support attendance of National Guard Personnel at Active Army Schools. This activity includes the review and processing of applications and subsequent publications of orders authorizing attendance.

(3) Reserve Enlistment Program -- To include the review and processing of applications and publication of active duty orders for new recruits required to undergo training at an active Army Training Center.

(4) Co-ordinating with representatives of First United States Army and the National Guard Bureau regarding annual field training sites and dates.

(5) Administering through the various units, Military Occupation Specialty Tests.

(6) Maintenance of all records and allied correspondence pertaining to the status of training of all Kentucky Army Guard units.

c. Operations -- Involves actions relating to units participating in State Active Duty, mobilization readiness reporting and support of The State Officer Candidate School.

Logistics Section

This section is manned only by the United States Property and Fiscal Officer whose function with the Division is to provide technical advice and assistance in all matters relating to the logistical support of the Kentucky Army National Guard. As he has an identical responsibility with the Air National Guard, the USPFO maintains a separate office and staff who assist him in accounting for Federal property and funds allotted to both the Kentucky Army and Air National Guard. The functions of the USPFO will be covered elsewhere in this report.

Maintenance

This section is concerned with matters pertaining to the maintenance of Federal property furnished to the State for use by National Guard units. Functions of the section involve the following listed activities.

(a) Developing policies and programs designed to support a maintenance program.

(b) Providing technical advice and support to Commanders of Guard units in matters relating to maintenance of equipment.

The Chief of this section is also charged with the operation of a Combined Support Maintenance Shop which will be covered later in this report.

Publications Section

It is the responsibility of the Publications Section to provide all necessary publications and blank forms for the Kentucky Army National Guard units and activities. Service to the Air National Guard is limited to Air National Guard publications and blank forms.

The Publications Section is operated as directed by the Chief, National Guard Bureau, in National Guard Regulations 2-2, 2-3, National Guard Pamphlet 2-2-1 and other pertinent administrative directives.

"Pin-point" distribution, which was initiated for SRF units in the fourth quarter of FY 66, has functioned smoothly during the year. This system of distributing and requisitioning of publications by SRF units puts them on the same basis as Active Duty units of the U. S. Army. It is anticipated that all National Guard units will be on "pin-point" distribution system in the future.

The Kentucky Army National Guard is supplied with Department of the Army technical publications from the St. Louis Adjutant General Publications Center, St. Louis, Missouri. Administrative and training publications and all Department of the Army blank forms are supplied from the Baltimore Adjutant General Publications Center, Baltimore, Maryland. National Guard Bureau publications and forms are supplied direct from the National Guard Bureau, Washington, D. C.

General

The paragraphs above have described briefly the responsibilities and functions of the Army National Guard Division within the Department of Military Affairs. They do not, however, depict the broad activities of the Kentucky Army National Guard. For example, the staff of the Division totals only fourteen people yet there are a total of 261 civilian employees, paid from Federal funds, working for the Army National Guard. Consequently, in order to properly depict the functioning of the Army National Guard Division and to provide statistical information the following paragraphs will be devoted to various activities of the Kentucky Army National Guard.

The following functional chart depicts both the organizational structure and individuals staffing the Army National Guard Division as of 30 June 1967.

Mission

By virtue of existing Federal and State Laws, the Kentucky Army National Guard occupies a dual status; (1) In its role as a Reserve Component of the United States Army, the National Guard is required to comply with Federal policies, regulations and procedures and is subject to immediate Federal mobilization upon call by the President of the United States; (2) In addition, it is subject to call by the Governor of the Commonwealth, when needed to preserve law and order or to provide aid during a natural disaster.

In understanding the dual status of the Guard as discussed above, its mission immediately becomes apparent and can be stated as follows: The primary mission of the Kentucky Army National Guard is to develop both combat and combat support military units ready upon call by the President, for deployment in the event of armed conflict and capable of responding to call, by the Governor, when needed to preserve law and order or provide aid.

Organization

The Department of the Army directed a realignment of all Reserve Components during FY 67. This realignment reduced the number of both United States Army Reserve and National Guard Units while increasing the authorized strength of the Units retained. This action by The Department of Army resulted in a major reorganization of the Kentucky Army National Guard during the period of this report. Although the number of authorized units was reduced from fifty-five to forty-three, a net loss of twelve, the loss in authorized strength from 5504 to 5282 amounted to only 222. The specific reorganization actions taken are reflected by General Order Numbers 1 thru 5, Commonwealth of Kentucky series 1968.

During FY 68, the Kentucky Army National Guard was reorganized. A number of units were disbanded, and 10 relocated. The disbanded units were the 1st & 3d Bn 138th Arty, 3d Bn 123 Armor, and a number of small company size units. The relocated unit was the HHC 149 Armor Group. The Group was moved from St. Matthews to Bowling Green.

133d Public Info Det

Strength: The authorized strength at the beginning of the FY was 446 officers, 64 warrant officers and 4994 enlisted personnel for a total of 5441 or 97% of authorized strength. Strengths by month are shown below:

<u>LAST DAY OF</u>	<u>AUTHORIZED STRENGTH</u>	<u>ACTUAL STRENGTH</u>
JULY 1967	5504	5441
AUGUST 1967	5504	5450
SEPTEMBER 1967	5504	5458
OCTOBER 1967	5504	5460

<u>LAST DAY OF</u>	<u>AUTHORIZED STRENGTH</u>	<u>ACTUAL STRENGTH</u>
NOVEMBER 1967	5504	5462
DECEMBER 1967	5504	5459
JANUARY 1968	5504	5410
FEBRUARY 1968	5691	5395
MARCH 1968	5604	5320
APRIL 1968	5604	5265
MAY 1968	4812*	4675*
JUNE 1968	4812	4636

*The extreme drop in both authorized strength and actual strength was due to the 2d Howitzer Battalion 138th Arty being ordered to active duty.

Annual Field Training

In addition to the armory training requirements, each unit is required to conduct fifteen days of field training annually at an active army installation. This provides units to engage in field exercises under simulated combat condition. This type training gives the various staffs an opportunity to plan, co-ordinate and control the activities of attached units.

Units of the Kentucky Army National Guard attended annual field training at a number of installations during the period covered by this report. A breakdown of units and training sites attended are shown below:

FORT CAMPBELL, KENTUCKY

Hq, XXIII Corps Artillery and all attached Artillery Units
103d Sup & Suc Bn (GS)

FORT KNOX, KENTUCKY
 State Hq & Hq Det (less Selective Service Section)

Civil Disturbance Operation

On 27 May 1968 a civil disturbance occurred in Louisville and the Governor ordered the National Guard to state active duty for the purpose of assisting the local authorities in restoring law and order. The units involved in this operation and the number of personnel are as follows:

<u>UNIT</u>	<u>NUMBER OF PERSONNEL</u>
Hqs, XXIII Corps	154
Btry A (SLT), 138th Arty	146
4th Bn, 138th Arty	428
5th Bn, 138th Arty	759
2nd Bn, 123d Armor	399
149th MP Bn	<u>301</u>
	2,187

The cost to the State was:	Military Payroll	\$80,265
	Food	15,221
	Ice	48
	Medicine	26
	Radio Parts	440
	Gasoline	<u>2,067</u>
	TOTAL	\$98,067

Service School Program

The Army Service School Program is designed to familiarize personnel with the latest army doctrine in addition to qualifying individuals in their current military assignment. The schools have integrated active army, USAR and National Guardsmen to insure that the same instruction is received by all components of the army.

During the period of this report 77 members of the Army National Guard have attended these service schools, with an expenditure of Federal Funds totaling \$97,255.

A breakdown of the attendance at each school is shown as follows:

Mobilization

On 11 April 1968 The President, pursuant to authority contained in Public Law 89-678 ordered the 2d Bn, 138th Arty to Federal Active Duty. The effective date of the order was 13 May and was for a period of twenty-four months. The Bn entered active duty on 13 May 1968 with 27 Officers, 3 Warrant Officers, and 512 enlisted men or a total strength of 542.

Officer Candidate School

Kentucky National Guard Officer Candidate School Class Number 10-68 began Phase I at Frankfort, Kentucky on 17 June 1967 with an enrollment of 79 candidates. Three members of this class attended an accelerated OCS program with the Kansas NG OCS and were commissioned second lieutenants and called to active duty with the 2nd Howitzer Battalion 138th Arty. Fifty-nine candidates are still enrolled in the program and will attend Annual Field Training (Phase III) at Fort Knox, Kentucky during the period 22 June 1968 - 6 July 1968.

The enrollment and graduates for the school's ten years of operation are as follows:

OCS Class No.	1-59	2-60	3-61	4-62	5-63	6-64	7-65	8-66
Enrollment at Beginning of School Year	39	30	32	50	57	25	35	36NG 10USAR

OCS Class No.	9-67	10-68
Enrollment at Beginning of School Year	36 NG 17 USAR	61 NG 18 USAR
Number of Graduates	30 NG 13 USAR	

Civilian Technician Program

The Technician Program remained fairly stable during the Fiscal Year. Technicians employed are shown below:

<u>LAST DAY OF:</u>	<u>NUMBER</u>
JULY 1967	262
AUGUST 1967	262
SEPTEMBER 1967	261
OCTOBER 1967	261
NOVEMBER 1967	262
DECEMBER 1967	261
JANUARY 1968	261
FEBRUARY 1968	260
MARCH 1968 *	250
APRIL 1968	253
MAY 1968 **	245
JUNE 1968	246

* This loss was attributed to the reorganization.

** This loss was due to 14 technicians being ordered to active duty with the 2d How Bn 138th Arty

General

During this reporting period the Kentucky Army National Guard has undergone a complete reorganization, and one Artillery Battalion was lost from the state due to mobilization. In an effort to improve the maintenance readiness of all equipment, a realignment of maintenance facilities and personnel has been necessary. The organization of the maintenance activities is shown on the chart which follows this section.

Equipment Density Reports were submitted to the Chief, National Guard Bureau to substantiate requirements for additional maintenance technicians. Approval of this Manning Document is expected early in FY 69.

The mission of the Office of the State Maintenance Officer remains the same as reported in the Annual Report of Fiscal Year 1967.

Combined Support Maintenance Shop

The mission of this activity remains the same as reported in the Annual Report for Fiscal Year 1967.

Organizational Maintenance Shops

There are eleven (11) established Organizational Maintenance Shops in Kentucky. One of these has been called to active duty as shown on the Organization Chart. The mission of these shops remain the same as reported in the Annual Report for Fiscal Year 1967.

US ARMY ADVISOR GROUP (ARNGUS) KENTUCKY

Mission

The primary mission of advisor personnel assigned to the United States Army Advisor Group, Kentucky Army National Guard, is to advise and to assist in the training of the organizations and units of the Kentucky Army National Guard. The Senior Army Advisor to the Kentucky Army National Guard has the added duties of supervising and co-ordinating the duties of all Army Advisors in the State; acting as liaison between the Army Commander and the State Adjutant General, and military advisor to the State Adjutant General.

Specifically, Army Advisor personnel assigned to the United States Army Advisor Group, Kentucky Army National Guard, are required as a normal function to accomplish the following:

Further the efficiency of the unit or units to which they are assigned through appropriate assistance and advice to the responsible commander.

**STATE
MAINTENANCE OFFICER**
Secretary
Organizational Maintenance Officer
Frankfort
Kentucky

Regularly attend the training of those units located at their permanent stations for which they have advisor responsibility. Attendance at these unit training assemblies take precedence over all other assemblies.

Attend annual field training camps as directed by the Army Commander.

Verify the attendance of all federally recognized Army National Guard personnel when present at a unit training assembly or other authorized assembly for inactive duty training.

Verify all unit training assembly and other inactive duty training rolls of Army National Guard personnel under their advisory jurisdiction.

Maintain suitable files of orders, circulars, regulations and official documents issued by the Department of the Army, Army Commander and State authorities.

The United States Army Advisor Group is organized under Table of Distribution Number 1A-2081-08 as a Class 1 activity under the jurisdiction of the Commanding General, First United States Army with an authorized strength of eighteen officers and twenty-two enlisted men.

Organization

The United States Army Advisor Group is organized under Table of Distribution Number 1A-W2KPAA02 as a class one activity under the jurisdiction of the Commanding General, First United States Army with an authorized strength of 16 officers and 20 enlisted men. Advisor offices are maintained at each battalion or higher headquarters throughout the state.

Personnel

During the period of this report the United States Army Advisor Group had approximately 75 percent replacement of assigned personnel. Strength as of 30 June 1967 was four officers and 16 enlisted men, as of 1 July 1968 was six officers and 20 enlisted men. Through reassignment or retirement, the advisor group lost two officers and five enlisted men. At the end of this reported period the assigned officer strength was 33 percent of authorized, and assigned enlisted strength was 91 percent of authorized. The shortage of officer personnel was somewhat alleviated by the assignment of six officers on temporary duty for periods of 45 to 180 days.

Accomplishments

All officers and enlisted advisors in the Advisor Group visited subordinate units at least twice monthly. During the past fiscal year the Advisor Group placed heavy emphasis on unit training requirements and civil disturbance training. Training schedules were of high priority in view of the reorganization of the Kentucky National Guard. Considerable improvement was noted in the standards and conduct of training. An additional responsibility of members of the Advisor Group is the notification and assistance to next of kin of missing, wounded or deceased members of the United States Army whose next of kin reside in the Commonwealth of Kentucky. In fiscal year 1967-68 the Advisor Group handled 53 primary notifications and 31 survivor assistance cases.

FISCAL OFFICER

General

The United States Property and Fiscal Officer for Kentucky is LTC Willis R. Hodges, USAF. He is accountable for all Federal property and money allocated to Kentucky for the Army and Air National Guard. His responsibilities to The Adjutant General of Kentucky include the federally-supported areas of Army and Air National Guard, comptrollership and logistics management.

Organization

During fiscal 1968 there were no organizational changes in the USPF0 office and warehouse at Frankfort, Kentucky.

Mobilization of the 123d Tactical-Reconnaissance Wing drastically reduced logistical and financial needs of the Kentucky Air National Guard. Technicians, under USPF0 assistants at Louisville's Shewmaker ANG Base, were reduced from 32 to a 6 man holding force.

A major KyARNG reorganization, preparations for control of civil disturbances and the mobilization of an artillery battalion highlighted the fiscal year. To provide logistical support, the USPF0:

- a. Planned and controlled equipment redistributions, transfers, issues, turn-ins and disposals. These transactions required 32,721 changes to equipment status reports.
- b. Processed 37,000 unit requests for line items of clothing and other authorized federal property.
- c. Issued 38,200 line items of equipment and supplies.
- d. Submitted 7,500 requisitions to defense depots.
- e. Processed 17,400 property turn-in requests.
- f. Processed and reported 1,011 line items of excess property for disposal.
- g. Sold 17,701 line items of low-cost, high mortality items through the USPF0 Self-Service Supply Center.
- h. Provided additional storage facilities for chemical equipment, chemical agents and security ammunition.
- i. Improved the mobility, fire power and communications capabilities of combat and support units. State wide equipment status at the close of fiscal 1968 is shown in the chart at the end of this section.

Efforts continued to simplify and increase the accuracy of data processing systems and USPFO fiscal, property and time accounting procedures were improved. The National Guard Bureau also introduced several changes to their prescribed systems for equipment status and personnel performance reporting.

Transportation of personnel and equipment declined sharply from the 1967 level. The decline resulted from stabilization of KyARNG unit personnel and fulfillment of selected reserve force equipment needs. One hundred ninety five transportation requests were issued. Eight hundred sixty two incoming shipments were received and outgoing shipments on government bills of lading totaled 132. There were 3,493 incoming and 812 outgoing parcel post shipments. Over 1,160 tons of equipment and supplies were handled by USPFO transportation and warehouse personnel.

National Guard regulations require the USPFO to conduct annual and special audits of property held by KyARNG units and activities. The National Guard Bureau waived this requirement during fiscal 1968 to allow utilization of USPFO auditors for:

- a. Supervising property closings of inactivated units, transfers of property and related records responsibilities.
- b. Consolidating and converting 26 unit property accounts to 5 battalion accounts.
- c. Closing installation property records and providing other assistance upon mobilization of the 2d Howitzer Battalion, 138th Artillery.

The following list includes major KyARNG property accounts at the beginning of fiscal 1968, their locations, audit ratings and reorganization actions that required USPFO audit support.

Shewmaker ANG Base Louisville, Ky	Refuse Disposal Unit	<u>1,600</u>
	TOTAL	\$10,864

USPFO operations and facilities in Frankfort are inspected annually by a team from the office of the Inspector General, Hqs, 1st U.S. Army. The inspection rating for fiscal year 1968 was superior.

AIR NATIONAL GUARD

During fiscal 1968 the Supply and Service Branch at Shewmaker ANG Base processed 11,500 organizational requests for supplies and equipment. Over 6,000 requisitions were submitted to Air Force and Department of Defense depots.

Tactical units of the 123d Tactical-Reconnaissance Wing were mobilized 26 January 1968. Although the supply account remained with the Air National Guard, all but three supply personnel were activated. Eleven hundred major equipment items were transferred to Air Force to support the mobilized units. Through the rest of the fiscal year logistical and financial support was provided from Air Force resources and during the fourth quarter of fiscal 1968, the stock record account reached a peak of 14,000 active line items.

Fiscal 1968 funding from the National Guard Bureau totaled \$1,444,025.00, a decrease of over \$4,000,000.00 from the previous year. The decrease resulted from mobilization and the transfer of financial support responsibilities to the Air Force. A summary of allotments follows.

<u>Accounts</u>	<u>Descriptions</u>	<u>Amounts</u>
438	Base Operations (Depot Maint)	600.
448.01	Air Technicians	1,143,000.

Mission

The mission of the 123rd Tactical Reconnaissance Wing, that of Photo and Visual Reconnaissance, remained the same throughout the year, emphasis being placed on high speed, low-level and pop-up tactics as used in SEA.

Organization

The chart shows the organization of the Kentucky Air National Guard up to the Federal activation of the Wing and all subordinate units on 26 Jan 1968.

Units of the Kentucky Air National Guard

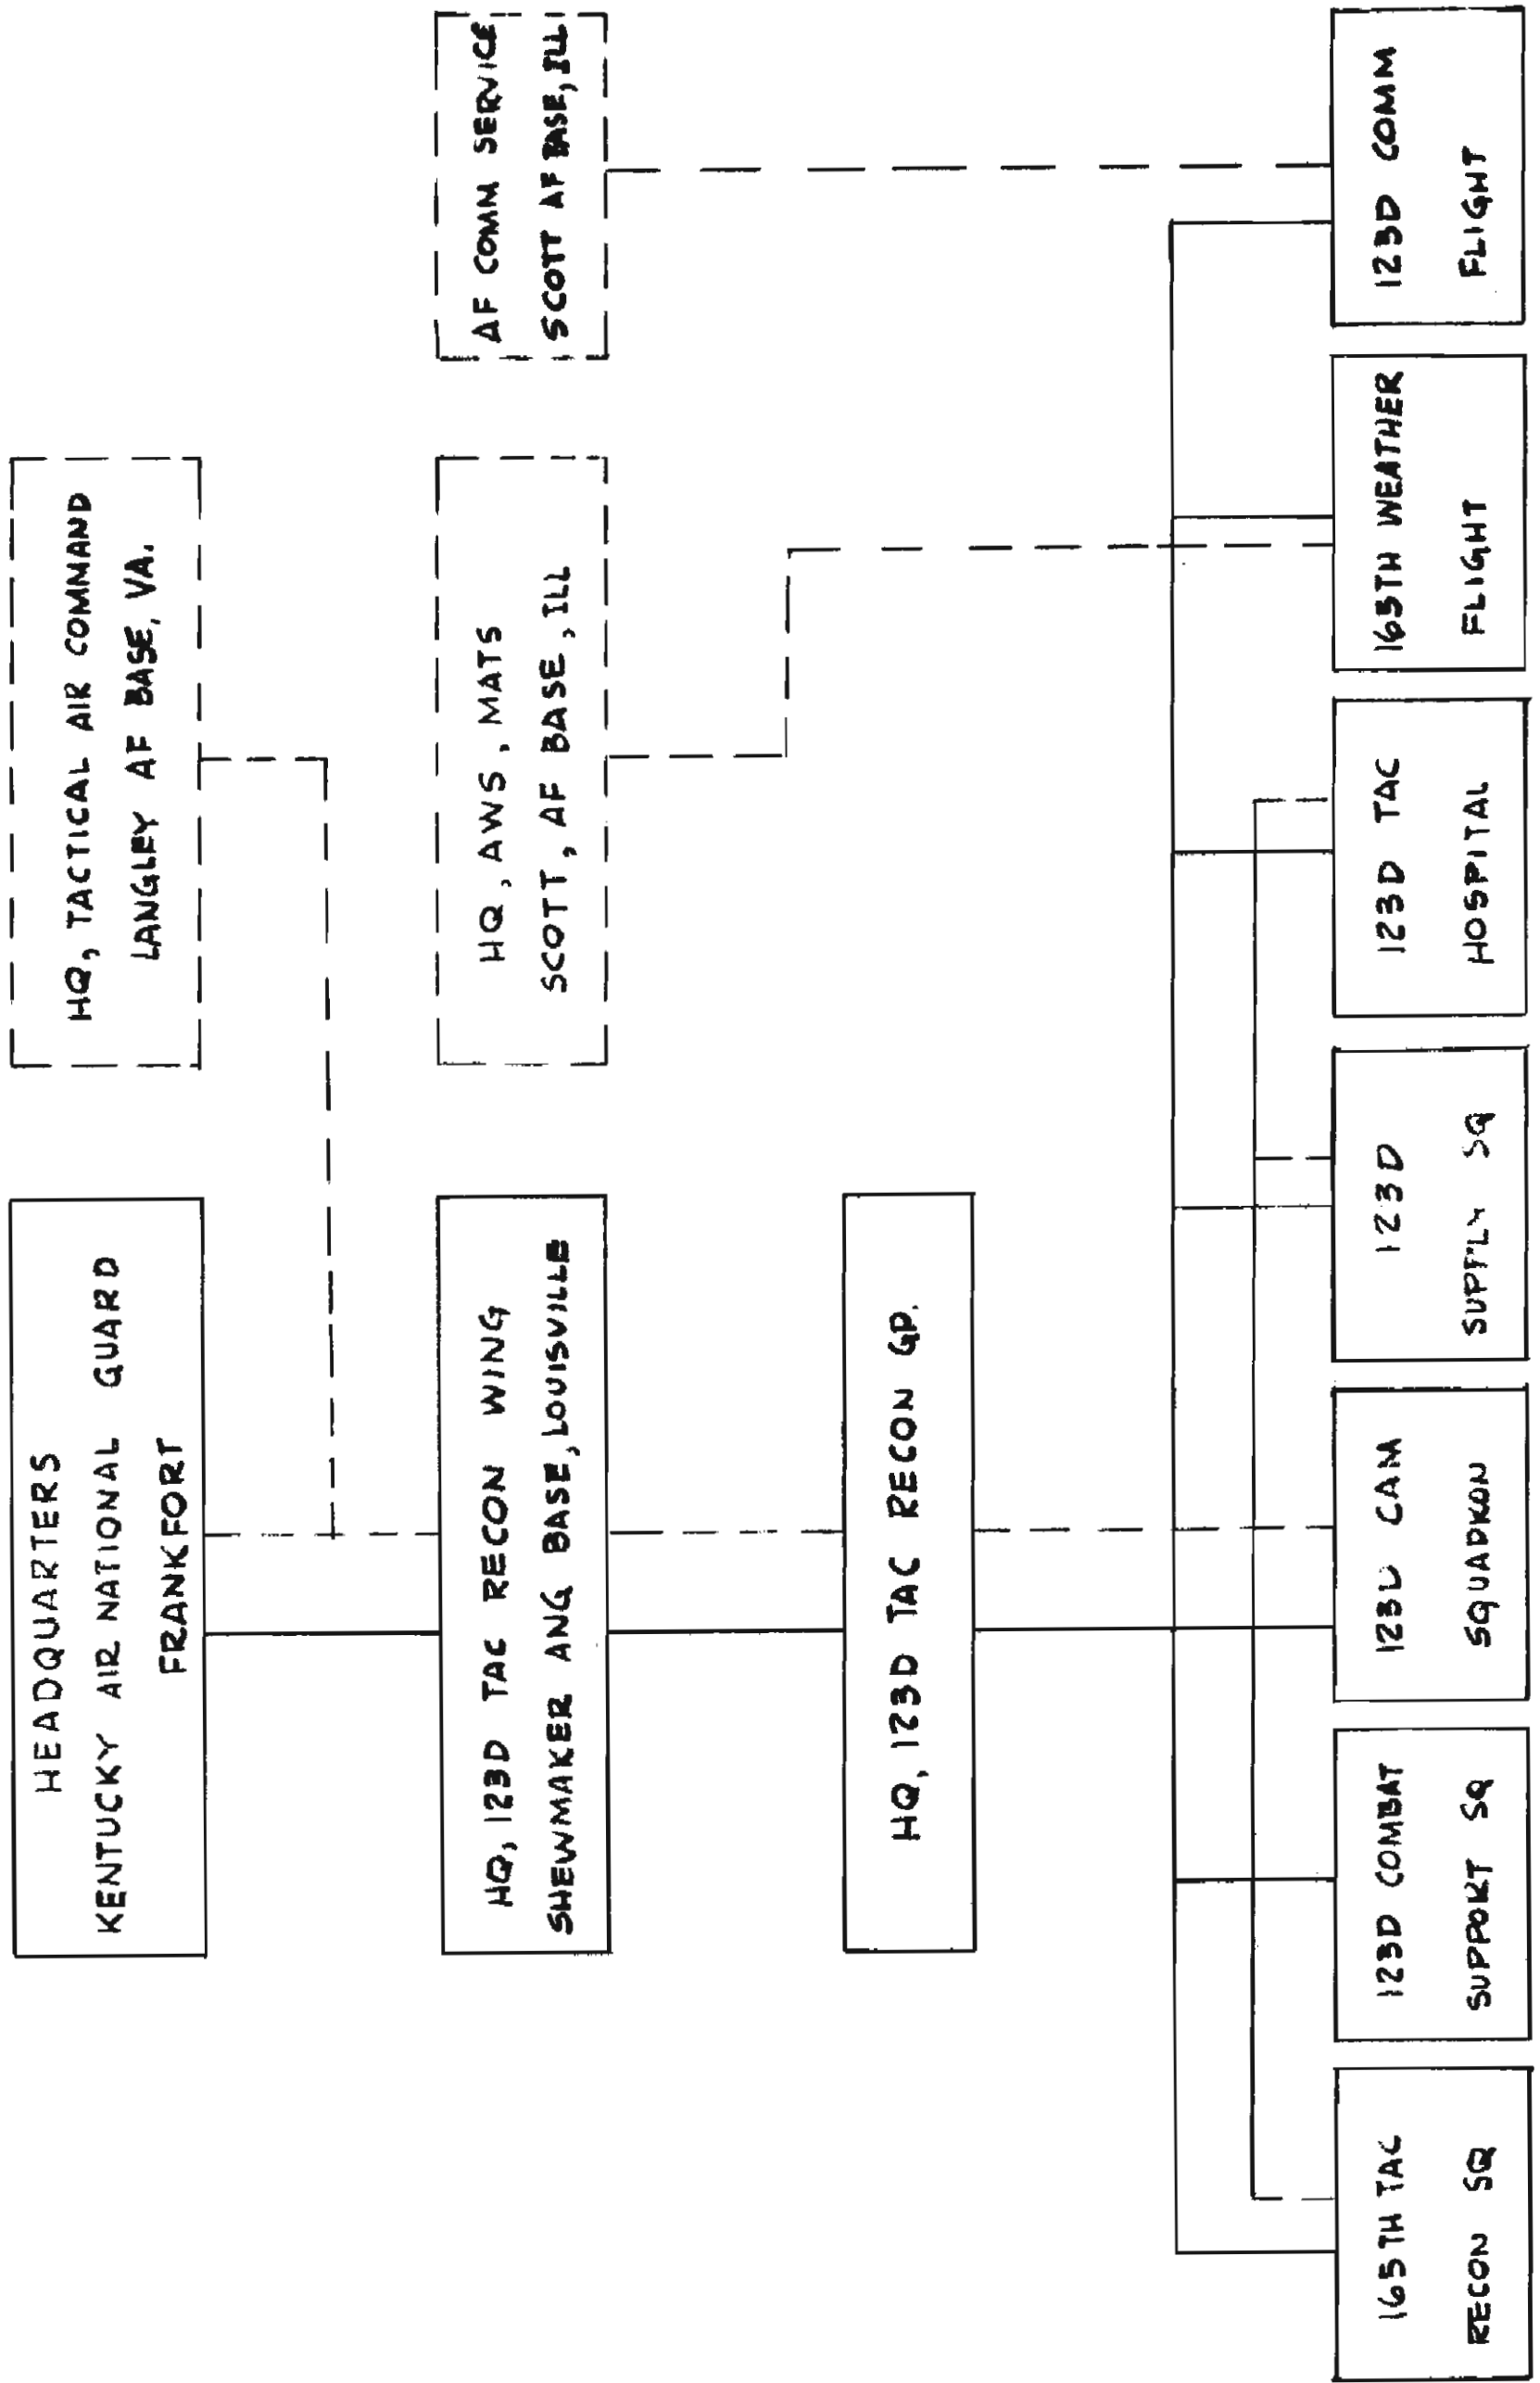

Hq Ky ANG	Colonel Verne M. Yahne
123d TRWing	Brig Gen Jack H. Owen
123d TRGroup	Lt Col Lawrence A. Quebbeman
165th TR Squadron	Lt Col William J. Semonin
123d Combat Support Sq	Lt Col Charles C. Sauer
123d Tactical Hospital	Lt Col Donald L. Harmon
123d Supply Squadron	Major Harry T. Greschel
123d Cons Acft Maint Sq	Major Harold R. Scott
123d Communications Flt(Spt)	Major Norris C. Delph
165th Weather Flt	Major Robert R. Mansfield

The Kentucky Air National Guard was Federalized on 26 January 1968 with the Wing Headquarters and all supporting units becoming part of the Tactical Air Command (TAC) with Headquarters at Langley Air Force Base, Virginia. The Weather Flight and communications Flight were gained by Military Air Command (MAC) and Air Force Communications Service (AFCS), respectively. The Kansas Group (192d TRG) was not included in the call-up as the need was for the faster, more modern RF-101s of the Nevada, Arkansas, and Kentucky units, rather than the obsolete RB-57s of the Kansas ANG.

Operations

At the date of Federalization the units possessed 21 RF-101 aircraft, 2 T-33 aircraft, and one C-54 aircraft with 36 RF-101 pilots, 1 T-33 pilot, and four C-54 pilots, for a total of 41 pilots.

ORGANIZATION OF THE KENTUCKY AIR NATIONAL GUARD

During this period the units flew daily against higher headquarters assigned targets for the Air Force, Army, and other ANG units. Four pilots were transitioned and completed Phase I and II training and became Phase III (Combat Ready) pilots. After 26 January 1968 the Holding Detachment supported (with the C-54) operational requirements for the unit, such as: Trips to Homestead AFB, Florida to transport pilots to and from Sea Survival School, Camera and parts pick-up at Shaw AFB, S. C., Hill AFB, Ogden, Utah, Stewart AFB, Smyrna, Tenn., Wright Patterson AFB, Dayton, Ohio, Richards-Gebaur AFB, Missouri, Reno, Nevada, Little Rock, Arkansas Bergstrom AFB, Tex, Langley AFB, Va. and many other bases as well as repeat trips to several of the bases.

The Headquarters of Kentucky Air National Guard now possesses a T-33 aircraft and a C-54 aircraft for support and proficiency flying of the State Headquarters pilots, Air Force Advisor, and Fort Knox Liaison Officer.

Colonel Verne M. Yahne was placed on Active Duty Training (13 days) for the purpose of ferrying an RF-101 aircraft to SEA and return.

Personnel

Unit Manning Documents applicable to units of the Kentucky Air National Guard as of 1 July 1967 included spaces for 135 officers and 796 airmen. The assigned strength was actually 110 officers and 590 airmen. This amounted to 75.2 percent of the total authorized strength.

Because of budgetary limitations, Kentucky Air National Guard units were assigned a "programmed strength" level of 759 men, including both officers and airmen. As of 31 December 1967, Kentucky Air units were manned at 103.4 percent (785 personnel) of this programmed strength.

The Holding Detachment and Headquarters Kentucky Air National Guard has assigned 8 officers and 25 airmen.

Training

The On-the-Job training (OJT) progressed beyond the level required by the Major Air Command. The 165th Weather Flight received the National Guard OJT Award for the period 1 January 1967 through 31 December 1967. The award is given for outstanding achievement in training progress. A much larger percentage of personnel passed the Specialty Knowledge Test (SKT). Example: For the period Jan-Mar 68, 66 of 80 personnel taking the SKTs successfully completed them for an 83% passing rate.

Annual Field Training

Annual Field Training was held 8-22 June 1968 at Shewmaker ANG Base, Louisville with exceptions being made for certain individuals attending 9-23 March 68 to better assist the Federalized units. Lt Colonel Pickett and Major Tuttle attended Reserve Officer Orientation Course at the Air War College, Maxwell AFB, Ala. Lt Col Sellins, Comptroller, Hq Ky ANG, was selected as a member of the Committee

on National Guard Technician Retirement. In this capacity he performed one week of his field training in the National Guard Bureau, Washington, D. C.

Special Awards

Two officers, after long and faithful service, retired during the year and received awards; Brigadier General William D. Ott, The Kentucky Distinguished Service Medal; Major Floyd J. Sherman, the Kentucky Medal for Merit.

Comptroller

A centralized, computerized pay system was implemented for the Air Reserve Forces (Air Force Reserve and Air National Guard). Basically, the system consists of sending pay data by punched cards which is fed into computers at the Air Force Accounting and Finance Center (AFAFC). Each individual has a master pay file, on tape, at this location. On implementation date, 1 January 1968 approximately 132,000 accounts were on file. Performance data for Unit Training Assemblies, Field Training and Active Duty/Active Duty for Training is submitted to AFAFC. Pay for this performance is automatically computed, deductions for taxes, etc, are deducted and checks and earnings statements are issued and mailed to individuals. Tax information is accrued and tax statements, W-2s, are automatically issued. In addition, all Federal funds are automatically accounted for.

Members are paid monthly for Unit Training Assemblies, receiving their checks no later than the 20th of the month following performance. Active duty checks for periods of more than 10 but less than 30 days are usually delivered on the last day of duty. For periods of less than 10 days checks are delivered within 10 days of completion of duty. For periods of 30 days or more, checks are automatically issued every 15 days to be delivered to the individual on the 15th and last day of the month.

As part of the system, procedures were established to automatically open Military Pay Records for units when they were Federalized. This paid big "dividends" when the 123d Tac Recon Wing and Group were ordered to active duty 26 January 1968. Military Pay Records were established automatically by AFAFC and forwarded to the units' supporting Finance Office, Sewart AFB, Tennessee. This resulted in a savings of several hundred local man hours.

As Chief, Reserve Pay Division, AFAFC, Lt Col Sellins, Hq Ky ANG, spent over a year, April 1966-July 1967, supervising and assisting in establishing and testing the Centralized Pay System for Air Reserve Forces.

Maintenance

During the past year, the 123d Consolidated Aircraft Maintenance Squadron has concentrated on the support necessary to maintain the RF-101 G/H. In addition to maintaining the proficiency of qualified personnel, a concerted effort has been made to up-grade skill levels throughout the maintenance complex. This training has been accomplished through on-the-job training, career development courses and formal USAF Technical Schools. These efforts are beginning to show favorable results as evidenced by increased passing rates on USAF Job Knowledge Tests and a

general rise in the overall skill level manning.

Some problems exist in obtaining and retaining personnel in the highly technical area of Avionics. A continued effort is made to interest prior service personnel by contact with local trade schools, Army/Air Force Recruiting Service and personal contact.

The past year has been one of an extremely heavy maintenance workload. The technical order compliance and modification will continue to pose a formidable task for all personnel during the coming year. Our efforts to accomplish this task have been supplemented by ten (10) contract maintenance personnel from Lear-Siegler Corporation under government contract.

The program to make RF-101 combat capable was realized this year with the arrival of the cameras and electronic navigation components. Receipt of these items entail a detailed check out of each aircraft to insure completed operation of all integrated systems.

Following are aircraft maintenance statistics for the past year.

Aircraft Assigned	F/RF-101	ABCGH	21
	C-54		1
	T-33		3
Tactical aircraft operationally ready rate			95.0%
ANG Flying Time per Sortie			1.5 hours
AGE in Commission Rate			98%
JP-4 Fuel Consumed			3,781,693 gal
Liquid Oxygen Consumed			18,315 gal
Gaseous Oxygen Consumed			24,024 Cu/Ft

Photographic Support

Because of the overall mission of the Wing in photographic reconnaissance, the operations of the photographic laboratories are of prime importance. A third "Versamat" was acquired, the photo processing cell (PPC) was completed, set up with water tank supply, auxillary power plant, and exercised.

Supply Operations

From the period 1 July 1967 thru January 1968 the Supply and Services Section of the Base Detachment processed approximately 11,500 organizational requests for supplies and equipment and submitted over 6,000 requisitions of off-base supply sources (Air Force and Department of Defense Depots).

Upon mobilization of tactical units of the Kentucky Air National Guard (26

January 1968) 1100 items of equipment were transferred to the Air Force in support of the activated units. Although the supply account remained with the Air National Guard all personnel were mobilized, with the exception of three technicians. Logistical support for the entire 123d Tac Recon Wing was provided from mobilization through June 1968 utilizing Air Force Personnel and funds. It is estimated that during the fourth quarter, FY 68, the stock record account reached a peak of over 14,000 active line items.

AIR ADVISOR

The mission and personnel composition of the office of the Air Advisor remained unchanged from the previous report for the first half of this reporting period. While it was noted that on-the-job training progress within the Wing was below Air Force standards overall Wing progress toward a combat ready status was evident and was reported to the USAF Tactical Air Command. The fact of satisfactory progress in addition to being equipped with a first line aircraft resulted in the units' being mobilized at the beginning of the second half of the reporting period in response to the "PUEBLO CRISIS." It was the only non-combat ready unit mobilized. Immediately upon mobilization the NCO technician advisors were reassigned directly to the respective units with the exception of CMSgt Jack P. Rowe, who retired from the Air Force. The Senior Air Force Advisor, Colonel Robert D. Ingalls Jr. was reassigned to Headquarters, 12AF at the end of the reporting period, thereby bringing the Advisory Detachment strength to zero.

FACILITIES DIVISION

Mission

The Facilities Division is concerned with the planning, programming, management, budgeting and co-ordination necessary for the procurement, construction and maintenance of adequate land and structural facilities for training of the Kentucky National Guard. In its mission the Division accomplishes the following:

1. Acquires land for training sites and the construction of Armories, vehicle and aircraft maintenance shops, and related structures.

2. Effects liaison for such acquisition and construction with Engineering, Budget and Property Utilization Staffs of the Commissioner of Finance; the designing architects and engineers; the Attorney General; the United States Property and Fiscal Officer; the unit commanders and community representatives concerned; the National Guard Bureau, Washington, D. C.; and in instances of joint construction with the United States Army Reserve, with representatives of the Chief, Army Reserve and Commanding General, First United States Army.

3. Initiates contracts for, or performs with assigned maintenance personnel, all maintenance or alterations required to maintain Kentucky National Guard training and support facilities in an acceptable state of readiness and repair.

4. Budgets for, reviews, and approves payment for utility costs and other normal operating expenses of Kentucky National Guard facilities.

5. Performs or initiates purchases to secure Commonwealth financed items of equipment, tools, and materials required for maintenance and operation of armories and other facilities, and the Office of the Adjutant General.

6. Co-ordinates the disposition of obsolete and inadequate structures or properties. Acts on easements across or sale of State land under jurisdiction of the Department of Military Affairs when required for highway right-of-way, county or municipal expansion or relocation of utility or sanitary services, or in connection with community industrial development.

7. Audits accounts of Commonwealth financed and owned property and equipment, monitors Maintenance and Contingent Funds maintained by Kentucky National Guard installations, and performs all inspections necessary for the proper accomplishment of the Division mission.

Organization

The functions of overall supervision, planning, programming, management, budgeting and liaison inherent in accomplishing the mission are centralized in the office of the Director, who co-ordinates all aspects of new construction and major contractual maintenance, repair or alteration projects.

The Maintenance and Contracting Section performs functions necessary for effective planning, co-ordination and accomplishment of maintenance, repair and alteration aspects of the Division mission.

The Purchasing and Supply Section performs all functions necessary to accomplish the purchasing, auditing, operating cost payment, and supply missions of the Division.

The Services Section performs all maintenance and repair actions that can be accomplished with assigned personnel and equipment, and inspects for the Division those maintenance, repair and alteration operations performed under contract by commercial contractors. The Branch also provides direction and supervision for the security and custodial personnel of the Boone National Guard Center, Frankfort, Kentucky.

Facilities

Under the supervision of The Adjutant General, the Director of the Facilities Division co-ordinates construction, maintenance, and repair of property used by the Kentucky Army and Air National Guard in thirty-seven communities throughout the Commonwealth. These structures and their land sites have a current estimated value of approximately \$15,000,000.

Air National Guard

The Kentucky Air National Guard facilities are located at Shewmaker Air National Guard Base, Standiford Field, Louisville, Kentucky. The cost of

construction of these facilities was paid by the Federal Government. All costs for maintenance and operations of the facility are normally shared by the Commonwealth on a 25% basis. After activation of the Air National Guard Units, since they were the Air Force Units stationed at the Base, the Federal Government assumed the total costs of maintenance and operations through the end of the fiscal year.

During the fiscal year \$82,121.00 in Federal Funds were devoted to improvements, maintenance and operation of the facilities at Shewmaker Air National Guard Base.

Army National Guard

Kentucky Army National Guard facilities include 35 active armories, six armories inactive by reason of replacement with new facilities or call of units into active Federal service, ten Organizational Maintenance Shops, nine Motor Vehicle storage buildings, two outdoor ranges, two outdoor training areas and a total of seven other structures housing clerical, warehousing and maintenance functions of the Army National Guard.

Two minor projects were complete with Federal Funds totaling \$9,264 for construction of storage facilities at the USPFO for Kentucky and steel shelving at the Combined Support Maintenance Shop both located at Frankfort, Kentucky.

A total of \$114,000 was expended toward maintenance of the existing National Guard Facilities. Major maintenance projects completed were the installation of acoustical ceilings in the drill hall at Paducah and Monticello, the installation of a new boiler at the Lexington Armory, and the installation of new roofs at the Carrollton and Henderson Armories and the Arsenal at Frankfort.

Funding Report

In fiscal year 1967-68 approximately \$397,210.00 was expended in maintaining, improving and operating Kentucky Army and Air National Guard facilities. Of this amount the Federal Government provided \$132,490.00 and the Commonwealth the remainder of \$264,720.00.

Major Construction

There being no Federal funds available during the fiscal year there were no major construction projects begun or completed, however, authorization is expected early next fiscal year for construction of a new Army Aviation Maintenance Shop at Frankfort, Kentucky.

The 1968 General Assembly recognized the need for certain National Guard facilities, however, the necessary State Capitol Construction Funds were not appropriated under HB 213 of the 1968 Session.

Mission

The mission of the Division of Civil Defense, as outlined in Kentucky Revised Statutes 39.401, is the preparation for and the carrying out of all emergency functions, other than functions for which military forces or other Federal agencies are primarily responsible; to prevent, minimize and repair injury and damage resulting from disasters caused by enemy attack, sabotage, or other hostile action, or by fire, flood or other causes. These functions include, without limitation, fire fighting services, rescue, engineering, air raid warning services, communications, radiological, chemical and other special weapons of defense, evacuation of persons from stricken areas, emergency welfare services, emergency transportation plan protection, temporary restoration of public utility services, and other functions related to civilian protection, together with all other activities necessary or incidental to preparation for and carrying out of the foregoing functions.

Organization

The organization of this Division is shown by the Organization Chart. The Administrative Section is responsible for: Security and intelligence; budget and fiscal; office management; supplies and equipment; reports, records and statistics; correspondence and files; publications control and distribution; contributions and program participation; vehicle dispatch and maintenance; surplus property donation program; and educational training aids.

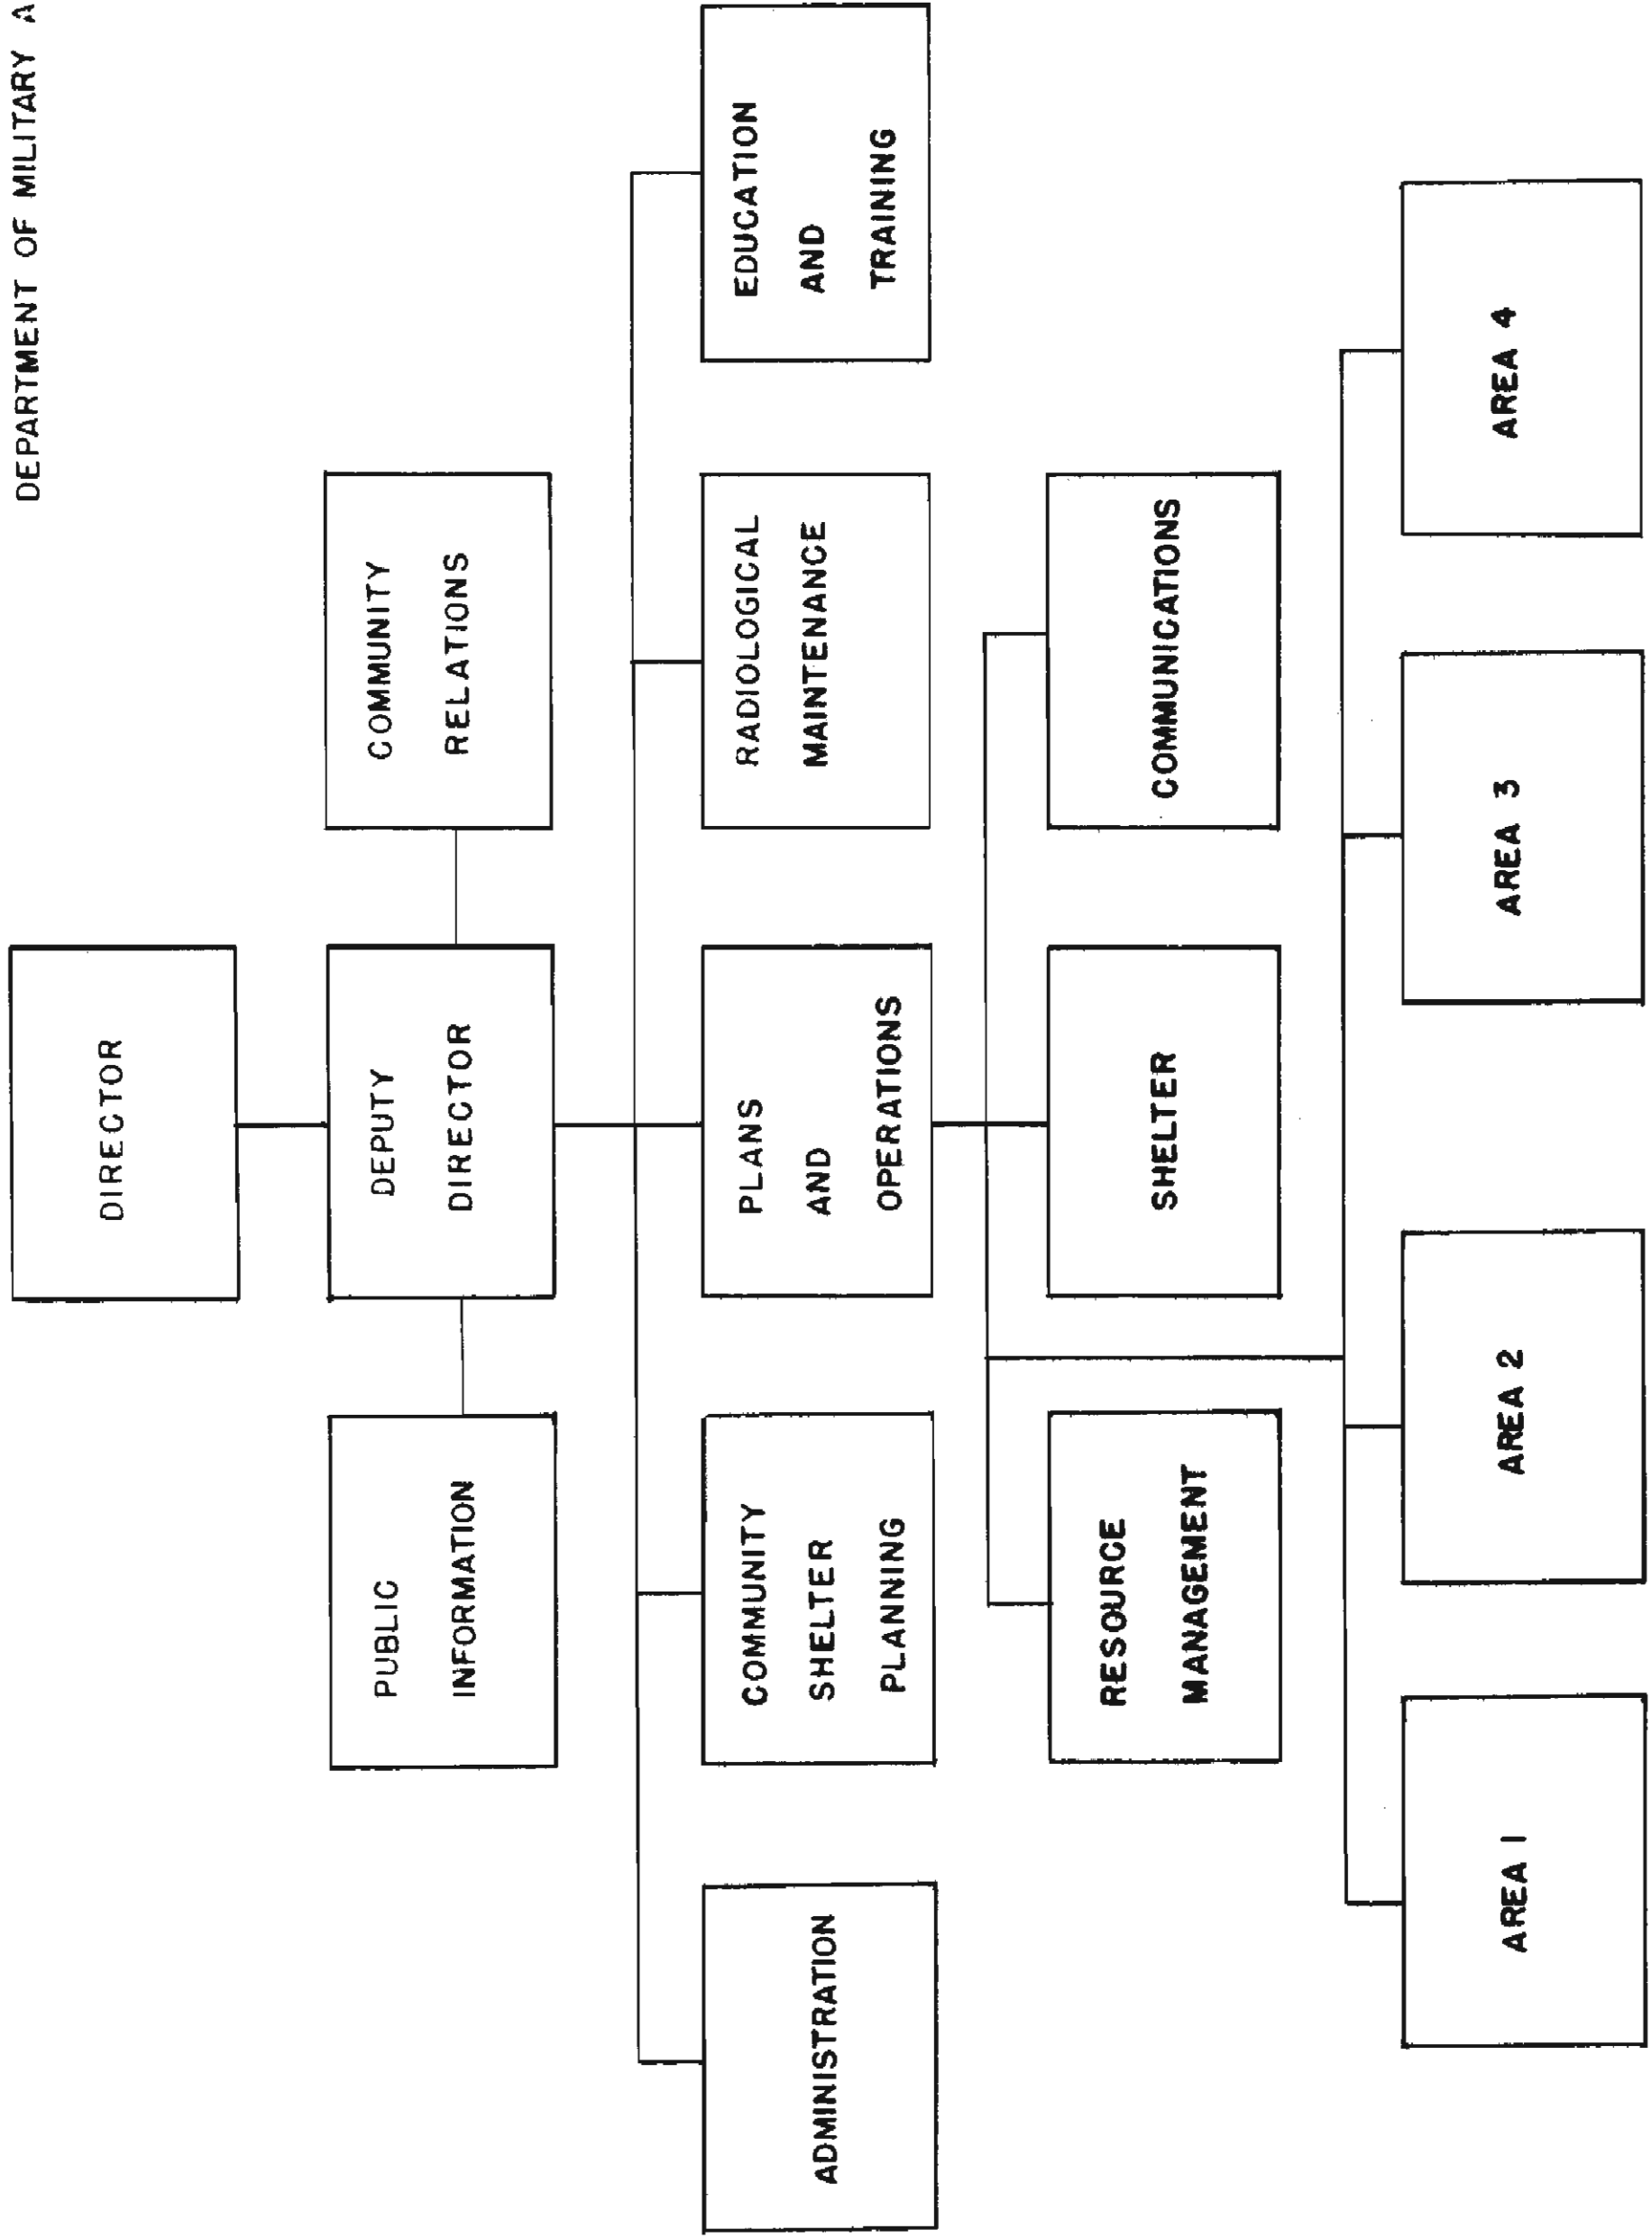

The Community Relations Section is responsible for: Promoting the Kentucky Civil Defense Program among State organizations, service organizations, private institutions, and elements of governmental and women's organizations. It also maintains a Women's Advisory Council whose members serve as liaison agents between their organizations and the State Civil Defense Organization.

The Education and Training Section is responsible for: Public affairs; public relations; education and training programming; public information; Office of Civil Defense, State and local school programs; training and education publications control; and the co-ordination of the Medical Self-Help Program; Civil Defense adult education program, rural Civil Defense program; and the University of Kentucky's Civil Defense Training Program.

The Plans and Operations Section is responsible for: radiological defense; disaster operations; damage assessment; plans and operations programming; State, county and city plans; and research and development.

The Resources and Production Section is responsible for: continuity of government, resources management; co-ordination of industrial planning; co-ordination of flood activities; development of operational uses of food, water, transportation, health, welfare, manpower, petroleum, fuels and energy; economic stabilization; construction and housing; telecommunications; electric power; and service trades.

ORGANIZATION CHART
 DIVISION OF CIVIL DEFENSE
 DEPARTMENT OF MILITARY AFFAIRS

The Shelters Section is responsible for: shelter licensing, marking, and stocking program; shelter development program; shelter management program; emergency operations center development program; and the shelter development program for schools.

The Communications Section is responsible for: operational communications programming; warning; and operational communications.

The community Shelter Planning Section is responsible for: assisting in the development and coordination of plans and programs for the development and maintenance of community shelter plans; furnishing direct technical planning assistance to communities not having contracts with the Federal Government; co-ordinating development of community shelter plans by communities receiving direct Federal assistance for preparation of their community shelter plans.

Civil Defense Area Directors: Each of the four Area Directors act for the State Director in advising and assisting local jurisdictions in the establishment and operation of their programs. They report directly to the State Director and keep him informed on progress and operations in their areas. They co-ordinate all policies, plans and programs with the State Staff. Geographical areas of assignment are shown on the Area Chart.

Civil Defense Coordinators: State agencies are responsible for assisting Civil Defense in normal as well as emergency operations. Their responsibilities are listed in the Emergency Operations Plan for the Commonwealth, and each of these agencies has been involved in the co-ordination of State assistance in natural disasters.

State agencies directly involved in support of Emergency Operations are:

Department of Health - health services, medical supplies, chemical, biological and radiological measurements, mortuary services.

Department of Economic Security - welfare and manpower

Department of Agriculture - food/feed products, chemical, biological and radiological measurements

Department of Public Safety - law and order, traffic control, communications, fire fighting

Department of Highways - communications, engineering, RADEF, traffic control

Department of Motor Transportation - transportation facilities

State agencies indirectly involved in Support of Emergency Operations are:

Department of Personnel - personnel pool

Department of Commerce - resumption of commerce and industry

Department of Education - school protection, safety, teaching

Department of Natural Resources - RADEF, communications, rural fire control

Department of Banking - monetary credit and financial structure

Department of Fish and Wildlife Resources - RADEF, communications, fish and game for food

Department of Aeronautics - airlift

Department of Mines and Minerals - rescue operations

Department of Revenue - petroleum, oil and lubricants control and distribution

Department of Finance - accounting procedures

Legislative Research Commission - research on needed legislation

Public Information Office - emergency information

Department of Archives and Records - storage of records

County/City Civil Defense Organizations/Units: Under the provisions of Kentucky Revised Statutes 39.415, each city and county in the Commonwealth of Kentucky is authorized and directed to establish a local Civil Defense Organization/Unit in accordance with the State Civil Defense Plan and Program. County Civil Defense Organizations have been established in all of the counties of Kentucky. One hundred and seventy-two (172) cities have established Civil Defense Units.

Funding

Local governments and State agencies have continued to improve their Civil Defense readiness through the Matching Funds Program, the Personnel Administrative Expense Program, Surplus Property Donation Program and the Federal Contributions Program (Hardware). The funds were made available under Public Law 85-606 and 921.

During Fiscal Year 1968, the Division of Civil Defense, State agencies, and the local political subdivisions spent a total of \$407,012.20 for Personnel and Administrative costs. One half of the total amount was furnished by the Federal Government. The following is a list of the P&A counties and their expenditures for FY 68:

<u>Fiscal Year 1968</u>	<u>Federal Share</u>
Pineville-Middlesboro-Bell County	\$ 17.52
Bourbon County	2,299.31
Boone County	450.00
Boyd County	1,800.00
Jackson-Breathitt County	1,320.00

Dept. of Fish & Wildlife Resources	1,518.60	59.00
Division of Civil Defense	<u>13,954.17</u>	<u>1,440.58</u>
TOTALS \$	219,974.51	\$ 14,784.73

Civil Defense Activity

During the past year Civil Defense has continued to show progress in various areas of the Civil Defense program. The following paragraphs are examples of the accomplishments attained during Fiscal Year 1968.

Education & Training

Throughout Fiscal Year 1968 four agencies conducted training programs in various parts of the Commonwealth and a total of 80,604 individuals were instructed in Civil Defense preparedness.

University of Kentucky Civil Defense Extension Program:

<u>COURSE</u>	<u>NO. OF COURSES CONDUCTED</u>	<u>GRADUATES</u>
Radiological Monitoring for Instructors	2	16
Shelter Management Instructor	1	12
Civil Defense Management	2	34

Kentucky Department of Health

The office of Health Mobilization coordinates the Medical Self Help Program which is being taught in 98% of Kentucky High Schools and Adult organizations. During FY 68, 64,482 individuals received Medical Self Help instruction.

Kentucky Department of Education

A 12 hour Civil Defense Adult Education course was conducted for 14,361 Kentuckians in FY 68 for the purpose of familiarizing individuals with their responsibility to family and community in the event of a natural or nuclear disaster.

Kentucky Division of Civil Defense

This division is the coordinating agency between State and Local Civil Defense Organizations. Radiological Monitoring and Shelter Management were prime areas of training for this division during the fiscal year. A total of 29 Monitoring Courses were given with 360 Kentuckians being certified as monitors.

Emergency Resource Planning

During FY 68 there were numerous goals accomplished in the continuation for creating and distributing State Emergency Plans. In 68 the State Plan was accepted by the Federal Government and disbursement of this plan began.

During this same period the final accounting of OEP contract between State and Federal Government was accepted by the latter.

At the present we are engaged in (1) updating and distributing the present State Emergency Resource Management Plan, (2) initial planning for participation in Stage III Regional Test (3) developing a county level prototype Emergency Resource Management Plan and the Economic Stabilization Plan.

COMMUNICATIONS

RACES (Radio Amateur Civil Emergency Service)

The RACES program is continuing as in previous years. The net was activated several times during periods of tornado watches and the RACES Network participated in the annual Simulated Emergency Test conducted by the American Radio Relay League in which 420 simulated emergency messages were handled throughout Kentucky.

NACOM I and II

The NACOM I and II communications systems were active and remain the same as in previous years.

State Radio Systems

The Radio Systems operated by the State Police, Highway Department and Division of Forestry were available for Civil Defense purposes. Fish and Wildlife completed a radio system consisting of 11 base stations and 136 portable mobile units that are available for Civil Defense emergency use.

Emergency Broadcast System

The Emergency Broadcast System has been regularly tested and provisions have been made to transmit both video and voice over WAVE-TV directly from the EOC in the Capitol.

An inventory was made of all communications systems in Kentucky and an Emergency Plan prepared for use of these systems by government agencies in an emergency. The plan was approved by OCD/DOD and can be put into effect in any disaster.

Plans and Operations

The following activities and progress was recorded in this office during FY 68.

1. Plans
 - a. Updated State Emergency Operations Plan
 - b. Published revision of the State Civil Defense Guide and Facts and Information for Local Officials.
 - c. Conducted Emergency Assistance Inventory.
 - d. Established a controlled listing by county for Emergency Assistance Personnel and Equipment
 - e. Establish Red Cross areas of responsibility by county to assist Civil Defense operation in local areas.
 - f. Redefined State Emergency Operations procedures.

2. Operations
 - a. Participated in the annual nationwide Civil Defense Exercise. State participation was supported by 59 counties and 17 state agencies and the Red Cross.
 - b. Emergency Operations
 - (1) Provided liaison between Highway Department and local Civil Defense officials during minor flood in Clinton, Kentucky in July 67.
 - (2) Coordinated use of Red Cross and State Aid assistance for Middlesboro area as a result of a flash flood in July 67.
 - (3) Coordinated flood recovery operations in August 67 for Green, Adair, Taylor, Barren, Larue, Hart and Edmonson counties.
 - (4) Coordinated the use of boats from Division of Boating and Department of Parks for drowning recovery operations in Buckhorn Lake in August 67.
 - (5) Maintained weather watch between Louisville Weather Bureau and Local Officials during ice storm statewide for January 68.
 - (6) Coordinated emergency assistance to Marshall, Calloway, Caldwell, Daviess, Trigg, Lyon, and Logan counties in April 68 as a result of tornadoes. SBA, Red Cross, State and Local assistance provided.
 - (7) Coordinated Federal, State, Red Cross and local assistance to tornado affected communities in Pendleton, Bracken, Mason, and Jessamine counties in April 68. Federal declaration, Red Cross, SBA, and Dept. of Agriculture provided necessary assistance in recovery.

Radiological Instrument Shop

This Division is responsible for the repair, maintenance, supply, and calibration of all Radiological Monitoring Devices in the Commonwealth. In its third year

of existence, this unit succeeded in accomplishing the following:

Instruments repaired, Inspected and Serviced	14,222
Instruments repaired	8,640
Instruments Calibrated	12,280
Dosimeters-Modified and Repaired	5,790
On-Site Field Inspections	312
School Training Kits Processed	148

Shelter Officer

This section is responsible for locating, licensing and stocking of fallout shelter spaces to be used in the event of a nuclear attack. During FY 68 the shelter section produced the following:

	<u>30 June 67</u>	<u>30 June 68</u>	<u>Net Gain</u>
Shelter spaces located	2,142,539	2,260,557	118,018
Shelter spaces licensed	1,485,227	1,717,977	232,750
Shelter spaces stocked	917,589	934,951	17,362

Community Shelter Planning

Community Shelter Planning has been a Civil Defense priority, 100% federally funded. The goal of this program is to provide every city and county in Kentucky with a workable plan for sheltering its citizens from fallout in the event of a nuclear attack. Community Shelter Plans are now in the process of being prepared for fifteen counties. Twelve of these plans are being prepared by this office; three by a private planning consultant firm, whose work is reviewed by this office.

Awards

During the National Association of State Civil Defense Directors Annual Fall Conference held at St. Thomas, Virgin Islands, the State of Kentucky was awarded first place in the special Publication Class D for its submission of "What Would You Do?"

MILITARY SUPPORT TO CIVIL AUTHORITIES

Military Support to Civil Authorities is an emergency task within the mission of all Federal active duty and Reserve units of the military service. Certain units are required to undertake missions to plan for the coordination and control of military support for civil defense, both pre-attack and post-attack.

The section is concerned with the development and maintenance of plans and

capabilities necessary in assisting civil authorities in restoring Federal, State, and local civil operations during civil defense emergencies. Such planning is based on an extensive range of possibilities including general thermonuclear attack with minimum warning, and under conditions favorable to the attacker.

Additionally, detailed planning is continuous for operations in missions of Military Support in instances of civil strife or domestic disturbance in Kentucky.

The Military Support to Civil Authorities Section is manned by three full-time technicians. Colonel Robert L. Bell is Chief of the Section and Plans Officer, Lt. Colonel Thomas J. Murphy is Operations and Training Officer, and CWO George R. Karsner, Jr. is the Administrative Specialist.

The section, currently quartered in Boone National Guard Center, has established and maintains active liaison and coordination with applicable military forces located within the Commonwealth; with certain Federal, State, and local civil authorities; with counterparts in the States contiguous to Kentucky; and with First U. S. Army.

Members of the Military Support Section have received specialized training at courses of instruction conducted by the Department of Defense. Emphasis at the schools was placed on Planning and Operations for a Civil Defense emergency and Military Support to local authorities during periods of civil disorder.

Contingency planning for emergency assistance using military forces is in coordination with and supplementary to the capabilities of State and local government, and other non-military organizations.

In the event of a national emergency involving a nuclear attack on the United States, the Military Support Section is prepared to advise and assist the Adjutant General (Commanding General, Kentucky Area Command) in the execution of approved plans and policies that provide for operational employment of assigned military forces engaged in Military Support.

KENTUCKY DISABLED EX-SERVICE MEN'S BOARD

Mission

The mission of the Kentucky Disabled Ex-Service Men's Board is defined in KRS Chapter 36.065, and provides for the following services and support to the Commonwealth's veterans of military service, their dependents and/or survivors, and to like persons residing in other States when requested:

1. Prepare in proper forms, present and prosecute the claims with the Veterans Administration and other Federal agencies.

2. Secure and expedite action on the claims.
3. Keep in contact with the Veterans Administration so that the status of any claim may be known at any time.
4. Continue to survey the State to make certain that no veteran or his dependents are neglected.
5. Perform such other duties as the Board considers necessary or desirable in the accomplishment of the purpose for which the Board was created.

Organization

The Kentucky Disabled Ex-Service Men's Board is an independent agency of the State government within the meaning of KRS Chapter 12. However, in certain administrative and fiscal policies and procedures it falls within the jurisdictional framework of the Department of Military Affairs.

The agency is organized as follows: (1) The Executive Board, (2) The Administrative and Operations Section, (3) The Claims Section, and (4) The Field Services Section.

The Executive Board

KRS Chapter 36.065 provides that The Adjutant General of Kentucky shall act as the Chairman of the Board, and that the Governor shall appoint the four other authorized members, each of whom shall be a veteran with service during time of war or hostilities wherein American troops were engaged in conflict with an armed enemy.

The law further provides that insofar as it is practicable the Governor, in making the appointments to the Board, may give due consideration to a fair representation on the Board of nationally recognized veterans' organizations active in Kentucky, based upon the size of their membership in this State.

The members of the Board, who are appointed to four year terms, receive no compensation for their services, but shall be reimbursed for their actual and necessary traveling expenses and lodging incurred in the proper performance of their duties in or out of this State.

As of 30 June 1968, the Executive Board consisted of Major General Allan K. Carrell, Kentucky National Guard, as the Chairman; Honorable Harold Y. Saunders, Shelbyville, Ky. as the member representing the Department of Kentucky, The American Legion; Honorable S. Lloyd Lovell, Greenville, Ky. as the member representing the Department of Kentucky, The Veterans of Foreign Wars of the United States; Honorable Harold R. Turpin, Richmond, Ky. as the member representing the Department of Kentucky, The Disabled American Veterans; and Honorable W. Clem Chandler, Sullivan, Ky. as the member at large. Mr. Homer M. Eversole, Louisville, Ky. is the Director of the Board.

Administrative and Operations Section

The Administrative and Operations Section, together with the Claims Section, is located in the Veterans Administration Regional Office Building at 1405 West Broadway, Louisville, Kentucky.

The Administrative and Operations Section is staffed by the Director, a Senior Clerk Stenographer, a Senior Clerk, a Clerk Typist and a Junior Clerk Typist.

The Claims Section

The claims Section is staffed by the Principal Claims Examiner, who is also the Assistant Director, a Senior Claims Examiner, a Claims Examiner and a Clerk Stenographer. Clerical and other support is furnished to this section by personnel in the Administrative and Operations Section.

The Field Service Section

Local counseling service and assistance are provided throughout the Commonwealth by employing a system of Field Representatives to visit each County Seat on a regular monthly basis. Each Field Representative is assigned to a definite geographic area of responsibility. They are eight in number and numerically designated from West to East across the State with an additional one, the ninth, being assigned to the 500 bed Veterans Administration Hospital, Louisville, Kentucky.

The districts vary in size from nine to eighteen counties in number. Controlling factors in determining the size of each district are veteran population, institutional requirements such as the Kentucky Children's Home, State Mental and Tuberculosis Hospitals, the Veterans Administration Hospital at Lexington, Cincinnati and Huntington, State Penal Institutions, etc., and economy in mileage and travel costs.

Functions

In consonance with its assigned mission, the functions of the agency are designed to provide basic assistance to Kentucky's veterans of the Armed Forces of the United States, their widows, orphans, or dependents, in the proper preparation, presentation and prosecution of their claims for compensation, pension, hospitalization, education and training and other benefits to which they may be legally entitled.

The agency considers its mission to be always of a humanitarian nature, and to this end it provides counsel and guidance to veterans, their widows and orphans, and dependents concerning various problems. These problems frequently cover social security, unemployment, welfare, family services and missing veterans, or recovery of accrued military pay, lost or destroyed discharges, review of unsatisfactory discharges, back military pay, decorations, headstones and markers, prisoner of war claims, reemployment rights, gratuity pay and travel pay.

The agency is frequently called upon to render assistance to the members of Congress, the Governor, the State Legislature and other State, county, and city officials in solving veterans' problems for their constituents.

The community relations aspect is not overlooked, and information on veterans' rights and benefits, is furnished to civic, church, and veterans groups and to city and county officials when it is requested by them.
