

WOODS TALES

234 Tactical Reconnaissance Wing
sl. 1V No. 19

CAMP EDITION

Kentucky Air National Guard
WEDNESDAY, JUNE 24, 1970

CASHING GOVERNMENT FIELD TRAINING CHECKS AT THE FIRST NATIONAL BANK OF SAVANNAH: Major Wise reports that many red Identification cards will be taken up in order to revise some of the information. Because of this fact the First National Bank of Savannah, Travis Field Branch will accept your state drivers license as proper identification for cashing the checks. Incidentally banks are not required to accept government checks that have been folded or mutilated in any manner. Don't fold your check, keep it flat.

TRANSEC/COMSEC MESSAGE OF THE DAY: Classified information should only be given to those who have the need to know. This person is called an authorized person. High rank does not necessarily mean that the person has the need to know. Any doubts about a person's need to know should be checked out with your supervisor.

KUDOS TO THE MEN IN THE MESS HALL FOR FINE LUNCHES: In these days when we all are longing for "momma's cookin'" I think that it would be appropriate to recognize the men that have been "momma's" substitute for the past two weeks. Over all I believe they have done an outstanding job, especially at the noon-time meals.

FILM FESTIVAL A LA DUDUKOVICH, CAMPBELL, BECKER ET AL.: Tonight the recreation committee has decided to stick their necks out for the men. They have rented one of the classic films of all times at a price well beyond the normal price. The movie is "Shenendeah" starring James Stewart. As always the flick will begin at 8:00 PM and will feature ice cold beer at the breaks. Let's show the committee that we appreciate their actions by going to this fine movie.

ATTENTION ALL MILITARY VEHICLES: All military vehicles are to be washed inside and out before turning them in to the motor pool.

MOTORCYCLISTS NOTE: The evidence is in. Now you cyclist can turn on - for a couple of genuine experts from West Virginia University and the University of California ran a bunch of tests and discovered that daytime visibility of a vehicle can be substantially increased by using a lighting device of 2000 candlepower and a luminous area of 20 sq. inches. Ah... that about the equivalent of a high beam headlight having a fine inch diameter. So, for your own good and for the benefit of other motorcyclist who often have trouble seeing you and your motorcycle, consider turning that headlight on-- even if the sun is shining.

SQUADRON SOFTBALL: The Supply Squadron defeated the Comm Flight 14-5 yesterday in the semi-finals of the base softball tournament. Today's final game pits the Supply Squadron against the Combat Support Squadron at 1500 hours at the softball diamond by the motor pool.

WEATHER FORECAST: Mostly cloudy today with a 30% chance of showers and thundershowers. High today will be in the mid-90's with a low in the low 80's. Water temperature at the beach is 78 degrees.

COMMANDER'S CALL FOR ALL OFFICERS: There will be an officers commander's call at the base chapel at 1430 hours conducted by Wing Commander, Colonel Verne M. Yahne. Barring any complications it should be over by 1500 hours.

DOW JONES AVERAGE DOWN 18 ON THE INDUSTRIALS: Analyst generally termed the market's behavior as a nervous, emotional reaction to the Penn Central's bankruptcy proceedings. They said some companies whose problems were different or not as severe as Penn Central's were being hurt by this overreaction.

AIR TRANSPORTABLE DISPENSARY: Members of the 123d Tac Hospital will set up a 40 foot, Air Transportable Dispensary at 1300 hours next to the hospital. It is part of the mobility procedure required of the hospital staff. Erection of the large tent is only part of these mobility procedures, it also includes the deployment of the flight surgeon, Captain Ernest Holbrook and three corpsmen.

AREA TO BE IN GOOD ORDER AS WE DEPART: All buildings including the living quarters are to be put into first class condition before you vacate that area. This is very important as we will be judged by the way we leave the place.

MOTOR VEHICLE INSPECTION: It will be the duties and responsibilities of each section to wash and clean the inside and outside of each issued vehicle. Vehicles will be inspected by the Motor Transportation Officer or his Representative and will not be accepted unless the above has been accomplished. Facilities needed to accomplish the above are located behind building 840 (the motor pool) and will be opened between 0700 and 1500 hours on June 25 and 26.

POV HELP!!! One unfortunate member of the POV personnel is in trouble. His car has been giving him headaches for quite some time. Yesterday he felt compelled to drop the lemon at Cousin Leo's Used Car Lot in downtown Savannah. Well, he needs a ride home, badly. If anyone is interested in being a good Samaritan it would be greatly appreciated. Those interested are asked to call the Wing information office anytime during duty hours today or tomorrow. The telephone number is 39 (class B).

Woodoo Tales is the official class one publication of the 123d Tactical Reconnaissance Wing Kentucky Air National Guard now stationed at Travis Field, Savannah, Georgia for it's annual field training. It is edited by A1C Ed Tomini and the staff includes Major Donald Armstrong, A1C Urey Smith, Sgt. Dave Robertson and A1C Mike Williams. The opinions expressed herein do not necessarily represent those of the United States Air Force or The Kentucky Air National Guard.
