

KENTUCKY DEPARTMENT OF MILITARY AFFAIRS

ANNUAL REPORT

FISCAL YEAR

1 JULY 2005- 30 JUNE 2006

In Memoriam

Sergeant Ryan Jay Montgomery

SGT Ryan Jay Montgomery, 22, of Greensburg, Ky (Green County) was killed on Sunday, July 3, 2005 in Iraq when his up-armored HUMVEE encountered an improvised explosive device while returning from a convoy escort mission near Baghdad.

At the time of his death, Montgomery was assigned to Bravo Battery 1st Battalion 623rd Field Artillery, based in Campbellsville, Ky. His unit mobilized for Operation Iraqi Freedom in November and deployed to Southwest Asia in January 2005. Montgomery graduated from Green County High School and joined the military in September 2000 during his senior year of high school.

Staff Sergeant William Alvin Allers III

SSG William Alvin Allers III, 28, of Leitchfield (Grayson County) KY, was killed near Al Khalis, Iraq (40 miles north of Baghdad) on Tuesday, September 20, 2005 when his armored humvee encountered an Improvised Explosive Device (IED).

Allers was assigned to the Kentucky Army National Guard's 617th Military Police Company, based in Richmond with a detachment in Bowling Green. The 617th MP Company mobilized for Operation Iraqi Freedom in October of 2004 and deployed to Southwest Asia that November.

Originally from Baltimore, MD, he joined the Kentucky Army National Guard in September of 2003 after serving with the U.S. Army and worked in Leitchfield for an office supply business.

Staff Sergeant Brock A. Beery

SSG Brock A. Beery, 30, of Whitehouse, TN was killed when his armored vehicle encountered an improvised explosive device (IED) near Al Habbaniyah, Iraq on Thursday, March 23, 2006. Beery was assigned to the Kentucky Army National Guard's Headquarters and Headquarters Company, 2nd Battalion, 123rd Armor, based in Bowling Green. The unit mobilized for Operation Iraqi Freedom in March of 2005 and deployed to the Persian Gulf that July.

Master Sergeant Clinton Wayne Cubert

Master Sergeant Clinton Wayne Cubert, 38, died on April 16, 2006 at the Lexington Veterans Affairs Medical Center, Lexington, Ky., of injuries sustained when an improvised explosive device detonated near his armored HMMWV during combat operations in Samarra, Iraq, on Sept. 11, 2005. Cubert was assigned to the Kentucky Army National Guard's 2113th Transportation Company, based in Paducah, during his deployment.

Captain Clayton Lee Adamkavicius

Captain Clayton Lee Adamkavicius, 42, Louisville, was mortally wounded Thursday, April 20, 2006, by small arms fire while investigating an anti-coalition weapons cache discovered near Dihrawud district, Uruzghan Province, Afghanistan. Adamkavicius, a native of California who has been a member of the Kentucky Army National Guard since 1986, was assigned to Headquarters Company, 149th Brigade based in Louisville. Adamkavicius was on his third operational deployment with the Kentucky Army National Guard. His first deployment was to Eastern Europe in 2003 where he served as Commander of Headquarters and Headquarters Company, 2nd Battalion, 123 Armor, in support of Operation Joint Forge at Eagle Base, Tuzla, Bosnia-Herzegovina. In a subsequent deployment to Bosnia in 2004, he served with Headquarters Company, 149th Brigade (Louisville). Adamkavicius had been training Afghan Soldiers when he was killed.

DEPARTMENT OF MILITARY AFFAIRS

ERNIE FLETCHER
GOVERNOR

OFFICE OF THE ADJUTANT GENERAL
BOONE NATIONAL GUARD CENTER
FRANKFORT KY 40601-6168

DONALD C. STORM
MAJOR GENERAL, KYNG
THE ADJUTANT GENERAL

The Honorable Ernie Fletcher
Governor of Kentucky
700 Capitol Avenue, Suite 100
Frankfort, Kentucky 40601

Dear Governor Fletcher:

Herewith transmitted is the Kentucky Department of Military Affairs report covering federal fiscal years beginning 1 October 2005 and ending 30 September 2006 and the state fiscal years beginning 1 July 2005 and ending 30 June 2006 on the activities of the Department of Military Affairs and the Kentucky Army and Air National Guard. It has been a year of great success but also a year filled with great sorrow at the loss of our brothers in arms. We continue to serve the Commonwealth and the nation without hesitation and in the finest traditions.

You can be very proud, as Commander-in-Chief, of the Soldiers and Airmen that you lead. We are not just supporting the Global War on Terrorism but we are at the forefront of the battle in Iraq, Afghanistan and across the globe. The deployments and operations tempo continue to be demanding on our Soldiers and Airmen but it has also been demanding on their families and employers. We owe them a debt we can never repay.

On the home front, we continue to work with a dedication beyond my fondest expectations. It is my great honor to inform you that we are at our post and pursuing our mission to the best of our abilities.

Sincerely,

A handwritten signature in blue ink, appearing to read "Donald C. Storm".

Donald C. Storm
Major General, KYNG
The Adjutant General

Introduction to the Department of Military Affairs

Governor Ernie Fletcher, in accordance with Section 75 of the Kentucky Constitution, is the Commander-in-Chief of the Kentucky National Guard. As Commander-in-Chief, Governor Fletcher has the authority to direct the National Guard to carry out state active duty missions such as assisting in snow emergencies or flooding. Kentucky Revised Statute 36.020 (1) stipulates “the Governor, immediately on his induction into office, shall appoint the Adjutant General”

As the Adjutant General, MG Donald C. Storm is responsible to the Governor for the proper functioning of the Kentucky National Guard and all other military or naval matters of the state as set forth in Chapter 36. He represents the Governor in all military matters pertaining to the Commonwealth of Kentucky. The Adjutant General has a dual role as both head of the Kentucky National Guard and head of the Kentucky Department of Military Affairs as a state agency.

The Adjutant General also has a responsibility to the President of the United States and the Department of Defense to provide a trained and equipped force when called upon for federal missions. Units of the Kentucky National Guard can be ordered to active duty as a part of the Armed Forces of the United States as some units presently are and many have been during the Global War on Terrorism. The Adjutant General is also responsible to the Department of Defense for the accountability of all federal funding and property under the control of the Kentucky National Guard.

Boone National Guard Center is the headquarters for the Kentucky Army and Air National Guard as well as the Department of Military Affairs and the State Emergency Operations Center. The Department consists of 655 acres and 70 buildings of various sizes and functions with both state and federal employees working side-by-side. From this location, the more than 7,000 Soldiers and Airmen that make up the Kentucky National Guard are directed to meet the needs of the Commonwealth and the Nation from their 54 locations across the state.

State Functions

Office of Management and Administration

The Executive Director of the Office of Management and Administration (OMA) functions as the chief of staff for the state agencies within the department. OMA reports directly to the Adjutant General and is responsible for the management of the day to day operations of the state functions. OMA directly oversees Administrative Services Division, Bluegrass Station Division, Facilities Division and the Logistics Operations Center. In addition OMA is responsible for functions impacting the Department such as budget, workforce and legislation. BG (Ret) Julius L. Berthold serves as the Executive Director.

Division of Administrative Services

The Division of Administrative Services plays an integral role in providing and supporting the essential functions required to sustain the mission requirements of the Department. The Division is responsible for personnel management, processing payroll for employees and for National Guard personnel on state active duty, procurement, fiscal and budget activities, and security and fire protection located at the Air National Guard Base in Louisville.

Steven P. Bullard serves as the Division's Director and provides overall general direction and staff supervision to all branches within the Division. Angela Skelton, Assistant Director, provides guidance for the Administration Branch and the Military Records and Research Branch and provides management assistance to all branches of the Division.

Structurally under the direction of Steve Bullard is an Internal Policy Analyst III, assigned to administer the State Military Assistance Trust fund. Effective 1 May 2007, Steve Engles was appointed

to this position. This position is responsible for acting as a liaison between executive and Military Family Assistance Program grant applicants and statutory board members. Also, this position is responsible for initiating budget, accounting and payment documents and assists the executive element in the preparation and presentation of testimony before legislative committees.

The Administration Branch

The Administrative Branch, which consists of Personnel and Payroll, is managed by Ms. Angela Skelton, Assistant Director. The staff of this branch consists of the following individuals: Ms. Crystal Simpson, Ms. Jamie Caldwell, Ms. Teresa Lee, Ms. Susan Yates, Ms. Kim Murray, Ms. Kristi Jones and Ms. Pamela Viterna.

Personnel Section

Ms. Simpson is the Personnel Administrator. She is responsible for personnel administration and supervises the personnel functions of the Personnel Management Specialist III, Ms. Caldwell. The Personnel Management III position is responsible for providing technical assistance in filling vacancies and hiring of employees for the Department. It provides professional support to the Personnel Administrator and staff for personnel concerning personnel matters and serves as Department trainer for the Prevention of Sexual Harassment. Ms. Skelton is responsible for supervising the personnel functions of Ms. Lee, who is responsible for processing personnel actions for our Non-P-1 programs; KY Logistics Operations Division and the KY Youth Challenge Division.

Payroll Section

Ms. Yates is the Payroll Supervisor and is responsible for management of all payroll functions. She supervises Ms. Murray, Ms. Jones and Ms. Viterna. Ms. Murray is responsible for processing the State Payroll and the Non-P-1 payroll for our KY Youth Challenge Division. Ms. Jones is responsible for processing the State Active Duty Payroll. Ms. Viterna is responsible for processing payroll for our Non-P-1 program, KY Logistics Operations Division.

The Administrative Branch manages employment, placement, classifications, salaries, leave, employee relations, training, personnel records maintenance, workers' compensation and other required actions for the Department's 607 (P-1 & Non P-1) employees in FY 06. During the course of a fiscal year, payroll processes 14,568 time sheets for the Department's employees. The Administrative Branch follows the rules and regulations that are governed by KRS (Kentucky Revised Statute) and KAR (Kentucky Administrative Regulation) that pertain to Personnel and Payroll.

The Purchasing Branch

The Purchasing Branch ensures that procurement of all purchases and service contracts are kept within state government guidelines and regulations in accordance with KRS 45A.000, Kentucky Model Procurement Code. The branch is responsible for purchasing and preparing payment documents for equipment, commodities, supplies, services and personal services needed to support the operation and maintenance of the National Guard installations and state facilities throughout the Department. The Purchasing Branch processes some 4,000 payment documents annually.

The Purchasing Branch consists of two employees: Purchasing Section Supervisor, Leslie Stamper and a Purchasing Agent I which is currently in the process of being filled. Ms. Stamper oversees the purchasing for the Department and works closely with the management of the Department to ensure that all purchasing policies and procedures are being followed. This vacant, Purchasing Agent I, handles all the purchasing needs for the Administrative Services Division, Joint Support Operations (JSO) and State Active Duty missions. The position also works closely with the other Divisions within

the Department of Military Affairs and provides assistance to the Purchasing Section Supervisor for the Department.

The Fiscal Branch

The Fiscal Branch is made up of several components: accounts payable, accounts receivable, processing travel vouchers and retention of documents. The staff has been assigned to specific Divisions for various responsibilities in these areas.

Darlene Tupts, Administrative Branch Manager, is responsible for overseeing financial activity in the Fiscal Branch. She supervises and performs personnel functions for three employees. She is responsible for drawdown of Federal reimbursements for Emergency Management, reporting closing financial data for the purpose of preparing the Commonwealth's Comprehensive Annual Financial Report, federal quarterly reports and Schedule of Expenditures and Federal Awards.

Kim McKinney, Program Coordinator, is the Procard Administrator for the Department of Military Affairs. She processes transactions for 42 Cardholders. Total amount processed for FY06 was \$1,003,854.70.

Vickie Manley, Accountant IV, processes travel vouchers for Division of Facilities, Division of Bluegrass Station and Division of Air Transport. She receives and processes cash receivables for these Divisions as well.

Laura Malena, Administrative Specialist, III, is responsible for processing all travel vouchers and all other documents related to State Active Duty. She is responsible for processing utility and telephone bills for Division of Emergency Management, reviews and supports the Division of Youth Challenge and KY Logistics Operations in various document transactions and reimbursements.

The Security Branch

The Air Security Section is responsible for maintaining security operations for the KY Air National Guard Base in Louisville. This section consists of (11) eleven employees and is managed by Kenneth J. Bishop, Security Force Manager.

The Firefighter Section provides fire protection services to the KY Air National Guard Base in Louisville for the protection of life and property from aircraft mishaps, fire, accident, and other emergencies. This section consists of (7) seven employees and is supervised by Msgt Terry Tate.

The Military Records and Research Branch (MRRB)

The Military Records and Research Branch (MRRB), located in Pine Hill Plaza, 1121 Louisville Road in Frankfort, is the Archive for the Department of Military Affairs. Its holdings consist of discharge documents for over 300,000 Kentucky veterans from all conflicts since WW I through Operation Iraqi Freedom, as well as service records of the state's Soldiers who served in The War Between The States, both Union and Confederate. It also contains historical records of all Kentucky Militia and National Guard units from 1792 to the present. In excess of 75,000 inactive 201 files on former members of the Kentucky Army and Air Guard are maintained by MRRB as well as a military research library of over 1,000 volumes. In addition, we receive and hold inactive records from the Department of Military Affairs until they are transferred to the State Records Center or until their destruction date is reached. The staff of four assists veterans, historians, recruiters, genealogists, other government agencies, and our own department in accessing information within MRRB's holdings, and maintains a standard of same-day service for most requests.

The staff is unchanged from the last reporting period, consisting of Branch Manager Evan Miller, Admin Specialist III Kathy Gortney, Archivist III Brandon Slone and Admin Specialist II Frank Dorten.

All staff share in the work of in processing and retrieving documents and customer service. In addition, Mr. Slone is our branch historian who handles all requests for historical research and documents from early statehood to WWI. During this reporting period, all 201 files of former Kentucky Guardsmen born between 1941- 45 were transferred to Kentucky Department for Libraries and Archives (KDLA) for microfilming and a number of the completed films have been received by MRRB. Currently, KDLA is performing quality control and retakes, after which the remaining films will be sent to MRRB.

Forty-three boxes of 1379s covering years 1995 through 2003 and nine boxes of DD-214s from the years 2000 through 2004 were prepared for microfilming. Twenty-nine boxes of flight records were transferred to the Transportation Cabinet when the Capital City Airport was transferred from DMA to Transportation. Currently, 201 files of former Guardsmen born from 1946 - 50 are being screened and prepared for microfilming.

MRRB continues, with few exceptions, to provide documents to eligible requestors on a same-day or next-day basis. We service requests for Privacy Act covered records on a walk-in basis, via fax, conventional mail, or email (with scanned signature), and all other requests by those methods as well as by phone.

Facilities Division

The Division of Facilities' mission is to "provide adequate armories, buildings and grounds for the Kentucky Army and Air National Guard" as stated in Kentucky Revised Statutes (KRS) 36.080. To realize this goal, the Division will "construct or acquire . . . armories, buildings or grounds . . . and make additional and improvements in such armories and facilities." In addition, the Division is required to "provide heat, light, water and other costs of operation and maintenance, including insurance." The funding for these operations comes from both the State and Federal governments.

KRS 36.070 grants the Division's Director, Joe Wilkins, the authority to "make contracts, [and] acquire real and personal property . . .". The Director of the Division must be "experienced in the administration of real property."

The federal Construction and Facilities Maintenance Officer (CFMO), MAJ Brian Demers, is responsible for the federal budget, design supervision, and all other areas of real property funded by the National Guard Bureau (NGB).

The Division employs 145 state employees. These employees work at the armories and training sites throughout the Commonwealth. These employees perform various functions including administration; skilled trades such as plumbers, electricians and carpenters; security; supplies; and custodial maintenance. Of those 145 employees, 111 employees are reimbursed to some extent by NGB.

The Division maintains the Kentucky Army and Air National Guard sites including 12,500 acres owned by the Commonwealth and an additional 733 leased acres. Furthermore, there are over 300 buildings, valued in excess of \$150 million, supported by the Division. This includes managing the environmental compliance and planning activities of the above. The Division also maintains all state owned vehicles and equipment one ton and over.

During the State Fiscal Year (SFY) from 1 July 2005 through 30 June 2006, the Division completed 1,515 work orders for a total expense of \$4.3 million.

The Division is also responsible for reporting the receipts and expenditures for the Installation Management Fund of each armory. KRS 36.085 and 36.086, and DMA Policy 210-8, authorizes the armories to maintain a local bank account from monies received for the use of the armory by nonmilitary organizations. The custodians of the accounts use these funds for minor maintenance and repair.

Significant Events

- Completed construction of the Morehead Readiness Center.
- Completed construction of the Fire Team Readiness Center located at the Wendell H. Ford Regional Training Center (WHFRTC) in Greenville, KY.
- Completed an addition and partial renovation to the Richmond Readiness Center.
- Completed major renovation of the VETS Building (J6).
- Completed CFMO office space addition to the Division of Facilities' building.
- Upgraded the HVAC system at the Ashland Armory, Tompkinsville Armory, Marion Armory and AASF.
- Completed partial renovations to the Danville Armory, Hanger 1 at AASF, Harrodsburg Armory, Elizabethtown Armory and the Buechel Armory.
- Performed roof replacements at the Danville Armory, Glasgow Armory Drill Hall, Lexington Armory, London Armory, Louisville Fairgrounds Armory, Russellville Armory, Murray Armory and the Walton Armory.
- Upgraded electric at the State Arsenal (Kentucky Military Museum) and the Hopkinsville Armory.
- Constructed two cold storage buildings at the WHFRTC.
- Replaced the chillers and controls at the Ravenna Armory and the Walton Armory.
- Purchased 4,200 leased acres adjacent to WHFRTC.
- Transferred ownership of the Capital City Airport to the Transportation Cabinet.
- Replaced the drill hall floor at the Glasgow Armory.
- Initiated two design/build projects for one \$15,000,000 Armed Forces Reserve Center in Paducah and one in Richmond.

Division of Air Transport

The Division of Air Transport has 20 full time and 1 interim employees that perform the following missions in accordance with KRS 36.410:

- Manage and operate the Capital City Airport and provide hangar and tie-down spaces, fuel and repair and/or services for 17 state, 3 federal, and an average of 55 private aircraft based at the airport.
- Oversee the maintenance and care for all state owned aircraft.
- Control the scheduling and operational use of state aircraft, including air charters; and
- Collect from using agencies and officers the costs of operating state aircraft, including air charters.
- Provide aircraft and customer service for all transient aircraft.

Flight Operations:

During FY 06, the Flight Operations section conducted 521 state flights and flew a total of 1,728 accident free flying hours with state aircraft. The section also coordinated 14 chartered flights.

Aircraft Maintenance:

The Aircraft Maintenance Section performed a myriad of maintenance related services on the state's fleet of 17 aircraft. This section supported 1,728 accident free flight hours on the Division of Air Transport's 9 organic aircraft. This section also maintained aircraft belonging to the Department of Aviation, Kentucky State Police, Department of Natural Resources and Agriculture Commission.

Capital City Airport Operations:

The Capital City Airport Operations Section managed over 66,000-sq. ft. of aircraft hangar space with 58 long-term leases plus 5 for transient aircraft. The Airport has a total of 63 (21 T-Hangar, 27 Hangar and 15 tie down) spaces for lease with a 99 % occupancy rate on all permanent hangar leases. There were 220,768 gallons of fuel pumped into aircraft during 2006. Two National Guard aviation units (Detachment 11, Operational Support Airlift Command and Detachment 3, H Company, 171st Aviation Regiment) are also stationed at Capital City Airport. There were an estimated 49,200 aircraft operations conducted at the Capital City Airport.

Significant Events

- Eagle Wings Flight School trains new pilots who want to earn their pilot wings. They trained several new students last year.
- The Kentucky Skydiving Center trained several students during 2006 making it another successful year with 90% of all customers coming from outside Franklin County.
- Division of Air Transport pilots flew 127 flights and 737 flight hours, using OH-58 military surplus helicopters, to help eradicate illegal drugs in support of the Governor's Marijuana Strike Force.
- Began the Runway Extension project scheduled for completion in 2QTR of FY 07. The runway and taxiway will be extended from 5000' to 5500' useable runway length. This project also includes Runway Safety Area improvements, relocation of the Hawkeegan Drive, and confirmation that Baxter Cemetery on the NE end of airport property did not exist. (\$3.9M)

- Began construction on 20 new T-Hangars which are scheduled for completion in 2QTR of FY 07. These new units will satisfy the demand for secure aircraft storage facilities at the Capital City Airport. (\$1.35M)
- Made significant avionics improvements to Division of Air Transport aircraft.
- Purchased three of six privately owned properties along US Highway 60 and Meadowview Lane which joins airport property and will promote future growth.
- Agreed to give the Justice and Public Safety Cabinet a parcel of land along airport road to build an administrative building for the Kentucky State Police.

Future Projects

These projects are all under consideration and development:

- Replace/Construct approximately 16,500 linear feet of boundary/security fencing on the airport property.
- Build five community type hangars to meet corporate/private demands.
- Construct a new terminal building.
- Install Instrument Landing System (ILS).
- Renovate infrastructure, i.e., roof replacements (Hangars 402 & 405), upgrade HVAC system (Building 400), etc.
- Renovate the interior of building 400.
- Give the outward appearance of all airport buildings a uniform appearance by painting or refinishing the metal covering on each building.
- Move the fuel farm to a location that will better serve the future development of the airport.
- Expand aircraft parking areas to support additional aircraft tie downs and reduce congestion on the ramp.
- Build an aircraft wash rack that meets environmental standards.
- Build a covered storage facility to preserve the life of airport vehicles and equipment.
- Reinforce designated aircraft parking areas and aircraft run-up areas to prevent damage to the pavement by heavy aircraft.
- Complete the Capital City Airport Master Plan and Airport Layout Plan.
- Purchase remaining three properties along US Highway 60 and Meadowview Lane.
- Continue to upgrade and replace the current fleet of aging aircraft.
- Install Closed Circuit Television (CCTV) system with digital video recorder to help mitigate security risks to general aviation operations at the Capital City Airport.
- Enhance the airport Snow and Ice removal plan by purchasing additional equipment.

Aviation Day - Hands-On Event Unique To Central Kentucky

The Capital City Airport hosted the Eighth Annual Aviation Days in Frankfort on September 9 & 10, 2005 with an estimated attendance of 8,000 to 10,000 visitors. Friday night activities began with the Farmers Bank Summer Concert Series featuring No Tools Loaned. Food vendors were on hand and Cliff Robinson and his Stearman Biplane performed aerobatics. There were also arts and crafts booths. The Friday night event included a hot air balloon glow. In addition there was a variety of military and historic aircraft and equipment on display. Saturday's events began with the arrival of a Kentucky Air National Guard C-130. Cliff Robinson and his Stearman Biplane performed aerobatics. Throughout the day members of the Kentucky Guard provided demonstrations utilizing UH-60 Blackhawk helicopters and provide static displays. Aviation Day raised \$2,084.50 through private pilots who provided airplane rides and donated the profits to the Frankfort Soup Kitchen. Aviation Days was sponsored by: Kentucky Division of Air Transport; Capital City Airport; Farmer's Bank and

Trust Corporation, Frankfort; Kentucky National Guard; Kentucky Historical Society and Frankfort, Franklin County Tourism Commission.

Reorganization

The Division of Air Transport was reorganized effective June 15, 2006 by Executive Order 2006-681. The Division of Air Transport within the Department of Military Affairs, General Government Cabinet was abolished. All personnel, files, records, equipment, functions and funds assigned to the Division of Air Transport were transferred to the Department of Aviation, Transportation Cabinet. Also, the name Division of Air Transport was changed to Capital City Airport Division effective the same date.

2006-681
June 19, 2006

ABOLISHMENT OF THE
DIVISION OF AIR TRANSPORTATION
IN THE DEPARTMENT OF MILITARY AFFAIRS,
GENERAL GOVERNMENT CABINET

WHEREAS, the Commonwealth of Kentucky has always promoted effective and efficient management of state government operations; and

WHEREAS, the Governor of the Commonwealth of Kentucky is empowered by the General Assembly under KRS 12.028 with authority to reaffirm, establish, rename, or delete the organization of any agency or statutory administrative department;

NOW, THEREFORE, I, Ernie Fletcher, Governor of the Commonwealth of Kentucky, by virtue of the authority vested in me by the Constitution and KRS 12.028, do hereby order and direct the following:

- I. The Division of Air Transportation within the Department of Military Affairs, General Government Cabinet is hereby abolished. All personnel, records, files, equipment, functions and funds heretofore assigned to the Division of Air Transportation are hereby transferred to the Transportation Cabinet.
- II. The Transportation Cabinet, the Finance and Administration Cabinet, the Personnel Cabinet, the Office of the State Budget Director and The Adjutant General of Kentucky, Department of Military Affairs shall take all necessary action to effectuate this Order.
- III. This Order is effective June 16, 2006.

ERNIE FLETCHER
Commonwealth of Kentucky

TREY GRAYSON
Secretary of State

Bluegrass Station Division

The former Lexington Blue Grass Army Depot, now known as Bluegrass Station, consists of 780 acres, more than 2.1 million square feet of space in 111 buildings, 17 miles of paved roads, 27 acres of paved parking lots, its own water and electrical systems, a wastewater treatment plant, and rail lines. The United States Army is in the final phase of deeding all of the buildings and utility systems to the Commonwealth of Kentucky. In the interim, the Army has granted a sixty-year lease to the Commonwealth.

Vision Statement

Develop, expand, and maintain a Business Complex that will attract new business (es) for the Commonwealth of Kentucky that will provide a positive impact on the socioeconomic growth of the local community.

Mission Statement

To provide quality facilities and services at a safe complex that will meet the needs of the tenants while ensuring the Commonwealth's interest is preserved.

Functions

The Division's employees are charged with the following administrative and operational responsibilities to meet the needs and demands of its customers:

- Building maintenance and modifications;
- Grounds maintenance and landscaping;
- Marketing of available space;
- Administration of lease agreements;
- Environmental support and control;
- Telecommunications;
- Postal service;
- Utilities maintenance and coordination;
- Roads maintenance, including snow removal;
- 24-hour security; and
- Solicitation and oversight of construction activities.

In addition, the Division's electricians, plumbers, carpenters, and other maintenance professionals stand ready to meet any special needs of Bluegrass Station's tenants.

The revenues generated through leasing exclusively funded the Division's annual expenses of \$5.6 million in FY03, \$6.0 million in FY04 and \$7.0 million in FY05, and 6.5 million in FY06. The facility has been self sufficient, that is, operating without the benefit of General Assembly appropriations, since July 1996. This has necessitated an aggressive management style to ensure tenant relationships remain healthy and profitable. This effort have created a desirable environment for stable, long term tenants, and in the last few years has resulted in significant expansion of the operations of some of Bluegrass Station's established tenants.

Significant Activities

Bluegrass Station's 36 tenants employed over 2,200 full-time Kentuckians and leased/occupied 2,154,158 square feet of building space and 253 acres of land at the end of FY06. Bluegrass station

occupancy rate exceeds 99% for FY06. For the past five years, each year the occupancy rate has increased. In FY05 the occupancy rate was 98%, similar to the FY04 rate, and an increase over the 97% occupancy rate at the end of FY03 and 91% at the end of FY02.

Bluegrass Station's tenants include local, state, and federal governmental agencies; federal contractors; private commercial enterprises; and housing residents. The facility's largest employer, with over 1,200 personnel, is the Special Operations Forces Support Activity (SOFSA), which operates under a government-owned, contractor-operated format. The current contractor is L3 Communications, which is in the second year of a 10 year contract worth up to \$1.5 billion.

The Kentucky Logistics Operation Center (KyLOC) leases 564,381 square feet of Buildings 4, 6, 14, 15, and 17 for the 260 employees of the National Guard Materiel Management Center (NGMMC) and the Central Clothing Distribution Facility (CCDF) to perform their operations.

The NGMMC's mission is to order, store, and distribute wheel and track vehicle and aircraft repair parts for National Guard units all over the United States.

The CCDF's mission is to distribute military clothing quickly and efficiently to 350,000 Army National Guard Soldiers; 43,000 Marine Corps Reservists; 24,000 Seabees; and 93,000 Naval Reserve members, throughout the U.S. and its territories. The CCDF also added Air National Guard and Active Army Soldiers in Afghanistan and Iraq to their responsibilities in FY04. The CCDF's other programs include Chemical Defense Equipment (CDE) and Special Projects for the distribution of clothing to the National Guard Bureau.

Some other notable tenants located at Bluegrass Station include the following:

- American Venture Industrial Co. – Industrial sheet metal fabricator.
- FORSCOM Logistics Readiness Center's contractor is Lear Siegler Services Incorporated – Wheel and track military vehicles maintenance and installation of add on armor.
- Rogers Aluminum, Inc. - Vinyl window manufacturer.
- Hinkle Contracting Corporation – Heated asphalt oil storage and distribution (using Bluegrass Station's rail lines).
- Pieratt's, Inc. – Appliance and furniture distributor for Pieratt's retail stores.
- Radio Equipment Company, Inc. (RECO) – Repair and rebuild Radio equipment.
- Thermo Spray of Lexington - Spray-on insulation contractor.
- Roaden & Company, LTD – Furniture distribution for LA-Z-BOY Furniture Galleries.
- Various units of the Kentucky State Police and Kentucky Army National Guard.

There were many positive developments at Bluegrass Station in FY06, including:

- SOFSA operations continue to rapidly expand. Completion of the 60,000 square foot aircraft modification facility was completed in April 2006. The number of SOFSA employees has increased by more than 300 since this facility was opened.
- Bluegrass Station officially began 24 hour fire protection in March 2006. There are eight permanently assigned firemen at Bluegrass station's Fire House No. 23. To support these firemen, there is a fire truck for residential and commercial use and a crash truck for aircraft accidents permanently assigned Bluegrass Station. The new fire station represents a tremendous benefit to Bluegrass Station tenants, and also serves the surrounding community, greatly improving the Fire Department's response time to incidents in the area.
- FY06 saw the completion of the upgrade of building 1, start of the construction of a 40,000 square foot warehouse, painting of numerous buildings around Bluegrass Station, and replacement of numerous overhead electrical wires.
- The Division funded a master plan, conducted a hydraulic water analysis to determine estimated cost of upgrading the fire suppression and domestic water system, and identified funding priorities at Bluegrass Station over the next several years.

The Future

Bluegrass Station has grown far beyond the goals set when the Commonwealth assumed responsibility for the facility 10 years ago. The facility has been near 100% occupancy for several years; however, the Division continues to look for growth and funding opportunities to upgrade existing facilities and expand the infrastructure into undeveloped land. The expansion of the hangar complex for SOFSA's aviation programs is expected to continue, and Bluegrass Station staff will continue to work closely with current customers to meet their needs. A major priority for FY07 will continue to be upgrading utilities and infrastructure, including water distribution, electric service, roofs and roads. The Division eagerly anticipates these opportunities for growth and improvement, and any other new challenges and opportunities that come its way.

Logistics Operations Division

Mission:

The Kentucky Logistics Operation Division (KY LOC) is tasked to develop, manage and operate individual logistics' projects that provide a high benefit vs. cost to the sponsor agency with improved customer service and readiness for the War Fighter.

Major Functions:

The Kentucky Logistics Operation Division currently manages the following projects that consist of an annual budget of \$25.3 million and employs 285:

The National Guard Material Management Center (NGMMC), a partnership with NGB, is a fully funded National Guard Bureau (NGB) Program, which distributes ground and air repair parts to all fifty-four states and territories. In the past nine years, the NGMMC has provided NGB a 5.3 to 1 return on its investment. The KYARNG has received over \$7.9 million in free repair parts from this program. Other programs which are presently included in the NGMMC umbrella is the central distribution of all Organizational Clothing and Individual Equipment (OCIE) to all states and territories, along with Improved Physical Fitness Uniforms (IPFU), Extreme Cold Weather Clothing System (ECWCS), modular sleeping tents and modular sleeping bags. A new initiative developed by the NGMMC is the "Like New – Free" clothing program where states send used uniforms to the NGMMC. These used uniforms undergo an intense inspection and must pass rigid standards before being redistributed upon request to the customer at no cost. This program has resulted in a savings of over \$2,969,080.42. In addition, the NGMMC manages a contingency storage of critical items of supplies needed during times of national disasters such as hurricanes and floods that can be provided to needed States and agencies within 24 hours.

The second partnership was formed by the Kentucky Logistics Operation Center (KY LOC) and NGB with the Defense Supply Center Philadelphia (DSCP) to distribute clothing to Army National Guard Soldiers across the nation. Taking a page from the best practices of the business world and applying them to how the DOD does business has created a Land's End type internet catalog ordering system for military clothing. It is estimated that the program saves the ARNG \$10 million

annually. Building on the success of the ARNG, the program has expanded to include the Marine Corps Reserve with an estimated savings of \$300,000 annually and the Naval Reserve Force Command estimates an annual savings of \$1.2 million to include the 24,000 Naval Construction Brigade (SEABEE) members. The AMPHIBS with 3,000 amphibious SEABEE members and the 107,000 Air National Guard members with an estimated savings of \$615,000 and 8,000 personnel of the Naval Special Warfare (SEALS and Naval Coastal members).

Effective February 2005, sustainment of war fighters in the Afghanistan and Horn of Africa AOR is being done through the Army Direct Ordering program. Implementation of the Army Direct Ordering Program began for war fighters in the IRAQ August 22, 2005. In addition, support to 207,000 members of the Army Reserve began October 1, 2006. More than 35.0 million dollars worth of inventory is stored at KYLOC in support of 967,000 Soldiers, sailors, marines and air personnel.

Kentucky National Guard Youth ChalleNGe Program

The Kentucky National Guard Youth ChalleNGe Division provides effective and efficient oversight and management of the National Guard Youth ChalleNGe Program efforts in Kentucky. Bluegrass ChalleNGe Academy is one of 30 nationwide programs offering second chance opportunity to At Risk Youth. ChalleNGe operates as a 60% Federal and 40% State match program administered through the Department of Defense and the Kentucky National Guard. The purpose of the program is to allow Kentucky's at-risk youth to participate in a wholesome and disciplined environment in which they can have positive, life-changing experiences and educational opportunities leading to employment. Approximately 10,000 Kentucky students drop out of school each year prior to achieving a high school education. In today's competitive society, the failure to earn a high school diploma can be devastating. It often means difficulty in finding a quality job, disrespect for fellow citizens, and a tendency toward dishonest or unlawful behavior that could lead to confinement. Without positive intervention, the behavior of Kentucky's "at-risk" youth results in ongoing social and economical burdens for all of our citizens.

Kentucky's ChalleNGe Program (also known as "Bluegrass ChalleNGe Academy") is a voluntary, rigorous 22-week military model development and training program conducted at Fort Knox, Kentucky. Staff members, including cadre, teachers and support staff, work to guide the youth through a core program of 200 hours of instruction in basic high school math, reading, writing, social studies and science. Other features of the Academy include physical fitness training, community service and work projects, career skills planning, health and drug abuse awareness, job training, self-discipline and leadership training.

The program is voluntary and participants must meet the following criteria: at least 16 but not yet 19 years of age at the time of entry into the program; a high school dropout who has not attained a GED diploma; a citizen or legal resident of U.S. and Kentucky; free from use of illegal drugs or substances; free of serious involvement in the criminal justice system (no felony convictions); physically and mentally capable of completing the program; unemployed or underemployed; and pass a medical screening during the first week of the program.

Participants who successfully graduate from the Academy receive Placement support and active mentor support for twelve months following residential graduation. The mentor is nominated from the graduate's community acts as a counselor to help the youth transition into a job or continue his/her

technical training or education. Prerequisites for a mentor are: male mentor for male graduate; female mentor for female graduate; mentor cannot be a relative; and mentor should be easily accessible to the graduate (live within a reasonable distance so that personal contact is possible). Mentors are screened and trained during the Residential Phase of the program.

Fifteen residential classes have been completed as of December 2006. Kentucky Youth ChalleNGe has 1222 graduates among its alumni. The last two classes have 184 graduates participating in the year long Post-Residential Phase of the Program. The academy has experienced an average placement rate in excess of 80% over the past seven years. Placement included full time jobs, continuing education and part time jobs, enlistment in military service, and approved volunteer activities.

The staff of the Department of Military Affairs is proud of our involvement this tremendous challenge and worthwhile endeavor of adding value to Kentucky's at-risk youth so they can become productive and valued members of our society.

The National Need:

- 1 Million students drop out of High School each year.
- Nearly 30% of dropouts are unemployed, and 24% are on welfare.
- 33 Million Americans, ages 16 – 24 do not have a high school diploma.
- 1 in 4 babies are born to high school dropouts.
- Approximately 67% of all incarcerated persons are high school dropouts.

Bluegrass ChalleNGe Academy is providing Kentucky's At Risk Youth a second chance to become the citizens they, and their parents, wanted to become.

Division of Emergency Management

Emergency Management shares the Governor's vision to, among other things; coordinate a system of preparedness, response, recovery, and mitigation and protect the lives, environment and property of the people of Kentucky.

We believe, as does Governor Fletcher, that the Commonwealth of Kentucky is one of the best places in the world to live. It is our goal to do everything we can to influence others by our actions to share that belief as well.

Emergency Operations Center during a briefing in the midst of the Brethitt County Plane Crash response.

Operations

KYEM maintains a 24/7 vigil through the Emergency Operations Communications Center (EOCC) and coordinates requests between the local authorities and state and federal agencies during times of emergencies and disasters through the Emergency Operations Center (EOC). KYEM operates 14 statewide Area Offices with an Area Manager in each to serve as liaison.

Bullitt County Train Derailment

Frankfort Crime Lab Hazardous Materials Incident

July 29, 2005

- 7:20 AM an unknown substance was discovered in a supervisor's office.
- 8:20 AM Facilities Management personnel reported the incident to the KyEM Area 14 Manager who notified the State Emergency Communications Center and Frankfort/Franklin County 911 and asked for the activation of HazMat 14.
- Upon arrival the KYEM Area 14 Manager learned the potentially contaminated personnel had been moved from the second floor through the central lobby to the "Press Room" on the first floor and ordered all personnel who were or had been in the lobby isolated.
- The 41st Civil Support Team was requested to assist with substance identification.
- National Incident Management System functions utilized during this response: Command and Management, Resource management and Communications and information management.
- Participating Agencies:
 - Kentucky Division of Emergency Management
 - Frankfort Fire
 - Frankfort Police
 - HazMat 14(city and county)
 - Franklin County Fire/EM
 - 41st Civil Support Team
 - Department for Public Health (multiple branches)
 - State Fire Marshall
 - Facilities Security
 - Frankfort Regional Medical Center
 - Department of Facilities Management
 - Kentucky State University
 - Bluegrass Transit
 - Kentucky State Parks
 - American Red Cross
 - Kentucky Community Crisis Response Board
 - Franklin County Sheriff
 - Department of Environmental Protection
 - Kentucky State Police
 - CDC-Kentucky Representative

Hurricane Katrina/ Rita August 29, 2005

- Support of Hurricanes Katrina and Rita resulted in the largest and longest activation in Kentucky Emergency Management history. American Red Cross shelters were opened in anticipation of receiving upward of 6,500 evacuees from the New Orleans area, however, these numbers never materialized. Volunteer Organizations Activated during Disasters (VOAD) supported donation drives through collection centers.
- Assistance was made available to state and eligible local governments for emergency protective measures that are undertaken to save lives and protect public health and safety. Emergency protective measures, including direct federal assistance, at 100 percent federal funding.

Kentucky provided housing for over 375+ evacuees through various sponsors to include HUD, Kentucky Housing, County and City Governments.

- The Commonwealth deployed over 700 first responders with over 84 missions and expended over \$5 million in reimbursement expenses. The Single resource deployments of previous years ballooned into 20 member Strike Teams with equipment and support supplies spanning weeks and months with multiple turnovers in personnel. The Commonwealth deployed assets to become the only functioning Fire Departments, Police Departments, Local Health Departments and even full staffing of local prisons in the areas impacted by the Hurricanes.
- At the one-year mark since Hurricane Katrina struck the Gulf Coast, the Federal Emergency Management Agency (FEMA) had awarded about \$10.7 million to the storm's evacuees in Kentucky for rent, personal property replacement, health and medical, and other approved expenses.

Severe Weather Outbreak November 15, 2005

- On November 15, 2005 three lines of strong to severe thunderstorms moved west to east through the Commonwealth producing heavy amounts of rainfall, which caused flooding, thunderstorms, and several confirmed tornadoes.
- The tornadoes resulted in the loss of one life and numerous personal injuries, power and water outages, loss of communications, damage to public and private property and road closures due to debris.
- Requested and approved Individual Assistance for Hopkins and Marshall counties.
- Registration intake activities as of close of business at the JFO 12/10/05:
- Cumulative Registrations 296
 - Housing Assistance \$ approved \$148,869.31
 - Rental Resources cumulative total 290
 - Other needs assistance cumulative \$ approved \$92,990.23
 - Assistance checks issued for total \$ assistance \$114,179.09

Tornadoes January 2, 2006

- The most destructive widespread weather event of 2006 took place on the second day of the year. Powerful thunderstorms rolled across central Kentucky and south central Indiana on the afternoon of Monday, January 2, 2006. In addition, there were many reports of wind damage, large hail, and heavy rain. Elizabethtown was the hardest hit community; with F2 damage from a tornado a few miles north of downtown along US 31W. F2 tornadoes also occurred in Lincoln and Adair counties.

Tornadoes and widespread severe weather April 2, 2006

- Four waves of storms affected the region on the evening of Sunday, April 2. The first cluster of storms affected areas primarily east of Interstate 65 from about 4pm to 8pm. A squall line with powerful winds, called a "derecho", roared up the Ohio River valley through Louisville and into the northern sections of the Bluegrass, and was responsible for one of the area's two tornadoes of the day (in Shelby County). At the same time, large individual thunderstorms, called super cells, charged across southern sections of Kentucky, and produced the day's second tornado (in Logan County).
- A tornado of F1 strength briefly touched down north of Shelbyville, Kentucky, in Shelby County. Wind speeds reached 100 mph, the path length was 2 miles, and the path width was 450 feet. There were no injuries or fatalities.

Tornado April 7, 2006

- One of the years' strongest tornadoes, an F2, touched down in Barren County and moved into Metcalfe County around 4pm. Fifteen to twenty homes were destroyed, mainly in the Temple Hill area. Another dozen or so homes, along with barns and outbuildings, sustained heavy damage. Four people in the area were treated for minor injuries. The tornado formed about a mile northeast of Temple Hill just south of Barbour Road. The tornado reached its peak intensity near the intersection of Moore Road and KY 839.

Planning and Preparedness Branch

National Plan Review

- The Commonwealth's participation in the National Plan Review (NPR) of the Kentucky Emergency Operations Plan (EOP) was a major event for the KyEM Planning and Preparedness Branch during FY 2006. This assessment was the result of a Presidential directive to improve the nation's catastrophic planning after hurricanes Katrina and Rita. The full review consisted of two parts: a Self-Assessment of the EOP coordinated by the KyEM Planning and Preparedness Branch and a Peer Review of the EOP and State agency supporting plans conducted April 26-27, 2006 by a federally contracted team of evaluators. The ratings were based on three qualitative levels of assessment; "Sufficient", "Partially Sufficient" and "Not Sufficient". The rankings of the Kentucky EOP are as follows:

Sufficient	Partially Sufficient	Not Sufficient
30	13	2*

* One "Not Sufficient" ranking reflects a nationwide problem of tracking large numbers of patients while meeting HIPA requirements and the second indicates the plan's ability to address priorities, costs, activation and employment of resources.

FY 2006 Planning Guidance

- During FY 2006 the KyEM Planning and Preparedness Branch provided technical staff assistance and planning guidance to all 120 counties on the review and update of their local Emergency Operations Plan (EOP), Emergency Resource Inventory Listings (ERIL), and Emergency Operation Center Standard Operating Procedures (EOC SOP). The purpose of the guidance was to review local evacuation plans with an emphasis on citizens with special needs that would require assistance in evacuating; staging areas for large scale evacuations and coordination of the EOP with Health Department Disaster Preparedness Planners as it relates to the Strategic National Stockpile and CHEMPACK deployments. The updates for this fiscal year were completed by September 2006.

SARA Title III Planning

- Thirty-nine (39) Superfund Amendments and Reauthorization Act (SARA) Title III plans, covering procedures for local government to respond to extremely hazardous materials, stored, processed, transported or manufactured in Kentucky, were reviewed by the KyEM planning staff and approved by the Kentucky Emergency Response Commission.

Preparedness Planning

- Technical surveys were completed for severe weather/tornado shelters for the following facilities: Kyrock Elementary School, Edmonson County; Christian Appalachian Project, Johnson County; Pine Knott Elementary, McCreary County and Whitley City Elementary, McCreary, County.

WMD Legacy Grants

WMD Grant – FY2003 State Homeland Security Grant Program Part I — As of the date of this report all funds directly allocated to the Counties to purchase equipment have either been expended or have been reallocated for final expenditure within the remaining extension period granted as of 1 July 2006. This project has been instrumental in giving the Counties the assistance needed to enhance local capability and to provide the best support possible for the citizens of the Commonwealth.

All state funds that had been reallocated under the current Grant extension for expenditure by County agencies have been expended. These funds have been used to purchase a county interoperable data link system for Ohio County, upgrade the Henderson County Emergency Operations Center with advanced, redundant communications and data processing equipment, upgraded communications on the Louisville/Jefferson County Metro-Safe Mobile Command Post and purchased an additional equipment trailer for the Emergency Management Area 2, WMD/HAZMAT Regional Response Team.

All funds allocated for purchase of equipment by the Weapons of Mass Destruction/Hazardous Material Regional Response Teams (WMD/HAZMAT RRT) have been expended except for \$2,296.60. The \$2,296.60 in remaining funds will be reallocated for additional projects to be finished within the current grant extension period. Funds expended during this period were \$286.00 for logistical support to WMD/HAZMAT RRT 11.

The remaining Planning funds allocated under this grant are being used to support the Kentucky WMD/HAZMAT RRT State Planning Council. This group is made up of representatives of each of the 14 Teams and is working to standardize response, training and exercise plans in support of the Regional Teams. All remaining funds will be expended during the grant period.

The funds allocated under this grant for Exercise and Training continues to support Regional and Local Exercise and Training events across the Commonwealth. The Kentucky Department of Agriculture's on-line Agro-terrorism Awareness Project (<http://www.kiprc.uky.edu/trap/agro/index.html>) has continued to be a great success with over 50,000 registered users having taken and completed the on-line awareness course and hundreds more receiving the course via CD.

Mitigation

Hazard Mitigation is any action taken to eliminate or reduce the long-term risk to human life and property from natural and technological hazards. While preparedness and response may focus primarily on reacting to a disaster itself, mitigation is a continuous activity intended to make families and communities more disaster-resistant.

The Kentucky Division of Emergency Management's State Hazard Mitigation Office for State FY2006 administered four grant programs: Hazard Mitigation Grant Program (HMGP), the Pre-Disaster Mitigation Grant Program (PDM), the Flood Mitigation Assistance Grant Program (FMA) and the Repetitive Flood Claims Grant Program (RFC). The State Hazard Mitigation Office is also responsible for all hazard mitigation planning activities at the local and state level.

Hazard Mitigation Projects

HMGP: Following a Presidential disaster declaration, the Hazard Mitigation Grant Program (HMGP) provides funding to the State for projects to reduce damages, losses and suffering in future disasters. The intent of HMGP is to provide a federal, state and local partnership in developing and funding mitigation projects.

During state fiscal year 2006, one event received a Presidential disaster declaration in Kentucky, involving 2 counties, Marshall and Hopkins. The event and the HMGP funding provided to the state from it are summarized below.

Disaster designation:	Declaration date	Type of Event	Estimated Available Funding	
			Federal	Total project
DR-1617	12-01-2005	Rainfall, Flooding, Tornadoes, Damaging Winds	\$46,820	\$62,427

DR-1617 led to three projects: A single house acquisition/demolition in Hopkinsville; 70 NOAA weather radios for Marshall County and A siren decoder for the city of St. Charles.

Pre-Disaster Mitigation Program: The Pre-Disaster Mitigation Program (PDM) provides funds to the State for pre-disaster mitigation planning and the implementation of cost-effective mitigation projects prior to a disaster event. The PDM program is a nationally competitive program. There is no state allocation and no national priority for projects. The PDM program is funded on an annual cycle. For PDM FY2006 Kentucky had three projects chosen for pre-award activities, including:

Project	Federal Share	Total
City of Hopkinsville Buyout Project (to include four repetitively flooded homes on Riverwood Drive)	\$ 328,455	\$ 437,940
Bradfordsville Community Storm Shelter (to provide a tornado shelter in the Senior Citizens Center)	\$ 265,500	\$ 295,000
University of Kentucky Multijurisdictional Hazard Mitigation Plan	\$ 192,265	\$ 256,354

Hazard Mitigation Planning

The Disaster Mitigation Act of 2000 mandates that, as a condition of being eligible to receive disaster assistance after November 1, 2004 each state must have a statewide Mitigation Plan that meets

FEMA standards. In addition, any community seeking to apply for a mitigation grant must have a FEMA approved mitigation plan by the same deadline.

By the close of the fiscal year, the State Hazard Mitigation Plan plus 10 of the 17 Local Hazard Mitigation Plans had been formally approved.

KYEM Local Programs and Training Branch

Training Section:

KyEM's Training Section, working with KYEM's network of 14 area managers, conducted training in all 14 KYEM regions to prepare emergency managers and first responders. The following are major accomplishments:

- For the fifth consecutive year, partnered with KEMA on statewide "Emergency Services Conference"
- Led development of annual Eastern Kentucky University Rescue School
- Enhanced webpage to promote training provided by KYEM and partner agencies
- Coordinated ICS 300& 400 Training and Train the Trainer classes
- Partnered with DOIM to a series of quarterly "Emergency Management Case Study" live telecasts
- Partnered with Dept. of Health in distance learning project: Quarterly Lessons Learned Presentations
- Re-implemented the Awareness and Operations Level Training through KCTCS
- Partnered with Mining to conduct a major mine exercise
- Coordinated over 100 Search and Rescue missions across the state

Local Programs Section:

The local programs section administers the Emergency Management Assistance Program the Search and Rescue Program, and the SARA Title III Program.

- During the grant year the Emergency Management Assistance Program provided \$1,667,808 in state and federal funds to support the local emergency programs.
- The SARA Title III program collected \$259,160 this year. These funds are used to cover KYEM program costs and Local Emergency Planning Committee grants. A total of \$129,580 was distributed to the LEPCs.
- The Division's Search and Rescue Program was realigned from the Assistant Director for Field Operations to the Local Programs Section during this fiscal year. The SAR grant program provided \$250,000 in funding for local squads.

Chemical Stockpile Emergency Preparedness Program (CSEPP) Section:

This section implements the CSEPP program which assists counties surrounding the Blue Army Depot with grants and technical assistance to prepare the communities to respond should there be a chemical agent release. The following are the major accomplishments:

- The total CSEPP budget for fiscal year 2006 was \$ 13,112,815.00.
- CSEPP budget negotiations for fiscal year 2007 were completed in June at Gen Butler State Resort Park.
- New CSEPP computers were installed at the state and local levels.
- The new Cooperative Agreement (CA) Tools accounting program is now Web Based. Many state and local CSEPP employees have been trained on how to use the new software.
- 1600 personnel have been trained in various CSEPP related courses.

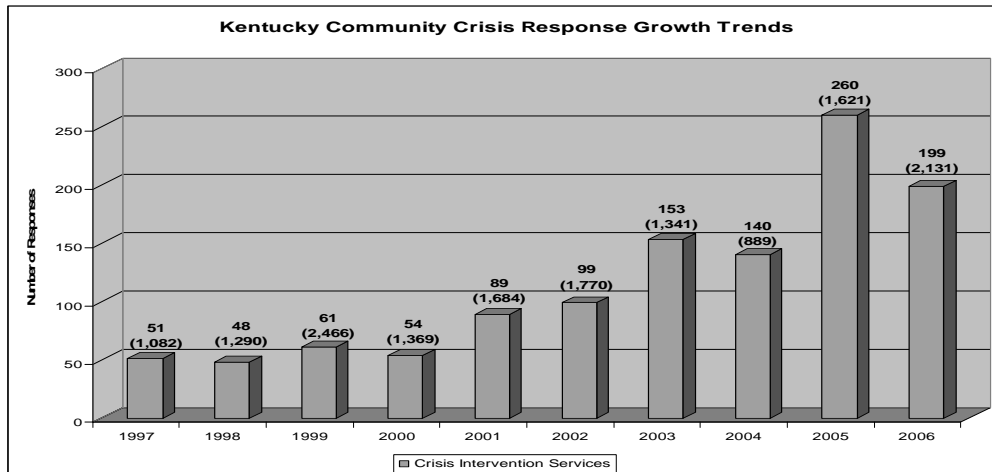

Kentucky Community Crisis Response Board

Pine Hill Plaza, 1121 Louisville Road, Frankfort, Kentucky 40601-6169
 Office: (502) 607-5781 Fax: (502) 607-5780 Web: www.kccrb.ky.gov

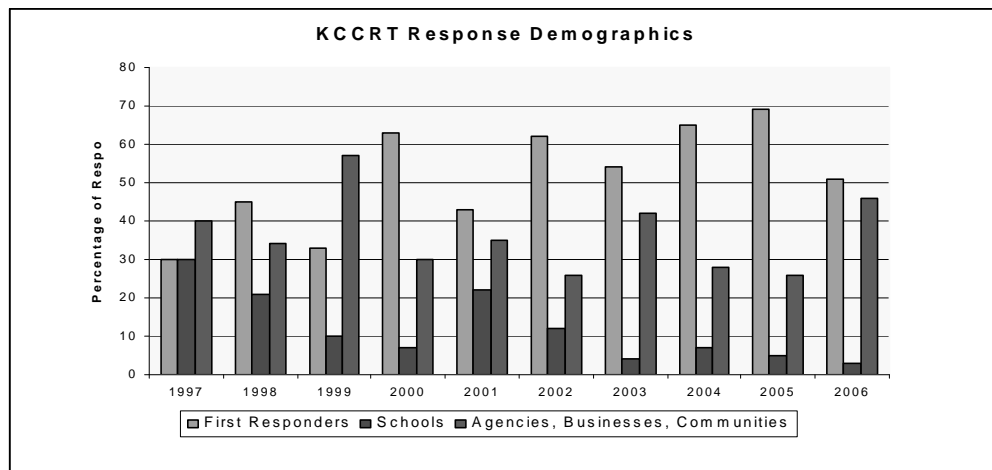

The KCCRB credentials and maintains a statewide team of 250 trained professional volunteer responders and deploys rapid response teams to crisis and disaster sites. The Kentucky Community Crisis Response Team (KCCRT) provides multi-component crisis intervention services statewide, and is available 24 hours a day, seven days a week.

Critical incident responses include events impacting first responders, schools, businesses, organizations, and communities. In fiscal year 2006, KCCRT provided services following 199 responses serving a total of 2,131 individuals across the Commonwealth.

Number of persons served in parentheses (above).

KCCRB provides crisis intervention and psychological first aid training through a variety of courses. In fiscal year 2006, KCCRB trained 1,958 individuals through 483.65 hours of training.

KCCRB, for the fourth consecutive year, received a Disaster Behavioral Health Preparedness Grant from the Kentucky Department for Public Health (DPH)/ Health Resources and Services Administration (HRSA) for response readiness in the event of disasters and catastrophic events. As a major deliverable, KCCRB updates and delivers in collaboration with DPH, a course designed to teach

the definitions and psychological effects of disaster and terrorism. The Psychology of Disaster and Terrorism (PDT) course covers topics including understanding the need for psychological first aid after a disaster or terrorist event, knowledge of common stress reactions, understanding basic principles of early interventions and risk communication, understanding the purpose and use of Informational Briefings (IB). This course is also designed to give an overview of Weapons of Mass Destruction (WMD) and expected psychological reactions to such weapons. The course offers CEU's for CADC, KPA, LMFT, Nursing, EILA, and Social Work. In fiscal year 2006, KCCRB, in collaboration with the Department for Public Health, trained 200 individuals in PDT.

KCCRB increased the number of Regional Team Coordinators from 18 to 22, providing coverage in 12 of the 14 KyEM Areas.

KCCRT Protocols & Procedures were revised as support documents for the Administrative Regulations under development.

The KCCRT ALL Hazards Field Manual was developed utilizing best practices from the field of disaster behavioral health (SAMHSA). Regional Team Meetings were held in all 14 areas, and utilized as a training and distribution point for the KCCRT ALL Hazards Field Manual.

Eastern Kentucky University - KY Foster and Adoptive Parent Training Support Network: On November 9, 2005, KCCRB received notice of subcontract approval from the Kentucky Cabinet for Health and Family Services. The subcontract provided Individual Crisis Intervention Training with annual update training for the Kentucky Foster and Adoptive Parent Training Support Network. Training was conducted on April 21-22, 2006 and update training was held on June 10, 2006.

KCCRB, as the state lead disaster behavioral health coordinating agency, procures and administers FEMA Immediate and Regular Services crisis counseling grant applications on behalf of the survivors of disasters across the Commonwealth of Kentucky.

KCCRB closed out programmatic and fiscal portions of FEMA DR-1604 in November of 2005. Due to the unusual nature of Hurricane Katrina, KCCRB found itself serving an evacuee population from other states affected by the disaster as well as Kentucky-based responders returning from activation in storm ravaged areas of the Gulf Coast. KCCRB provided crisis-counseling oversight of the Kentucky response to Hurricane Katrina serving 3,679 survivors and community representatives through individual crisis counseling, in-person brief contacts, telephone contacts, and presentations to schools, health care clinics, agency networks, and other local and regional social service agencies.

On November 15, 2005 extreme fall storms tore across western Kentucky producing heavy amounts of rainfall, tornadoes, and damaging winds resulting in loss of life and personal injury, significantly affecting the community of Benton in Marshall County, Madisonville and Earlington in Hopkins County. KCCRB secured 100% federally funded FEMA grants of \$64,046.05 for crisis counseling outreach services following these storms. FEMA funded crisis intervention programs in Kentucky are known as Project Recovery.

Project Recovery (FEMA DR-1617 ISG: November 2005-January 2006) provided outreach to 2,885 survivors and community members impacted by the Western Kentucky tornado through individual crisis counseling, brief contacts, and presentations to schools, health care clinics, agency networks, and other local and regional social service agencies.

Federal Functions

Human Resources Office

The Human Resources Office is responsible for directing and administering the personnel programs for all full-time federal employees of the Kentucky Army and Air National Guard. This includes three separate and distinct programs for each service - Excepted Military Technicians, Competitive Technicians and Active Guard/Reserve personnel. The Human Resources Officer (HRO), COL Donald R. Conover, serves as the primary staff advisor to The Adjutant General on matters of federal manpower and full-time personnel management. Annual salaries for full-time technicians and AGR members bring into Kentucky over \$70 million dollars annually. In addition, another three-quarter of a million dollars are generated annually through travel and educational opportunities for the full-time workforce.

During fiscal year 2005 and 2006, the Human Resource Office supported the war efforts in addition to providing the professional everyday support that our full-time and retired customers have grown accustomed to receiving. Over the course of fiscal year 2005 and 2006, the HRO office processed over 200 technician and active guard personnel for mobilization/demobilization. Although some of our training services have been scaled back because of deployments, the HRO office has continued to provide exceptional support to all of our customers in addition to supporting the personnel deploying overseas and across the country.

In Kentucky's efforts to support the war on terror, the impact on the work force at home has been noticeable. At the end of fiscal year 2006, the Kentucky Army National Guard had on board 477 technicians, and another 96 are still in a Leave Without Pay (LWOP)/deployed status. The Kentucky Air National Guard had on board 222 technicians. The state's AGR program reflects a total of 563 personnel in the program. Of the 563 AGR's, the Army Guard has 443 and the Air Guard has 120, Over 63 AGR's are deployed. Total combined Army and Air personnel equate to 1,262 full-time employees.

The HRO office is divided into six specialty branches. The functions and accomplishments of the different areas are discussed below.

Active Guard Reserve (AGR) Military Duty Management Branch

Mission:

The AGR Military Duty Management Branch is charged with the administration of the Full-Time Support (FTS) Manpower Program for our Army and Air National Guard AGR personnel.

The AGR Military Duty Management Branch provides timely, accurate personnel support for managers, supervisors, AGR employees, AGR dependents, Active Duty retirees and their dependents. This branch also provides administrative support to personnel assigned to the Counterdrug Program.

Functions:

A full range of services and programs are administered and managed by the AGR Military Duty Management Branch. These services and functions include:

- | | | |
|--------------------------|-------------------------------------|---------------------------------|
| -Position Management; | -Leave Administration; | -Education Benefits; |
| -Budget Execution; | -Health Coverage; | -Pay Administration; |
| -Performance Management; | -Career Management; | -Travel/PCS Administration; and |
| -Personnel Services; | -Retirement Processing and Actions; | -Training. |

Significant Events and Accomplishments:

The AGR Military Duty Management Branch, in conjunction with the Technician Personnel Management Branch sponsored several significant training events in FY05 and FY06 in the following

areas: Employee/Orientation Training; Interview Training; Application Training; Strategic Planning; and AGR Management.

ARMY AGR'S	ANNUAL SALARY	AIR AGR'S	ANNUAL SALARY
FY 04 – 390 Personnel	\$22,112,068	FY 04 – 118 Personnel	\$6,640,000
FY 05 – 406 Personnel	\$29,435,675	FY 05 – 111 Personnel	\$6,036,291
FY 06 – 443 Personnel	\$32,527,870	FY 06 – 120 Personnel	\$7,341,134

AGR TRAVEL/PCS FUNDS

FY 04 - \$359,469
FY 05 - \$ 432,300
FY 06 - \$ 503,000

The AGR Military Duty Management Branch employees, MAJ Allen Boone, CW4(R) John Hall, MSG Kip Halvorson, SFC Patricia Smith, SFC Tammy Long and SGT Shannon Critchley are dedicated and committed to customer service and satisfaction. Our support is the end result of all of our combined efforts to provide the best support and service to our full-time workforce.

Technician Personnel Management Branch

CPT David Thomas is the manager of the Technician Personnel Management Branch. This Branch contains three specialty areas: Position Classification, Staffing and Employee Relations. The staff assists supervisors, managers, and employees in ongoing, positive recruitment and placement programs and is responsible for providing continuing services and benefits to our Army and Air National Guard Excepted and Competitive Technicians.

Position Classification/Management

Position Classification is the process the National Guard uses to determine a title, occupational series, pay plan and grade for a position within the agency. Skillful position classification management assures that our resources are used economically. Position Classification, Position Descriptions and Desk Audits are professionally conducted and managed by the section chief, Mrs. Kelly Bingham, who ensures requirements, authorizations and Ky’s Technician Workforce strength are maintained with declining resources. The assistant Classification Specialist is Mrs. Terry Jenkins. TSgt Norma White is our remote designee for the ANG Base

A Position Description (PD) describes the certified duties, authorities and responsibilities assigned and performed by each incumbent in a position. Supervisors use PDs to determine training needs, career development plans, evaluate performance, direct the flow of work and execute various programs. Position Descriptions also assist management with decisions concerning recruitment, placement and promotion actions.

The Desk Audit is one of the most critical steps in the position classification process. The Audit produces up-to-date facts about a position. Audits are needed because of changes in positions; when new programs are developed; as different procedures are established; when new tools are developed; with organizational changes and as employees' skills and knowledge increases. The Audit assures equal pay for equal work.

ARMY TECHNICIAN	ANNUAL SALARY	AIR TECHNICIAN	ANNUAL SALARY
FY 04 – 411 Personnel	\$28,150,920	FY 04 – 214 Personnel	\$12,255,800
FY 05 – 405 Personnel	\$28,289,045	FY 05 – 215 Personnel	\$15,102,200
FY 06 – 474 Personnel	\$29,987,780	FY 06 – 216 Personnel	\$15,409,769

TECHNICIAN TRAVEL/TNG/PCS FUNDS

FY 04 - \$ 485,189
FY 05 - \$ 604,809
FY 06 - \$ 584,151

Staffing Section

The Staffing Section is working to recruit potential employees, manage job advertisements and qualify potential employees for all technician positions. Other primary responsibilities include: Providing managers/supervisors advice and proposed solutions to problems; guidance on recruitment and internal placement; counseling and assistance to potential employees; developing qualification standards by conducting occupational analyses and conducting job analyses to identify the knowledge, skills and abilities needed to evaluate an applicant; monitors military technician compatibility; processes permanent change of station moves; sets pay; and monitors recruitment and retention allowances.

FY06 was a very busy and challenging year for the folks in staffing. The section processed 915 application packages and announced 247 positions for hire, along with the continuous backfilling of deployed members with more than 107 temporary technicians. An automated staffing system, USA Staffing, was introduced to the staffing section, along with new pay setting rules.

The staffing section ensures the organization follows all guidelines, policies, regulations and statutory requirements placed on Federal organizations, adheres to Affirmative Employment regulatory guidelines and that the organization observes and practices the merit principles of the Merit Promotion Plan. Only statutory and regulatory basis are used for all personnel administration. The Section Chief, CMSgt Donna Webb is assisted by SGT Aaron Ritchie.

Employee Relations Section

The Employee Relations Section is charged with the responsibility of administering benefits and services for all full-time federal employees of the Kentucky Army and Air National Guard. These benefits include such items as the Civil Service Retirement System (CSRS), Federal Employees Retirement System (FERS), Thrift Savings Plan, Federal Employees Health Benefits, Federal Employees Group Life Insurance, Federal Employees Compensation Act (FECA), performance management, incentive awards, new employee orientations, leave administration, Long Term Care, Flexible Spending Accounts, Uniformed Services Employment and Reemployment Act and military or civilian deposits for CSRS/FERS employees.

This section is one of the key links to our full-time employees to ensure their needs and questions are answered. The section chief, Mrs. Ruth Drake, assisted by Mrs. Pam Cox and SGT Angela Schroerlucke are dedicated to ensuring all technicians receive courteous, timely and professional service. TSgt Norma White is our remote designee for the ANG Base.

Our customers are the focus of everything we do. Our work is done with our customers in mind, always striving to provide better support and service to the full-time workforce. Kentucky National Guard employees are our partners as well as our customers.

Personnel Systems Management Branch

Kentucky's program is recognized as one of the best in the country as evidenced by the national demand for our Personnel System Manager (PSM), Mrs. Jean Coulter. Mrs. Coulter has been

requested by the National Guard Bureau on numerous occasions to participate in various PSM workgroups to provide guidance to other PSM's nationwide. She is a member of the PSM Advisory Council and conducts briefings at various conferences.

The Defense Civilian Personnel Data System (DCPDS) is the HRO management tool for the full time federal workforce. Information within this system generates reports containing useful information for commanders, supervisors and employees. This same data is processed through Randolph Air Force Base, San Antonio, Texas and routed to the National Guard Bureau (NGB) and the Office of Personnel Management (OPM) where personnel actions, authority codes, compatibility and strength are monitored. Data is fed to the Army for stationing and installation plans, for the Defense Manpower Data Center, and the Army Knowledge On-line systems. Data is also fed to two Air Guard systems for budget and training purposes.

DCPDS is connected to the Defense Finance & Accounting System (DFAS) in Pensacola, Florida and Denver, Colorado to provide information necessary for payroll. All Air and Army technicians are currently paid through this system. After each payroll is processed, payroll data is routed back to DCPDS to update several data elements for budgetary purposes.

Equal Employment Opportunity Branch:

Ms. Sheila Lawson is the branch chief and is in charge of the Equal Employment Opportunity (EEO) programs for the Kentucky National Guard.

The Equal Employment Office provides guidance and advice to senior management on the administration of laws, policies and regulations designed to provide equal opportunity and diversity management for the workforce in the Kentucky National Guard. This program covers several employment programs that include Federal Technicians, Civilians, Active Guard Reserve and Traditional Guard members. This office also coordinates with the State Human Relations/Equal Opportunity (HR/EO) Office and the Military Equal Opportunity (MEO) Office and Army and Air personnel to ensure training requirements are met. This office serves as the principal point of contact with the National Guard Bureau's Equal Opportunity Office and the local District Office of the Equal Employment Opportunity Commission.

Some of the programs covered under this branch include the following:

- Affirmative Employment Program;
- Affirmative Action Program;
- EEO/EO Complaints Processing;
- Special Emphasis Programs;
- Equal Employment Opportunity Counselors;
- Alternate Dispute Resolution;
- Sexual Harassment Prevention Training;
- Employee Assistance Program; and
- Community Relations

Our latest statistics reveal a slight increase in minority representation in our full-time workforce. Some of the significant accomplishments in Equal Opportunity include the selection of a minority female warrant officer. There has also been an increase in females promoted to higher grades in our full-time workforce. The Kentucky National Guard continues to strive towards creating a more diverse state workforce.

Human Resources Development Branch

The Human Resources Development Branch assists the HRO in administering The Adjutant General's goals of increasing and maintaining the skill and efficiency of all full-time employees. The Human Resources Development Specialist, LTC Paula Johnson, coordinates funding and quota management for all formal and professional development courses for the full-time workforce.

The Kentucky National Guard's full-time workforce contains a wide variety of military and civilian personnel serving in many different specialties and career programs. AGR personnel and

technicians often share the same training needs and attend the same courses, such as those offered by the National Guard Professional Education Center (PEC) at North Little Rock, Arkansas.

In FY 2006 HRO offered a wide variety of supervisory development courses, retirement planning and technical courses to meet the special needs of the workforce. As has been done in the past, the HRO will continue to involve our managers and higher level supervisors directly in the process of planning for the training and development of the workforce.

Labor Relations Branch

Cpt Bob Geary, Jr., is the branch chief in charge of the Labor Relations program for the full-time members of the Kentucky National Guard.

The Kentucky National Guard has two labor organizations within its workforce - the Longrifle Chapter # 83 Army National Guard and the Bluegrass Chapter #69 Air National Guard. Both unions are affiliated with The Association of Civilian Technicians, Inc. Both management and the labor organizations continue to utilize and develop their perspective Labor Management Partnership Councils. The council partnerships work to establish positive approaches to resolve conflict at the lowest possible level through open and honest communication. The organizational goal is to encourage both management and union officials to maintain a cooperative and professional spirit to accomplish the myriad of missions required in the Army and Air National Guard.

The Longrifle Chapter's Labor Management Agreement is in its mid term and due to expire on March of 2006. The Army union opted for a one year extension and will re-engage in the summer of 2007. The Air National Guard Bluegrass Chapter and management concluded contract negotiations on 26 Jan 2005. The success story behind the Air Guard union and managements team was that negotiations only took four days to complete the negotiations this year. This one fact speaks volumes about partnership and makes a declaration that partnership really works.

Cpt Geary advises management on all aspects of Labor Relations and provides guidance and recommendations for discipline and adverse actions to ensure the efficiency of the Kentucky National Guard is maintained at the highest levels.

Inspector General

The current Primary Inspector General (IG) is Colonel David Alexander. The IG office also includes two Detailed Inspector's General, Major Michael Stephens and Major Shelly Beasley, and an Assistant IG, a Department of the Army Civilian, Master Sergeant (Ret.) Judy Haggard.

The Inspector General serves as a personal staff officer to the Adjutant General (TAG) and is an extension of the eyes, ears, voice, and conscious of TAG. The IG advises TAG on existing conditions relating to the performance of mission and the state of discipline, efficiency, morale, esprit de corps, and economy within the Kentucky National Guard.

The IG has four primary functions:

From left to right are: MAJ Shelly Beasley, MSG (Ret.) Judy Haggard, MAJ Michael Stephens, and COL David Alexander.

1. Assistance—provided by the IG when the chain of command is unable to solve a problem. The assistance function is not a replacement for, or method to undermine, the chain of command and normal procedures. However, the IG will assist in instances in which the Soldier needs help and it will enhance combat readiness and warfighting capability by maintaining the Soldier's morale and focus.
2. Inspections—Serves as the proponent for the Kentucky Army National Guard Inspection Policies, which includes the Organizational Inspection Program (OIP). The IG conducts Special Inspections to resolve systemic problems and issues. The IG also monitors the Intelligence Oversight (IO) Program, performs IO inspections, and reports quarterly to National Guard Bureau. The IG is also the proponent for the Enhanced National Guard Inspections System (ENGIS).
3. Investigations—When directed, the IG conducts inquiries and investigations into allegations of impropriety on the part of members or organizations of the Kentucky National Guard.
4. Teaching and Training—explains and teaches to individuals and organizations the applicable processes, procedures and systems associated with identified problems. This function is an important and integral part of all of the other functions.

Sgt. Michael Ball of the Kentucky National Guard's 1st Battalion 623rd Field Artillery, Tompkinsville, Ky., was awarded the Bronze Star, a medal awarded for meritorious achievement of service in combat. On March 30, 2005 when a vehicle in the convoy Ball was following was hit with a vehicle born improvised explosive device (IED) in Iraq, Sgt. Ball, a medic with the 623rd Field Artillery, responded with his aide bag in hand and had no idea the Soldier on the ground was his friend, Spec. Eric Toth. The two had just spent the night before together on a mission, just the same as any other night. Crouched closely to a burning vehicle, Sgt. Ball spent two minutes with Toth, and was able to stabilize the Soldier for a Medi-Vac out of the hostile area. The rest of the convoy regrouped and stayed the night in Baghdad. Once the convoy was safe at a holdover point in the city, Sgt. Ball and his comrades learned of Toth's death. Ball was presented the medal four months after the incident by Lt. Gen. John Vines, then Commanding General of Multi-National Corps in Iraq. Photo and cut line information courtesy SGT Gina Vaile.

Kentucky Chaplains Corps

The twelve chaplains, six chaplain candidates and twelve chaplain assistants presently in the Army National guard and the three chaplains and three assistants in the Air National Guard as part of the Kentucky Department of Military Affairs are real Soldiers and Airmen, tactically capable of removing mission distractions from commanders by using skills unique to clergy. Our task is to remind Kentucky's Soldiers and Airmen of what is good, and to encourage them to do that good. Most often this involves explaining to leaders how their actions and policies affect their Soldiers and Airmen, and explaining to those same Soldiers and Airmen why the orders they have received actually further the good of the nation we have all pledged to serve. As part

Chaplain (Colonel) Patrick J. Dolan JFHQ-KY Chaplain leads a Christmas midnight mass in Iraq. Photo courtesy Chaplain Dolan

of that sacred duty, we provide access to God through church services, individual prayer and counseling, and uplifting activities and ceremonies-often in difficult or rugged circumstances in an all-too-often violent world. Because of the dual (state-federal) mission, we also care for families and state public servants, bringing comfort and hope to the very fabric of society.

During this time period we have had members of our Corps deployed to OEF (Afghanistan) and OIF (Iraq/Kuwait) to care for the living. The photo of a Kentucky chaplain doing Christmas midnight mass in Iraq is one tiny example of this extensive care. Closer to home we have helped with emergencies as small as floods or ice storms and as big as Katrina and the Southwest Border mission to Arizona and New Mexico. At those two events, under the direction of local supervisory chaplains, care for both our own military and other units and branches, often in isolated locations, involved twenty members of the Kentucky Chaplains Corps.

Healing and hope to our wounded and their families included visits to military and civilian hospitals in eight locations, developing and implementing a new program for returning veterans called Warrior Refocus to enable them to readjust to life outside a combat zone, and holding three PREP retreats for over sixty military couples.

Honoring the dead completes the three Chaplaincy core competencies, and members of the Kentucky Chaplains Corps have brought hope and comfort to eight families receiving death notifications (for our own corps or for Ft. Knox Soldiers) in their time of extreme anguish. We have performed innumerable memorial ceremonies for units and for civilian groups, and have helped compose and execute the first annual "Never Forget" visit by MG Storm to the graves of all fallen Kentucky National Guardsmen.

The Kentucky Chaplains Corps, much like the Medical Corps, continues to stand ready to assist commanders at every level to concentrate on their mission of protecting the Commonwealth-while still caring for the Soldiers and Airmen in their charge. We are humbled and honored to serve alongside Kentucky's best.

238th Regiment (Combat Arms)

The 238th Regiment and its subordinate unit, 1st Battalion General Studies, are located at the Wendell H. Ford Regional Training Center in Greenville, Kentucky. The Wendell H. Ford Regional Training Center provides 11,000 acres of maneuver space and state of the art simulation training facilities as well as modern classroom, barracks and unit administration facilities.

The 238th Regiment is Kentucky's flagship for all combat arms individual Military Occupational Specialty Qualification (MOSQ), Common Leader Training (CLT) for the Advanced Non-Commissioned Officers Course

(ANCOC), the Basic Non-Commissioned Officers Course (BNCOC) and Officer Candidate School (OCS). As a part of The Army School System (TASS), the 238th Regiment conducts institutional training in coordination and in conjunction with active component and USAR schools. The 238th Regiment is responsible for preparing officers for their initial assignment as a Second Lieutenant and Noncommissioned Officers for the leadership challenges of squad leader and platoon sergeant

positions. In addition to leadership training, the 238th Regiment also conducts MOSQ training for a variety of infantry, armor, and artillery Soldiers. National Guard, United States Army Reserve, and active component Soldiers from the four states in Region D travel to Wendell H. Ford Regional Training Center to be trained as Cavalry Scouts, M1 Armor Crewmen, Infantrymen, MLRS Crew Members, Fire Support Specialists, MLRS Operations/Fire Direction Specialists, Military Police Specialists, and Cannon Fire Direction Specialists.

**238th Regiment (Combat Arms)
TY 05 and TY06 Student Training Results**

Course	TY 05 Grads	TY 06 Grads
TAITC	26	15
SGI	8	9
OCS	15	15
NCOES	18	11
CLPCC	33	65
MOSQ	55	62
COMBAT LIFE SAVER	326	475
TOTAL	481	652

The 238th Regiment utilizes the state of the art educational facilities of the Wendell H. Ford Regional Training Center to enhance the student’s learning opportunities. These superior facilities and our highly professional staff support both TASS and Non-TASS courses for the KYARNG.

In addition to providing outstanding training for Soldiers, the 238th Regiment leadership is working to maintain the high quality of training. The Regimental Commander, Command Sergeant Major, and Operations Officer represents Kentucky in TASS Regional Training meetings, Pre-Structure Manning and Decision Reviews, and Regional Coordinating Element (RCE) meetings. The 238th Regiment works closely with the National Guard Bureau, the RCE, and Training and Doctrine Command to execute world-class training.

The 238th is working hard to ensure that TASS is prepared to meet the training requirements of the Kentucky National Guard now and in the future!

Command Historian JFHQ, Kentucky National Guard

The position of Command Historian for the Kentucky National Guard was established in July 2006. John M. Trowbridge, manager of the Kentucky Military History Museum and a retiree of the Kentucky National Guard was selected to fill the position.

The mission of the Command Historian is to collect, research, interrupt, and preserve the history of the Kentucky National Guard, with emphasis on current operations since 9/11. To meet that goal the Command Historian has established and continues to define the position.

- a. Establishment of the Command Historian sharepoint site.
- b. Re-establishing the Kentucky National Guard History website.
- c. Established the Annual Command Historian’s Award.
- d. Established Kentucky National Guard History SOP.
- e. Establishing the Kentucky National Guard Oral History Program.
- f. Appointment of Unit Historians and Alternates.
- g. Establishing a Military History Advisory Committee. Committee comprised of personnel from Army and Air Guard, DMA, MRRB, Kentucky Department of Libraries and Archives, and the Kentucky Historical Society, and Military History Museum.

- h. Collecting and writing the histories of Kentucky National Guard units involved in Operations Noble Eagle, Iraqi Freedom, and Enduring Freedom.
- i. Collecting and writing histories of the Kentucky Guard's involvement with Katrina and Southwest Border (Jump Start) operations
- j. Established working relationships with agencies within and outside of the Kentucky National Guard to assist in capturing the history of the Kentucky National Guard.

During the period the office of the Command Historian was involved in numerous projects and programs such as:

- a. 60th Anniversary of Kentucky Army National Guard Fixed Wing Aviation. Program to honor the service of Kentucky Army National Guard Aviation members.
- b. 50th Anniversary of Sturgis and Clay. Which honored the service of Kentucky State Police and National Guard personnel activated in 1957 in support of ending segregation in these two Kentucky communities.
- c. Prisoner of War Medal Presentation – Raymond Cox. Ceremony awarding the POW Medal to the family of deceased WWII Soldier Raymond Cox of Ashland, Kentucky.
- d. National Guard Heritage Painting: Battle of Takur Ghar. This painting by internationally renowned artist Keith Rocco is currently on loan from NGB to the Command Historian. The painting had a State unveiling by Governor Ernie Fletcher and MG Donald Storm. In February 2007, the painting will have a National unveiling in Lexington during the KYNGA Conference. The painting was on display in the Kentucky Military History Museum (in Frankfort), Kentucky Aviation Museum (in Lexington), the Kentucky Air National Guard Headquarters (in Louisville), and at Kentucky National Guard Headquarters (in Frankfort), before being returned to NGB in July 2007.
- e. Established the Kentucky Historical Marker at the entrance to Boone National Guard Center to honor the Kentucky Militiamen that served with the Lewis and Clark Expedition.
- f. One article published in Kentucky Monthly Magazine. “The Battle of Mississnewa”.
- g. Published two articles which appeared in Kentucky Ancestors, a publication of the Kentucky Historical Society:
 - 1. “Kentuckians at the Battle of Tippecanoe”.
 - 2. “Kentuckians at the Battle of Lake Erie”.

Human Resources (Military) Directorate J1

Colonel Rondal Turner is the Director of Human Resources (Military) or J1. Located at Boone National Guard Center in Frankfort, Kentucky, the J1 is responsible for program management, staff supervision and administrative support to all units and personnel of the Kentucky National Guard. The J1 directorate consists of the following branches: Personnel Services, Officer Personnel, Enlisted Personnel, Selective Reserve Incentive Program, Health Services, Casualty Assistance, Safety and Occupational Health, Education Services, Standard Installation Division Personnel (SIDPERS), Information Technology, Department of Veterans Affairs Health and Benefits Support Specialist,

Employer Support of the Guard and Reserve, the State Family Programs and the Family Assistance Center.

The Personnel Services Branch (PSB)

Mission/Responsibilities: Master Sergeant Jay Mattingly is Chief of The Personnel Services Branch (PSB). The PSB is tasked with maintaining current and accurate Military Personnel Records (in both paper and electronic formats) for over 6300 Kentucky Army National Guard (KYARNG) Soldiers. The PSB supports and interacts with all units of the KYARNG to receive and file all official personnel documents and continually update personnel data.

To ensure Soldier and unit readiness the PSB conducts regular, cyclic unit visits to review/inspect/update personnel records (known as Soldier Readiness Processing or SRP visits). These exercises are also conducted prior to the mobilization of any unit or Soldier. During an SRP each Soldier's personnel records are reviewed for their accuracy and completeness, including: personal data on file, ID card, ID (dog) tags, dependent, emergency, and beneficiary information, previous deployments, addition to the MPDV (Mobilization Planning Data Viewer), and training status. In addition each Soldier is briefed and provided information on Family Support Care Plans.

In addition, the PSB issues Department of Defense identification cards to active or retired members of the armed forces (regardless of branch) and their dependents. This service is offered on a walk-in basis at 8 different locations across the Commonwealth, made possible with the "Real Time Automated Personnel Identification System" (RAPIDS), which provides immediate verification of an individual's identity and military status.

Significant Events from 1 OCT 05 to 30 SEP 06: The PSB finalized the process of converting over 6900 KYARNG personnel records from paper to electronic format on the new "Personnel Electronic Records Management System" (PERMS). This allows Soldiers to view records online and updates to records are completed more efficiently.

During FY 06 the PSB screened over 1200 KYARNG Soldiers prior to their deployment in support of the Global War on Terrorism and assisted MACOMS with SRPs for missions to the US-Mexican border. This was accomplished through Soldier Readiness Processing visits to each of the numerous deploying units. The PSB has begun the proactive Personnel Quick Reaction Team visits to assist units with their personnel readiness levels.

Officer Personnel Branch

Mission/Responsibilities: Chief Warrant Officer Bill Sloan is the Chief of the Officer Personnel Branch. This branch is responsible for executing appointments, separations, promotions, branch transfers, transfers between units, reassignment of duty positions, and all other personnel actions for every commissioned officer and warrant officer in the Kentucky Army National Guard. They coordinate all officer personnel actions with the National Guard Bureau in Washington, D.C., the United States Army Personnel Center at St Louis, Missouri and other military branches as applicable.

The Officer Personnel section is responsible for convening Federal Recognition Boards on a monthly (or as needed) basis to determine the eligibility for appointment, promotion or branch transfer of officers. In addition, they process the retention packets for those officers who are selected for review by the bi-annual officer retention boards.

The Officer Personnel Branch has the recurring responsibility of compiling and submitting detailed personnel files of KYARNG Officers for review by the Reserve Officer Promotion Management Act (ROPMA) Boards. The Department of the Army convenes approximately twelve ROPMA Boards annually to select the best qualified officers, by rank and branch, for promotion. They are also tasked with putting together promotion packets for those officers who are selected by their KYARNG commands, for promotion into a vacant unit position of higher responsibility and rank.

Significant Events from 1 OCT 05 to 30 SEP 06: During FY 06 the Officer Personnel Branch completed the following administrative actions:

Total Officer Separations – 32

Officer Accessions:

- Warrant Officer Appointment – 3
- Direct Appointment - 8
- ROTC – 30
- OCS (NG, AD, USAR) – 29
- U.S. Service Academy Graduate – 2
- Other - 4

Total Officer Accessions = 76

Officer Promotions by Rank (both unit level and DA):

- Chief Warrant Officer 2 – 6
- Chief Warrant Officer 3 – 5
- Chief Warrant Officer 4 – 2
- Chief Warrant Officer 5 – 0
- First Lieutenant – 26
- Captain – 16
- Major – 23
- Lieutenant Colonel – 5
- O-6 – 8
- O-7 – 0
- O-8 - 0

Enlisted Personnel Branch

Mission/Responsibilities: Master Sergeant David Owens is the Chief of the Enlisted Personnel Branch which is responsible for reviewing personnel actions concerning enlisted Soldiers of the Kentucky Army National Guard. Areas of special interest include promotions, transfers, NCOER's, MOS changes, enlistments and the Qualitative Retention Board.

The Enlisted Personnel Branch is also tasked with managing the KYARNG Enlisted Promotion System (EPS). Since 1997 the EPS has evolved into a successful program that looks after the needs of both the Soldier and the organization. This system is designed to fill vacancies with the best-qualified enlisted Soldiers who have demonstrated potential to serve at the next higher grade, relative to each Soldier's potential. The program also prescribes the Non-Commissioned Officer Education System (NCOES) requirements for promotion and for Soldiers who desire consideration for promotion to the next grade.

Significant Events/Accomplishments from 1 OCT 05 to 30 SEP 06: During Fiscal Year 2006 this branch handled 4438 transfers between units within the state of Kentucky and 103 transfers into or out of the state. The KYARNG had several reorganizations throughout this Fiscal Year requiring numerous personnel to be reassigned to other positions and/or reclassified into new career fields. Also during this FY the Enlisted Branch assisted in the mobilization of KYARNG units and their assigned Soldiers in support of the Global War on Terrorism.

Through the Enlisted Promotion System 519 enlisted personnel were selected and/or promoted during FY 06. Enlisted Branch also processed 135 reductions and awarded 580 MOS designations.

The Selective Reserve Incentive Program (SRIP) Branch

Mission/Responsibilities: Ms Linda Hawkins is the KYARNG Incentives Manager. Her section is responsible for administering the Enlistment Bonus, Reenlistment Bonus, Affiliation Bonus, Civilian Acquired Skills Program Bonus, Prior-Service Enlistment Bonus, Officer's Affiliation or Accession Bonus, MOS Conversion Bonus, Interpreter/Translator Bonus and Student Loan Repayment Program (SLRP). The SLRP consist of three (3) separate types of programs. They are Soldiers on the traditional M-Day status, Health Professional's and the Chaplin student loan repayment programs. She provides KYARNG Units with the most current information concerning these programs, who may be eligible, and how to apply. This branch coordinates its efforts with the Recruiting and Retention force

to ensure that all policy changes and procedures effecting Soldiers are acted upon quickly, and that new recruits are fully aware of the incentives that might be available to them.

The Incentives Manager is in frequent contact with Unit Administrative Personnel, the Military Pay Branch, SIDPERS and the Defense Finance and Accounting Services (DFAS). This coordinated effort ensures that Soldiers who are eligible and deserving of incentive bonuses receive their payments in a timely manner.

Significant Events from 1 OCT 05 to 30 SEP 06: Thanks to our Recruiting force and Unit Personnel, in FY-06 we gained bonus contracts for 761 Non-Prior Service Enlistments; 124 Prior-Service Enlistments; 397 Reenlistments/Extensions; 53 Affiliations; 4 CASP Enlistment; 42 Officer Bonuses and 55 SLRP's.

The Health Services Branch

Mission/Responsibilities: The Chief of the Health Services Branch is tasked with keeping all levels of command informed about, and facilitating compliance with, regulatory requirements on medical and dental issues that affect the readiness of KYARNG Soldiers.

This section's manages the following programs: Fit for Duty Review Boards; Medical Review Boards, Incapacitation Pay Boards, Reviewing periodic physical examination reports and Annual Medical Certificates, reviewing Line of Duty injuries or illness, Human Immunodeficiency Virus (HIV) monitoring, Deoxyribonucleic Acid (DNA) sampling, the Medical Protection System (MEDPROS), the Automated Voucher System (AVS), and managing the medical records review portion of Soldier Readiness Processing exercises

Significant Events from 1 OCT 05 to 30 SEP 06:

- 414 Line of Duty injuries/illnesses were processed
- 36 Soldiers were qualified for Incapacitation Pay
- 70 Soldiers were discharged after Medical Review Boards found that their medical condition(s) rendered them unfit for retention in the KYARNG
- At the end of FY 06 Health Services Branch had a total of 5 full-time civilian employees.

Casualty Assistance Branch

Mission/Responsibilities: Chief Warrant Officer Nancy Christiano is the KYARNG Casualty and Mortuary Affairs Officer. The mission of this section is to render emotional and technical support to the families of deceased and/or injured Soldiers in a caring and compassionate manner during their time of need and/or loss. This section manages all personnel actions and processes associated with casualty affairs, always considering the thoughts, feelings, and concerns of the Soldier's next of kin and family.

Significant Events/Accomplishments

Significant Events/Accomplishments from 1 OCT 05 to 30 SEP 06: During this Fiscal Year, we have notified and provided assistance to the families of 30 mobilized Soldiers and 6 Traditional, or M-Day Soldiers. Sadly, we have also arranged funeral honors and provided assistance for the families of 7 Soldiers killed in action. In the past year we have provided assistance and/or Serviceman's Group Life insurance processing to 11 Soldiers and/or families.

The KYARNG Safety And Occupational Health Program

Mission/Responsibilities: The Safety and Occupational Health Office (SOHO) has the mission to provide a continuing and comprehensive accident prevention effort that is compatible with the mission of the Guard in every operation and activity. They provide the oversight and technical support necessary for directors and commanders to ensure that all Soldiers and employees are provided with a

safe and healthy work environment. They also promote safety awareness and healthy behavior, not only while Soldiers and employees are working, but also in their personal lives.

Some specific responsibilities of the SOHO are: safety training; accident reporting, respiratory protection, hearing conservation, vision conservation, industrial hygiene, hazard communication, medical surveillance, pregnancy surveillance, radiation protection, ammunition and explosive safety; firing ranges, safety awards program and medical record maintenance.

Significant Events from 1 OCT 05 to 30 SEP 06:

1. Conducted lead testing in armories in association with the Indoor Rifle Range Lead Abatement and Range Conversion Plan
2. Conducted Unit Safety Officer course, Front Line Supervisor OSHA course and Risk Management course
3. Conducted 285 annual medical screenings for technicians
4. Provided 18 opportunities for Soldiers to participate in the Motorcycle Safety Program
5. Provided maintenance technicians with \$10,000.00 worth of Personal Protective Equipment (PPE) which reduced the number of man days lost during FY 06.

The Education Branch

Mission/Responsibilities: LTC Sharon Tyson is Chief of the Education Branch for the Kentucky Army National Guard. Her office manages a variety of educational programs available to KYARNG Soldiers, to include:

- Montgomery GI Bill-Reserve Component and Montgomery GI Bill-Active Duty
- Kentucky National Guard Tuition Award Program (Air and Army Guard)
- Army National Guard Federal Tuition Assistance Program
- Defense Activity for Non-Traditional Education Support (DANTES) Testing Programs
- Army Personnel Testing Programs

The education branch also has the additional responsibilities of processing federal and state awards for KYARNG Soldiers and managing the Diversity Training Program.

Significant events from 1 Oct 05 to 30 Sep 06:

- From 1 Oct 05 to 30 Sep 06, approximately 761 DD Forms 2384 (Notice of Basic Eligibility) were issued to Kentucky Army National Guard Soldiers, along with approximately 737 kicker contracts. The DD Form 2384 is the initial document provided to the Soldier to verify eligibility for the Montgomery GI Bill Selected Reserve (MGIB-SR) benefit. The kicker contract is an incentive and provides additional benefits to the basic MGIB. These benefits are paid by the Department of Veterans Affairs when a Soldier is enrolled in a Veterans Affairs approved program and submits an application to the VA for benefits.
- Approximately 1600 applicants used the Kentucky National Guard Tuition Award Program over the last state fiscal year. These funds are paid to the school by the Kentucky Higher Education Assistance Authority. To be eligible, Soldiers must be attending a state-supported college/vocational school and meet established eligibility criteria to participate in the program.
- Approximately 620 Soldiers applied for the Army National Guard Federal Tuition Assistance Program. These funds are provided by National Guard Bureau for the purpose of providing tuition assistance for Soldiers attending schools accredited by the U.S. Department of Education.
- Approximately 45 DANTES exams were administered over the last FY which included the following type exams: ACT Assessment (college entrance exam); Scholastic Aptitude Test (SAT), (college entrance exam); College Level Exams (CLEP); Defense Activity for Non-Traditional Education Support Exams (DANTES); Excelsior Exams; Automotive Service Excellence exams (ASE) and PRAXIS (teacher exam)

- Approximately 47 Army Personnel exams were administered this fiscal year. These exams include: Defense Language Proficiency Exams (DLPT); Defense Language Aptitude Battery (DLAB); Alternate Flight Aptitude Selection Test (AFAST); Armed Services Vocational Aptitude Battery (ASVAB); Auditory Perception Test (APT); Oral Proficiency Interviews (OPI)
- Approximately 188 federal and state awards were processed for Kentucky Army National Guard Soldiers.
- Sixty-nine members of STARC received Senior Diversity Training.

The SIDPERS Branch

Mission/Responsibilities:

CW3 Travis Mason supervises the SIDPERS Interface Branch (Standard Installation Division Personnel) which maintains automated records and information on approximately 6900 personnel in the Kentucky Army National Guard. The Department of Defense, National Guard Bureau, and Congress all use this information to determine the allocation of units, equipment and personnel. SIDPERS has the responsibility of inputting and updating the electronic record of all Kentucky Army National Guard Soldiers. They process new enlistment packets, discharge actions, and enlisted and officer promotion actions. These and numerous other electronic transactions are the primary function of this Branch. Additionally, SIDPERS has the responsibility to maintain the forces structure data for each unit of the KYARNG. Throughout the year this branch performs transactions that create, modify and delete units from the SIDPERS database based on documents received from The Department of the Army.

Significant Events/Accomplishments

Significant Events/Accomplishments from 1 OCT 05 to 30 SEP 06. The SIDPERS branch processed 2074 new enlistment packets and thousands of enlisted and officer personnel transactions.

Retirement Points Accounting Management (RPAM) is another element of automation within the SIDPERS section. This program is managed and maintained by Staff Sergeant Jason Petitt, he maintains automated retirement records on all KYARNG Soldiers. In addition, automated records have been maintained on former members of the Kentucky Army Guard since March 1987. These former members' automated records are maintained for 47 years or until the Soldier reaches age 64, whichever comes first.

J1 - Information Technology Branch

The J1 Information Technology Branch chief is CW3 Travis Mason. This newly developed branch has the mission and responsibility for implementation, fielding and sustainment of personnel automation systems. The branch was instrumental in the recent fielding of the Reserve Component Automation Systems applications (RCAS) used in personnel data management and the Permanent Electronic Records Management Systems (PERMS) which eventually will lead to a paperless personnel record.

The branch also plays a vital role in personnel transformation at the national level. They have been officially recognized as being "at the tip of the spear" in development, implementation and fielding of several new personnel automated programs.

Department of Veterans Affairs Health and Benefits Support Specialist

Mission/Responsibilities: Mr. Richard Gooch assumed the position on 5 September 2005. This contract position serves as a statewide point of contact and coordinator for benefits and entitlements

available through the State and Federal Department of Veterans Affairs and provides technical assistance in resolving entitlements to TRICARE.

He participates in mobilization and the demobilization processing of Soldiers and their families. Mr. Gooch has coordinated with appropriate Veterans Affairs, TRICARE, Veteran Service Organization, and other resources to provide required information and assistance. He participates on councils and teams representing organizations and agencies involved in obtaining, and resolving entitlements and benefits issues for National Guard members or their families. He has worked aggressively with Soldiers and families during the TRICARE Reserve Select special open enrollment season. His research and assistance has been invaluable in resolving issues associated with entitlements when Guard members/and or their family members encounter problems.

Employer Support of the Guard and Reserve

Mission/Responsibilities: The Kentucky Employer Support of the Guard and Reserve (ESGR) Executive Director is Mr. David Orange. He provides Soldiers, families and employers the opportunity to raise issues of concern regarding quality of life for leadership information and action.

Mr. Orange serves as the liaison for all Reserve Component Service Members and their employers during periods of Active Duty. This support is provided in partnership with the local ESGR Committee to build a supportive employer environment for all reserve components within the state, the achievement of which is in the best interest of the National Guard.

This office provides service to the Kentucky National Guard and Employers throughout the state in numerous areas: Military Outreach, Employer Outreach, Employer Awards Program, Employer training,

Ombudsman's Services, Family Support and Community Services. ESGR has 13 trained ombudsmen and recruited over 50 volunteers to support the state program.

Governor Fletcher signed the Employer Support of the Guard and Reserve Statement of Support on 11 Jul 06. Front row from left to right are: Tom Baker - Chairman Kentucky Committee for Employer Support of the Guard and Reserve (ESGR); Governor Ernie Fletcher (seated) and Chief Master Sergeant (R) David Orange - Executive Director of the Kentucky Committee for Employer Support of the Guard and Reserve (ESGR) Back row from left to right are Command Sergeant Major Phillip D. Gearlds - State Command Sergeant Major (Army); Colonel Mike Jones - United States Property and Fiscal Officer; Brigadier General Lonnie Culver - Deputy Adjutant General; Major General Donald C. Storm - The Adjutant General. Photo Courtesy Governor's Office.

The State Family Support Program and the Family Assistance Center

Mission/Responsibilities: The mission of the Family Program is to facilitate ongoing communications, involvement, support and recognition between Army and Air National Guard families, National Guard Leadership, and National Guard Soldiers and Airmen in a partnership that promotes the best in both. Major Marion Peterson serves as the program director. He serves as an active member of the Kentucky Inter-Service Family Assistance Committee.

The Family Assistance Center is designed to provide assistance, support and referral to families of the Kentucky National Guard and family members from all branches of service residing in Kentucky, especially during periods of mobilization and deployments and in emergency and non-emergency

situations. The program provides the infrastructure that supports the process of identifying, defining, addressing and resolving issues that impact the balance between National Guard service and family stability.

Another component of the program is the Youth Development program.

Significant events from 1 OCT 05 to 30 SEP 06:

- Nine (9) Family Readiness Groups chartered in Army and Air Guard units.
- Twenty (20) Family Readiness Group charter renewals in Army and Air Guard units.
- Provided mobilization briefings to mobilized Kentucky Army and Air National Guard members and their families.
- Provided reunion briefings to demobilizing Kentucky Army and Air National Guard members and their families.
- Provided support and assistance to Guard members and their families throughout the Commonwealth experiencing personal and/or financial difficulties.
- Conducted twenty (20) consolidated Family Readiness Group Leader Training Workshops for Family Readiness Group Volunteers, and Unit Commanders/First Sergeants.
- Conducted Family Program briefings at Senior NCO conferences, retention seminars, Pre-Command Course, REMOBES/MOBEX'S and many unit Family Readiness Group meetings/activities.
- Conducted the fourth annual Kentucky National Guard Family Program Youth Development Week at the Wendell H. Ford Regional Training Center for children and grandchildren of Kentucky National Guard members. National Guard youth ages 9-17 participated in this week long event.
- The Adjutant General, State Command Sergeants Major, State Family Program Director, and twelve (12) Family Program Volunteers attended the National Guard Bureau Family Programs National Workshop in Philadelphia, PA.
- Two Kentucky National Guard Family Program teenagers participated in the National Guard Bureau Family Program Youth Symposium conducted in conjunction with the National Guard Bureau Family Program Workshop in Philadelphia, PA.
- Conducted three Marriage Enrichment Seminars.

Operations Directorate (J3)

The Operations Directorate (J3) consists of three Branches: Mobilization and Readiness Branch, Military Support Branch, and Training Branch. COL Hunter Mathews serves as the J3 for Joint Forces Headquarters Kentucky (JFHQ KY)

Mobilization And Readiness Branch

LTC Charles Peden served as the Mobilization and Readiness Branch Chief for FY06 with LTC Robert Watson slated to serve as Branch Chief next year. The Mobilization and Readiness Branch coordinated and executed ongoing mobilizations in support of operations worldwide. Soldiers from the Kentucky Army

Kentucky National Guard Capt. Eldern Riley III patrols with the Afghan National Army in 2005. (Photo courtesy of Kentucky National Guard Public Affairs Office)

National Guard have supported Operation Joint Forge (Bosnia-Herzegovina), Operation Joint Guardian (Kosovo), Operation Enduring Freedom (Afghanistan), and Operation Iraqi Freedom (Iraq). In all, thirty-five different units or derivative units mobilized and deployed with more already programmed for Training Year 07.

Over the past twelve months the Kentucky Army National Guard welcomed home units who supported Operation Iraqi Freedom such as the 617th Military Police Company (Richmond and Bowling Green), the 940th Military Police Company (Lexington and Walton), the 231st Military Intelligence Company (Shelbyville), Company B, 206th Engineer Battalion (Hazard), Battery A, 1st Battalion 623rd Field Artillery (Tompkinsville), and Battery B, 1st Battalion 623rd Field Artillery (Campbellsville). Other individuals from Company F, 135th Aviation and the 207th Maintenance Company returned as well. Soldiers from the 149th Armor Brigade (Louisville) returned from Operation Joint Forge in Bosnia and Company C, 206th Engineer Battalion (Prestonsburg), returned from Operation Joint Guardian, Kosovo. From Operation Enduring Freedom, Afghanistan, we saw the return of Task Force Cumberland which included Soldiers from the 149th Armor Brigade, the 138th Field Artillery Brigade, Joint Forces Headquarters, and the 75th Troop Command. Also returning from Operation Enduring Freedom was Detachment 1 2/20th Special Forces Group (Louisville).

Mobilizations

June 2006 was a busy time in that we mobilized and deployed 9 different units to include the “Mountain Warriors” of the 1st Battalion 149th Infantry with units from Somerset, Barbourville, Harlan, London, Ravenna, Williamsburg, and Middlesboro, the 410th Quartermaster Combat Supply Company (Danville), and elements from Company F, 135th Aviation (Frankfort). Also in Dec 05 the 198th Military Police Battalion (Louisville) mobilized for deployment in support of Operation Enduring Freedom.

In all the Kentucky Army National Guard mobilized 1246 Soldiers during the past year with additional Soldiers programmed for the next year. Since September 11, 2001, we have mobilized 10,117 Soldiers of which 7,430 have deployed overseas. All of our Soldiers and units were mobilized for an initial period of up to 545 days. Most will have “boots on the ground” for 12 month periods.

Force Integration

The Kentucky Army National Guard will undergo a significant change in our force structure over the next few years. The initial planning for this transition began this year with a stationing conference in Covington, KY. The purpose of this meeting was to identify the units that will transition and review the stationing of these units. MG Storm addressed the Major Commands, Directors, and Staff on his goals and expectations for the future of the KYARNG during the conference.

The KYARNG started our transition in fiscal year 2006 within the aviation community and the Force Integration Readiness Office continues to prepare for the remainder of the activations and conversions that are scheduled for KYARNG units by the end of FY06.

Force Structure:

Action	<u>Unit</u>	Activation	2138th Forward Support Co
Activation	149th EN Co (Vertical)	Activation	203rd FSC
Activation	Det 1, 149th EN Co	Activation	Det 1, 203rd FSC
Action	<u>Unit</u>	Activation	Det 2, 203rd FSC
Activation	207th EN Co (Horizontal)	Activation	138th Signal Network
Activation	130th EN Co	Activation	HHC 1204th AVN
Activation	Det 1, 130th EN Co	Activation	Co A, 1204th AVN
Activation	577th EN Co (Sapper)	Activation	HHC 149th BCT
Activation	118th EN Co (Haul)	Activation	HHC 149th BSTB
Activation	613th Facilities Detachment	Activation	Det 1, HHC 149th BSTB
Activation	103rd BSB	Activation	Co A, 149th BSTB
Activation	HHC 103rd BSB	Activation	Co B, 149th BSTB
Activation	Co A 103rd BSB	Activation	Co C, 149th BSTB
Activation	Co B 103rd BSB	Activation	Co F, 31st BSB

New Equipment Fielding:

<u>Type Equipment</u>	<u>Unit</u>	<u>Quantity</u>

M22A1, Chemical Alarm	Various Units	22
Joint Incident Site Communication Capability	Various Units	30
AFATDS	1st Bn 623d FA	15

Total NET Budget: \$119,900 Budget executed 95.1%

Military Support Branch

LTC Wayne Byrd serves as the Military Support Branch Chief. The Military Support Branch is the focal point of the Homeland Security mission within the Kentucky National Guard. The Kentucky National Guard’s application of the National Strategy for Homeland Security involves two distinct but interrelated missions; Homeland Defense and Military Support to Civil Authorities. The Branch provides assistance to the citizens of the commonwealth in a number of ways. The Branch is responsible for planning, preparation, detection, deterrence and response to threats to the Commonwealth both from Natural Disasters and acts of Terrorism. Our goal is to remain constantly vigilant in our efforts to respond whenever and wherever needed throughout Kentucky.

Military Support to Civil Authorities

The Military Support Branch continues to provide support to the Commonwealth in the form of Military Assistance to Civil Authorities. We also provide military support to the Kentucky Emergency Management Division during state emergencies, whether the disaster is manmade or natural. Additionally the Military Support Branch supports such high profile events as the Kentucky Oaks and Derby, Thunder over Louisville, Newport Riverfest and numerous races at the Kentucky Motor

Speedway. As in the past our responsibilities included coordinating with the local police department and other state and federal agencies to prevent or mitigate the effects of civil disturbance or terrorist act. This year the Kentucky National Guard provided 420 Soldiers to assist city, state and federal authorities in providing security for the Kentucky Oaks and Derby. This included support from our 41st Civil Support Team (WMD), UH-60 and OH-58 helicopters and deployment of the KYNG mobile command post. The Branch provided 125 personnel to support Thunder over Louisville and the Newport Riverfest. In addition we coordinated and tasked support for 285 community festivals and ceremonies around the Commonwealth. The Military Support Branch provided 8,460 man days of State Active duty support to provide security and assistance to ceremonies and festivals within the State.

Security

The Military Support Branch is constantly striving to upgrade and enhance our security posture. We are in the process of upgrading our Intrusion Detection Systems throughout the armories and installations across the Commonwealth. We have installed electronic access control points at Boone National Guard Center Emergency Operations Center to control access to critical areas. We have continuously provided security personnel at Boone National Guard Center and Wendell H. Ford Regional Training Center since the terrorist attacks of September 11, 2001. We also continue to staff the State's Emergency Operations Center (EOC) 24 hours a day to respond to issues both in the Commonwealth and OCONUS. These Soldiers have the responsibility for intelligence monitoring and dissemination of information to the appropriate military department. They continuously search for any indication the citizens of the Commonwealth could be at significant or increased risk for a potential threat or natural disaster. The EOC personnel remain the state's military liaison to the public after normal duty hours, providing informational support and public assistance when required.

Joint Operations Center

The Military Support Branch has established a Joint Operation Center (JOC) at our Joint Force Headquarters (JFHQs). The JOC is trained, equipped and ready to execute Homeland Security operations at the request of the Governor or Adjutant General. The Kentucky JOC ably coordinates military support to civil authorities, crisis response, and dissemination of security information to local authorities. Joint Operations Center members are highly trained and qualified members of the Kentucky Army and Air National Guard. These individuals possess critical skills and experience essential for the effective operation of the JOC. The knowledge and experience

TOP: MG Storm speaking to the media during about the capabilities and advantages of the new command post.

MIDDLE: Outside view of command post.

BOTTOM: CW3 David Barker prepares for a demonstration during the media event.

Photos Courtesy KG-PAO

gained during the Katrina relief mission will enable us to better prepare and respond to disasters in Kentucky. The J-3 Director of Military Support (DOMS) and JOC have responded to numerous natural emergencies during the past year to include statewide floods during September 2006, tornadoes, forest fires and snow storms. The J-3 DOMS coordinated numerous Search and Rescue missions for citizens missing and at risk. The JOC conducts frequent exercises with Federal, State and local officials to exercise and refine Homeland security plans. The Military Support Branch planned and executed a major exercise of the KYNG and KYEM involving a New Madrid Earthquake scenario during March 2006. This exercise provided realistic training and prepared KYNG and KYEM personnel to better respond to a major disaster within the Commonwealth.

Military Command Post

A primary responsibility of the Military Support Branch is providing security to the citizens of the Commonwealth. In order to accomplish this mission, we received and began operation of a new mobile Command Post in March 2006. The Command Post's communication hub will be our lifeline back to the Emergency Operations Center in the event of a major disaster in the Commonwealth. The new Command Post is the primary vehicle that will be report critical information concerning the status of an incident. This link will also provide critical information to our military and civil command staff ensuring operational awareness and visibility of any emergency situation. The new Command Post is able to provide interoperable communications with local emergency responders, military units, state and local law enforcement as well as aircraft.

The Mobile Command Post will have state of the art electronic radios and devices to communicate with any and all local, state and federal agencies. Additionally, air to ground communications will be installed to communicate with National Guard military aircraft. A Broad Band Satellite system will provide reach back capability to the military JOC and state EOC to track situational awareness and mission support. An air to ground video system will be installed to view the disaster scene and transmit real time video back to the military JOC and state EOC for senior military and state emergency management directors. Computer servers will be installed in the Command Post to provide incident management tracking and email connectivity to the state EOC and JOC. Many of our KYNG personnel received valuable experience working during the Katrina relief mission. KYNG personnel established the initial satellite communication system in Mississippi and received extensive experience in establishing communications in areas devastated during the disaster.

Funeral Honors

The Military Support Branch remains the focal point for all Kentucky National Guard requests for Military Funeral Honors with support provided to all former military members. We also coordinate and task KYNG units to provide military honors in support of the Total Military Force to include not only the KYNG but also the Casualty Assistance Center at Fort Knox, KY. During the past year we conducted 71 military funeral honors and expended in excess of \$55,000 dollars.

International Cooperation

The Military Support Branch remains responsible for the planning and execution of the state Partnership Plan with Ecuador. This program is an integral part of the SOUTHCOM Theatre Security Cooperation Plan and assists foreign nations in providing training and expertise in military and civilian emergency management areas. During 2006 the Kentucky National Guard fully achieved its

goal in the State Partnership Program with Ecuador. We conducted five exchanges during the year with various Subject Matter Experts traveling to Ecuador to advise and assist Ecuador. Likewise Ecuador sent various personnel to Kentucky during the past year. In October 2006 The Ecuadorian Defensa Civil sent a contingent to Kentucky to observe how the Military Support Branch and KYEM provided military and state assistance during emergencies. The State Partnership Plan has had training exchanges focused on counter-terrorism, counter narcotics, police training, disaster response and maintenance training. The KYNG senior leaders have visited Ecuador to meet the senior Ecuadorian leaders and the US Embassy staff in an effort to foster closer working relationships and better support the Theatre Security Cooperation Plan.

Homeland Security

In 2006 the Military Support Branch spent in excess of 2.1 million dollars in federal funds to ensure both military and state security guards were available and trained providing security at various locations throughout the Commonwealth. These measures have been in place since September 11, 2001 and when coupled with our new initiatives provide increased security to the citizens of Kentucky. We remain an integral partner with the Kentucky Emergency Management and department for Homeland Security. The office of the Director of Military Support works closely with the KYEM in preparation, planning and response to both natural disasters and acts of terrorism. The Military Support Branch provides personnel to assist the Department of Homeland Security to enhance their ability to coordinate the actions of various State agencies providing security to the citizens of the Commonwealth. The Military Support Branch Security Section personnel coordinate daily with the Kentucky Office of Homeland Security on security issues to protect the citizens of the Commonwealth. The security section personnel are members of numerous anti-terrorism workgroups comprised of federal, state and local agencies.

The Branch continues to refine our military support contingency plans. These plans will assist us in the ability to provide more prompt and efficient support to the citizens of the Commonwealth. We will use the lessons learned during the Hurricane Katrina relief mission to make further modifications to our plans. Our mission to preserve life and provide public protection to our citizens remains the focus of our plans.

The Military Support Branch plays a critical role in providing protection and support to the citizens of the Commonwealth of Kentucky, ensuring that the Kentucky National Guard maintains the capability to support the communities throughout the Commonwealth while simultaneously supporting our federal mission both home and abroad.

Training Branch

LTC William Denny served as the Training Branch Chief for FY06 with LTC Michael Ferguson slated to serve as Branch Chief for next year. The Training Branch (J3-T) provides training oversight, guidance and support to units and Soldiers of the Kentucky National Guard in training for their federal and state missions by:

- Assisting Commanders in Planning, resourcing, executing and assessing mission focused training programs
- Research, development, and dissemination of training guidance and doctrine
- Assisting Commanders in the procurement and scheduling of training facilities, ammunition, training aids, devices and simulators, and external evaluators and assistance
- Managing budgets for Drill Pay, Annual Training, Special Projects and other training-related funds
- Forecasting and scheduling of Soldiers for Army Schools
- Coordinating the Adjutant General's Command Readiness Evaluation Program

The Kentucky Army National Guard continues to play a key role in executing the Global War on Terror while maintaining its ability to support the citizens of the Commonwealth in the event of a disaster or emergency. We continually refine and seek ways to improve our training programs by capturing and incorporating lessons learned, and by seeking ways to more effectively and efficiently train our units, Soldiers, and leaders to perform their State and Federal missions. Over the past twelve months we have continued to utilize training programs that are tailored to prepare today's Soldiers to adapt to the threat we face in the ever-evolving Contemporary Operating Environment.

Close Quarters Marksmanship

Close Quarters Marksmanship (CQM) encompasses a variety of skills that a Soldier needs in order to enhance the odds of surviving and winning a close range lethal encounter. Not only does it include learning to shoot rapidly and accurately from practical positions encountered on today's urban battlefield, it also focuses on crucial weapon handling skills, ammunition management, rapid deployment of the weapon, malfunction reduction, and critical safety habits which allow the Soldier to instantly respond to a threat without endangering his teammates in close proximity.

Our current program is based on the Special Forces Advanced Urban combat program. The primary goal of CQM training is to make each Soldier reflexive with his weapon. He should not have to think about how to operate his weapon: he can do those things automatically because he has practiced them. We are continually refining the program and are currently developing courses which will involve more shooting from cover, shooting on the move, and instilling the Combat Mindset.

Weaponcraft Instructor Course

In order to more effectively and efficiently manage the CQM program, the Kentucky Army National Guard developed the Weaponcraft Instructor Course, which was previously known as the Small Arms Master Gunner Course (SAM-G). Weaponcraft Instructors are unit-level subject matter experts trained to assist unit commanders in planning and conducting marksmanship training. The course is conducted in two phases. Phase I consists of the Total Army Individual Training Course (TAITC) which trains Soldiers to teach and lead training to the Army Standard in a classroom or field environment, regardless of subject matter. Phase II consists of a series of rigorous courses on various small arms weapons, marksmanship techniques and instruction, employment of small arms in urban combat, and range planning and operations. To graduate from the Weaponcraft Instructor Course student is required to successfully complete each phase of the course, give two presentations, and pass a comprehensive final exam.

Combatives

Proficiency in hand-to-hand combat is one of the fundamental building blocks for training the modern Soldier. Many of today's military operations, such as peacekeeping missions or noncombatant evacuation, may restrict the use of deadly weapons. Additionally Soldiers must be prepared to use different levels of force in an environment where conflict may change from low intensity to high intensity over a matter of hours.

Courses were planned for FY 06 however they were cancelled due to funding issues.

Pre-Deployment Training

All Reserve Component units and Soldiers mobilized for the Global War on Terror receive post-mobilization training while in Federal status prior to their deployment overseas. During FY-2006 the Kentucky Army National Guard continued its practice of providing an additional program of intense, mission-tailored pre-deployment training for Kentucky Army National Guard units and Soldiers prior to their mobilization into Federal service. Throughout the past four years this training program has

evolved in response to changes in the Contemporary Operating Environment (COE) and by incorporating lessons learned from theater. The Pre-Deployment training program, usually conducted over a fifteen-day period ending just prior to the Mobilization Day, consists of the following elements:

- Marksmanship Instruction
- Individual Weapons Qualification
- Close quarters marksmanship
- Foreign Weapons Familiarization Training
- Theater-specific Training
- First Aid Training
- Country Briefings and cultural training
- Anti-terrorism Training
- Urban Operations
- Convoy Operation

Many Soldiers and Leaders deployed in Iraq and Afghanistan have commented that the KYARNG's Pre-Deployment Training increased their proficiency and has saved lives.

eXportable Combat Training Capability (XCTC)

Currently the Army National Guard Force Generation Model requires ARNG battalions to conduct a Field Training Exercise (FTX) prior to deployment at one of two Combat Training Centers (CTC), located at Ft Irwin, CA and Ft Polk, LA. This creates significant throughput challenges, particularly during peak periods of mobilizations. National Guard Bureau is working to develop an alternative to the CTC experience so that a doctrinally correct and rigorous FTX can be executed at or near home station. Wendell H. Ford Regional Training Center (WHFRTC) is working to maintain and expand its capability to conduct XCTC exercises using existing digitized training devices.

Joint Force Headquarters

In FY-2004 the separate Kentucky Army and Air Guard Headquarters re-organized as a Joint Forces Headquarters in accordance with current Department of Defense policy. During TY-2006 Joint Forces Headquarters, Kentucky (JFHQ-KY) continued to develop and enhance its capability to conduct operations in support of Homeland Security, Homeland Defense, Civil Support and Emergency Preparedness.

Kentucky was one of the first states in its region to develop an approved Joint Training Plan (JTP) for its state Joint Forces Headquarters. The JTP identifies the conditions, and performance standards of critical tasks that enable JFHQ-KY to conduct Homeland Defense, Homeland Security, Emergency Preparedness and Civil Support. Training requirements are derived from the National Military Strategy and provides JFHQ-KY a means to plan and execute training to increase and sustain its proficiency. The JTP also assists JFHQ-KY in planning and tailoring exercises and events to meet its training objectives.

Wendell H. Ford Regional Training Center

The Wendell H. Ford Regional Training Center (WHFRTC) is an 11,000-plus acre facility capable of housing over 800 Soldiers. WHFRTC training facilities consist of: a battalion-size maneuver box; live-fire small arms ranges; a laser gunnery range for tanks and missile systems; and extensive simulation facilities to include a Firearms Training System (FATS), Conduct of Fire Trainer (COFT), Guardfist II Call for Fire Trainer (CFFT), Simulation Network (SIMNET) suite, a Deployable Force-on-force Instrumented Range System (DFIRST), and Virtual Convoy Trainer (VCOT). The construction contract for Phase VI of the WHFRTC master plan was awarded in August 2006. This new construction will increase housing capacity by 425 Soldiers and includes a state of the art Class Room Facility that will include an Auditorium capable of seating 160 Soldiers. WHFRTC is fully

staffed to host National Guard, other military, and in most cases civilian agencies. The WHFRTC Staff includes experts in construction of new training facilities, CQM training and personnel dedicated to provide support 365 days a year to using agencies regardless of size.

Schools

Training Branch also manages the state's military schools and professional education program. During FY 2006 305 Kentucky Army National Guard Soldiers completed Initial Active Duty Training (IADT), and 447 others completed a Military Occupational Specialty Qualification (MOSQ) course. Four hundred forty eight (448) non-commissioned officers completed NCO Professional Development Courses, and 294 officers completed a required Officer Education courses. Additionally 698 Soldiers acquired various additional skills by attending formal military schools for a total of 1887 Soldiers trained, accounting for 106% of last year's training quota.

Transformation

The Army is currently conducting an extensive set of diverse and demanding operations, and it is likely that such operational challenges will continue. As part of its response to these challenges, the Army is undertaking a process it calls Transformation, which involves reforming its organizations and operational concepts to improve responsiveness and lethality. Changes are also underway in roles and missions for the Reserve Component, including modernization and conversions to modular Brigade Combat Team (BCT) organizations. These changes will require Soldiers to acquire new skill sets and units to prepare to perform new missions. Training Branch is working to identify and resource requirements to successfully maintain the relevancy, responsiveness and capabilities of the Kentucky National Guard to ensure our enduring capability to respond to the needs of the Nation and the citizens of the Commonwealth of Kentucky.

Kentucky National Guard Counter Drug Program

The Kentucky National Guard Counter Drug Program (KY-CD) is a vital member of the Governor's Marijuana Strike Force. The Strike Force was formed in 1990 and brings together nineteen different Federal, State and Local agencies in a unified effort to combat Kentucky's drug problem. The Kentucky National Guard is a supporting element to the Law Enforcement Agencies (LEAs) sworn to uphold the laws of our state and nation as well as community based organizations that work to reduce the demand for drugs. KY-CD is a valued force multiplier providing highly trained and motivated Soldiers and Airmen as well as an array of vital aircraft and equipment.

The KY-CD currently consists of 75 Army National Guard Soldiers on Full Time National Guard Counter Drug (FTNGCD) orders in accordance with Title 32, United States Code, Section 112. These Soldiers are from National Guard units throughout the State and perform Counter Drug duties in a support role. During the summer months, 100 additional Soldiers and Airmen are placed on Counter Drug orders to support the marijuana eradication initiative. Geographically, Kentucky has a total area of just over 40,400 square miles, making it 37th largest state in the Union. It has 1.35 million acres of public land, which is conducive to marijuana growing. Kentucky is bordered by two major river systems and has five major interstate systems, two of which are major North South drug corridors.

The bulk of KY-CD support goes to the Governor's Marijuana Strike Force, Appalachia High Intensity Drug Trafficking Area (AHIDTA), Kentucky State Police, U.S. Forest Service, U.S. Drug Enforcement Administration, U.S. Marshall Service, federal and state drug programs, county sheriff offices, and local police departments throughout the state. The activities of KY-CD can be broken down into three major functional categories: Demand Reduction, Supply Reduction, and oversight of the National Guard, Substance Abuse testing program. Specific program mission categories include support to community based organizations and educational institutions, youth leadership development,

coalition development and support, information dissemination, investigative case support, intelligence analyst, linguist support, aviation support, ground reconnaissance, and marijuana eradication. All of these programs were funded by a fiscal year 2006 budget of approximately \$3.2 million from NGB-CD plus an additional \$2.5 million in Congressional Line Item

The mission of the Kentucky National Guard Demand Reduction Program (KY-DDR) is to support existing drug prevention organizations, coalitions, schools, LEAs and community based organizations in their drug prevention efforts to expand the community efforts and assist in forming coordinated and complementary systems that reduce substance abuse in our state. The primary focus is on coalition development, which enhances community mobilization and assistance neighborhood groups. Developing community coalitions brings together community dignitaries, clergy, education, LEAs, and concerned citizens for a common effort and allows these groups to set goals and objectives that best suit that communities' particular drug issues and create resiliency to provide alternatives to drug abuse and drug related crime. KY-DDR sponsors a number of programs with schools, LEAs, youth groups and communities providing resources as a force multiplier to current federal, state, and local drug education and prevention programs. In fiscal 2006, KY-DDR distributed 240,000 Red Ribbons and reached 56,249 people in Kentucky with other drug prevention programs.

KY-DDR works closely with the Governors Office of Substance Abuse, Office of Drug Control Policy, State Division for Substance Abuse, Kentucky Awareness for Substance Abuse Policy (KYASAP), 13 Regional Prevention Centers, Kentucky Justice Cabinet, Kentucky State Police, Kentucky Crime Prevention Coalition, and schools across the state. KY-DDR has assisted the development of strategic planning in 106 of Kentucky's 120 counties and will assist 14 additional counties that have just started the process. KY-DDR along with the Champions for a Drug Free Kentucky also supports 54 local coalitions across the state.

Community Based Organizations (CBO) are supported by KY-DDR with drug prevention education material and training, ROPES Challenge Course, facilitation in environmental strategy, logic model planning and other prevention needs.

KY-CD works both in supply and demand with the Justice Department, LEAs, Regional Prevention Centers, coalitions and local communities to decrease the supply and demand for methamphetamine. The primary goal of this strategy is to increase the public awareness of the harmful potential of drug abuse. The program strives to build networks across the state, using conferences and presentations as a means to network and discuss the problems of confronting methamphetamine use. Our strategy includes an aggressive campaign of radio announcements, television commercials, poster advertisements and literature.

Youth leadership development efforts such as The Governor's Statewide Teen Leadership Challenge, Junior guard Adopt-A-School program, DARE, and other Kentucky youth programs increase a youths ability to recognize and avoid the dangers of drugs and drug related crimes. Anti-drug presentations in schools are a major element of this drug prevention program. Many members of the KY-CD, community coalitions, unit family support members, and unit members are trained to make presentations in schools from K-12 grades. These programs are also presented to high schools by Army National Guard recruiters. Many of these school activities are conducted in partnership with the Safe and Drug Free Schools program and other drug prevention organizations.

KY-DDR also conducts Drug Education For Youth (DEFY) program in partnership with the U.S. Department of Justice. This program selects up to forty inner city children from ages nine to twelve and hosts a five day residential summer camp and mentoring phase during the following school year.

Marijuana Eradication

Supply reduction activities stem the flow of illegal drugs into and within the United States. This program performs a variety of counter drug mission in support of federal state and local law

enforcement through out Kentucky. Supply reduction is a force multiplier for LEAs, providing unique military orientated skills. The types of support provided are diverse, focusing on eradication, interdiction and investigation efforts. During fiscal year 2006, KY-CD assisted LEAs in locating and destroying 557,628 outdoor marijuana plants, 4,488 pounds of bulk marijuana, and numerous other drugs for a total street value of \$1.127 Billion.

Marijuana eradication is Kentucky's priority counter drug mission. Eradication support is provided to the Appalachia HIDTA, Governors Marijuana Strike Force, Kentucky State Police, and numerous federal, state, and local agencies. During FY 2005, KY-CD provided 9,350 man days, as well as 2416 OH-58 helicopter hours and 536 UH-60 flying hours to support the eradication effort.

KY-CD has assisted in the eradication of 9.3 million high grade marijuana plants since 1990 representing a street value of \$18.3 billion. Kentucky marijuana is desired by drug traffickers and is considered to be of high quality, often traded for other drugs or mixed with inferior strains of marijuana from other states and Mexico. Outdoor cultivation remains the predominate problem; however seizures of indoor cannabis growing operations have increased.

Investigative support is provided in several different categories. Some program members perform translation of recorded interrogations and/or wire investigations. This support is cost effective and contributes to on going counter drug efforts. Personnel are also assigned to provide operational case support and intelligence support, which significantly enhances the effectiveness of counter drug investigations. Case support primarily focuses on case file documentation and management, while intelligence analysts utilize advanced analytical skills to provide law enforcement with tactical interdiction and investigative options.

As part of our supply reduction efforts, perhaps the most critical support the program provides LEAs is in the area of reconnaissance and observation. Ground and air reconnaissance draw upon unique military oriented skills and equipment that law enforcement do not possess. Specially trained reconnaissance personnel and aviators monitor activities in remote drug corridors. Aerial and ground sensor systems utilize thermal imaging devices, night vision devices, and high tech communications equipment are utilized to provide invaluable information and support to LEAs.

The Kentucky CD Program operates six OH-58 helicopters that provide support for both counter drug and Homeland Security. These aircraft are equipped with infrared thermal imaging system, a law enforcement compatible Wolfsburg radio, Global Positioning System (GPS), video down link and moving map display. During night operations they are flown by crew using night vision goggles or can employ a 30 million candle power Night Sun. these aircraft are used primarily for aerial reconnaissance and marijuana eradication. During times of national or state emergency, these aircraft, crews and systems can provide invaluable command, control and communications to law enforcement and rescue/recovery operations. Crews and aircraft were sent to Louisiana early in the hurricane KATRINA and RITA rescue operations and are credited with saving several lives and assisting law enforcement in regaining control of New Orleans. These aircraft and crews are currently supporting missions along the South West border and will re-deploy early spring 2007 to again fly marijuana missions in Kentucky.

The Ground Reconnaissance and Observation teams utilize high-tech equipment such as Satellite communications (SATCOM) to provide communications support to LEAs in the mountainous terrain of the Appalachia Mountains. These teams also employ long range video equipment as well as unmanned camera systems capable of providing increased security and efficiency.

The Program provides oversight for National Guard substance abuse testing as part of the Internal Substance Abuse Prevention Program in Kentucky. The counter drug coordinator manages the substance abuse program for the Kentucky Army and Air National Guard. The substance abuse staff assigned to the program provides administrative and logistical support to units while overseeing the execution of individual drug testing programs. Counter drug personnel also provide qualification training expertise to drug testing personnel at the unit level.

The Kentucky counter drug federal budget for fiscal year 2007 is \$3,129,220.00 KY-CD is also anticipating \$3 million dollars in Congressional Line Item for marijuana eradication. This budget is disbursed from the federal government and funds all the Programs supply and demand reduction activities. In addition, Kentucky receives \$79,000 for internal prevention and drug testing. The KY-CD receives \$200,000 in additional funding from the state budget and \$200,000 from the Appalachia HIDTA.

J4

Surface Maintenance Management Office

Function:

This office manages all aspects of surface maintenance related activities for the Kentucky Army National Guard (KYARNG). Its purpose is to provide guidance and support to units, organizations, and activities through management of maintenance activities. These activities consist of the following: Combined Support Maintenance Shop (CSMS), Maneuver Area Training Equipment Site (MATES), Unit Training Equipment Site (UTES), and Field Maintenance Shops (FMS) and may include support for other units.

The Surface Maintenance Management Office directs and administers all areas of the surface maintenance program for the state, including long and short range planning, maintenance training and proficiency, human resource direction, budgeting, etc. This office also manages and controls the allocation and utilization of full time manpower resources for maintenance facilities through the assessment of current project workloads. This is done by analyzing production effectiveness to maximize equipment readiness in the state while providing functional analysis and administrative control of the organizational budget.

Significant Events for the Surface Maintenance Management Office during 2006 include participation in the National Reset Program for the Heavy Equipment Transport Systems (HETS); development of the State Reset Program; receipt of M915A1 Medium Transport Systems from the Rebuild Program in Alabama for the 2113th Transportation Company; ground breaking for the new FMS #12 in Paducah, Kentucky; and the pull out of the 278th Armor Cavalry Regiment from the Kentucky MATES in Fort Knox, Kentucky.

Field Maintenance Shops (FMS)

Field Maintenance Shops (FMS) - The Field Maintenance Shops provide Two Level Maintenance support to the units on a day-to-day basis. The Kentucky Army National Guard relies on nine Field Maintenance Shops for the maintenance support needed to maintain unit equipment for training and mobilization. These 8 to 12 man maintenance shops are spread across the state, and located at strategic locations based on support requirements. The FMS personnel have provided the units with assistance and training on proper maintenance and procedures during IDT to the unit maintenance sections. The individual mechanics are Soldiers who belong to the local units supported by the FMS and work for the KYARNG full-time. Many are senior Non-Commissioned Officers (NCOs) who provide continuity between the unit and the full-time force. These are trained technicians with the skill and knowledge to service, repair and inspect military equipment assigned to the Kentucky Army National Guard. These dedicated individuals are the primary source unit commanders have to ensure their equipment is ready for any state or federal mission.

The FMS's were instrumental in preparing units for mobilizations by providing additional support to ensure that the equipment was fully mission capable prior to leaving its home station. The FMSs supported the unit's equipment returning from Demobilization Stations by inspections, transporting and

repairing equipment as it arrived back in the state. The FMSs provides the command with information on readiness through the Unit Level Logistics System-Ground (ULLS-G) and suggestions on how to improve maintenance throughout the state. The FMSs provides assistance and recovery operations for other states convoying through Kentucky. Although the shops' daily responsibilities have increased due to deployments all other equipment left behind by the mobilized units continue to be supported by the FMSs. The FMSs continues to support the state active duty missions and maintains equipment positioned at their location while many of their mechanics are deployed.

Ground breaking for a new FMS at Paducah occurred this year. The new FMS building will have 22,000 square footage including (4) 32x64 foot work bays. Another new FMS is planned for the Richmond area for FY 2008. Both of the new FMS shops will be equipped with a 15 ton overhead work bay crane and the latest shop safety equipment. This year the FMSs were fielded with a new software package called Property Book Unit Supply Enhanced (PBUSE). The PBUSE software was designed specifically to replace the Defense Property Accounting System (DPAS) in garrison and tactical environments.

Kentucky RESET Program

Kentucky recently received the mission from National Guard Bureau to inspect and repair Kentucky equipment returning from Operation Endearing Freedom (OEF) and Operation Iraqi Freedom (OIF). This was done in the past by defense contractors at Equipment Demobilization Sites (EDS). The purpose of the program is to restore unit's equipment to like new condition. The RESET program is stationed at the MATES and manned with ADSW personnel from Kentucky units. Manning is forecasted to reach up to 30 Soldiers in FY07. The KY RESET program will restore Kentucky units and their equipment to a desired level of combat capability commensurate with mission requirements and provide availability of resources for state active duty missions.

National RESET/Rebuild Program

National Reset is a program for specific equipment that has been identified to be restored to like new condition by defense contractors. The equipment is shipped directly to one of National RESET sites, and the unit is issued a like new replacement. Currently, Kentucky has 80 Heavy Equipment Transporter (HET) systems, enrolled in the National RESET program for FY07. KY also has 43 Heavy Expanded Mobility Tactical Truck (HEMTT) identified as candidates for the rebuild program.

Combined Support Maintenance Shop

The Combined Support Maintenance Shop (CSMS) is located at the Boone National Guard Center in Frankfort, KY. The CSMS continually supports the troops and units that are deploying in support of the global war on terrorism. The CSMS also supports the State of KY and surrounding states in natural disasters and homeland security missions. The CSMS provides Direct Support and General Support (DS/GS) maintenance to all units and Field Maintenance shops for the state of KY. It provides automotive, missile, small arms, electronic and COMSEC repair, along with the allied trades shop which provides repair in canvas, welding, metal working, wood working, radiator, glass, machining and is the only approved painting facility in the KYARNG. The states only Command Maintenance Evaluation Team (COMET) is provided by the Inspection section. CSMS also provides equipment maintenance support to the state recruiting program.

The CSMS supported all mobilizations and redeployments while at the same time maintaining the usual work load completing 2,516 work orders. As a result of all units deploying with weapons, communication equipment, and protective masks the electronics and small arms repair shops saw a significant increase in their work orders. CSMS also supported the up-armored program for Modine which was testing an air conditioning system from military vehicles and the new M-22 chemical alarm

fielding. CSMS also completed eight (8) COMET evaluations for the state CRE program. This evaluation gives the Commander an overall assessment of his unit's equipment and maintenance readiness.

Changes that affected CSMS this year were the conversion of the property book system from DPAS to PBUSE, the re-writing of all personnel position standards, and transition to the two (2) levels of maintenance. CSMS personnel also increased their levels of professional development by participating in the following training; FMTV and HMMWV maintenance, supervisor's course, interview, advanced recycling, CRE ENGIS, welding, HAZMAT/HAZCOM, and first aid.

As true professionals and with attention to detail the employees at CSMS conducted all maintenance activities in a timely, professional and safe manner. There were no serious injuries, major spills or environmental issues in the year of 2006.

CSMS has an authorization of fifty-eight (58) employees. The personnel at the CSMS possess the skills, knowledge and expertise to perform repairs on any and all ground/support equipment. At one point in this past year there were thirteen (13) personnel deployed in direct support of the global war on terror, twelve (12) in support of OIF and one (1) in support of OEF. There were also two (2) personnel deployed in support of Operation Jumpstart, on the border with Mexico. CSMS supported a total of 1,243 troops and eleven (11) units that were deployed in 2006. The dedication, commitment and a truly team effort enabled the CSMS personnel to provide a quality of support for these deployments that is unsurpassed by any other. This quality of support ensured that the Soldiers in the KYARNG deployed with their equipment in the best state of repair possible.

Maneuver Area Training Equipment Site

Maneuver Area Training Equipment Site (MATES) - Located at FT Knox, Kentucky, the MATES maintained a quality support staff providing weekend and Annual Training (AT) support of multiple units and organizations of Active Army, Army Reserve, and National Guard. Throughout the training year, MATES provided training support to both in-state and out-of-state units to include; the South Carolina National Guard, the 100th Division, and the 278th Armor Cavalry Regiment's (ACR) equipment. MATES also worked with the FT Knox G3 in coordinating displays for various types of vehicle design teams. The intent was to show the design teams the actual space requirements for the equipment they were designing. The types of equipment set up for display were M1A1 Main Battle Tank, Paladin Self Propelled Howitzer, and Bradley Fighting Vehicle.

The MATES provided load and offload operations for equipment both going to and coming from OEF/OIF. There were multiple types of equipment arriving for 278th Armor Cavalry Regiment through the EDS to be stored at the MATES. MATES' personnel moved all equipment after they passed inspection.

MATES prepared and shipped multiple types of equipment designated for urgent shipment by order of National Guard Bureau for deploying units located in other states and prepared and shipped USPFO equipment to become static displays for FT Campbell. MATES also coordinated and provided support for the Paladin / FAASV retrofit with BAE Systems and auxiliary power unit, APU, modification for all thirteen (13) of the 2/138th FA M577s.

The MATES has undergone reorganization in the last several months. This reorganization supports both the RESET program with facilities and coordination of shared assets and the reduced manning due to the 278th ACR moving their equipment package to CP Shelby, MS. MATES was authorized 93 personnel last year and 60 personnel were mobilized.

Unit Training Equipment Site

Unit Training Equipment Site (UTES) – The UTES is co-located with the Wendell H. Ford Regional Training Center, in Greenville, KY. During Training Year 2006 UTES was a significant

support platform for the pre-mobilization training for the 149th BDE, 1/149th IN, 2/138th FA, 410th QM, and 2123d (PLT) providing maintenance support, fuel, POL, and repair parts. The most significant event of the year was hosting and supporting the transition maintenance training for MOS consolidation due to the conversion to two (2) levels of maintenance. 150 Soldiers were trained in new maintenance skills due to the consolidation of MOSs and maintenance tasks. Another significant event was the coordination and movement of the HETs to the RESET. Beginning in November 2006 the UTES shipped out forty (40) HET systems by commercial carrier to the RESET program in Oshkosh, WI. The second shipment of forty (40) HETs to the RESET program is programmed for February 2007. UTES also conducted two (2) driver's training classes, to "train the trainers" for 238th REG. UTES also supported the 13M School with maintenance support for their equipment. UTES supported 28 IDT weekends and 16 AT rotations with an authorized manpower of 49 technicians. Eleven (11) technicians were deployed during this year.

J-6 Information Management

Mission: The Chief Information Officer (CIO) and the Joint Force Headquarters - J6 (Information Management Office) are one integrated office that provides the vision, direction and current operational management of all information resources in support of the Department of Military Affairs and the Kentucky National Guard. Major responsibilities include the development of information management goals, policies and procedures for each of the five Information Management (IM) disciplines: automation, communications, visual information, records management, printing and publications. Currently the CIO/J6 staff provides direct support for over 1,300 users, 50 servers, over 1,687 computing devices, thousands of peripheral devices and 42 information systems applications.

Significant Activities

- This year initiated a significant cooperative effort between the J6 and the KY Emergency Management Division in the area of Communications. Our offices transitioned key Information Technology personnel between organizational structures and collocated several communications resources to provide enhanced Information Technology manpower support and enhanced communications capabilities to the Department of Military Affairs.
- Kentucky was fielded the hardware to support a Joint Interoperability Site Communications Capability (JISCC) team. The JISCC set gives the department the capability to provide communications via, radio, telephone, video teleconferencing and Internet capability from a disaster location back to the Headquarters in Frankfort or other Command locations. The JISCC team(s) is also on call to assist other states and territories should their communications requirements overwhelm their ability to respond with internal resources.
- In addition to the communications reach back capability mentioned above, the JISCC team also provides local first responders communications interoperability with other responding agencies or command authorities.
- Successfully fielded two Emergency Command Post vehicles. These two systems provide on the fly emergency reachback satellite communications capabilities for voice, data, and video as well as interoperable radio communications for local responders and the National Guard.
- Completed a two year development cycle for the Information Technology Enterprise Architecture Management System (ITEAMS). Fielded ITEAMS as a KY developed solution to 20 states. ITEAMS provides direct support for the management of IT requirements, budgeting, procurement tracking, on-hand inventory management and operation desk support. ITEAMS makes maximum use of existing technologies and software to provide a common baseline for accomplishing the Department's IT mission.

- Continuing recent advances in providing visual information conferencing support, the department successfully made every location in the department a video conferencing capable site with the deployment of web cameras and Polycom Virtual Exchange (PVX) software.
- Mobilization support continued throughout the year. The J6 processed nearly a million dollars in information technology equipment requests in direct support of KYNG units mobilizing for the Global War On Terror in Iraq and Afghanistan. Additionally, with the cooperation of other state and federal agencies, we provided a video teleconference between deployed Kentucky Soldiers in Iraq, Afghanistan and Kuwait and their families at the UK vs. U of L basketball game at Freedom Hall.
- The Departmental Military Affairs continues to an official data Continued Operations (COOP) site for the Department of Geographic Information. More than 54 Gigabytes of information that comprise the states geographic databases is housed and used by DMA in the emergency planning and operations support for the Commonwealth.
- The J6 successfully implemented Common Access Card (CAC)/PKI to meet the mandatory 2-factor authentication requirement directed by President Bush in HSPD 12. We continue to refine and update policy and procedures with CAC to ensure full compliance with all laws, directives and regulations.
- Automated a Data at Rest (DAR) solution that provides all mobile computing device users a folder for encrypting any sensitive data as outlined in a memorandum signed by LTG Boutelle. This protects any sensitive data from being compromised in the event a mobile computing device is lost or stolen.
- Fielded the State Active Duty (SAD) Equipment Tracking Application - This application gives graphic and text information on where various pieces of equipment are located for SAD missions. Additionally, this application automates the tracking and reimbursement submission of federal equipment used for SAD missions.
- Fielded the Department's Learning Management System (LMS) that has increased the visibility of in-house and external web-based training opportunities. This interface is intuitive and has been used for hosting and tracking mandatory training on Sexual Harassment, Environmental Awareness and several other training requirements.
- Completed phase 1 Department of Military Affairs Radio Communications System (DMARCS) radio network upgrade. This included change out of radio repeaters, antennas, and antennae feed lines at numerous repeater sites throughout the Commonwealth, as well as National Guard Armories. Phase 1 included fixing coverage gaps across the Commonwealth and converting to Narrow Band Secure Digital communications centered around the Louisville Metro Area. Phase 2, currently underway, will convert the remaining areas of the Commonwealth to Narrow Band Secure Digital by the end of June; providing a truly robust statewide digital radio system.
- Completed Communications Infrastructure upgrades at the following National Guard Armories: Walton, Paducah, Ft Knox (751st), Hopkinsville, Olive Hill, Madisonville, Bowling Green Field Maintenance Shop, Thomkinsville, Brandenburg, Benton, Jackson, Ravenna, Cynthiana, Central City, Lexington, Frankfort Armory 4, Henderson, Prestonsburg, Monticello, Hazard, Murray, Russelville, Owensboro, Ashland, Richmond, Bardstown. Infrastructure upgrade provides the capability to support digital classrooms, easy standup emergency communications capability, and the ability to easily support the surge requirement for voice, data, and video if the National Guard Armory is stood up as an Emergency Operations Center (EOC).
- Converted the following PBXs to Voice Over Internet Protocol (VOIP): Primary PBX at the Emergency Operations Center in Frankfort, Regional Training Center in Greenville, Bluegrass Station, Harrodsburg, Owensboro, Walton, Barbourville, and Maryland Avenue in Frankfort. This conversion provides the added benefits to include: ease of movement of telephone

numbers between systems, extension to cellular communications, ability to use software driven IP phones allowing user to have their telephone on their computer anywhere they can VPN in from, provides the first step for on-the-fly telephone rerouting due to equipment failure.

United States Property and Fiscal Office

The United States Property and Fiscal Office (USPFO) is a federal activity that provides logistical, financial, purchasing and contracting, data processing and internal review support for both the Kentucky Army and Air National Guard. The United States Property and Fiscal Officer serves on the staffs of both the Chief, National Guard Bureau and the Adjutant General.

Responsibilities

- Acts as an agent for the Chief National Guard Bureau representing Department of the Army and Department of the Air Force.
- Receives and accounts for federal funds and property.
- Establishes procedures to ensure federal supplies and equipment issued are within allowances and such equipment is adequately maintained and stored.
- Performs the duties of a federal contractor for local procurement and construction projects.
- Provides commercial transportation services for personnel, supplies and equipment.
- Conducts Internal Reviews, Audit Compliance services and other management consulting services in accordance with Comptroller General standards.
- Provides internal and external data processing support.
- Advises and assists commanders, staffs, units and activities concerning federal resources.
- Provides support necessary for transition of mobilized units into active duty status.
- Acts on the potential for fraud, waste, abuse or mismanagement.

Significant Accomplishments

1. During fiscal year 2006, the USPFO successfully accounted for and distributed federal funds exceeding \$195 million dollars to Kentucky National Guard program managers. In addition to pay and allowances, federal funds were used to purchase uniforms, equipment and supplies, fuel, repair parts, commercial transportation, advertising and training.
2. In FY 2006, the USPFO Comptroller Division processed 895,421 transactions which represents a 17% increase over FY 05. Transactions processed included 715,986 accounting transactions, 143,945 military pay transactions to National Guard members, 15,411 time and attendance documents for National Guard Technicians, 2,843 payments to commercial vendors, and 17,236 travel payments.
3.
 - a. The USPFO Logistics Division maintained accountability and asset visibility for Department of the Army federal equipment issued to Kentucky Army National Guard units valued at 638 million dollars. Additionally, units requested 31,402 items as initial or replacement issues.
 - b. The USPFO was responsible for logistical planning and coordination for Kentucky Army National Guard Annual Training periods at four Continental United States training sites. Arrangements were made for equipment, food, construction materials, housing, transportation, and other general supplies. The USPFO Transportation branch commercially shipped 2,466 tons of freight and arranged either commercial air or commercial bus transportation for a total of 43,551 passengers.

- c. The Logistics Division processed over 12,770 requests for individual clothing through the National Guard Central Clothing Distribution Facility (CCDF) and assisted in mobilizing units for Operation Noble Eagle/Enduring Freedom and the Southwest Boarder Mission. The Central Issue Facility (CIF) processed over 284,445 organizational clothing requests. Many of those requests were for mobilizing Soldiers and the Rapid Fielding Initiative.
4. The USPFO Data Processing Division provided quality support to the USPFO staff, JFHQ staff, and the KYARNG. An Uninterruptible Power Supply (UPS) was added to the USPFO's Computer Room to prevent servers and network control devices from crashing during times when utility power is lost and before the building's generator provides adequate power to the building. The automated Help Desk request system received 2,190 requests for assistance, in addition to dozens of telephonic requests for assistance. Division personnel also spent a good deal of time in support of mobilization activities. The USPFO's Intranet web site was updated to include the addition of many more helpful documents and publications and links to automated computer applications. The Advanced Information Technology System (AITS) contains several different computer applications on a shared enterprise database that is maintained by Data Processing Division personnel. Some of those applications are Mobilization Planning Data Viewer version II (MPDV II), Unit Personnel System / Command Management System (UPS/CMS), Retirement Points Accounting Module (RPAM), MILPO Orders, Integrated Data Viewer – Personnel (IDVPER), Safety & Occupational Health Module (SOH), and Integrated Data Viewer – Safety (IDVSOH). On nearly a daily basis, division personnel supported FTM personnel with AITS application access issues and resolution of problems that occur with AITS. During this year the AITS was upgraded to version 4.1. A web-based SARSS-1 Customer Due Out Reconciliation computer application was developed and put into use this year. The computer application allows supply personnel from within the state to verify their open supply requisitions via the USPFO's Intranet web site. Automating this process proved to create efficiencies in managing open requisitions through decreased processing time and by eliminating the possibility of paperwork being misplaced at either end of the process. All SARSS-1 computer workstations were upgraded to more modern systems and software. Data Processing Division personnel developed and published an automated "DODAAC Request" form which is available on the USPFO Intranet web site. Users of the form may request changes to DODAAC records, deletions of DODAACs or new DODAACs by answering a few simple questions and clicking a submit button. The automated online web form eliminates the risk of lost paper requests and allows for immediate response from the DODAAC POC to the requesting entity. A Technician Leave Balance Report web application was developed and provides timekeepers and management personnel the ability to view employee leave balances in a user-friendly web application as opposed to the former hardcopy reports. The Enterprise Storage Area Network (eSAN) device was upgraded to provide an extensive amount of additional hard disk storage space for our electronic computer backups and also allowed the J6 Office to use LiveState Recovery software to backup crucial computer systems. Ample disk space is also available to establish a Continuity of Operations Plan with the USPFOs for Tennessee and West Virginia. Each USPFO transmits their most important data for storage to their neighbor's eSAN device for replication in the event a disaster destroys their ability to function. This procedure allows for minimal disruption of service to customers. It is a model plan that is being studied for possible implementation by other National Guard organizations. Data Processing Division personnel actively monitored USPFO computer systems for compliance with Army Information Assurance Vulnerability Alert (IAVA) directives.

5. The USPFO Internal Review (IR) Division completed ten formal reviews, ten management consultations, seven follow-ups, and two liaisons for fiscal year 2006. Major processes and procedures reviewed were Travel Pay (ANG), Purchases Operation Katrina Relief (JOINT), Hurricane Katrina Payroll Review (ARNG), Law Enforcement Leave (ARNG), Radio Equipment Accountability (ARNG) and Training Devices Accountability (ARNG). Monetary Benefits identified totaled \$645,509. Review results were provided to managers and clients immediately following completion and included positive findings as well as areas requiring improvement. Review recommendations provided to managers are designed to promote the internal Management Control Process. IR obtained a score of 94.3% on the National Guard Bureau Quality Control Review, the fourth highest score in the nation. The office also received the National Guard Bureau One Star Award and submitted an article to the IR Journal which was published.
6. The Purchasing and Contracting Division purchased supplies and services totaling \$21.9 million dollars of which \$1.9 million were purchased within the Commonwealth of Kentucky. Additionally, the Federal Government Purchase Card VISA program was utilized for micro-purchases (under \$2,500) for subsistence, lodging and office supplies which amounted to \$5.6 million dollars.

Kentucky Air National Guard

Mission and Resources:

The 123d Airlift Wing is a Kentucky based militia organization whose mission is to:

- 1) Provide highly combat ready airlift, civil engineering, security, medical, special operations, and other support forces to Combatant Commanders when called in support of United States national security objectives;
- 2) Protect life and property, preserve peace, order, and public safety when called for during state and national crises; and
- 3) Participate in local, community-based programs that add value to community, state and nation.

The 123d Airlift Wing continued to epitomize the quality of the Total Force by its extraordinary performance in regional contingencies throughout the world. From Southwest Asia to service at home in the Commonwealth, the 123d AW's national reputation as "first to volunteer" remained untarnished.

The 123d Airlift Wing has produced a sustained record of superior performance. No other airlift unit has experienced the range and scope of missions tasked to the 123d AW. In every case the results have been mission accomplished -- in superb fashion.

The 123d Airlift Wing has been, and will remain, *READY, RELIABLE* and *RELEVANT*.

The Kentucky Air National Guard began the 1 October 2005 through 30 September 2006 fiscal year with personnel remaining mobilized to support Global War on Terrorism (GWOT) operations on a daily basis and continued support to Hurricanes Katrina and Rita relief operations in Louisiana and Mississippi. The year ended with a concerted effort to aid the nation in protecting the U.S. – Mexican border. Air Guard personnel also deployed to support ongoing operations and exercises in Europe, Southwest Asia, Antarctica, Central and South America, the Caribbean Islands and Diego Garcia.

Organization:

Command and control of the KyANG is directed by the Adjutant General through Joint Force Headquarters-Kentucky based at Boone Center in Frankfort. The 123d Airlift Wing, based at the Louisville International Airport, is organized into four groups (Operations, Maintenance, Support and Medical) and 16 separate units. These units carry out the wing's operational mission and provide logistical and administrative support to include aerial port, combat control, maintenance, supply, transportation, contracting, communications, civil engineering, personnel, services, security police, and medical functions. The wing provides tenant support for the 41st Civil Support Team and the 20th Special Forces units of the Kentucky Army National Guard.

The 123d Airlift Wing is part of the 18th Air Force, with headquarters at Scott Air Force Base, Illinois. The unit is assigned to Air Mobility Command (AMC).

Manning / Personnel:

On September 30, 2006 the manning strength of the Kentucky Air National Guard stood at 1,205 men and women. The figure represents 100.04 percent of the current authorized strength of 1,200. During this reporting period the Kentucky Air National Guard recruiting office was responsible for 124 enlistments/appointments during the past year. Of the 124 enlistments/appointments, 37.9 percent were non-prior service, 51.61 percent were prior service, and 10.48 percent were officers. As of 30 September 2006, female membership stands at 14.87 percent and all minority males were 6.72 percent. Total minority participation for this reporting period stands at 21.59 percent.

Aircraft:

The Kentucky Air National Guard is equipped with a fleet of eight C-130H aircraft, which were delivered from the assembly line in 1992. All of the unit's C-130H2 aircraft are equipped with the latest Self-Contained Navigational Systems (SCNS) and Aircraft Defensive Systems (ADS). In March 2005, one aircraft was delivered to Boeing contractors at Kelly Air Force Base in

San Antonio, Texas to undergo a two-year conversion and act as a test bed aircraft for the C-130H Avionics Modernization Program (AMP). Through the AMP modification, the Department of Defense has contracted to upgrade systems in all Kentucky C-130H2.5 aircraft with the systems currently incorporated into newly manufactured Hercules aircraft. This upgrade, set to be complete by 2009, will ensure our aircraft remain state-of-the-art well beyond their 1992 delivery. The aircraft currently at Kelly AFB will eventually return to the Kentucky Air National Guard as an unfunded ninth aircraft. It is currently in the final stages of the upgrade and will soon be transferred to Edwards Air Force Base to begin flight testing.

The SCNS system is a computer-based navigational system, which gives the Kentucky aircraft distinct technological advantages in helping ensure accurate airdrops. The Kentucky aircraft were the first to be delivered to the Air Force with factory-equipped SCNS systems. Other Air Force, Air National Guard and Air Force Reserve C-130s have been retrofitted with the systems as well. Once location parameters have been programmed into the system, the system's computers are capable of tracking exact locations, calculating precise timing to target, signaling drop points and measuring ground speed

and direction and speed of the wind. The system can even provide aircraft steering in preparation for airdrops.

The aircraft are also equipped with defensive systems that can detect the launch of Surface-To-Air Missiles (SAM) and take defensive action through the dispensing of flares and chaff. This Missile Launch Warning System (MLWS) capability has been invaluable in the high-threat environments the 123d AW has flown into.

The C-130 Hercules aircraft, first rolled out in 1956, remains in service today in 63 countries around the world. A C-130 delivered today does not differ much in appearance to the first aircraft that rolled off the assembly line. The total cargo volume of 4,500 cubic feet, capacity of 92 troops (64 paratroopers) and 74 litters, with two attendants has remained standard. The present production version is a vastly improved, significantly more capable airplane.

Each step along the way in its development evolution, the C-130 has been improved. The manufacturer retained the basic shape and size and concentrated on new and important improvements to internal systems, power and performance. The C-130H Hercules aircraft that make up the Kentucky Air National Guard fleet represent the culmination of nearly 50 years of refinement to the best tactical airlift airframe the world has known.

Facilities:

The Kentucky Air National Guard base at Louisville International Airport is now twelve years old and remains one of our nation's showplaces for ANG units located on metropolitan airports. It has wonderful visibility to the public and to its recruiting base, with excellent sight lines to I-65 in both directions. One of the newest bases in the country, it was completed in May 1995.

The Department of Defense has entered into a 50-year lease (which expires in 2046) with the Louisville Regional Airport Authority for the property. The state-of-the-art facility was designed and built specifically for the unit's airlift mission. The 81.5-acre site consolidates operational and administrative functions within twelve buildings with almost 369,125 square feet of working area. The facility also features 80,000 square yards of aircraft-related pavements and 59,100 square yards of vehicle-related pavements.

The base is truly a showplace with the completion of the front gate facility, decorative fencing, base landscaping, a Minuteman statue, lighting and building signs. A new base fitness center was opened in a room that once housed the Base Exchange. The Fuel Cell/Corrosion Control was completed in 1997 and adds much needed aircraft hangar space. The base annex has also undergone extensive exterior and interior renovation. The facility originally housed a church and school and ongoing renovations are now complete. Construction is complete on a hazardous materials (HAZMAT) "pharmacy" in the hangar, which allows the unit to track the location and use of all hazardous materials on base. The Vehicle Maintenance/POL Operations Composite facility is 100 percent complete and has been in use since 1998. The construction of the Aerial Port Squadron/Airlift Control Element Facility, a 4.6 million-dollar facility, adds an additional 40,000 square feet of usable space on base. A new 4000 SF Sensitive Compartmented Information Facility (SCIF) is complete and awaiting funding for the specialized communications equipment (FY07). Future plans include renovation of

6,000 SF of the Headquarters Building and adding 13,000 SF additional Square Feet to provide Security Forces and Services additional working space.

The Special Tactics Squadron received a 15,000 SF warehouse with environmental controls. The structure is slated to be funded in 2008.

The base boasts several impressive environmental features. In addition to being tested and found to be environmentally clean, the base has a state-of-the-art drainage system in the hangars and on the aircraft ramp designed to capture any fuel spills for proper disposal.

Inspections:

Preparation for the 123d Airlift Wing's Operational Readiness Inspection (ORI) began in November with a deployment to the Combat Readiness Center in Savannah, Georgia. Nearly 400 members participated in the six-day exercise designed to prepare the unit for the April 2006 inspection. The Kentucky Airmen were tasked with deploying everything necessary to establish airlift and support operations at a fictional forward operating base. Once in theater, they were required to launch operations in less than two days, survive 48 hours of attacks by hostile forces and then redeploy everything back home. The U.S. Air Force uses the ORI concept to test a wing's readiness for combat operations, normally on a 4-year cycle.

The Air Mobility Command Inspector General Exercise, as it is officially known, began 2 April 06, and terminated 9 April 06. Nearly 400 personnel and more than 120 tons of equipment were deployed to Savannah, Georgia for the week-long test. Weather was a constant issue; thunderstorms and tornadic activity caused power outages on base just as the deployment phase of the inspection was getting underway. Heavy rains continued on and off the remainder of the week. The 123d Airlift Wing proved its readiness by earning a "satisfactory" grade overall. This means that performance and operation met mission requirements. Procedures and activities were carried out in an effective and competent manner with resources and programs efficiently managed. Minor deficiencies may have existed, but did not impede or limit mission accomplishment. Seven sections were cited by the Inspector General for excellence during the inspection. They were: aircraft generation, personnel, public affairs, redeployment, safety, security forces and weather.

Headquarters, Air Mobility Command also conducted an Aircrew Standardization and Evaluation Visit (ASEV) of the 123d Airlift Wing during 16 – 23 August 2006. The ASEV Team administered 109 closed book and bold face examinations, which equates to 100% of available crew members. The overall average exam score was 97.1%. The team also administered 46 flight evaluations; all were Q-1. The overall rating for aircrew performance was "excellent". Eight training programs were evaluated. Four were grading "satisfactory", while four others were graded "excellent". Overall, the training program was graded "satisfactory". The team chief stated, "The 123d AW is capable and ready to execute its airlift mission. Group and squadron leadership are involved in all aspects of Standardization/Evaluation, Training, and mission accomplishment. Overall, the 123d AW is graded 'Mission Ready'".

Flying Operations and Deployments:

Kentucky Air National Guard aircrews flew 2,471.4 hours during the reporting period. The unit continues to emphasize flying safety and has built a solid safety record. The KYANG has flown 63,208.2 hours without a Class A accident.

Personnel were deployed all over the globe, many of them in harm's way, to locations including Southwest Asia, Europe, Central and South America, Antarctica, the Caribbean Islands and

Diego Garcia. During the October 2005-January 2006 time frame, the Kentucky Air Guard deployed aircraft, crews and maintenance/support personnel to San Juan, Puerto Rico for four two-week periods to fly airlift missions throughout Central and South America in support of the National Guard's CORONET OAK mission.

Colonel Jon Bowersox, the State Air Surgeon with State Headquarters, completed his six-month tour, which began in September '05, as the Health Attaché with the Iraq Reconstruction Management Office in Baghdad, Iraq.

Lieutenant Colonel Tom Curry, Chief Chaplain for the 123d Airlift Wing, served nearly 70 days at Al Dhafra Air Base, United Arab Emirates operating out of the Seven Sands Chapel. He received the "pentagonal coin of excellence" from chairman of the Joint Chiefs of Staff, Marine General Peter Pace.

The Kentucky Air National Guard made history this summer when 31 of its members deployed to Elmendorf Air Force Base, Alaska, to provide the expeditionary group command for a multinational training exercise called Cooperative Cope Thunder 06-03, also known as Red Flag Alaska. This marked the first time that a Guard unit had taken such a lead role. The event centered around a scenario in which multinational expeditionary forces based at Elmendorf and Eielson Air Force Bases, Alaska, enter combat to defend a neutral neighbor from a simulated aggressor. The exercise included personnel from Germany, Japan, the Republic of Korea, The Netherlands, Australia, Sweden, Bangladesh, Sri Lanka, Russia, Mexico, and Mongolia.

In September and October '05, the 123d Medical Group deployed twenty-three members to the hurricane-stricken Gulf Coast to provide badly needed medical services as part of Joint Task Force Katrina. These members assisted in establishing an Expeditionary Medical Services facility.

Operation Jump Start:

On July 29 2006, members of the Kentucky Air Guard led the way to support Operation Jump Start, a part of President Bush's initiative to secure the U.S. – Mexican border. In fiscal year (FY) '06, 115 members volunteered to support this effort; Kentucky was one of the top three responders to the call. Members were needed in three states to support the mission: Arizona, New Mexico, and Maryland. In early July, Colonel Howard P. Hunt III stood up for the National Guard Bureau to lead the Air Guard component into the mission. From the Crisis Action Team (CAT) located at Andrews Air Force Base, Maryland, he called on all states, but Kentucky Airmen led the way for Task Forces Raven (aviation), Maverick (logistics), Diamondback (road maintenance and construction of border fencing), Sidewinder (administrative duties for U.S. Customs and Border Patrol), and Gila (border-observation patrols). His efforts resulted in meeting the short-notice task of having 1,500 Air Guardsmen in the Southwest arena by August 1. Colonel Michael Dornbush soon followed Colonel Hunt's volunteerism and went to Phoenix, Arizona to perform duties as the Air National Guard liaison officer for Arizona's Joint Task Force. His charge was to ensure that deploying troops were properly in-processed and equipped for the Arizona Area of Responsibility.

Members were deployed from seven to about 65 days. Some individuals have taken long term tours (365 days) on this mission, while others rotate for shorter periods. Most members are doing work specific to their career fields, such as building fences, providing medical care or coordinating military logistics.

Operation Jump Start is a mission that KYANG continues to support as the National Guard-led effort continues through the summer of 2008.

Awards And Recognition:

The Kentucky Air National Guard continued its long-standing tradition of excellence. The Kentucky Air National Guard's exemplary record of achievements is reflected in numerous group and individual awards.

Master Sergeant Carol Davis of the 123d Civil Engineering Squadron's Readiness Flight, Technical Sergeant Cutty Parker of the 123d Services Squadron and Airman 1st Class Shawn Ingle of the 123d Medical Group were named KyANG Airmen of the Year.

Lieutenant Colonel Bill Adkisson, a Medical Physician's Assistant with the 123d Medical Group, was named the Air National Guard's Outstanding Physician's Assistant of the Year for calendar year 2005.

Master Sergeant Tery Moore was honored for exceptional performance as the only National Guard recruiter in Kentucky to win the Chief Freedom Challenge award. This is an award given by the chief of the National Guard Bureau to individuals achieving a set number of recruits.

For their service in war and peace the men and women of the 123d were awarded the following individual awards and decorations during the reporting period:

Meritorious Service Medal – 22	Military Outstanding Volunteer Service Medal – 8
The Aerial Achievement Medal – 1	Kentucky Distinguished Service Medal – 4
Air Force Achievement Medal – 30	Kentucky Merit Ribbon – 14
Air Force Commendation Medal – 69	Kentucky Commendation Ribbon – 6
Joint Service Achievement Medal – 4	

Economic Impact:

The Kentucky Air National Guard means much more to the Commonwealth than its vital roles in responding to disasters and defending our nation's interests. The KyANG is a major employer and an important consumer within Kentucky. The total KyANG Budget, federal and state combined, for fiscal year 2006 was \$48,569,061.

Our 341 full-time Civilian Technicians, State employees, and Active Guard Reserve (AGR) personnel were paid \$21,838,085 in wages during FY06. Military pay for the traditional "part-time" Guard members was \$10,483,860.

The total economic impact on the community, based on the Standard Economic Resource Impact Summary formula, exceeds \$121 million.

Civic/Community Involvement:

Individuals and units of the Kentucky Air National Guard continue to be active and concerned members of their communities. The community's awareness and appreciation of the work of the Kentucky Air National Guard is very high.

In September 2006, the 123d Airlift Wing participated in the Annual Plane Pull for Special Olympics once again. The event is sponsored by United Parcel Service (UPS), and was held at the Atlantic Aviation aircraft pad here in Louisville. The event has become well known around the community and has drawn more competition from various community organizations. Forty-three teams, including a 20-person team from the Kentucky Air National Guard, competed to pull a UPS 750-ton Boeing 727 a distance of 12 feet. The total amount raised from community teams was just over \$118,000.

This year the unit collected \$27,787 for our annual Combined Federal Campaign charity fund-raiser – an average donation of \$272.42 per participating employee.

The Wing once again hosted all of the aircraft and crews that flew in the Thunder Over Louisville air show, which is the opening event of the annual Kentucky Derby Festival. Unit members ensured that the event continues to be one of the finest air shows in the nation.

The KyANG honor guard has increased their presence in the community by performing in several ceremonies, flag raisings, funeral presentations and parades. They coordinate with Honor Guard instructors from Wright Patterson AFB to train additional honor guard members due to the increase of statewide requests to perform ceremonies.

The 123d Medical Group hosted quarterly blood drives for the American Red Cross. Air Guard members also donated time and talent to the March of Dimes, the Salvation Army, Crusade for Children, Toys for Tots, the Ronald McDonald House, the Air Force Assistance Fund, the Black Expo, the Military Order of World Wars "Massing of the Colors" Veterans and Memorial Day Celebrations, and traffic and crowd control at the Kentucky Derby. Air Guard volunteers from the 123d Aerial Port Squadron assisted with shelters and crowd control at the Special Olympics "Polar Bear Plunge" in the Ohio River in February. Ten Medical Group members provide medical screening for several hundred potential Kentucky National Guard Youth ChalleNGe cadets, ages 15-19, at Fort Knox as they register for the program in January and July of each year.

The KYANG Family Support Group has continued to provide outstanding support to the families of the unit and also to military families in the Greater Louisville Area for all branches of service. During this period they hosted several events. Their annual Christmas Party for children was complete with a visit from Santa. They also held their annual Easter egg hunt for the KYANG children. They continue to support the unit by being a part of deployment processing and helping unit member's families who were away during the year. The Family Support Group works with local schools on learning about the military, particularly the National Guard. They have established a full pantry which has food, cleaning and household supplies that are available to all military families. They established a card committee that gathers donated cards and sends them out to deployed members families for birthdays, anniversaries and/or any other family event noted before deploying. They also promote and assist with the State Youth Development Week at Wendell Ford Training Facility. Finally, this fiscal year they had an Air National Guard Youth Council and hosted a picnic at the Tom Sawyer State Park assisted by the Family Readiness Group.

Lieutenant Connie Allen, 123d Civil Engineering Commander, served as elected vice president for Air of the National Guard Association of Kentucky, and co-hosted the association's annual conference in February 2006 at the Galt House Hotel in Louisville, Kentucky. Colonel Michael Dornbush of State Headquarters served as Commander of the Maj. Gen. Benjamin J. Butler Chapter of the Military Order of World Wars. The Junior Vice President is Major Dallas Kratzer, the Adjutant is Captain Latonia Trowell, and the Treasurer is Captain Chris Bishop.

Principal Commanders and Staff:

Brigadier General Howard P. Hunt III was appointed as Assistant Adjutant General for Air in November 2006, succeeding Brigadier General Robert Yaple, who retired with 27 dedicated years of service. Brigadier General Michael J. Dornbush succeeded General Hunt as Chief of Staff of the KyANG. Colonel Jon Bowersox continues as State Air Surgeon, Colonel Gregory Nelson continues as Executive Staff Support Officer (ESSO) to the Adjutant General, and Colonel Steven Bullard continues as

Brigadier General
Howard P. Hunt III

Brigadier General
Michael J. Dornbush

Director of Operations. In addition, General Dornbush assumed the position of Joint Forces Air Component Commander (JFACC), Colonel Nelson is the Director of Plans (J5), and Colonel Bullard is the Director of Joint Doctrine and Training (J7) for Joint Force Headquarters Kentucky.

Colonel Mark Kraus continues to serve as commanding officer of the 123d Airlift Wing. The vice wing commander is Lieutenant Colonel George Scherzer. Colonel Ketterer continues as the 123d Support Group Commander, Colonel Neil Mullaney was appointed as the 123d Maintenance Group Commander in July, Colonel John Moore continues to serve as the 123d Medical Group Commander, and Colonel Kenneth Dale is the 123d Operations Group Commander. In February, Senior Master Sergeant Tommy Downs was selected to replace Chief Master Sergeant Mike Mitro as the Wing's Command Chief Master Sergeant. Mitro retired with over 35 years of dedicated service to the wing. Sergeant Downs was promoted to Chief at the end of February.

Kentucky Army National Guard Soldiers capture terrorists

Quick thinking Kentucky National Guardsmen captured three terrorists trying to emplace a roadside bomb in February 2006 TIKRIT, Iraq.

Sergeant Nuntawood Smith, Madisonville, Ky., was in the lead vehicle of a security patrol when he observed three males lingering near what appeared to be a disabled vehicle parked on the side of the road with its hood open. The three men began to act suspiciously; one threw items from the car as another man quickly began covering items on the ground with dirt.

Sgt. Smith along with other members of the 130th Combat Heavy Engineer Battalion, based in Madisonville, reacted immediately and prevented the suspected terrorists from leaving the area.

Staff Sgt. Troy Piper, Greenville, confirmed the contents inside the vehicle and in a shallow hold just to the side of the vehicle to be components of a roadside bomb.

Both Nuntawood and Piper attribute their quick thinking to the training they received prior to the deployment.

The Kentucky Soldiers were attached to Alpha Company, 878th Engineers, and were then assigned to the 101st Airborne Division. The company also included members from the Georgia National Guard. The unit was mobilized in September 2005 and deployed in December.

Other Kentucky Soldiers involved with the mission include: Sgt. Roy Basham, Bowling Green Ky.; Staff Sgt. Ronald Moore, Wheatcroft, Ky.; Sgt. Daniel Holland, Millport, Ky.; Sgt. Samuel Donaldson, Thomson, Ky.; Spec. Scott Lewis, Louisville, Ky.; Spec. Jared Carter, Owensboro, Ky.; Staff Sgt. Sandy Austin, Sgt. Harlan Wilkerson and Sgt. Jared Buntin all of Madisonville, Ky. Also included in the mission were two Soldiers from Georgia, Spec. Roy Riner and Sgt. Sam Donaldson.

A welcome home ceremony for the Kentucky Army National Guard's 130th Combat Heavy Engineer Company was held on Nov. 22, 2006. While deployed they performed construction missions for US Army bases in the Tikrit, Iraq region.
