DEPARTMENT OF MILITARY AFFAIRS

The Adjutant General

The Department of Military Affairs is the official State Agency for all military matters pertaining to the Commonwealth and is headed by The Adjutant General, a constitutional officer appointed by the Governor.

By constitutional authority, the Governor is the Commander in Chief and The Adjutant General is the Commanding General of the Kentucky Army and Air National Guard. The Adjutant General is the executive head charged with directing and coordinating all activities of the Department.

Functions of the Department

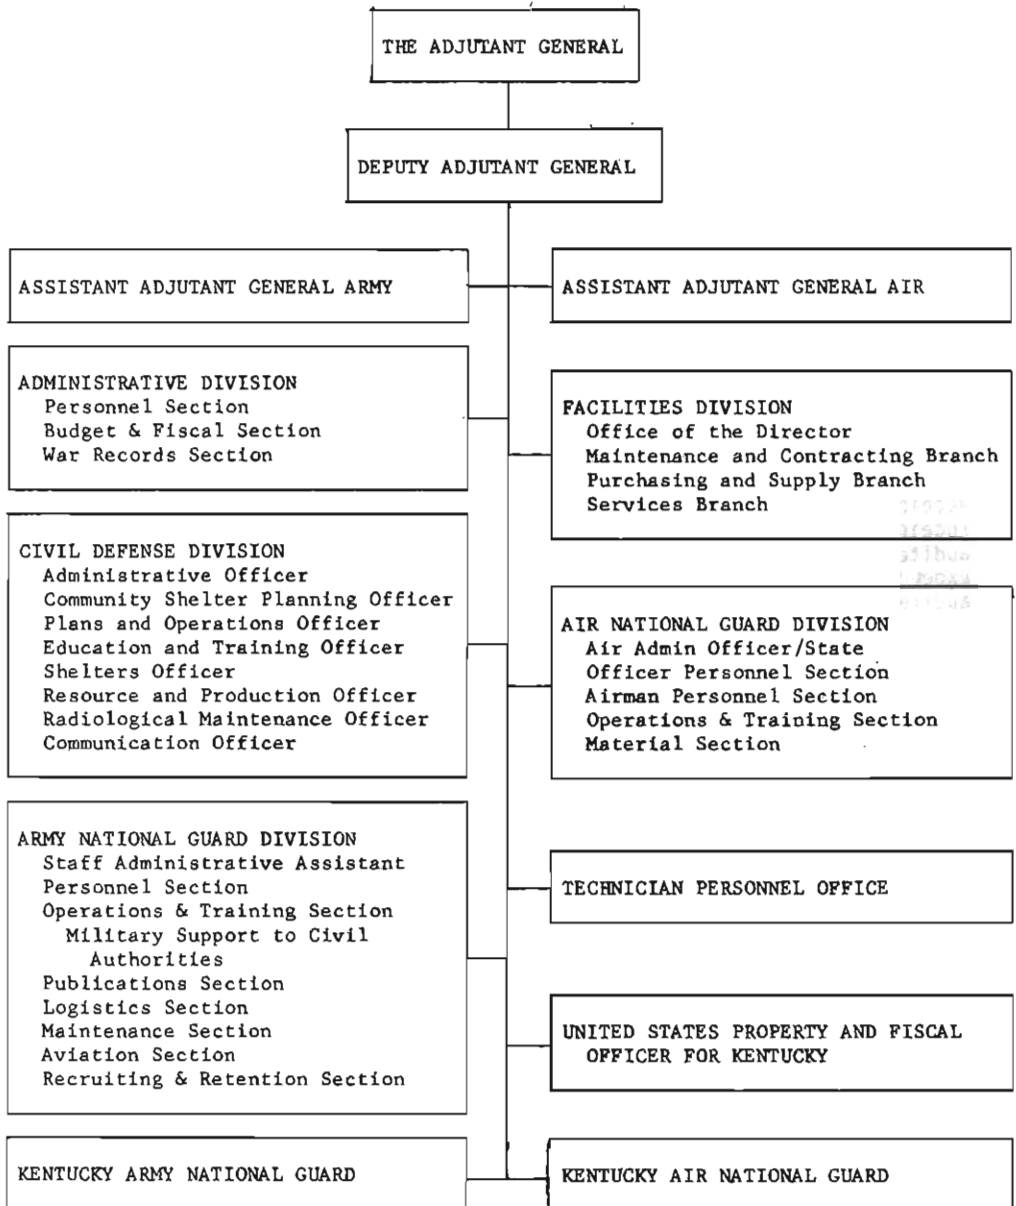

The Department's functions include organizing, equipping, housing and training units of the National Guard in close coordination with the Department of the Army as relates to the Army National Guard, and the Department of the Air Force as relates to the Air National Guard. The Department provides a Civil Defense plan of action in the event of disaster or emergencies; it procures, constructs, or leases and maintains all facilities required for the proper housing of the National Guard; and maintains a War Records section containing records of service of Kentucky Veterans and Kentucky Military Units which served in Wars in which the citizens of the Commonwealth participated, microfilms of the records of the Kentucky Veterans Bonus, and historical military relics. All these functions are carried out through the Administrative Division, Facilities Division, Army National Guard Division, Air National Guard Division, and the Civil Defense Division. The Bureau of Veterans Affairs with The Adjutant General, the Ex-Officio Chairman, is attached to the Department for Administration.

The organization of the Department and the functions of the Divisions are shown in the following chart.

Federal funds expended by Federal disbursement for the support of the National Guard are allotted to The Adjutant General and are disbursed by the United States Property and Fiscal Officer, who is a National Guard Officer in Active Federal Service.

State financial support together with augmenting federal receipts to the Department from grants and contracts are indicated in the Administrative Division section of this report, together with a detailed accounting for all expenditures.

Organization Chart
Department of Military Affairs

ADMINISTRATIVE DIVISION

Mission and Organization

The Administrative Division is organized to carry out the functions of personnel management; budget and fiscal operations; maintenance and custody of war records; the preparation and editing of a wide variety of Department correspondence for the Adjutant General, particularly that concerning military activities which is referred to the Department from the Office of the Governor; and, the coordination of the other administrative functions of the Department which are not primarily military in nature.

Budget and Fiscal Section

The Budget and Fiscal Section is staffed with two accountants. The accountants aid in the preparation of budgets for the Department and its Divisions each biennium, submit a monthly financial statement of each account, exercise controls to insure that expenditures do not exceed budget allocations, maintain ledgers for all accounts paid, and files on all fiscal matters. Receipts from the Federal Government and other miscellaneous receipts are processed by this section. All documents are pre-audited before transmittal to the Department of Finance and all expenditure reports from the Department of Finance are post-audited with the Departmental ledgers.

The accountants also maintain records on all salaries paid from State funds to include State Active Duty for Kentucky National Guard members, as well as detailed payroll ledgers and fiscal records of employment. Utilities and minor accounts are paid from the Petty Cash Fund which is administered by this section. The financial report prepared by this section follows:

WAR RECORDS SECTION

The War Records Office, supervised by SSM Forest E. Dudley and staffed by two senior clerks, is responsible for the retired military and historical records of all personnel and Units who have served in the Armed Forces, and the Kentucky State Active Militia. Also on file are the records of commissioned officers who served in the Corn Stalk Militia, from the beginning of Statehood to the commencement of the War of 1812.

The functions of the War Records Section covers a vast number of routine duties such as file and maintain General and Special Orders used in preparing statements of service and also referred to in researching the history of the individual Units; 201 files on former members of the Guard (ANG & ARNG); morning reports; strength reports; Forms 100; payrolls; annual field training reports; clothing allowances; State active duty rosters and payrolls (referred to in verifying time for medals and awards); National Guard registers (ANG & ARNG); muster rolls for the Kentucky Guard prior to 1926; former state employees personnel files; former technicians personnel files (prior to 1 January 1969 - (ANG & ARNG); teletype messages; DD Forms 214 when possible; publications in the military library used for reference in acknowledging requests for information; history records for all Units in the Guard; historical flags, pictures, trophies, etc., received by the Guard Units; microfilmed records on the Kentucky Veterans Bonus, Civil War and War of 1812; indexed card files for the veterans of all wars; disposal and retention records for the Department of Military Affairs (submitted annually to the State Archives and Records Center); prepare and ship permanent records to the State Archives and Records Center when not required for researching records; research and prepare twenty year certificates for the Guardsmen who had completed twenty years of service for retirement purposes; statements of service and cover letters; verify information pertaining to the former Kentucky Veterans Bonus; acknowledge requests for making application for the past and future bonus; record and maintain the Vietnam casualty list for all counties in Kentucky (received daily); post and maintain personal data on each veteran (received monthly); forward copies of the casualties to the Kentucky Bureau of Veterans Affairs, Col. Sellins, and if the casualty is from Jefferson County it is forwarded to the Honorable Romano Mazzoli; compile casualty lists for the veterans of WWI, WWII, Korean Conflict and Vietnam War requested by the individual counties for the purpose of erecting monuments or bestowing honors on the home town veterans; and assist the visitors who personally come to our office to research their ancestors records for genealogy purposes.

During this fiscal year, our office received and acknowledged 1,359 letters and requests. A compilation of the letters and requests are as follows:

STATEMENTS OF SERVICE ----- 438

Early Wars ----- 559

KyNG ----- 180

Researched and prepared twenty-four different types of forms for these statements of service. A total of 739 statements of service were issued.

TWENTY YEAR CERTIFICATES ----- 46

In addition to the extensive research of personnel records, morning reports and payrolls, twenty-five NGB Forms 23 had to be completely reconstructed, forty-six statements of service were compiled, forty-six record cards and ninety-two cover letters or indorsements were prepared and forwarded. Total pieces of correspondence prepared-209.

LETTERS AND REQUESTS PERTAINING TO THE EARLY WARS ----- 358

Researched and prepared 559 certified statements of service accompanied by 358 cover letters. Acknowledged 48 miscellaneous requests regarding the Revolutionary War records, land grants, pensions, cemeteries, etc. Total pieces of correspondence prepared - 965.

LETTERS AND REQUESTS FOR INFORMATION AND MATERIAL FROM WWII TO PRESENT ----- 517

DD FORMS 214 ----- 383

Ninety-five of these requests were not fulfilled due to the lack of personnel for filing and researching.

KENTUCKY VETERANS BONUS ----- 134

From the veterans who did not file for the bonus during the authorized period and would like to file now; veterans who participated in the War in Vietnam inquiring about a bonus for this period; 62 claims were pulled and returned to the State Archives and Records Center for verification of payment or the disapproval of a claim and requesting the return of various documents submitted by the applicant to substantiate his or her claim such as marriage license, death certificates, discharges, etc.

MISCELLANEOUS REQUESTS ----- 134

To verify State Active Duty time for awards or medals; selective service personnel; general information from 201 files; former state employees and National Guard technicians employment periods; discharge and service records to obtain social security benefits, veterans benefits, burial allowances, casualty lists, etc.

201 files requested and forwarded to the Adjutant General's Office--- 63

201 files received for discharged ARNG and ANG personnel to be filed- 1,358

Forms and documents reproduced and forwarded ----- 639

DD Forms 214 received from the local boards -----40,756

The DD Forms 214 have been completely alphabetized A through K. The letters "L" through "Z" are broken down to the second letter such as La, Le, Li. The daily workload does not permit us to spend much time on these necessary records.

Projects researched upon request ----- 7

The number of local boards in Kentucky for the year 1942; Kentucky Colonels; Adjutant General's Seal; history of the Arsenal; History of KyNG; commanding officers of the 149th Infantry for the year 1941; a list of KyNG officers who lost their lives in WWII, Korean Conflict and Vietnam. The enlisted men were completed during the last reporting period.

During this reporting period the War Records office was enlarged, the cage was expanded and storage shelves were installed to maintain the increased volume of records being received. The payrolls for the KyARNG have been completely purged and separated into individual folders according to the year and by numerical order. The morning reports have been purged on the same order as the payrolls with the exception that they show each initial and final morning report for the Unit and also the new and old designation of each Unit as stated in the General or Special Order authorizing the change. After the Forms 100 are completed, we will have all the necessary information readily available for a complete history on the Kentucky National Guard Units from 1926 to present.

Fifteen boxes of records were received from the Department of Military Affairs for storage. A total of 64 boxes have been stored since the records holding section was established in January 1971. Twenty-four archive boxes of former technicians (ARNG & ANG) personnel files and five boxes of former state employees personnel files were shelved in our records holding section. Twenty-two boxes of Civil War muster rolls were shipped to the State Archives and Records Center. Storing these records made eight filing cabinets available for other records.

In October 1971, picking up, coping and returning DD forms 214 from the Selective Service State Headquarters was discontinued as the records were being duplicated by the records received from the local boards. The time and money involved in coping the records was no longer justified.

At present, the Kentucky Air National Guard records are being purged. When completed, the history, payrolls, morning reports, etc., will be arranged similar to the Army National Guard records. This is necessary in order to have the information readily available upon request.

Kentucky had 26 Vietnam casualties during the Fiscal year and a total of 1,174 casualties have been recorded since January 1961.

PERSONNEL SECTION

The Personnel Section is responsible for the personnel management of State-paid employees of the Department. This includes the procurement, assignment, classification, utilization, pay, leave, promotion, safety, incentives and separations of all State-paid employees necessary for the operation of the Department and its Divisions. A personnel folder is established and maintained for each employee in which is filed the complete record of his employment to include appointment, promotion, change of assignment, retirement credit earned, records of leave, etc.

It is the responsibility of the Personnel Officer to see that the personnel functions are carried out in accordance with rules and policies prescribed by the State Commissioner of Personnel and The Adjutant General.

The number of employees by Division of the Department of Military Affairs is as follows:

Number of Employees by Division

	State Employees	*Guard Technicians
Adjutant General's Office -----	5	0
Administrative Division -----	7	0
Army National Guard Division -----	3	7
State Maintenance Office -----	0	4
Combined Support Maintenance Shop ----	0	43
Aviation Maintenance Shop -----	0	23
Organization Maintenance Shops -----	0	82
Unit Technicians -----	0	109
Military Support To Civil Authorities-	0	3
Technician Personnel Office -----	0	5
U.S. Property and Fiscal Office -----	0	51
Air National Guard Division -----	1	2
Shewmaker Air National Guard Base ----	0	171
Facilities Division -----	40	0
Civil Defense Division -----	26	0
Active Militia Division -----	0	0
Ky Disabled Ex-Servicemen's Board -----	16	0
TOTAL -----	97	502

*Guard Technicians are Civil Service Employees both in the excepted service and in the competitive service and are subject to Civil Service retirement. They are appointed, reassigned and relieved by The Adjutant General subject to Civil Service rules and regulations. They are paid 100% by the Federal Government.

Mission

The Facilities Division is responsible for the planning, programming, management, budgeting and co-ordination necessary for the procurement, construction and maintenance of adequate land and structural facilities for training of the Kentucky National Guard. In its mission the Division accomplishes the following:

1. Acquires land for training sites and the construction of Armories, vehicle and aircraft maintenance shops, and related structures.
2. Effects liaison for such acquisition and construction with Engineering, Budget and Property Division of the Department of Finance; the designing architects and engineers; the Attorney General; the United States Property and Fiscal Officer; the Unit Commanders and community representative concerned; the National Guard Bureau, Washington, D. C.; and in instances of joint construction with the United States Army Reserve, with representatives of the Chief, Army Reserve and Commanding General, First United States Army.
3. Initiates, contracts for, or performs with assigned maintenance personnel, all maintenance or alterations required to maintain Kentucky National Guard training and support facilities in an acceptable state of readiness and repair.
4. Budgets for, reviews, and approves payment of utility costs and other normal operating expenses of Kentucky National Guard Facilities.
5. Performs or initiates purchases to secure Commonwealth financed items or equipment, tools, and materials required for maintenance and operation of armories and other facilities, and the Office of The Adjutant General.
6. Co-ordinates the disposition of obsolete and inadequate structures or properties. Acts on easements across or sale of State land under jurisdiction of the Department of Military Affairs when required for highway right-of-way, county or municipal expansion or relocation of utility or sanitary services, or in connection with community industrial development.
7. Audits accounts of Commonwealth financed and owned properties and equipment, monitors and audits Maintenance and Contingent Funds maintained by Kentucky National Guard installations, and performs all inspections necessary for the proper accomplishment of the Division mission.

Organization

The functions of overall supervision, planning, programming, management, budgeting and liaison inherent in accomplishing the mission, are centralized in the office of the Director, who co-ordinates all aspects of new construction and major contractual maintenance, repair or alteration projects.

The Maintenance and Contracting Section performs functions necessary for effective planning, co-ordination and accomplishment of maintenance, repair and alteration aspects of the Division mission.

The Purchasing and Supply Section performs all functions necessary to accomplish the purchasing, auditing, operating cost payment, and supply actions of the Division.

The Services Section performs all maintenance and repair actions that can be accomplished with assigned personnel and equipment, and inspects for the Division those maintenance, repair and alteration operations performed under contract by commercial contractors. The Branch also provides direction and supervision for the security and custodial personnel of the Boone National Guard Center, Frankfort, Kentucky.

Facilities

Under the supervision of the Adjutant General, The Director of the Facilities Division co-ordinates construction, maintenance, and repair of property used by the Kentucky Army and Air National Guard in thirty-nine communities throughout the Commonwealth. These structures and their land sites have a current estimated value of approximately \$16,000,000. Locations are shown on the map.

Air National Guard

The Kentucky Air National Guard facilities are located at Shewmaker Air National Guard Base, Standiford Field, Louisville, Kentucky. The cost of construction of these facilities was paid by the Federal Government. All costs for maintenance and operations of the facility are normally shared by the Commonwealth on a 25% basis.

A total of \$151,556.00 in Federal and Commonwealth funds was devoted to maintenance, minor alterations and operations of the base during the fiscal year.

The following minor construction projects were placed under contract during the fiscal year, funded 100% with Federal funds.

1. Runway over run	\$ 27,685.00
2. Environmentally control bearing room	5,238.00
3. Jet engine run up	145,589.00
4. Construction tox storage pad	9,343.00

Army National Guard

Kentucky Army National Guard facilities include a total of thirty six (36) armories. Army Guard facilities also include eleven (11) Organizational Maintenance Shops, nine (9) Motor Vehicle Storage Buildings, five (5) Week-End Training Sites with two (2) sites having small arms ranges and seven (7) other structures housing administrative, warehousing and equipment maintenance functions of the Army National Guard. The following minor construction projects were completed or placed under contract during the fiscal year utilizing Federal funds:

1. Construction of 1,000" and tank table I, II, & III ranges	\$ 7,866.40
2. Install culvert in road net	301.50
3. Install water line	1,397.89
4. Tent frames	2,285.51
5. Tent slabs, Frankfort	3,093.24
6. Expand MVS Compound at WETEP #2	5,451.33
7. Window guard WETEP # 1	1,350.00
8. Exhaust system London	2,488.00
9. Exhaust system Bowling Green	2,768.00
10. Exhaust system Owensboro	2,847.00
11. Exhaust system Paducah	2,619.00
12. Exhaust system Glasgow	2,658.00

In addition to the above, during the Fiscal Year \$128,400.00 was expended for operations and maintenance in Federally assisted Army National Guard Facilities. The Federal Government provided 75% of these funds.

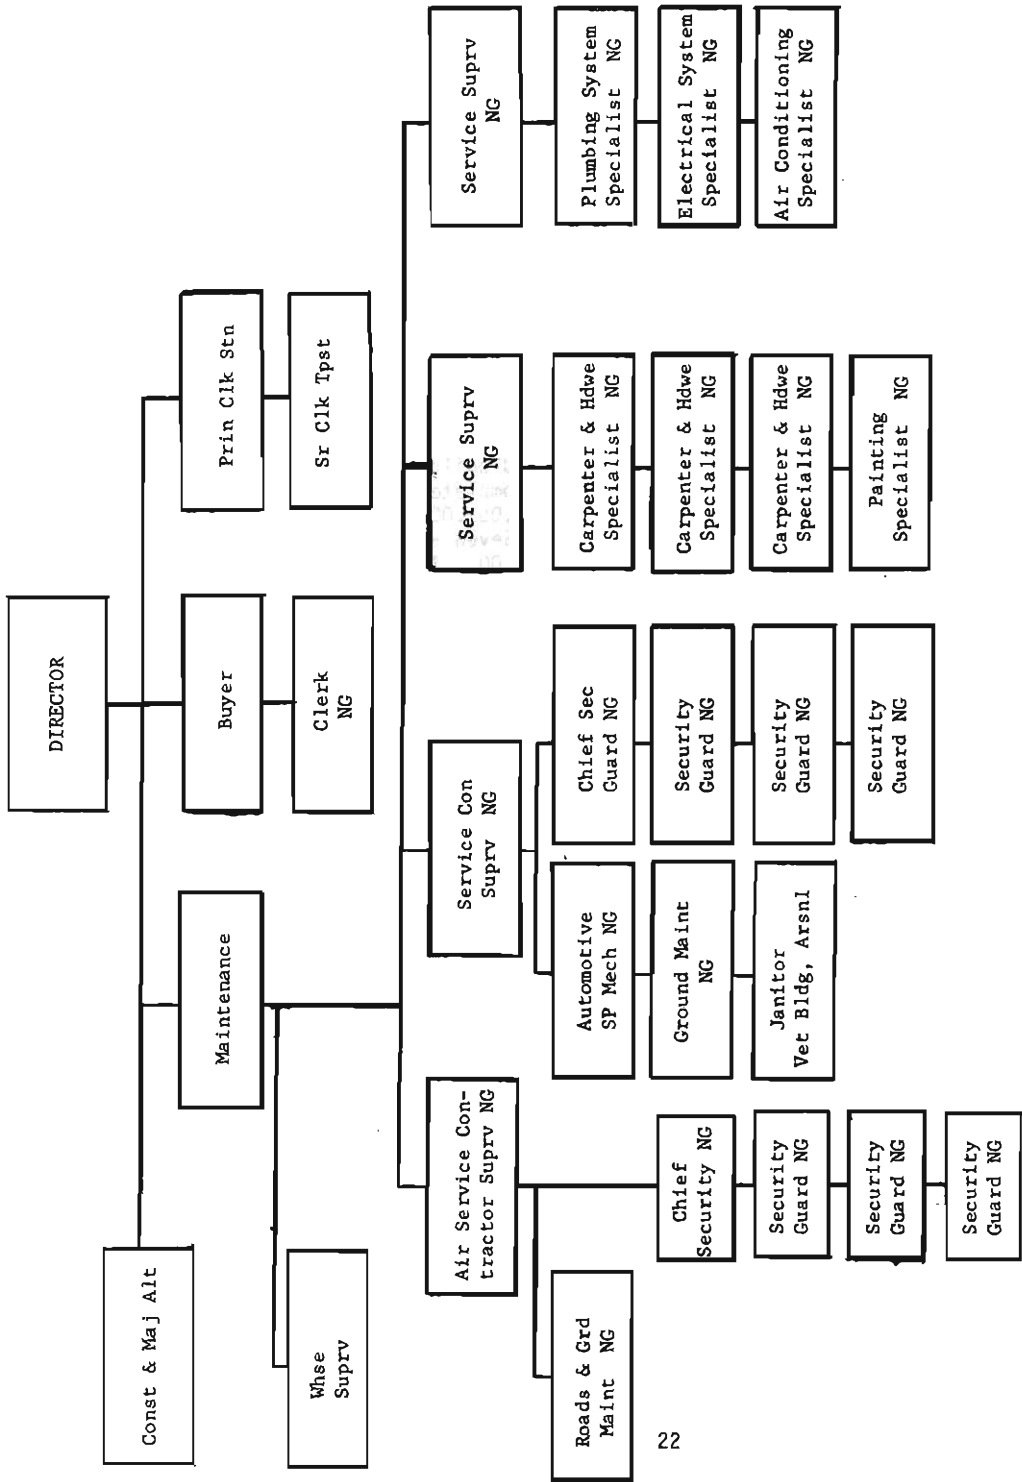

Major Construction

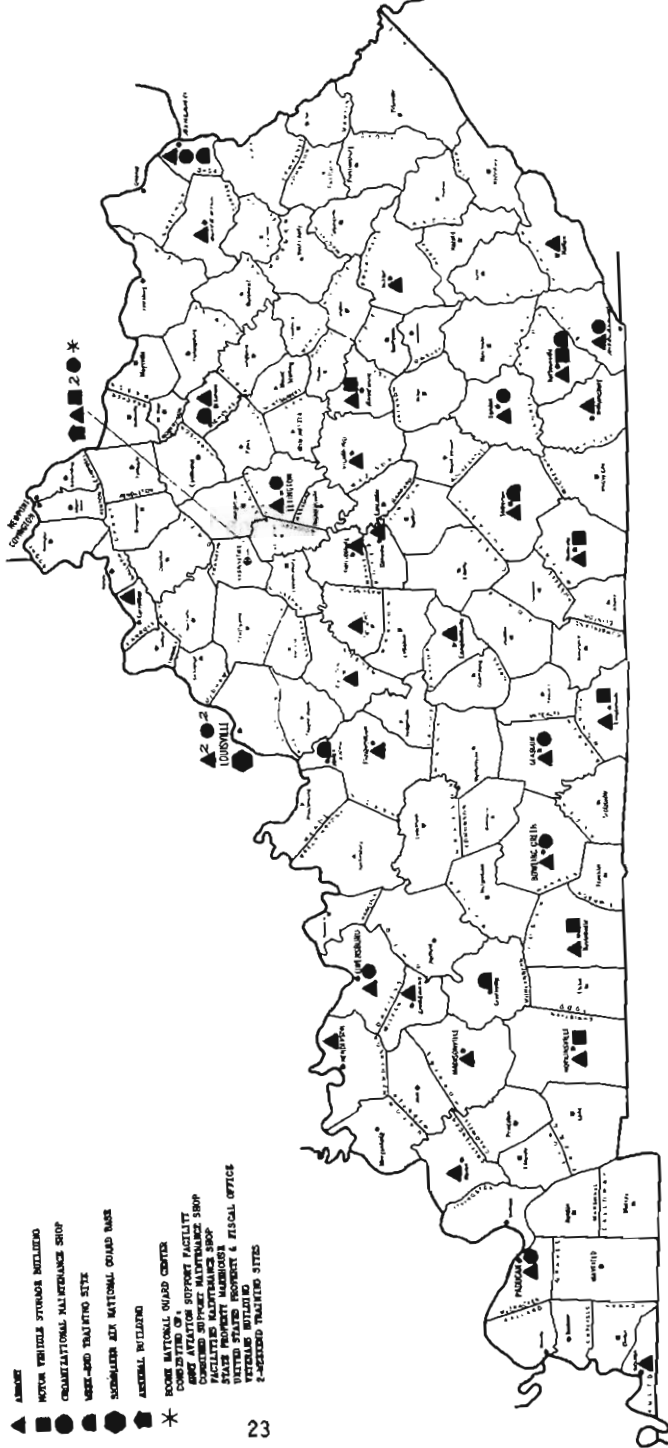

a. During the Fiscal Year one new structure was completed and occupied. This structures total cost was:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
Organizational Maintenance Shop Lexington, Kentucky	\$109,769.57	\$6,512.68	\$116,282.25

New Programs

During the Fiscal Year an extensive program to increase physical security posture of Kentucky National Guard buildings was made. Contract for five intrusion detection systems was completed of the thirty-six (36) structures in the program at a cost of \$14,051.00. The Federal Governments share of this cost was \$11,459.48. Seven additional ones were placed under contract at a cost of \$18,996.00. The Federal Governments share of this cost is \$14,297.00.

Mission

Lieutenant Colonel Willis R. Hodges, USAF, is the United States Property and Fiscal Officer for Kentucky. A National Guard officer on federal active duty, the USPFO is accountable for federal property and funding support of the Kentucky Army and Air National Guard. He acts as a federal controller and logistics manager for the Adjutant General of Kentucky.

Organization

There were no major organizational changes during Fiscal Year 1972. Because of man month and funding limitations, two of the 53 Army technician positions authorized for the USPFO were vacant on 30 June. One position was occupied by a temporary employee.

Army National Guard

Logistics and financial programs of the Kentucky Army National Guard were effected by:

- a. Increasing responsibilities and priorities of selected KyARNG organizations.
- b. Reorganizing Kentucky's units under current tables of organization and equipment (TOE's).
- c. Additional National Guard acquisitions of materiel previously reserved for South East Asia commitments.
- d. Fiscal Year 1972 funding shortages that prevented procurement of needed equipment.

One KyARNG battalion, six separate companies and two detachments were selected for Phase II of the Army Improvement Plan. An additional Armor battalion was designated as an early deployment organization. These status changes required immediate requisitioning of the latest models of authorized equipment.

Statewide unit reorganizations under G and H series TOE's caused wholesale changes in types and amounts of authorized equipment. Major revisions to USPFO electrical accounting procedures, KyARNG maintenance programs and unit property records were required.

The flow of new administrative and combat vehicles, communications equipment and weapons continued as materiel reserves were released to the National Guard. When the new equipment arrived, older items were reported as excess and shipped pursuant to directions of the National Inventory Control Point (NICP). This included some overseas shipments to nations participating in the Military Assistance Program.

Initial and replacement equipment acquisitions that improved training capabilities and the readiness status of KyARNG organizations included:

<u>Equipment Types</u>	<u>Quantities</u>
Bridge, armor vehicle launching	1
Carriers, tracked, all types	21
Crane, wheeled, 20 ton	3
Helicopters, OH23G	4
Helicopters, OH58	3
Helicopters, UH1D	9
Howitzers, self propelled, 8", M110	6
Launchers, grenade, M79	21
Launcher, tank chassis, M60	1
Public Address Sets, AN/P1Q-5	60
Radar Sets, AN/PPS-4	2
Radio Sets, all types	76
Recovery Vehicle, M578	1
Rifles, M16 series	1,392
Semi-Trailers, refrigerated	2
Tanks, combat, full tracked	20
Telephones, field	24

Equipment TypesQuantities

Trailers, cargo and water types

21

Trucks, cargo, 2½ ton

90

Trucks, cargo, 5 ton

16

Trucks, tractor

31

Trucks, utility, ¼ ton

18

Supply transactions exceeded the fiscal 1971 level. During fiscal year 1972, the USPF0:

Issued 19,800 line items of equipment and supplies.

Submitted 14,400 requisitions to defense depots.

Processed 3,200 property turn in requests.

Reported 1,124 line items of excess property for disposal.

Sold 14,500 line items valued at \$40,500.00 through the Self Service Supply Center.

Transportation actions declined but shipments of combat vehicles and self-propelled howitzers within the Commonwealth increased the man day requirements for receiving, processing and issuing these items. A transaction summary follows:

Transportation requests issued - 684

Meal tickets issued - 20

Incoming shipments on bills of lading - 1,219

Outgoing shipments on bills of lading - 228

Incoming parcel post shipments - 6,511

Outgoing parcel post shipments - 3,400

The number of USPF0 Data Processing Center programs remained stable throughout Fiscal Year 1972. There were major revisions to Equipment Status reporting and Demand Summary procedures pursuant to National Guard Bureau instructions. Reorganization of KyARNG units under current tables of organization and equipment required myriad changes in data source cards and the production of revised equipment listings needed by USPF0 and property account personnel.

All Army and Air National Guard federal property accounts were examined and several internal reviews of Army and Air National Guard activities were accomplished. A summation follows:

Air National Guard technician authorizations changed little during Fiscal Year 1972. Army National Guard technicians employed as of 30 June 1972 totaled 331, an increase of 49 over the previous year. In addition to routine wage scale and in grade pay raises, there were some position grade increases and a cost of living adjustment for General Service category technicians. The USPF0 payroll section processed 1,854 change slips for Army and Air National Guard technician salary increases, tax deductions, retirement contributions, insurance premiums, savings programs and collections.

Kentucky Army National Guard appropriations totaling \$7,021,135 for Fiscal Year 1972 exceeded the 1971 level by \$1,764,383. The additional money was provided for new technician authorizations, technician and military pay raises and logistical support requirements. The increased appropriations provided all needed repair parts and some additional equipment but unfinanced equipment requirements totaling \$661,598 remained at the years end. An expenditure summary follows:

<u>Accounts</u>	<u>Description</u>	<u>Amounts</u>
3110	Personnel Costs, Annual Training	\$ 2,078,346
3115-3116	Clothing (less REP Training Costs)	122,940
3117	Subsistence, Inactive Duty	93,016
3122	Clothing Costs, REP Training	137,636
3130	Personnel Costs, Schools	135,512
3140-3150	Personnel Costs, Miscellaneous	97,764
3700	Civilian Personnel Pay	3,441,533
3700	Other Supplies and Equipment & Services	335,427
3733-3734	Equipment and Repair Parts	548,890
3750	Medical Care in Non-Army Facilities	<u>30,071</u>
	TOTAL	\$7,021,135

Purchase activities rose sharply during fiscal 1972. The USPF0:

a. Issued 1,053 delivery and purchase orders for \$240,247 in materials and services.

b. Submitted 247 ration requests to Army commissaries covering food costs of \$47,921.

c. Made 486 imprest fund purchases and travel reimbursements totaling \$24,577.

d. Processed 549 medical service and communications payments amounting to \$9,348.

Twenty seven formal contracts totaling \$488,547 were awarded. The following contracts were in force during the fiscal year:

Air National Guard

Kentucky Air National Guard supply operations were computerized in July 1971. Installation of a card reader and a remote teletypewriter tied the Base Supply Office to the Univac 1050-II digital computer supporting the Air Force Standard Supply System. Computerization impacts included:

a. The integration of base supply transactions and stock control with appropriation accounting records for budgeting and financial management.

b. The loss of stock record cards and the installation of computer hardware required retraining of several technicians for entirely new job responsibilities. Other technicians faced specific changes in tasks and procedures.

c. Supply acquisitions and turn overs were expedited allowing the reduction of stockage levels from 10,000 to 3,000 line items.

d. The standardization of supply systems, procedures, training, manning criteria and management data saved time and resources. Base Supply was provided greater capacity and flexibility in meeting support demands.

The distance between Shewmaker Air National Guard Base and the Computer Support Base (CSB) at Blytheville, Arkansas delayed receipt of some essential computer products. Proposed installation of a DCT 2000 receiving reader would solve the problem of allowing Base Supply to produce daily transaction summaries.

Inoperative input and output devices have slowed production and, depending upon the time involved, have required batching of base supply transactions for delivery to the Computer Support Base for direct computer input. The Computer Support Base, UNIVAC representatives and Base Supply personnel are progressing toward the problem's solution.

The following data reflects increased supply transactions for fiscal 1972 dictated by heavy flight operations and corollary area maintenance programs:

Off-base requisitions	18,446
Off-base receipts	16,997
Line items requested	21,981
Line items issued	20,195
Bench stock and EOQ issues	15,683
DIFM issues (repair cycle assets)	2,040
Other issues	4,512
Base order releases	8,733
Unit turn ins	3,818
Shipments to redistribution and marketing	2,829
Off-base shipments	3,926

Stock Fund sales totaled \$402,614, an average of \$33,551 per base supply customer. Maintenance, the major customer, received 75% of the total sales. Automotive credit card purchases and local procurement of automotive parts accounted for an additional \$4,432.

Outgoing transportation actions for the year totaled 489 government bills of lading covering 127 tons of materiel at a shipping cost of \$20,464.

Although the Office of the USPFO provides major contractual services for the Air National Guard, routine purchasing is accomplished by the Base Supply office. During the fiscal year 290 purchase and delivery orders were issued and there were 330 imprest fund transactions. Contractual maintenance expenditures totaled \$8,937.

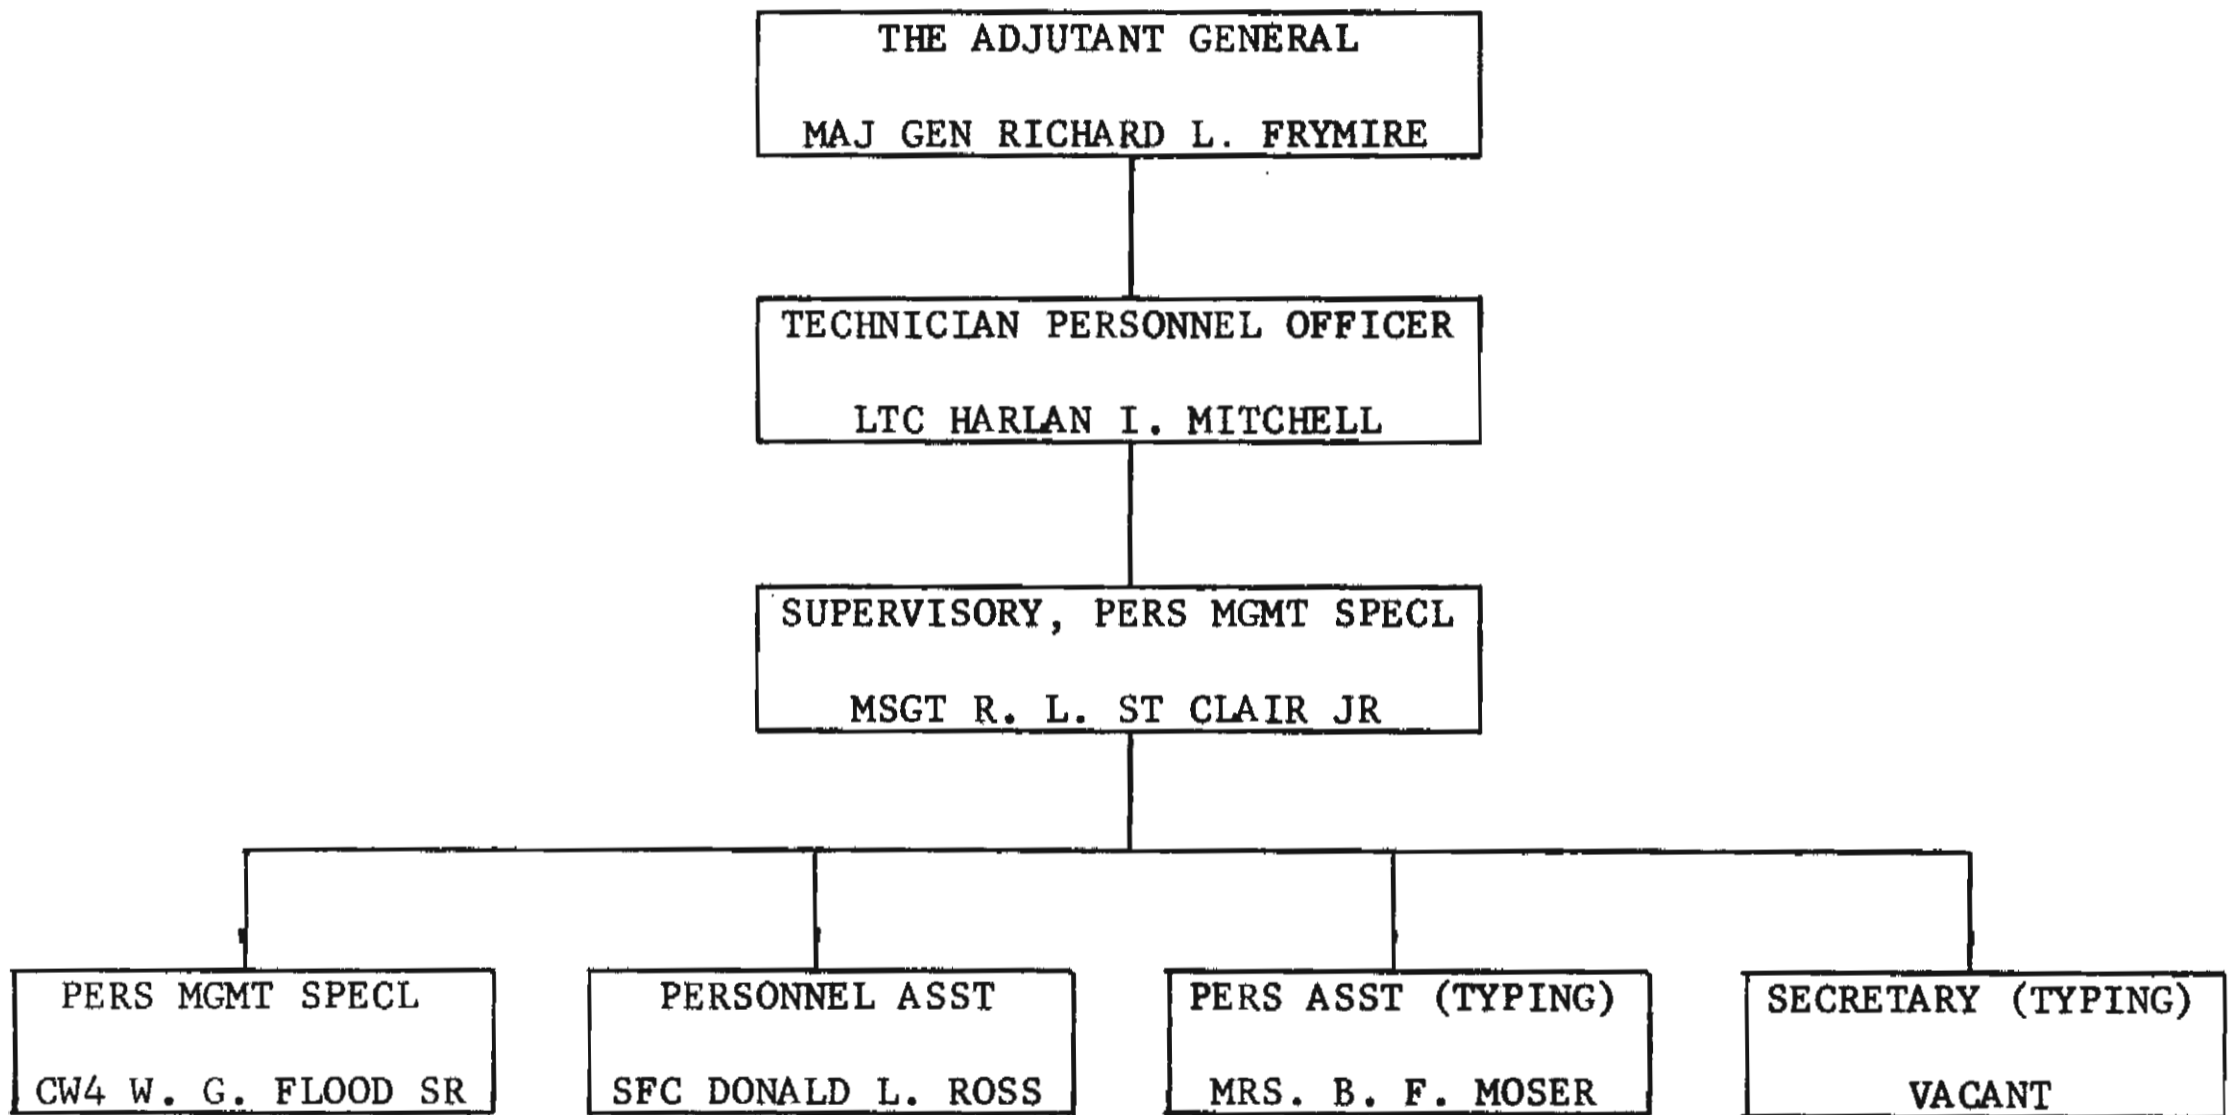

Kentucky Air National Guard appropriations for fiscal 1972 operations maintenance and personnel costs were raised to \$4,051,399. The additional \$555,626 covered rising technician, travel, equipment, major repair and minor construction costs. The following expenditure summary does not include \$167,645 spent for the planning, design and accomplishment of major military construction projects:

<u>Accounts</u>	<u>Description</u>	<u>Amount</u>
448.01	Air technician pay	2,178,439

	GRAND TOTAL OF OBLIGATION	\$4,051,399

TECHNICIAN PERSONNEL OFFICE

The technician personnel office is the agency which administers the technician program for both the Army and Air National Guard for The Adjutant General. This office is designed to implement the proper procedures to insure each technician that his files and records are properly maintained and his entitlements as an employee are properly and equitably administered. Organization of this office is shown on the chart which follows.

Technicians

The Army National Guard technician program started the Fiscal Year with 288 authorized and funded technicians with a total of 284 actually employed. Due to receipt of additional equipment and formation of some new positions the authorized employment steadily increased during the year to an all time high of 332 authorized technicians of which 330 were actually hired. These figures represent a gain of 44 technicians authorized and 46 actually employed.

Following is a chart showing the number of technicians employed in the various locations of the Commonwealth of Kentucky and the annual pay of these technicians:

<u>County</u>	<u>No. of Technicians</u>	<u>Annual Salary</u>
Barren	10	\$101,917.00
Bell	1	9,959.00
Boyd	15	150,849.00
Boyle	1	10,261.00
Breathitt	1	9,053.00
Carroll	1	11,167.00
Carter	1	11,167.00
Crittenden	1	10,865.00
Christian	1	11,167.00
Daviess	12	124,415.00
Estill	1	11,167.00
Fayette	19	197,519.00
Franklin	157	1,699,288.00
Fulton	1	9,657.00
Hardin	7	71,341.00
Harlan	1	9,785.00
Henderson	1	10,261.00
Hopkins	1	9,053.00
Jefferson	36	364,901.00
Knox	4	45,365.00
Laurel	9	87,760.00
Logan	1	8,153.00
Madison	4	45,761.00
McLean	1	10,261.00
McCracken	17	161,694.00

Monroe	1	10,865.00
Muhlenberg	9	79,356.00
Nelson	1	9,959.00
Nicholas	1	9,959.00
Pulaski	1	11,167.00

<u>County</u>	<u>No. of Technicians</u>	<u>Annual Salary</u>
Taylor	1	\$11,167.00
Warren	8	84,053.00
Washington	1	11,167.00
Wayne	1	11,167.00
Whitley	1	10,563.00
TOTAL	<u>330</u>	<u>\$3,453,376.00</u>

The Air National Guard Technician Program remained stable during the Fiscal Year with an authorized strength of 173.2 technicians and 173 actually employed. The Kentucky Air National Guard Technicians located at Shewmaker Air National Guard Base in Louisville have an annual salary of \$2,042,862.00.

Total Technician Annual Payroll \$5,496,238.00

Recruiting and Retention

The Recruiting and Retention Officer, under the direction of The Adjutant General develops plans and procedures to be used by the various commands in support of the Kentucky National Guard recruiting program.

The Recruiting and Retention Office was established 15 September 1971. Since that time the following has been accomplished:

a. Conducted visits to units to furnish guidance on recruiting and retention programs.

b. Visited various news media to gain their support in obtaining public service spots in support of "The Guard Belongs:" theme.

c. Attended a three-day conference in Topeka, Kansas with the Recruiting and Retention Officers from the fifty states and Puerto Rico.

d. Conducted three two-day Recruiting and Retention Schools for units of the Commonwealth.

e. Implemented the "Early-Out" program in Kentucky for the active Army.

f. Conducted briefings for Army personnel being discharged from Fort Knox, Kentucky, on benefits of enlisting in units of the National Guard.

g. Met with black leaders in efforts to formulate plans for the recruitment of minority groups.

h. Made liaison visits with the Active Army Recruiting Command.

i. Briefed 85 Basic Armored Officers Course Lieutenants, on the benefits of becoming members of the National Guard, upon completion of the Course, at their home states.

The move toward a zero draft environment has created problems within the National Guard both on a national and state level. In order to circumvent this problem, this office has taken actions to evaluate incentives, establish a more aggressive state level recruiting and retention program, and has launched an improved advertising program, utilizing all the medias.

Community Relations

Community Relations involves a variety of specific programs. The Kentucky National Guard views every program as an opportunity to gain additional support by performing in an exemplary fashion, be it a state, regional, or local program. Examples of these community service programs are:

1. First Annual Kentucky National Guard Youth Summer Camp - A boys summer camp was conducted during the period 27 June through 17 July 1971, for 180 boys, ages 14 thru 16, at the Western Kentucky Weekend Training Site, located at Greenville, Kentucky.

To plan, coordinate, and accomplish this project required the efforts of many dedicated Army and Air Guardsmen. In excess of 10,000 voluntary man-hours were devoted to this worthwhile project. Approximately \$11,000, of which none was State or Federal money, was spent for the camp sessions.

2. Second Annual Bean Soup Feast - To raise money for the Kentucky National Guard Youth Summer Camp, a Bean Soup Feast was conducted at all 39 armories in May 1972. Over 16,000 citizens of the Commonwealth cast a vote of confidence for the Kentucky National Guard by their ticket purchases, cash and food donations, and attendance at the Open Houses. Bean Soup tickets were sold for \$1 each. A profit of \$16,088.32 was realized from the Bean Soup Feast.

3. 1972 Easter Seal Appeal - The appeal received a big boost when the Kentucky Army National Guard joined the campaign to enlist financial support from people in many areas of the state.

Twenty-seven units of the Kentucky National Guard collected more than \$33,000 on March 25 and 26, 1972. The effort was tied in with the first annual Easter Seal Telethon held on the same date.

4. Team Handball - The First Annual Kentucky National Guard Team Handball Tournament, for boys ages 12 through 17, was conducted on 27 May 1972, at Lexington, Kentucky.

Team Handball involves the skill of basketball, soccer and volleyball; employs nets similar in appearance and placement to those used in ice hockey, and utilizes a round ball smaller than a soccer ball.

The State Championship was won by Ashland, which entitled them to represent the Kentucky Army National Guard in the First United States Army Championship Games at Fort Dix, New Jersey. Our team was beat in the first round of play, but the experience gained will prove valuable for future years.

This program was supported by the Bean Soup Funds, costing approximately \$1,200. At the height of the season, it is estimated 500 boys participated in the program.

5. Units of the Kentucky National Guard are encouraged to participate at "the grass roots level" in Domestic Action programs. Examples are - Food and Clothing Collection for flood victims in West Virginia; Christmas Holiday Jr. Basketball Tournament for boys ages 11-13; Junk car pick-up programs in conjunction with the ecology program; Toys for Tots Christmas program; Junior NRA Rifle Safety Courses; Little League Baseball, Football, and Basketball programs; Assistance in purchasing a Lung Machine for a 26 year old mother; Blood Bank programs; building baseball diamonds; Cancer Society programs; and many others too numerous to mention.

General

The Army National Guard Division is organized to assist The Adjutant General in administering the affairs of the Kentucky Army National Guard. A majority of the employees comprising the staff of this Division are United States Civil Service Technicians who are paid entirely with Federal funds. The Adjutant General has a dual role with regard to the affairs of the Kentucky Army National Guard. First, as The Adjutant General and Executive Head of the Department of Military Affairs, he is responsible for coordinating all activities relating to personnel, organization and training, and logistical support of the Kentucky Army National Guard. Secondly, as Commander of the Kentucky Army National Guard, he directs the activities of the various Guard units during periods of annual training as well as periods of inactive duty training. The mission of the Army National Guard Division consists primarily of assisting The Adjutant General in carrying out the first part of the dual role. For the second part, he has a part-time National Guard Staff which functions as an integral unit of the Kentucky Army National Guard. (See Table I)

The Division is organized as shown on the following chart.

The functions of the respective sections along with specific accomplishments are as follows:

Director

Since the activities of the Army National Guard Division are completely military oriented, it is unique when compared with other agencies of State Government. The Deputy Adjutant General serves as Director of the Division. To assist him in this capacity he has an Administrative Assistant who is paid by the Federal Government.

Personnel Section

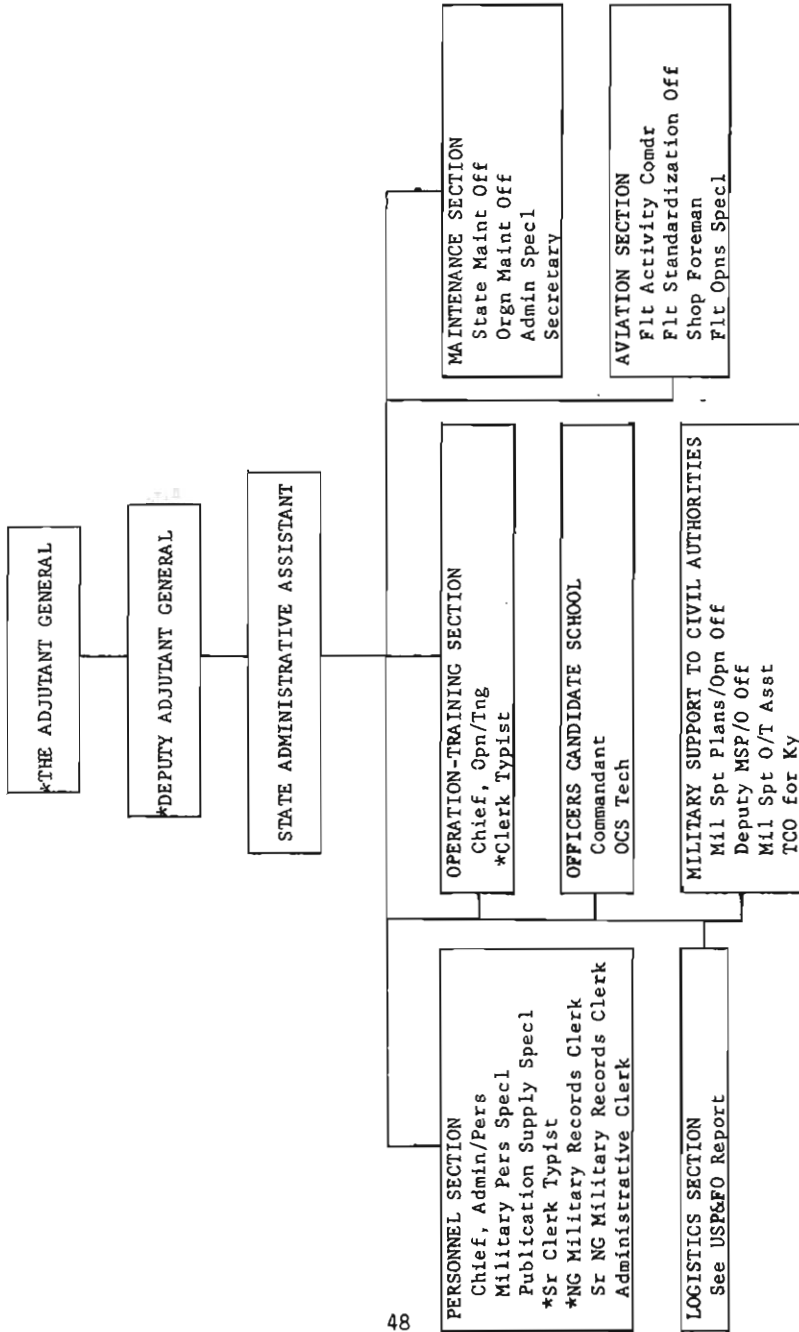

The functions of this section are divided into the following activities:

a. Officer Personnel. This section is responsible for policies on a procurement of officer personnel, appointments, resignations, transfers, promotions, and the overall career program for approximately 487 officers and warrant officers of the Kentucky Army National Guard. This section maintains a personnel folder on each officer, is responsible to insure that efficiency reports and physical examinations of officer personnel are submitted accurately and on a timely basis. It further handles all correspondence pertaining to officer personnel.

Organization Chart
 Army National Guard Division

40

* State Employees

During the period 1 July 1971 - 30 June 1972 this section processed the following:

Appointments	-	69
Promotions	-	89
Separations	-	62
Branch Changes	-	16
Reassignments	-	81
Transfers	-	141

b. Enlisted Personnel. This section is responsible for policies on enlistment, recruitment, retention and separation, and the formulation of orders and general correspondence pertaining to enlisted personnel. It maintains a personnel file on each of the approximately 4800 enlisted personnel of the Kentucky Army National Guard.

During the period 1 July 1971 - 30 June 1972 this section processed 1,413 enlistments and 1,352 discharges.

c. Automated Data. The continuing need for complex and up-to-date data on all personnel of the Kentucky Army National Guard is the function of this section. The printed data furnished by this section is used by Commanders at all levels, this office, National Guard Bureau and Department of The Army. It provides for improved and accurate personnel management at all levels of command.

During the period from 1 July 1971 - 30 June 1972 this section processed 26,419 personnel transactions.

d. Enlisted Evaluation System. The Enlisted Evaluation System was established by Department of the Army for the Reserve Components in 1964 as an objective method of determining the relative Military Occupation Specialty (MOS) proficiency of individual's filling unit spaces in the Reserve Components and skills required for the duty position which they are filling. This program influences the individuals training, assignment, use, and retention, as well as promotion.

The Adjutant General of Kentucky is the monitoring agent to ensure successful operation of the Enlisted Evaluation System in the Kentucky Army National Guard. He operates the program by appointing a State Test Control Officer (TCO), and such assistant Test Control Officers as are necessary to supervise the system.

On 1 January 1971 the Enlisted Evaluation System was revised whereby individuals tested in pay grade E4 through E8 is mandatory only for the initial evaluation and verification of current duty MOS. Subsequent MOS evaluation of verified DMOS will be required during each 4th year following initial testing. Assignment to a new DMOS or promotion to the next higher skill level may require an individual to be tested during next scheduled test cycle. The number of individuals tested and test results during the period covered by this report are as follows:

May 1971 (DMOS Test Results)

Total Enlisted Men Tested	300	
Enlisted Men (Verified DMOS)	268	(89%)
Enlisted Men (Failed)	32	(11%)
Enlisted Men (Promotion Status)	145	(48%)

August 1971 (DMOS Test Results)

Total Enlisted Men Tested	410	
Enlisted Men (Verified DMOS)	383	(93%)
Enlisted Men (Failed)	27	(7%)
Enlisted Men (Promotion Status)	244	(60%)

November 1971 (DMOS Test Results)

Total Enlisted Men Tested	194	
Enlisted Men (Verified DMOS)	181	(93%)
Enlisted Men (Failed)	13	(7%)
Enlisted Men (Promotion Status)	116	(60%)

February 1972 (DMOS Test Results)

Total Enlisted Men Tested	368	
Enlisted Men (Verified DMOS)	347	(92%)
Enlisted Men (Failed)	21	(8%)
Enlisted Men (Promotion Status)	266	(72%)

e. Reserve Enlistment Program. A total of 821 individuals were ordered to initial active duty for training during Fiscal Year 72. The following reflects, by month, the number of individuals who were ordered to initial active duty for training:

	<u>1971</u>		<u>1972</u>
July	- 100	January	- 96
August	- 79	February	- 109
September	- 55	March	- 66
October	- 57	April	- 43
November	- 49	May	- 34
December	- 52	June	- 81
TOTAL	<u>392</u>	TOTAL	<u>429</u>

f. Strength. The authorized and actual strength for the Fiscal Year is outlined below:

	AUTHORIZED				ACTUAL			
	OFF	WO	EM	AGGR	OFF	WO	EM	AGGR
July 1971	379	66	4844	5289	336	68	4772	5176

g. Awards. Unit and individual presentations were made during the period covered by this report:

(1) Headquarters and Headquarters Detachment, 149th Military Police Battalion, Barbourville, Kentucky was awarded the Eisenhower Trophy for being the best all around unit in the Kentucky Army National Guard.

(2) Company A, 1st Battalion, 123d Armor, Marion, Kentucky was awarded the Armor Leadership Award for Calendar Year 1971 for being the most outstanding tank company in the Kentucky Army National Guard.

(3) Following is a compilation of individual awards and decorations presented during the fiscal year:

Distinguished Service Medal	16
Medal for Merit	32
Oak Leaf Cluster to Medal for Merit	1
Commendation Ribbon	155
30 Year Medal	6
20 Year Medal	4
State Active Duty Ribbon	11
Oak Leaf Cluster to State Active Duty Ribbon	6

Publications Section

It is the responsibility of the Publications Section to provide all necessary publications and blank forms for the Kentucky Army National Guard units and activities. Service to the Air National Guard is limited to the supply of National Guard Bureau publications and blank forms as applicable. Publications are no longer stocked by the Publications Section, they are requisitioned from the Publication Centers as required.

The Kentucky Army National Guard is supplied with Department of Army technical publications from the St. Louis Adjutant General Publications Center, St. Louis, Missouri. Administrative and Training publications and all Department of the Army blank forms are supplied from the Baltimore Adjutant General Publications Center, Baltimore, Maryland. National Guard Bureau publications and forms are supplied direct from the National Guard Bureau, Washington, D. C.

Logistics Section

This section is manned only by the United States Property and Fiscal Officer whose function with the Division is to provide technical advice and assistance in all matters relating to the logistical support of the Kentucky Army National Guard. As he has an identical responsibility with the Air National Guard, the USP&FO maintains a separate office and staff who assist him in accounting for Federal property and funds allotted to both the Kentucky Army and Air National Guard. The functions of the USP&FO will be covered elsewhere in this report.

Operations and Training Section

The areas of responsibility involving this section are as follows:

a. Develop general and detail training plans, including supplementary policies, directives, procedures and schedules, utilizing Department of the Army Regulations, tactical doctrine, training programs and field manuals. Review policies and directives of higher headquarters to insure compliance. Determines training needs of subordinate units, evaluates training operations and makes recommendations relative to improved utilization of training facilities. Develops and issues standard training plans, provides responsive guidance and assistance.

b. Conducts continuing evaluation of training operations. Inspects for adherence to policies, directives and achievement of training objectives. Establishes and administers training reports system for evaluation of training.

c. Develops and implements plans regarding the organization, reorganization, deactivation and changes involving units of the Kentucky Army National Guard.

d. Administers the Service School Program which provides an efficient and professional method to train National Guard Personnel at Active Army Schools.

e. Coordinates with First United States Army, National Guard Bureau and other military installations regarding training matters, Annual Training Sites and technical assistance for subordinate units.

f. Provides support and assistance to the Officer Candidate School. Supervises operations and control of units participating in State Active Duty.

The following is a Troop List of Kentucky Army National Guard Organizations, Units and Detachments which includes locations of home stations and commanders:

Organization

During the period covered by this report no significant changes in the control structure of the Kentucky National Guard occurred. Current structure is portrayed on the following chart.

ORGANIZATIONAL CHART KENTUCKY ARMY NATIONAL GUARD

Reorganization

The reorganization of 1 March 1972 produced a minimum effect on the overall readiness posture of the Kentucky Army National Guard. The following summarizes the changes in the organizational structure and mission of the Kentucky Army National Guard as a result of the reorganization:

HHC, 149th Armor Group, an obsolete unit in the Army organizational structure, located at Bowling Green, Kentucky was reorganized as HHC, 149th Armor Brigade. The Brigade increases the effectiveness and mobilization readiness of Kentucky's Armor units.

2nd Bn (155 SP), 138th Arty, Louisville, Kentucky was reorganized as 2nd Bn (8"SP), 138th FA.

The 438th Military Police Company located at Barbourville and Williamsburg, Kentucky was reorganized as the 438th Military Police Company (Physical Security).

2123rd Trans Co (Mdm Trk Cgo), Bowling Green, Kentucky was deactivated and personnel transferred to the HHC, 149th Armor Brigade.

Converted units to G and H Series TOE, which upgraded the organizational and equipment structure to a level comparable to the Active Army.

Added two (2) additional companies to the organization of the Kentucky Army National Guard. Spt Co, 1st Bn, 123d Armor, Hickman, Kentucky and Spt Co, 2nd Bn, 123d Armor, Owensboro, Kentucky.

Training

The training objective of Kentucky Army National Guard Units is to attain and sustain proficiency at the highest level of Basic Unit Training, accomplishing a premobilization objective with its ultimate purpose to reduce to the minimum the time required to mobilize and meet deployment schedule.

During Fiscal Year 1972 training of the Kentucky Army National Guard continued to progress in a professional manner, accomplishing their assigned training objective and improving their ultimate objective of total combat readiness. Personnel losses and the reorganization made it necessary for a limited number of units to revert to a lower level training objective.

All units of the Kentucky Army National Guard were evaluated by a representative of the Commanding General, First United States Army, during their Annual Training period and received a satisfactory rating with many favorable comments.

During the Annual General Inspection conducted by the Inspector General, First United States all units received a satisfactory rating. The Annual General Inspection covers all phases of operation of a National Guard Unit.

Annual Training

Army National Guard units are required to conduct a fifteen day Annual Training period at an installation which provides the opportunity and facilities to conduct training exercises in a simulated combat environment and other training which can not normally be conducted at home station.

Units attending Annual Training during the period of this report and location of the training sites are shown below:

Service School Program

The Army Service School Program is designed to familiarize personnel with the latest Army doctrine in addition to qualifying individuals in their current military assignment. The schools have integrated Active Army, USAR and National Guard to ensure that the same instruction is received by all components of the Army.

During the period of this report 112 members of the Army National Guard have completed courses at various Service Schools, with an expenditure of Federal Funds totaling \$113,063.56.

Officer Candidate School

Kentucky National Guard Officer Candidate School Class Number 14-72 began Phase I at Frankfort Kentucky on 22 May 1971, with an enrollment of 50 NG Candidates. 15 additional candidates from the 100th Division USAR completed Phase I, with the Georgia NG OCS and joined the class for Phase II on 10 July 1971, thus increasing the class enrollment to 65 candidates.

Fifty-three candidates are still enrolled in the program and will attend Annual Training (Phase III) at Fort Knox, Kentucky during the period 15 - 29 July 1972.

The enrollment and graduates for the school's 14 years of operation are:

OCS Class No:	1-59	2-60	3-61	4-62	5-63	6-64	7-65	8-66

Number of Graduates	30 NG 13 USAR	52 NG 13 USAR	52 NG 13 USAR	13 NG 6 USAR	19 NG 8 USAR			

Class Number 15-73 started Phase I, at Frankfort, Kentucky 18 June 1972, with an enrollment of 29 candidates, and will attend Annual Training (Phase I) at Fort Knox, Kentucky during the period 15 - 29 July 1972.

Army Aviation Support Facility. The Army Aviation Support Facility exercises central control of all aviation assets to ensure proper utilization and operation. The structure and staff provides for:

1. Administration of the aviation program.
2. Maintenance of assigned aircraft.
3. Conduct of individual aviator flight training.

There are forty-five aviators assigned to various units of the Kentucky Army National Guard. A flying hour program of 3400 hours was authorized for support of unit activities and maintenance of aviator proficiency during FY 72. Of these 3400 hours, 2750 were actually flown.

A transition from obsolete aircraft to modern first line aircraft was initiated in FY 72. The number and type of aircraft turned in and received are as indicated below:

<u>Turned In</u>	<u>Received</u>
O-1A - 3	UH-1D - 9
U-6A - 1	OH-58A - 3
OH-23B - 4	OH-23G - 4
OH-13E - 1	

During FY 73 the AASF is scheduled to receive ten additional OH-58 aircraft bringing the combined total to twenty-three, nine UH-1D's, thirteen OH-58's, and one U-6. Thirteen additional technicians have been employed to maintain these additional aircraft.

Maintenance Section

General. The maintenance of all Federal equipment assigned to the Kentucky Army National Guard is the direct responsibility of the Adjutant General of Kentucky. The State Maintenance Officer is responsible to the Adjutant General for:

- (1) The establishment of a Statewide Maintenance Program.
- (2) The organization and operation of the Combined Support Maintenance Shop.
- (3) Provide technical advise to the USPF0, Army Aviation Maintenance Shop, and Commanders (on matters pertaining to maintenance). The organization of the maintenance activities is shown on the chart which follows.

The categories of maintenance operations for the Army are defined in AR 750-1 as: (1) Organization (O), (2) Direct Support Maintenance (F), (3) General Support Maintenance (H), (4) Depot Maintenance (D). Each combat, combat support, and combat service support activity is authorized an organic materiel maintenance element, i.e. crew/operator and maintenance personnel, to perform authorized organizational maintenance operations. Unit organic capabilities are supplemented by Organizational Maintenance Shops (OMS)/Weekend Training Equipment Pools (WETEP) to provide the unit with fulltime organizational maintenance support. OMS/WETEPs are located throughout the State. The Combined Support Maintenance Shop (CSMS) is located at Frankfort and provides direct and general support maintenance for all commodity commands except crypto equipment. The Federal Government provides the necessary funding for technicians to man the shops. The First US Army (AGI) inspects the program annually.

The Maintenance Assistance and Instruction Team (MAIT) replaced the Command Maintenance Management Inspection (CMMI). The objective of MAIT is to insure that Commanders and supervisors at all levels are provided an organic means of identifying and resolving maintenance, maintenance management and associated repair parts problems in the using unit. MAIT visits are conducted annually by the State Maintenance Officer under the supervision of the Adjutant General. The team is constituted from personnel CSMS inspection section. All units visited were found to have a overall satisfactory maintenance program. Narrative reports were provided each commander with recommendations for improvements in his weak areas.

The problem of aging equipment continues to be a prime concern of all personnel. Repairs are becoming more expensive because of parts and man hours expended to maintain equipment in operational condition. However, there has been a considerable amount of Standard A and B equipment received during the last twelve months. Due to poor quality control, the new equipment is also a constant maintenance and repair problem.

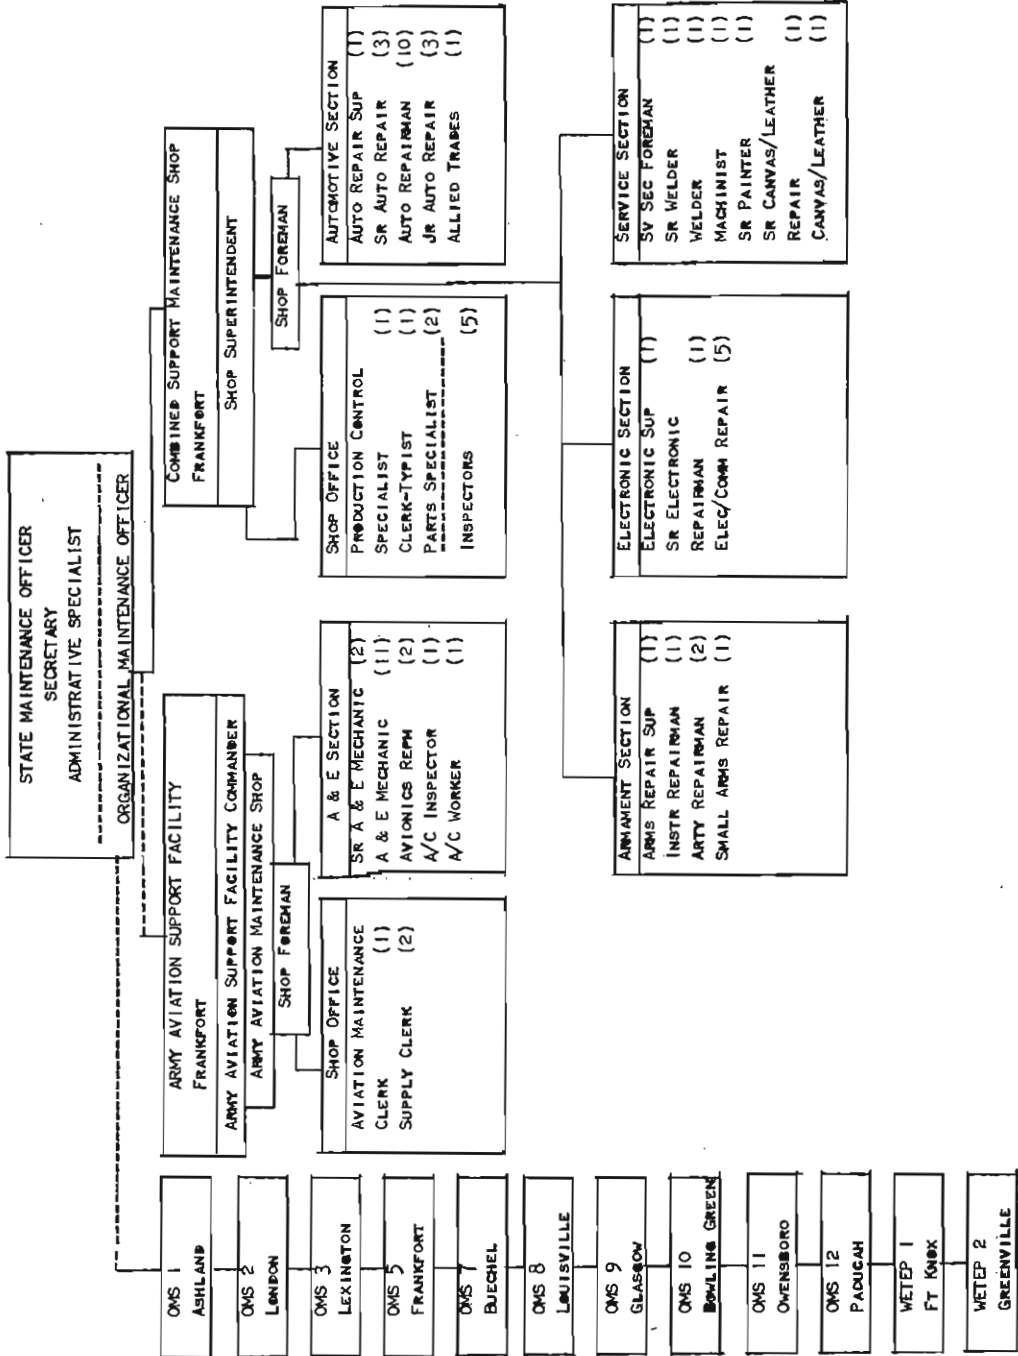

Combined Support Maintenance Shop. The Combined Support Maintenance Shop located at the Boone National Guard Center, Frankfort, Kentucky was established for the purpose of performing direct and general support maintenance, and to furnish personnel to conduct maintenance assistance and instruction team members of all equipment, excluding aircraft, assigned to the Kentucky Army National Guard. The Administrative Motor Pool is a responsibility of the TMP Officer, CSMS, for the purpose of furnishing administrative transportation to organizations and activities within a geographical area. An inspection was conducted of the CSMS by the Inspector General, First US Army who rated the shop Satisfactory. This facility is supported with approximately 90% of total technician positions authorized.

Organization Maintenance Shops/Weekend Training Equipment Pools. There are ten (10) established organizational maintenance shops and two (2) weekend training equipment pools in Kentucky. OMS 4, Greenville, Ky was reorganized and redesignated WETEP 2 during the month of November 1971. Their mission - provide organizational maintenance support for all combat vehicles in the 1st and 2nd Battalions, 123d Armor. OMS 6, Louisville, Ky was moved to Fort Knox, Ky, reorganized and redesignated WETEP 1 during the month of September 1971. Their mission - provide organization maintenance support for all combat vehicles in the 1st Bn, 623d FA and Batteries B and C, 2nd Bn, 138th FA.

The operation of OMS and WETEPs is the responsibility of the parent unit commander and supervised by his fulltime Staff Administrative Assistant. The responsibility of organizational and weekend equipment shops is to furnish support to the user and provide organizational maintenance to the entire unit. The Organizational Maintenance Officer, who also assists the State Maintenance Officer, provides operational and technical guidance to the OMS/WETEP's. Shops also operate an administrative storage compound to provide storage for vehicles not required by units for training. These shops are supported with approximately 82% of total technician position authorized.

Army Aviation Maintenance Shop. The Army Aviation Maintenance Shop is an integral part of the Army Aviation Support Facility, which is discussed in the Aviation Section of this report.

The function of the shop is performance of organizational, direct support and limited general support maintenance on all aircraft assigned to the Kentucky Army National Guard.

Military Support to Civil Authorities

The Military Support to Civil Authorities Section is organized with three full-time technicians and three part-time (Drill and Annual Training status) liaison representatives.

Manning of the section as of 30 June 1972 was:

- *Plans and Operations Officer - Lieutenant Colonel Thomas J. Murphy
- *Deputy Plans and Operations Officer - Major Thomas Buyher, Jr.
- *Operations and Training Specialist - Chief Warrant Geo. R. Karsner, Jr.
- Navy Liaison - Commander Gaylord B. Ballard
- Reserve Liaison - (Vacancy)
- Air Force Liaison - Lieutenant Colonel William T. Dotson, Jr.
- *Full-time Technicians

This section, located in the Capitol Building, has established and maintains active liaison and coordination with applicable military forces located within the Commonwealth; with certain Federal, State and Local Civil Authorities; with counterparts in States adjacent to Kentucky; and with appropriate US Army Activities and Installations.

The Military Support Section is primarily concerned with development of plans and capabilities necessary to assist Civil Authorities in restoring normal civil functions during and subsequent to emergencies.

Such planning includes provisions for the operational employment of assigned military forces (Active and Reserve Components) engaged in providing military support for civil defense during a thermonuclear post-attack period, and contingency planning for operations during domestic emergencies affecting the public welfare and occurring within The Commonwealth of Kentucky as a result of insurrection, civil disturbance, earthquake, fire, flood, or other public disaster or equivalent emergency which would endanger life and property or disrupt the usual processes of government.

Personnel of the Military Support Section have successfully completed special schooling in various related fields in order to be better qualified to assist in any type of emergency.

In compliance with national directives this section has implemented training programs to include refresher training in control of civil disturbances for personnel of the Army and Air National Guard who are members of units that have been assigned a potential mission for this type duty. Additionally, the MSCA Section has provided assistance to other agencies for this type training, notably Army Reserve Units and City Police Departments. As an example, the section plans special programs of instruction, and in conjunction with local authorities conducts civil disturbance training sessions and seminars for members of local Law Enforcement Agencies.

The effectiveness of this training and advance planning has been substantiated by the exemplary manner in which civil disturbance emergencies have been handled in the past.

The State Plan for National Guard assistance during domestic emergencies contains policy, instructions, and procedures. This plan, which has received wide distribution and is used as a uniform reference, has been updated and expanded during the year based on the knowledge and experience gained through operations in Kentucky, and by observation and study of reports on activity in other states.

Mayors, Chiefs of Police, State Police, College Officials, and certain security personnel continue to be contacted on an active liaison basis. As necessary, conferences were held in order to discuss procedure for requesting assistance, areas of responsibility, chain of command, and other items relative to planning. In numerous cases this section assisted such agencies in preparation or revision of local planning.

In the event of a National Emergency involving a nuclear attack on The United States, the Military Support Section is prepared to advise and assist the Adjutant General (Commanding General, Kentucky Area Command) in the execution of approved plans and policies that provide for operational employment of assigned military forces engaged in Military Support to Civil Authorities for Civil Defense.

General

The Senior U.S. Army Advisor for the Commonwealth of Kentucky is COL Ruel P. Scoggins, GS, (Armor). He commands and coordinates the duties of all Army Advisors in the State; acts as liaison between the Army Commander and the State Adjutant General, and serves as military advisor to the State Adjutant General.

Mission

The primary mission of advisor personnel assigned to the United States Army Advisor Group (USAAG), Kentucky Army National Guard (KyARNG), is to advise and assist the organizations and units of the Kentucky Army National Guard. Specifically, Army Advisor personnel are required as a normal function to accomplish the following:

Improve the operational readiness and proficiency of the KyARNG organizations and units for which they have advisor responsibility through appropriate assistance and advice to the respective ARNG commanders.

Regularly attend the training assemblies of those organizations and units for which they have primary advisor responsibility. Attendance at these training assemblies takes precedence over attendance at all other assemblies, unless otherwise specified.

Attend annual training (AT) periods as directed by the Senior Army Advisor.

Perform duties as Chairman/member(s) of Federal Recognition Boards.

Maintain suitable files of orders, circulars, regulations, and official documents issued by Department of the Army, Army Commander, and State authorities as needed to properly perform mission.

Perform such other duties as may be directed by competent authority.

Organization

The USAAG KyARNG is organized under Table of Distribution(TD) 1A-W2KPAA08 as a Class I Activity under the jurisdiction of the Commanding General, First United States Army. The Advisor Group is authorized 12 officers and 15 enlisted men. Advisor offices are maintained at each battalion or higher headquarters. Location of Advisor offices and assignment of advisory personnel are indicated in Chart No. 1 appearing at the end of this section.

Personnel

Nominations for Officer Advisors are tendered to the State Adjutant General by Department of the Army. Potential advisors are carefully screened by career management to evaluate individual qualifications and personnel assignment priority prior to nomination. The priority for advisors has been elevated to coincide with the increased emphasis on the National Guard's role in the one Army concept and the vital part the Army National Guard plays in the nation's security posture.

The operating strength of the Army Advisor Group (NG) as of 30 June 72 was 12 Officers and 15 Enlisted Men. Considerable personnel turbulence occurred during this reporting period, with the loss of 7 Officers and 6 Noncommissioned Officers, and the arrival of 7 Officers and 7 NCO's as replacements. The projected losses for the ensuing period are 2 Officers and 2 enlisted men. Projected gains are 2 enlisted advisors, with pending requisitions for officer vacancies.

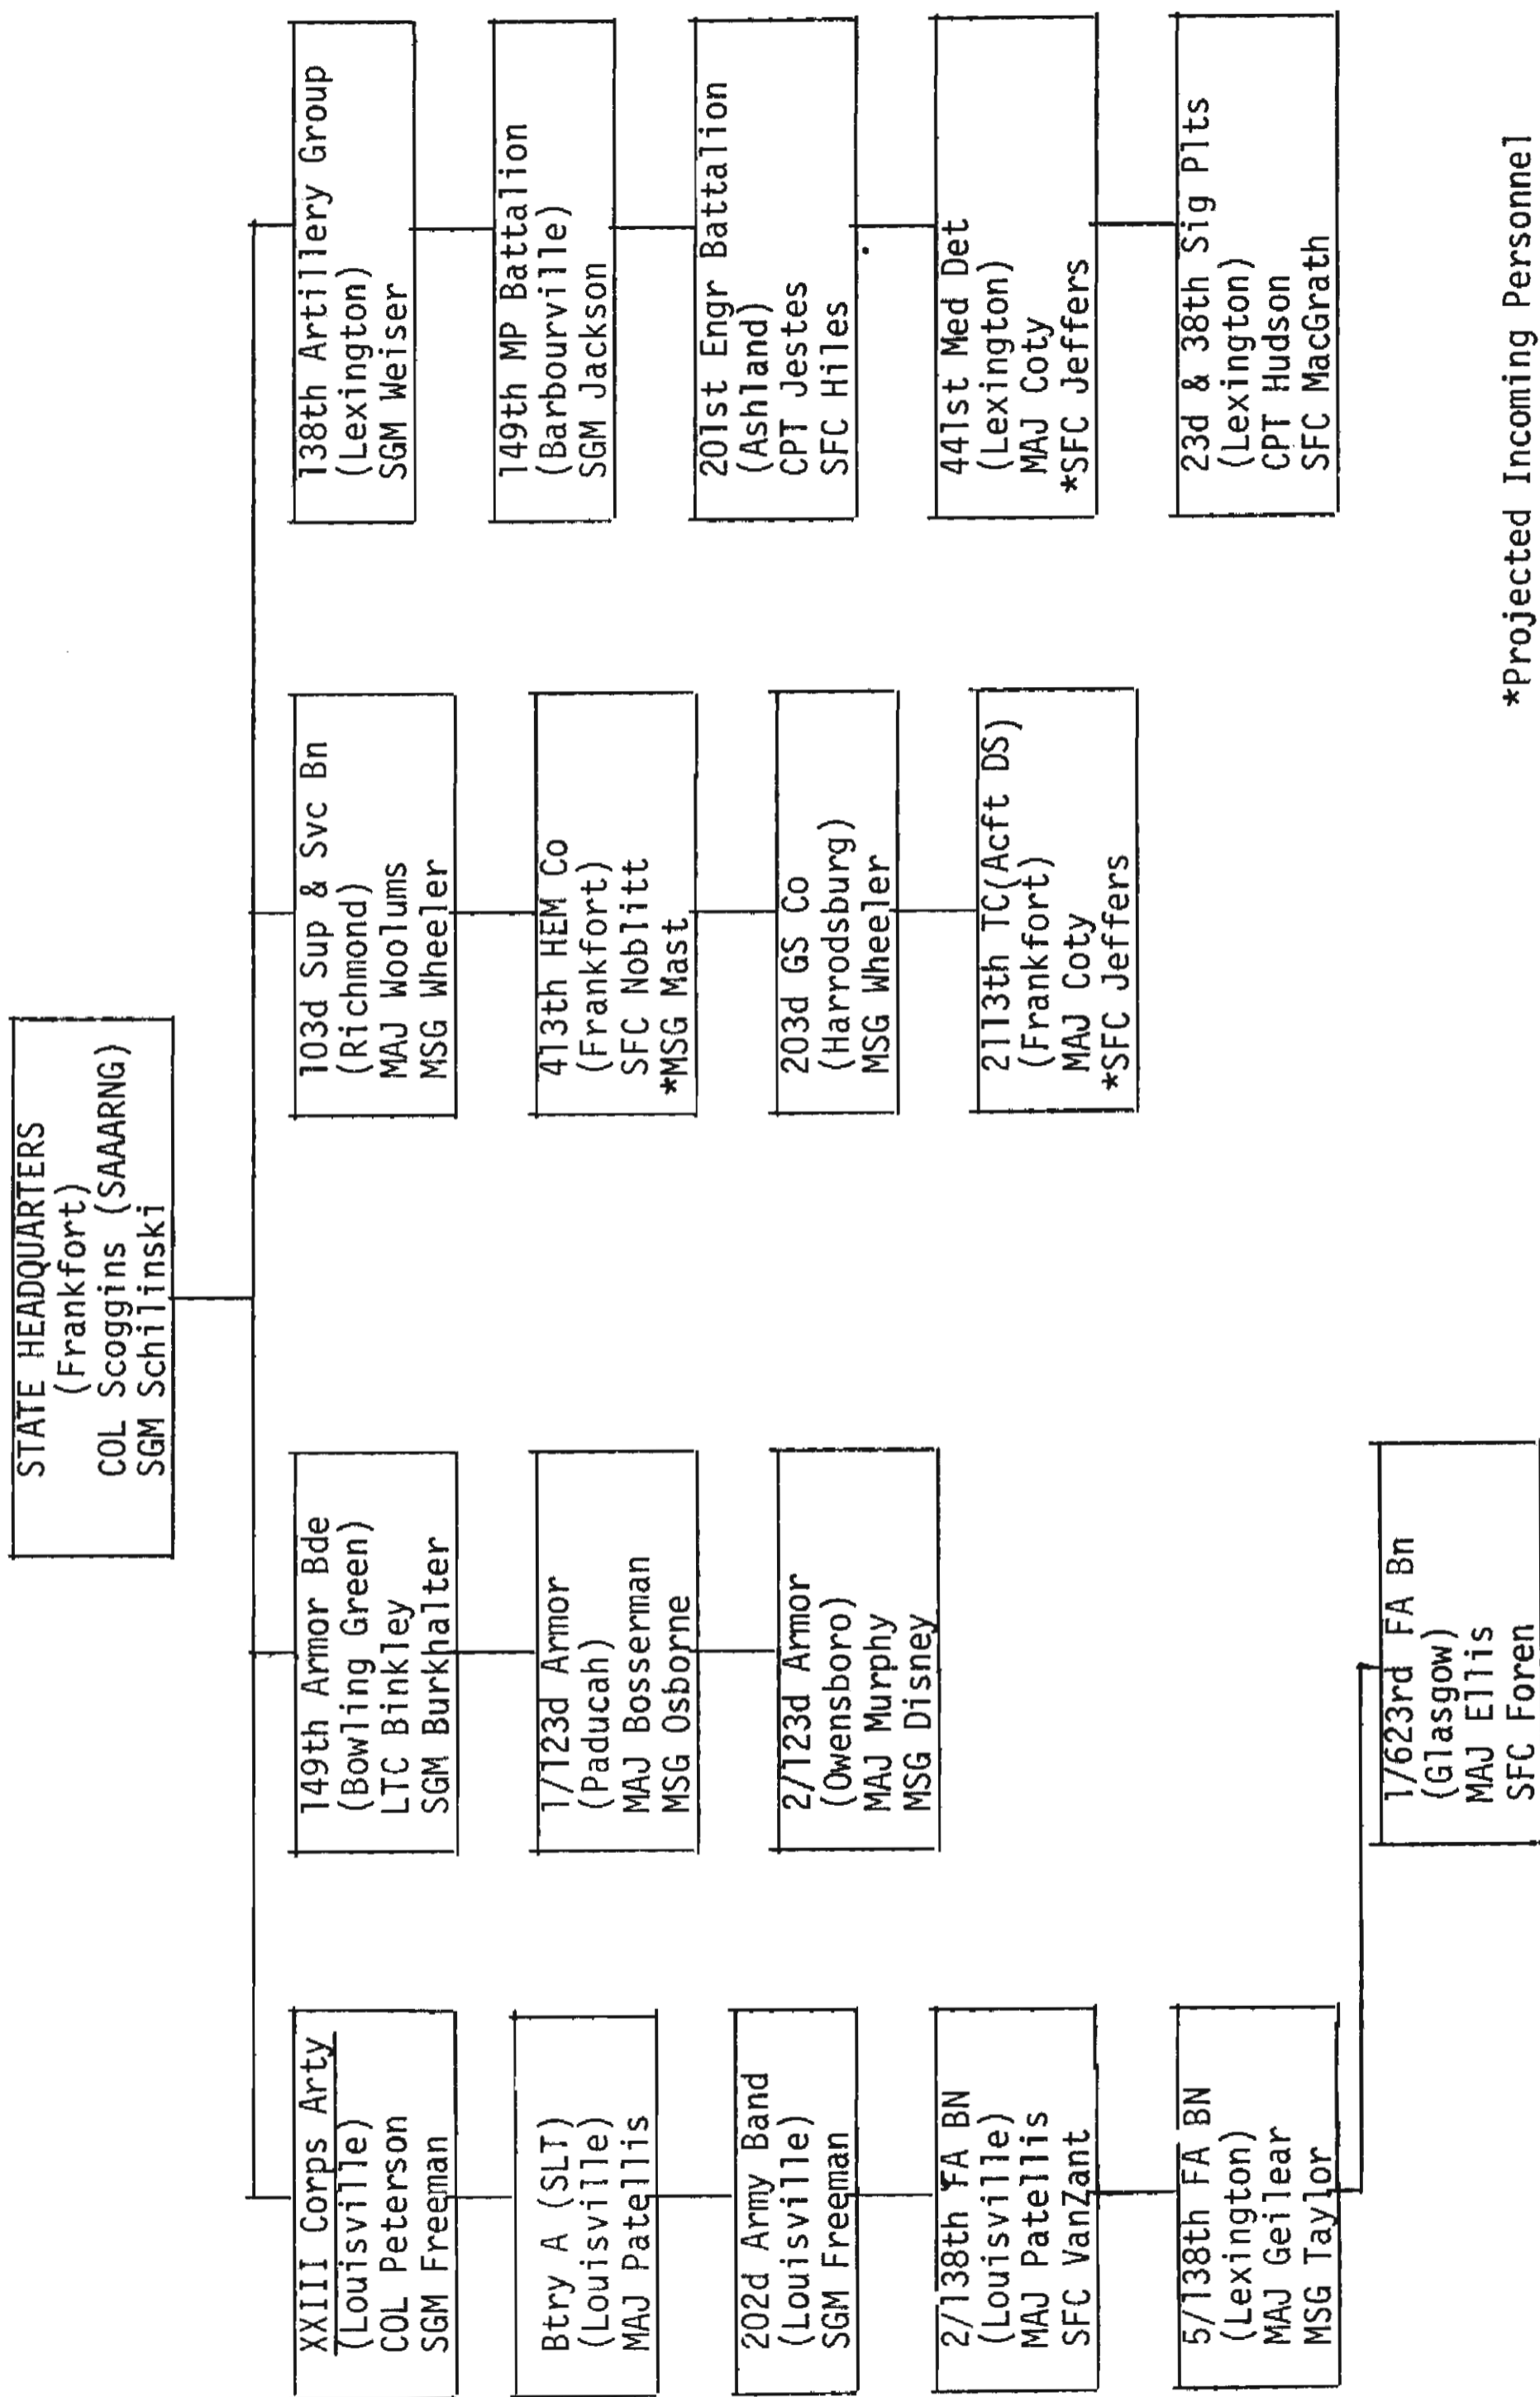

Accomplishments

All officer and NCO advisors visited units subordinate to respective Army National Guard commanders as frequently as possible. During the past fiscal year, the Advisor Group placed heavy emphasis on quality of unit training, organizational maintenance procedures, and unit readiness. Considerable improvement was noted in all of these areas.

Officers from the USAAG were assigned to evaluate Annual Training (AT) of reserve component units at Camp Pickett, Va., Camp AP Hill, Va., Camp McCoy, Wisc., and Fort Sill, Okla. The evaluators assisted the unit commanders by reporting deficiencies and outstanding performances observed in evaluating the effectiveness of unit training.

Survivor assistance is an additional responsibility assigned to members of the Advisor Group. This involves notification of, and assistance to, next-of-kin of missing, wounded, or deceased members of the United States Army whose next-of-kin reside in the Commonwealth of Kentucky. In fiscal year 1971, the Advisor Group made 11 primary notifications and participated in 26 survivor assistance cases.

ASSIGNMENT OF ADVISOR PERSONNEL
 US ARMY ADVISOR GROUP (ARGUS) KENTUCKY
 (As of 30 June 1972)

*Projected Incoming Personnel

AIR NATIONAL GUARD DIVISION

State Staff Kentucky Air National Guard

Adjutant General	*MG Richard L. Frymire
Asst Adjutant General (Air)	BG James C. Pickett, Jr.
Chief of Staff (Air)	COL William J. Semonin
Comptroller - Director ANG Div	**COL Charles W. Sellins
Director of Operations	LT COL Robert L. Brown
Educ & Tng Staff Officer	LT COL Fred F. Bradley
Admin Staff Officer	***LT COL Gerald M. Tuttle
Director of Materiel - Chief of Supply	**LT COL Joseph B. Edwards
Personnel Staff Officer	MAJ Samuel A. Blythe
State Air Surgeon	MAJ Samuel L. Cooper
MGMT Anal Staff Officer	MAJ John K. Volkerding
ACFT Maint Staff Officer	MAJ John R. McClure

*For purpose of Federal recognition occupies manning position on State Air Staff

**Federal Technician, full-time personnel who are assigned comparable duties on the staff.

***Individual employed by the State in related military assignment.

Organization

Headquarters, Kentucky Air National Guard (State Staff) advises the Adjutant General on training, personnel, operations, maintenance, and combat readiness of Kentucky Air National Guard units. In time of National disaster or attack assigned personnel serve on Staff of Kentucky Area Commander.

The Wing Headquarters, 123d Tactical Reconnaissance Wing, has supervision of four tactical groups and one separate squadron. They are: the 123d Tactical Reconnaissance Group, located along with the Wing Headquarters at Shewmaker Air National Guard Base, Louisville, Ky; the 189th Tactical Reconnaissance Group, Little Rock Air Force Base, Little Rock, Ark.; the 188th Tactical Reconnaissance Group (reassigned to the 140th Tactical Fighter Wing on 1 May 1972), Ft. Smith Municipal Airport, Ft. Smith, Ark.; and the 123d Reconnaissance Technical Squadron, Adams Field, Little Rock, all of the Arkansas Air National Guard; and the 152nd Tactical Reconnaissance Group, May Air National Guard Base, Reno, Nev., of the Nevada Air National Guard.

The chart which follows illustrates the organizational structure of the units and the commands of the USAF to which they would become assigned in case of federalization. The table which follows shows the unit commanders of the Kentucky Air National Guard, all of whom are stationed at Shewmaker (Standiford Field), Louisville, and is correct as of June 30, 1972, the close of the reporting period.

On state status, the Kentucky Air National Guard has as its major command the National Guard Bureau located at the Pentagon, Washington, D. C. Once federalized, each unit has a gaining command illustrated on the chart as a dotted line.

Upon activation, the Wing and Group report through the 12th Air Force at Bergstrom Air Force Base, Texas, to the Tactical Air Command (TAC) with headquarters at Longley Air Force Base, Virginia. General Inspections and Operational Readiness Inspections are conducted periodically by the gaining command and advisory services are given to the Kentucky units of the Air National Guard by the 67th Tactical Reconnaissance Wing, Bergstrom Air Force Base, Texas. In turn, key staff members of Wing Headquarters provide advisory assistance during periodic visits to subordinate units of the command.

TABLE OF KEY PERSONNEL BY UNIT
as of June 30, 1972

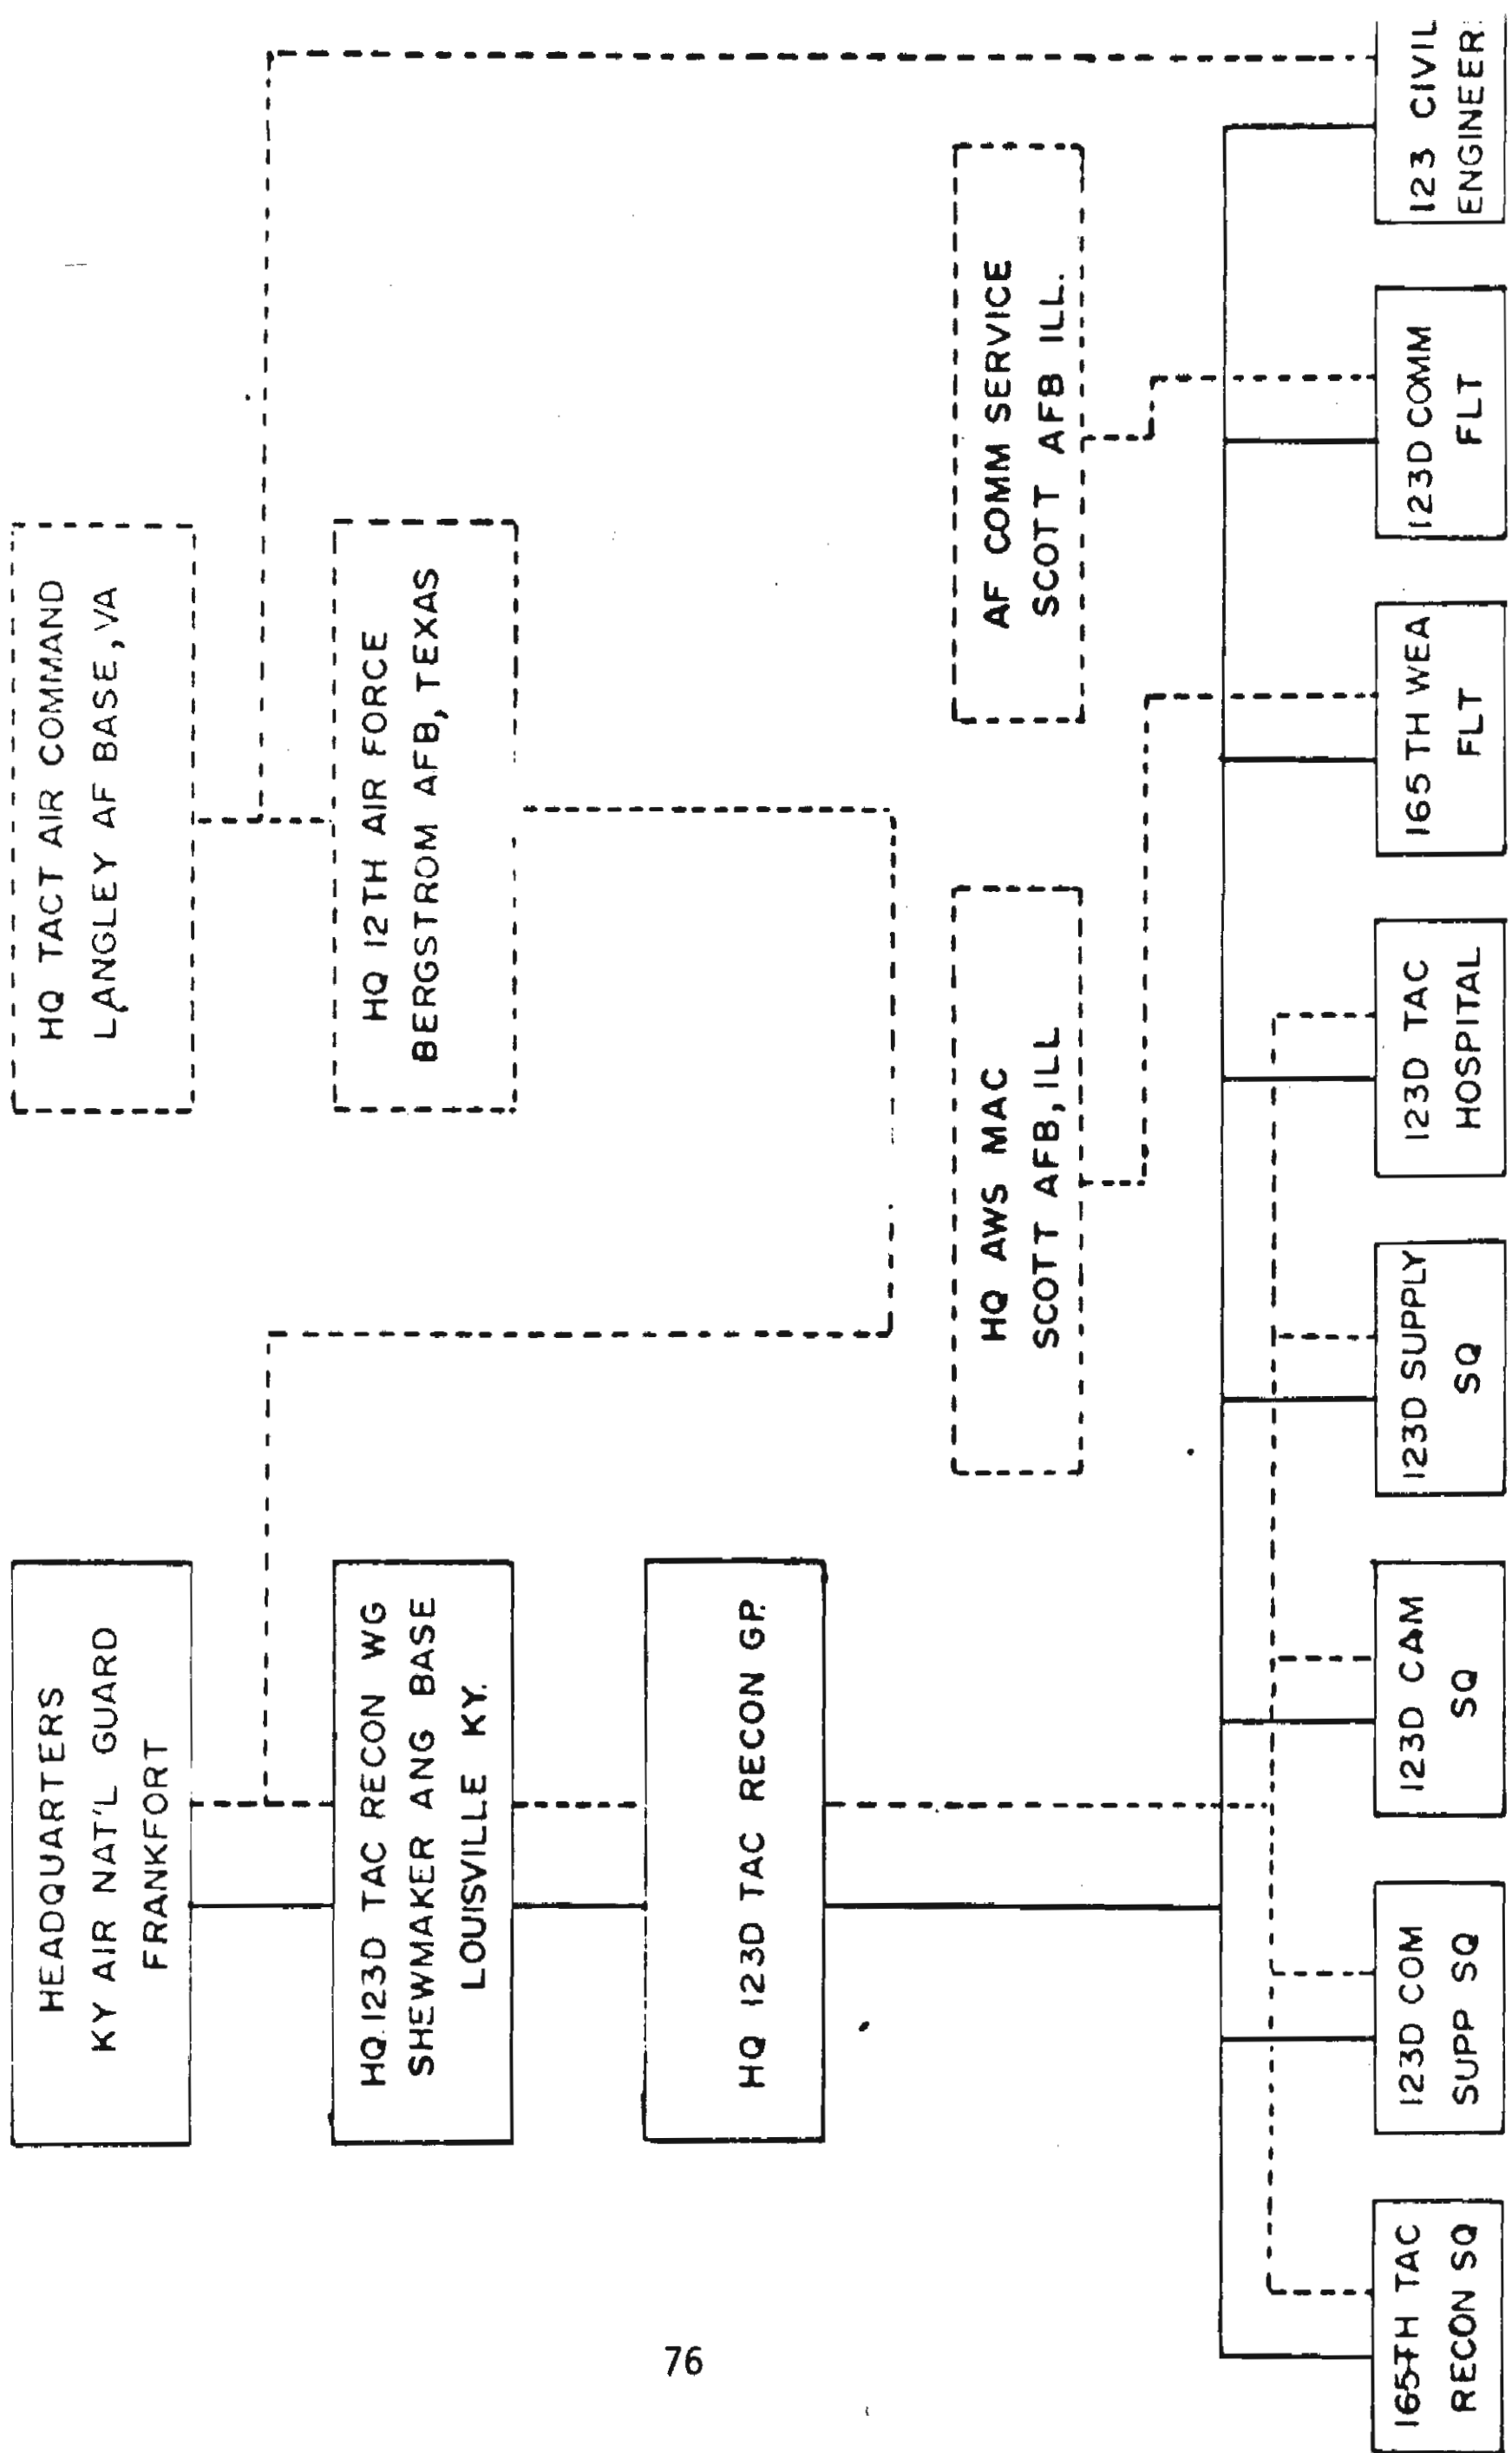

123d Tactical Reconnaissance Wing	*Col Verne M. Yahne
123d Tactical Reconnaissance Group	*LtCol James H. McClure
165th Tactical Reconnaissance Squadron	LtCol James F. Arnold
123d Consolidated Aircraft Maintenance Sq	LtCol William P. Gast
123d Supply Squadron	LtCol Fred W. Cross
123d Tactical Hospital	Maj John M. Karibo
123d Combat Support Squadron	*Lt Col Charles C. Sauer
123d Communications Flight (Support)	Maj Norris C. Delph
123d Civil Engineering Flight	*Maj William D. Seiber
165th Weather Flight (M/F)	LtCol Robert R. Mansfield
Base Detachment Commander	*Col Verne M. Yahne

*Full time technician personnel

Unit manning documents provided for a small increase in strength from the previous year. The authorized and assigned personnel are as follows:

	<u>Authorized Strength</u>	<u>Assigned Strength</u>
Officers	134	117
Airmen	896	816
	—————	—————
TOTAL	1030	993

ORGANIZATION OF THE KENTUCKY AIR NATIONAL GUARD

A total of 26 officers and 342 enlisted personnel were promoted during the year in addition to direct commissions which were conferred upon four airmen to the grade of second lieutenant. Four pilot trainees graduated from flight training and 80 airmen completed technical schools from a total of 114 airmen who went through basic military training. The remaining 34 airmen received on-the-job training at home station.

The on-the-job training program showed satisfactory progress. Forty-seven airmen achieved the three-level or apprentice proficiency, 165 reached the five-level or specialist proficiency and 39 others were elevated to supervisory levels for a total of 251 out of a total of 507 on this kind of training during the year, and upgrade rate of 48.5 per cent.

There were 101 discharges. Enlistments, extensions or re-enlistments totaled 231 during the year. This included the induction of 90 non-prior service enlistments and 64 prior servicemen. The net gain in assigned strength was 52 personnel.

History of the
123D Tactical Reconnaissance Wing (KyANG)
1 July 1971 - 30 June 1972

The 123d Tactical Reconnaissance Wing Headquarters and the 123d Tactical Reconnaissance Group continued to perform their basic missions as units of the Kentucky Air National Guard during fiscal year 1972. The mission continued to be aerial photo reconnaissance with the RF-101 tactical aircraft both G and H models. The National Guard Bureau in Washington announced a planned mission change switching from photo reconnaissance to tactical fighters to be accomplished by the 123d TRW sometime early in fiscal year 1973. The change would have converted the aircraft to A-37 tactical fighters used in close air support of ground forces. Another aspect of the proposed mission change would have been the loss of 27 Air National Guard technicians with an additional loss of 180 military positions in the Kentucky Air National Guard.

Major General Richard Frymire, Adjutant General of Kentucky, announced in June that the mission change had been postponed indefinitely and the unit would continue in the tactical reconnaissance mission with RF-101 aircraft. Many transfers of aircraft took place during the 1972 fiscal year. The unit had both "G" and "H" model RF-101's, but in December 1971 the 123rd Group transferred seven "G" models to the 189th Tactical Reconnaissance Group at Little Rock, Arkansas. The unit received 17 RF-101 "H" models from the 152nd Tactical Reconnaissance Group at Reno,

Nevada. This gave the 123rd Tactical Reconnaissance Group a total of 28 RF-101 "H" model Voodoos throughout most of the third quarter of the year. In April, 8 RF-101's were transferred to aircraft storage at Davis-Monthan Air Force Base, Arizona to reduce our fleet to the authorized level of 20 operational ready RF-101's. The unit retained its two F-101F dual-seat Voodoos used for transition and training purposes. Also during the fall of 1971 the unit transferred its U-3A and T-33 support aircraft to the Air Force but retained its C-54 support aircraft.

LtCol (Chaplain) Hisle (Ret) passed away in September after a long illness. He was a member of the unit at the time of the Pueblo Crisis call-up. He was awarded the legion of merit for his performance in Korea while on active duty.

Two new activities were initiated this year to provide impetus and improvement to the Air Guard program. They are the formation of a Junior Officers Council and an Orientation Committee that provided periodic briefings for those coming into the Air Guard for the first time.

The 123rd Tactical Reconnaissance Group was subjected to its first no-notice inspection in January. It was a Management Effectiveness Inspection conducted by the 12th Air Force Inspection Team and the overall rating was satisfactory.

Kentucky Air Guard To Savannah, Georgia

Annual field training for 1972 was conducted at Travis Field at Savannah, Georgia during the period of June 10 through June 24. Over 700 members of the 123d Tactical Reconnaissance Wing and Group took part in the training program.

One hundred and twenty-five airmen from the Unit were transported by Air Guard C-124 Globemasters from Louisville to the training site on 10 June. The remainder of the men and women members of the Kentucky Air National Guard traveled by privately owned conveyance to Savannah.

Other Kentucky Air Guardsmen received specialized training at regular Air Force bases located at Tyndall Air Force Base, Florida, Bergstrom Air Force Base, Texas, Wright-Patterson Air Force Base, Ohio and MacDill Air Force Base, Florida. Logistics and maintenance officers performed annual field training by being included in a group that was given a conducted orientation visit to the Air Force base materiel activities at Ramstein, Germany. Also, 60 members of the unit remained at Shewmaker to continue essential operations at the assigned home base.

Flying from Travis Field at Savannah, the RF-101 Voodoos mounted 10 sorties each morning at the field training site and 10 each afternoon during the first week of camp. The next week's flying training program had to be altered due to weather advisories of a pending hurricane.

Hurricane Agnes interrupted the lives of many residents in northern Florida and other southern states. Concern for the weather prompted LtCol James H. McClure, 123rd TRG Commander, to alter the planned flying schedule and return over half of the tactical aircraft to Shewmaker Air National Guard Base at Louisville, Kentucky. A daily flying schedule was continued at Louisville. The remaining aircraft were hangared to weather out the storm. Flight operations were resumed by midweek at Savannah.

Special attention was given to recreational activities after normal duty hours. Such things as competitive sports, photo contest, buses scheduled to downtown and beaches were planned and accomplished. The purpose was to improve airman morale and ultimately increase retention rate.

On-the-job training instructors from the Air Training Command were present and conducted classroom training for on-the-job training supervisors and trainers to further enhance this important function.

Air Operations

It was an extremely busy year for the 123rd Tactical Reconnaissance Group with many activities requiring the services of the RF-101. Operational exercises included "Punch Card XV" on August 17 through 25 at Eielson Air Force Base, Alaska. This involved 6 RF-101 Voodoo aircraft and 50 officers and men. The "Punch Card XV" deployment required six hours of non-stop flying with refueling accomplished by air-to-air from USAF KC-135 air refueling tankers. Reconnaissance missions included 43 sorties in support of the Army Ground Operations.

The unit also participated in "Boldshot Brimfire 2-72", and exercise at Fort Campbell, Kentucky. Two aircraft assisted the mission where US nationals were being evacuated from a simulated invasion of the nation of "Kentenn".

Fiscal year 1972 began with 34 combat-ready aircrew members assigned. The unit was saddened by the fatal aircraft accident which took the life of Captain Roger M. Sanders of Louisville on September 14 during a take-off at Standiford Field. Three Kentucky Air Guardsmen completed the flying training program and two other prior service pilots were recruited. At year's end the 123d Tactical Reconnaissance Group had 35 combat-ready crew members.

In flying training all combat-ready crews completed annual training requirements and the Group experienced one of its best flying years since the Pueblo call-up by accomplishing a total of nearly 4,400 flying hours. This compares with an allocation of 4,100 flying hours.

The unit provided flyovers for a number of special occasions such as military funerals, Kentucky National Guard Youth Camp and N.C.O. Academy graduations. In the case of the youth camp, photos were taken during the flyover and a print presented to each attending boy.

Support of Flying

The supporting elements of the Group were successful in supporting the allocated flying program in particular due to the maintenance efforts of the 123d Consolidated Aircraft Maintenance Squadron and the materiel provided by the 123d Supply Squadron. The maintenance effort supported an average of 368 flying hours per month, and 23.3 direct manhours of maintenance was required per hour flown. The 123d Consolidated Aircraft Maintenance Squadron initiated a split unit training assembly program where by a portion of the personnel performed training on three separate week-ends each month. The purpose was to improve supervision and quality of individual training. The program has been an immediate success with a favorable result - a marked improvement in combat ready aircraft rate.

Maintenance personnel also undertook a special project called "84" which involved disassembly of an F-84 fighter from the Ohio Air National Guard which has been flown to Louisville to be donated to the Trooper Island boys camp located on Dale Hollow Lake. The Tear-down began in February and was completed in March. It was convoyed to Dale Hollow and transported to Trooper Island where volunteers from the Maintenance Squadron reassembled it under the direction of Capt Edgar Schulz and Master Sergeant John W. Richeson.

Several developments which have improved operations in the Supply Squadron during the year included a conversion to a computerized Base Supply accounting system. The Fuels Management Office was moved to a new facility in September which includes office space, training rooms and a testing laboratory.

Photographic Reconnaissance and Intelligence

The photographic processing laboratory of the 165th Tactical Reconnaissance Squadron developed over 98,000 feet of five-inch wide film and made 780 duplicate negatives in fiscal year 1972. It also processed more than 5000 contract prints and about 9500 enlarged prints. The photographic intelligence capability of the squadron has been affected by key personnel shortages; however, this situation is improving with the assignment of personnel to these spaces.

Some of the more significant photographic reconnaissance missions accomplished included 70 sites for the Kentucky Department of Commerce for use in future development of industrial locations; mapping of the entire Fort Knox Army Post; coverage of Eddyville Penitentiary, its farm, and LaGrange Reformatory; civil disturbance photos of Kentucky colleges and hospitals; coverage of the Salt River Basin for the U.S. Corps of Engineers for flood control purposes; and photos of the watershed area of Wallins Creek and Perry County for the U.S. Soil Conservation Service. Other special photo missions were accomplished for ground and air units as far away as Pennsylvania, Massachusetts and Utah.

Communications Flight

In addition to normal communications activities the radio maintenance section installed new mobile radios in base firetrucks and maintenance control vehicles. The radio operations section maintained radio net contacts during weekend training assemblies and provided a voice radio circuit between the field training site at Savannah and the rear detachment at Shewmaker Air National Guard Base in Louisville.

123 Civil Engineering Flight

The Civil Engineering Flight performed its annual field training at home station in four, two week increments from March through June 1972, constructing a 1728 square foot civilian lunch facility in a joint effort with the Kentucky Air National Guard Club, Inc. The building, which was purchased by the Club, is a "Butler Rib II", prefabricated metal building. The structure was built according to the following schedule:

- March - Foundations, rough-in plumbing, electrical and floor slab.
- April - Structure erected and floor tile installed.
- May - Finish plumbing, electrical and wall frame work.
- June - Interior panneling, exhaust systems, suspended ceiling and installation of equipment.

"The "Snack Bar" was completed and opened for operation June 26th. The entire construction effort required some 2000 man hours of direct labor. Since all direct labor was provided by Civil Engineering personnel, the total cost of the structure was reduced by more than 50%.

During the "Modified Texas Plan" Annual Field Training, 13 members of the Civil Engineering Flight were sent to Wright-Patterson AFB, or Eglin AFB for 3 to 5 days training to receive specialized career field training and Prime Beef operational training. Another contingent of the Civil Engineering Flight performed its Annual Field Training at Savannah, Georgia in support of the Tactical Group under the Command of Captain Billy J. Arnold.

UTA projects that were accomplished by the members of the unit included:

Installation of temporary living quarters for the Louisville Fire Department.

Construction of a latrine in the Base Comptrollers Office area.

Construction of Mobility Storage Racks.

Base Appearance Improvements which included painting the Base fencing, shrubbery plantings and lawn improvements.

Unit strength was increased from 77 at the beginning of the year to 81. The total officer strength was increased to full strength with the addition of Captain Billy J. Arnold of Owensboro, Kentucky.

Recruiting efforts resulted in the addition of 11 prior-service enlistments during the year and 8 re-enlistments.

Weather Flight

The 165th Weather Flight continues to perform its mission satisfactorily. It provides complete weather support for all unit training assemblies and annual field training. The unit was subjected to a separate no-notice inspection by the Air Weather Service and was rated satisfactory.

Tactical Hospital

Personnel changes which have affected the hospital included the assignment of a new commander and the addition of three women, two of them nurses and one an X-ray technician. Minor remodeling and rearrangement of the layout of the hospital area added to the effectiveness of the facility and new equipment further updated to improve the hospital operation. During the period 1000 dental exams, 325 physical exams, and approximately 4500 inoculations were given, in addition to emergency treatments.

Personnel Actions and Strength

Some important changes in personnel took place during 1971-72 including the first appointment in Kentucky National Guard history of an Air Guardsman as the Adjutant General of Kentucky. This occurred in December when Governor Wendell Ford named then LtCol Richard L. Frymire of Madisonville, former Squadron Commander of the 165th Tactical Reconnaissance Squadron, as the Adjutant General of Kentucky. General Frymire appointed James C. Pickett Jr. of Shelbyville to the post of Assistant Adjutant General for Air, from his recent position as education and training officer of the Headquarters, Kentucky Air National Guard, and a former 165th Tactical Reconnaissance Squadron commander.

During the first two months of the calendar year LtCol Fred F. Bradley of Frankfort served as the commander of the 165th Squadron. He was succeeded in March by LtCol James F. Arnold of Lexington.

Personal Affairs - Personnel Services

Several members of the 123d Supply Squadron competed on pistol and rifle teams during the period. In fact, the rifle team was designated as "The 123d Supply Squadron Team". Members of the team included:

MSgt Donald L. Durbin
MSgt Sam Conder
SSgt George Amin

TSgt Hugh M. Carberry
Sgt Allen Hudson

The base pistol team competed in the Kentucky State Pistol Championship at Fort Knox on May 27-28, 1972. Trophies were won in the Sharpshooter Class for team match, the .45 team match; and the aggregate trophy for total fired in the .22 center fire, and the .45 cal matches. TSgt Robert E. Denton won an individual award in the marksman class in the Florida state pistol championships.

The rifle team won many awards during the past year including: Chief National Guard Bureau trophy for five man teams; first place in expert class for four man team at the regional match in Knoxville, Tenn; Kentucky 1972 NRA SB Tournament and First Army Area for International indoor small bore competition.

MSgt Durbin also was selected to compete with nine other National Guardsmen in the 12th International Shooting Championships and tryouts for the U.S. Olympic Shooting Team.

Awards and Decorations

Awards and decorations conferred during the year included the Kentucky Distinguished Service Medal presented to BG Jack H. Owen of Cynthiana who retired in February after more than 24 years service, and the Kentucky Medal for Merit to Capt John C. Ogden for special contributions to the National Guard Youth Camp for underprivileged boys; to Technical Sergeant George E. Townsend who retired from the Civil Engineering Flight having reached the age of 60; and to Major Arthur P. Tesner, Capt Gary M. Burge, and SSgt Kenneth Kopple for outstanding service performed in the operation of the 123 TRG Command Post which resulted in an official commendable rating by the 12th Air Force Inspector General Inspection Team.

2LT Philip T. Frasier of Glasgow, 165th Tactical Reconnaissance Squadron was designated as a distinguished graduate upon completion of undergraduate pilot training at Webb Air Force Base, Texas, on December 10, compiling an academic average of more than 98 per cent.

Air Advisors

There were two losses to the advisory staff within units of the 123rd Tactical Reconnaissance Wing through 30 June 1972. MSgt James E. Williams, Air Force Technical Advisor, 189th Tactical Reconnaissance Group retired and SMSgt Louie C. Wilkinson 123d Tactical Reconnaissance Wing was reassigned to SEA. No replacement action was taken and Sergeant Wilkinson will return to his previous assignment as Maintenance Advisor on 3 January 1973. MSgt Charles D. Hardister replaced MSgt Williams as Technical Advisor for the 189th Tactical Reconnaissance Group. Additionally the 188th Tactical Reconnaissance Group with four advisors was transferred to the 140th Tactical Fighter Wing on 1 May 1972 in connection with the unit conversion from RF-101 to F-100 aircraft.

Air Force Advisors monitor and render advice on all phases of tactical reconnaissance operations and training with an effort toward improving the overall operational efficiency of the unit. They serve as flight and ground school instructors and flight examiners. The technical advisors administer the Air Force testing program and monitor and assist in the on-the-job training program. They also monitor the personnel and administrative functions rendering advice and assistance where appropriate. The communications, maintenance and weather advisors render similar support within their respective technical specialties. Advisor selection is based on the individual's professional ability, knowledge and experience within his career field. Advisors provide command and administrative support for ANG personnel who are on active duty for training. They are responsible to the Commander 12th Air Force, which is the gaining command for the 123d Tactical Reconnaissance Wing, and serve as a liaison between the Air National Guard and the U.S. Air Force.

Air Force Advisors are currently assigned to the 123d Tactical Reconnaissance Wing and subordinate units as follows:

Headquarters, 123d Tactical Reconnaissance Wing (KyANG)
(Senior Advisor) Col Robert P. Coombs

123d Communications Flight
(Advisory Technician) TSgt James H. Flennor

165th Weather Flight
(Advisory Technician) TSgt Ronald L. Lindsey

123d Tactical Reconnaissance Group (KyANG)
(Group Advisor) Major Jerry D. Lents
(Advisory Technician) MSgt Clyde W. Reeves

152nd Tactical Reconnaissance Group (NevANG)
(Group Advisor) Lt Col Marvin R. Reed
(Advisory Technician) TSgt Harry C. Wave

189th Tactical Reconnaissance Group (ArkANG)
(Group Advisor) Major Edward S. Lucas
(Advisory Technician) MSgt Charles D. Hardister

123d Reconnaissance Technical Squadron (ArkANG)
(Photo Advisor) TSgt Walter Jones

Mission

The mission of the Division of Civil Defense, as outlined in Kentucky Revised Statutes 39.401, is the preparation for and the carrying out of all emergency functions, other than functions for which military forces or other federal agencies are primarily responsible; to prevent, minimize and repair injury and damage resulting from disaster caused by enemy attack, sabotage, or other hostile action, or by fire, flood or other causes. These functions include, without limitation, fire fighting services, rescue, engineering, air raid warning services, communications, radiological, chemical and other special weapons of defense, evacuation of persons from stricken areas, emergency welfare services, emergency transportation plan protection, temporary restoration of public utility services, and other functions related to civilian protection, together with all other activities necessary or incidental to preparation for and carrying out of the foregoing functions.

Organization

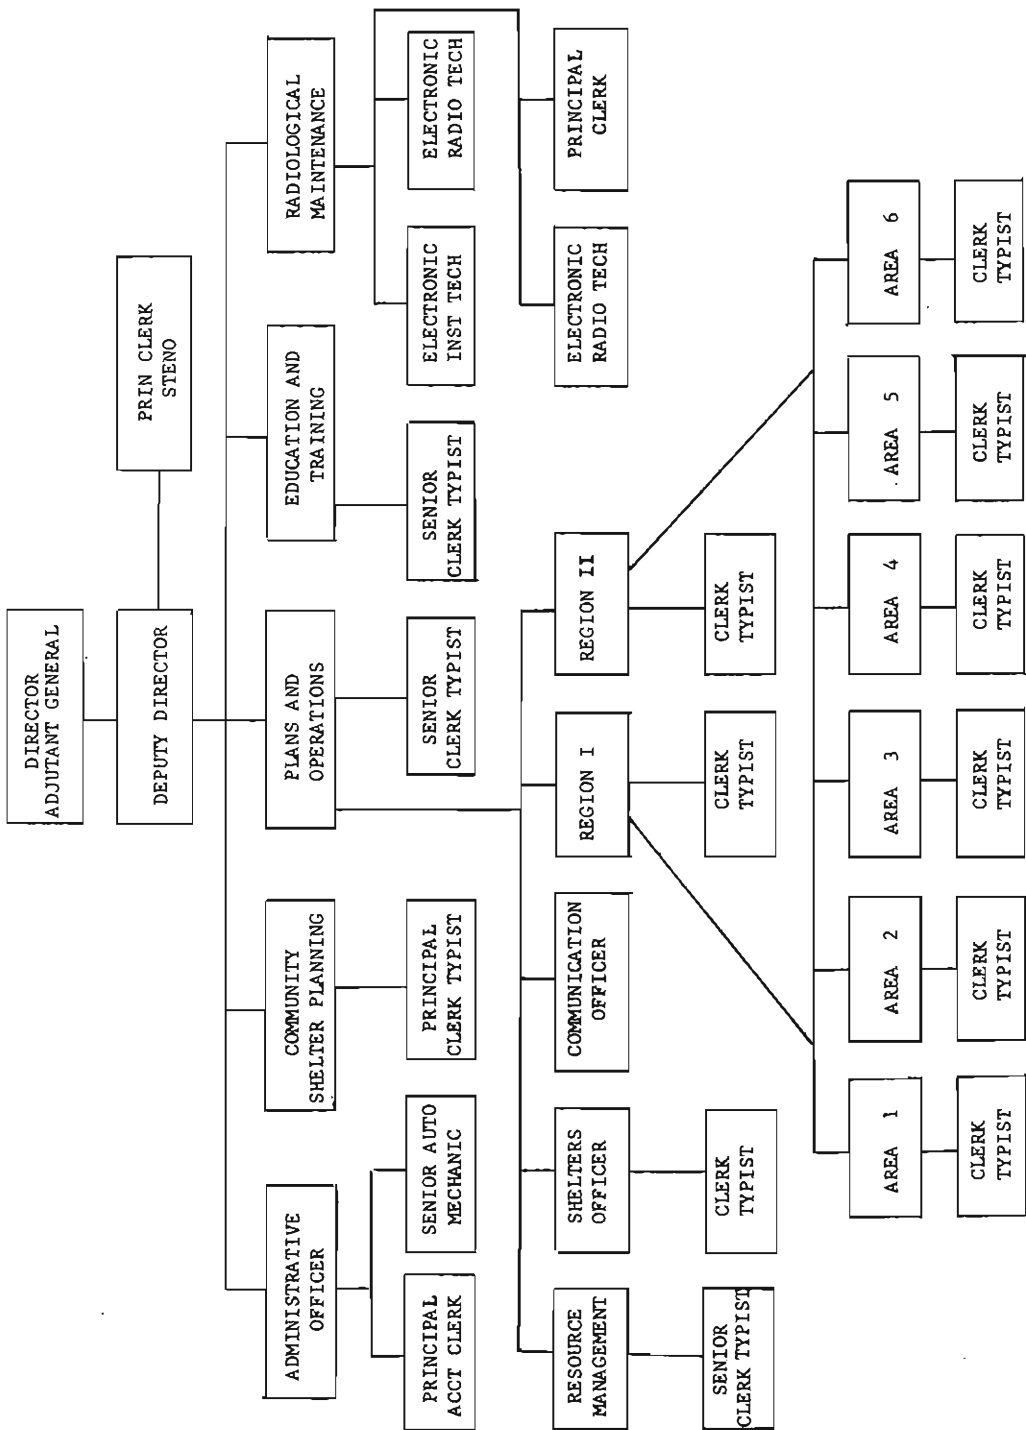

The organization of this Division is shown by the Organization Chart which follows. The administrative Section is responsible for: Security and intelligence; fiscal and budget; office management; supplies and equipment; reports, records and statistics; correspondence and files; publications control and distribution; contributions and program participation; vehicle dispatch and maintenance; surplus property donation program; and educational training aids.

The Education and Training Section is responsible for: Public Affairs; public relations; education and training programming; public information; Office of Civil Defense, State and local school programs; training and education publications control; and the coordination of the Medical Self-Help Program; Civil Defense Adult Education Program, Rural Civil Defense Program; and the University of Kentucky's Civil Defense Training Program.

The Plans and Operations Section is responsible for: Radiological Defense; disaster operations, damage assessment; plans and operations programming; State, County and city plans; and research and development.

The Resources and Production Section is responsible for: Continuity of government, resources management; coordination of industrial planning; coordination of flood activities; development of operational uses of food, water, transportation, health, welfare, manpower, petroleum, fuels and electric power; and service trades.

The Shelters Section is responsible for: Shelter licensing, marking and stocking program; shelter development, shelter management, Emergency Operations Center Development, and the Shelter Development Program for Schools.

The Communications Section is responsible for: Operations Communications programming; warning; and normal and emergency operational communications.

The Community Shelter Planning Section is responsible for: Assisting in the development and coordination of plans and programs for the development and maintenance of community shelter plans; furnishing direct technical planning assistance to communities not having contracts with the Federal Government; coordinating development of community shelter plans by communities receiving direct Federal Assistance for preparation of the community shelter plans.

Civil Defense Area Directors: Each of the four Area Directors act for the State Director and keep him informed on progress and operations with the State Staff and their appropriate areas. They coordinate all policies, plans and programs with State Staff and local government. Geographical areas of assignment are as shown on the Area Chart.

Civil Defense Coordinators: State agencies are responsible for assisting Civil Defense in normal as well as emergency operations. Their responsibilities are listed in the Emergency Operations Plan for the Commonwealth, and each of these agencies has been involved in the coordination of State assistance in all types of experienced Natural Disasters.

State Agencies directly involved in support of Emergency Operations are:

Department of Health - Health services, medical supplies, chemical, biological, and radiological measurements, and emergency mortuary services.

Department of Economic Security - Welfare, manpower, and food stamps.

Department of Agriculture - Food/feed products, chemical, biological and radiological measurements.

Department of Public Safety (Division of State Police) - Law and order, traffic control, and emergency communications.

Department of Highways - Emergency communications, engineering, radiological measurements, and emergency highway traffic regulations.

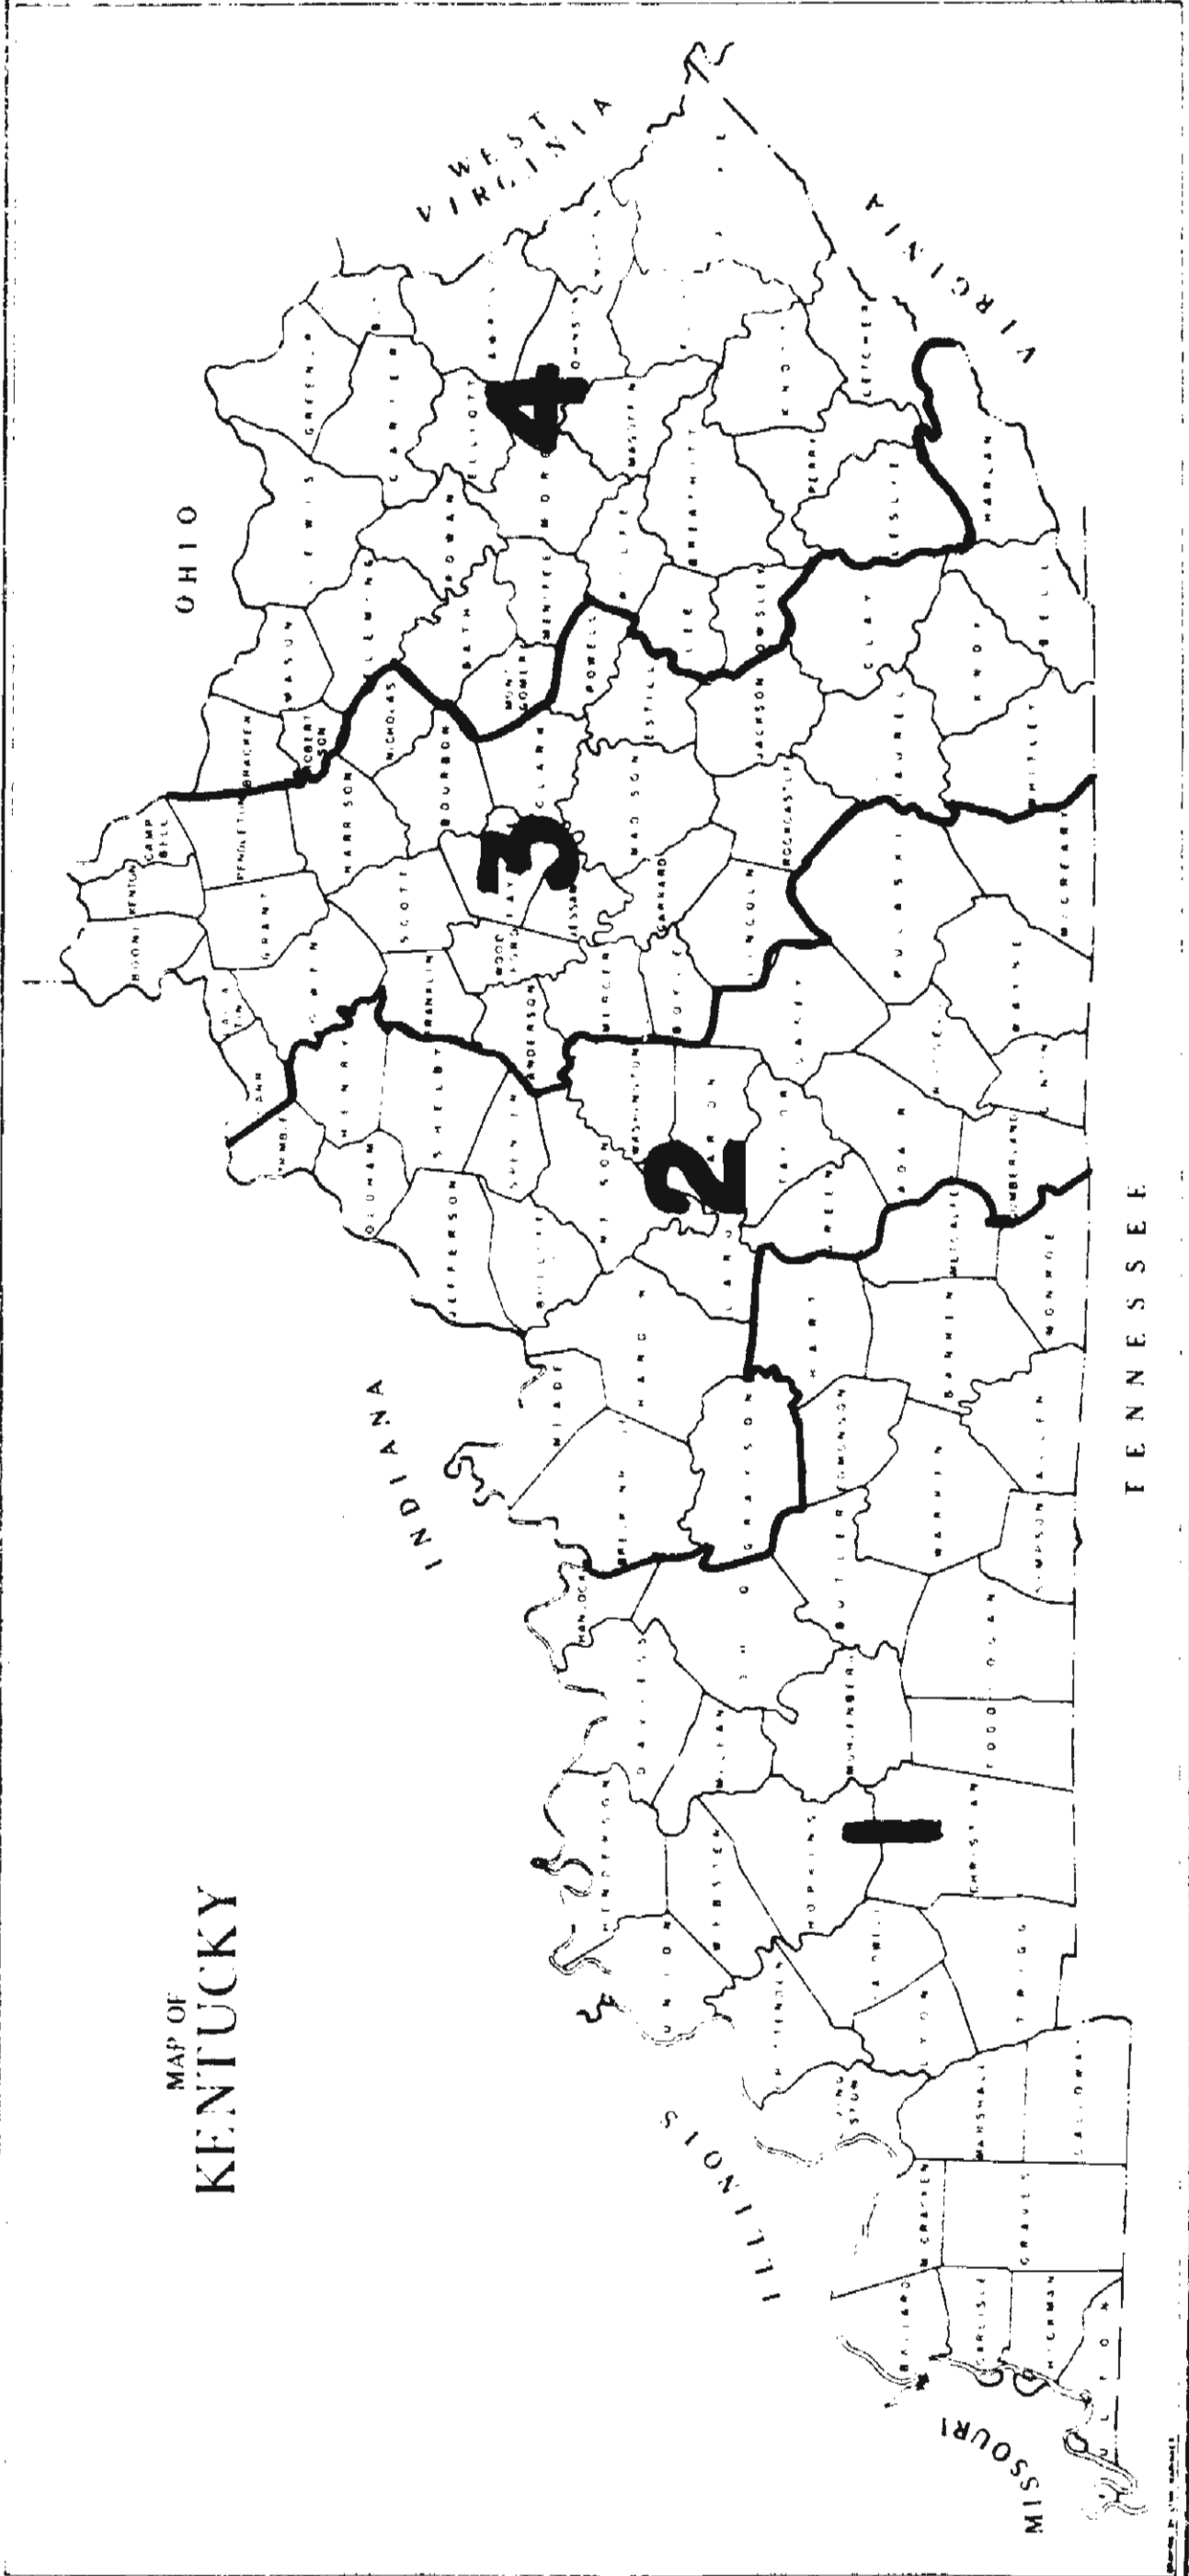

Department of Motor Transportation - Special transportation equipment and facilities.

Department of Natural Resources (Division of Forestry) - Radiological measurements, emergency communications, and rural fire control.

Department of Public Information - Information to the public through press, radio, and television.

Department of Fish and Wildlife Resources - Emergency communications, harvesting of fish and game for food, and emergency manpower and equipment for search and rescue.

MAP OF
KENTUCKY

State Agencies indirectly involved in support of Emergency Operations for mission assignment are:

Department of Personnel - Personnel pool.

Department of Commerce - Resumption of Commerce and Industry.

Department of Education - School protection, safety and teaching.

Department of Banking - Monetary credit and financial structure.

Department of Aeronautics - Emergency airlift.

Department of Mines & Minerals - Mine rescue operations.

Department of Revenue - Petroleum, oil and lubricants control and distribution.

Department of Finance - Accounting procedures.

Legislative Research Commission - Research on needed legislation.

City/County Civil Defense Organizations/Units: Under the provisions of Kentucky Revised Statutes 39.415, each city and county in the Commonwealth of Kentucky is authorized and directed to establish a local Civil Defense Plan and Program. County Civil Defense Organizations have been established in most of the counties in Kentucky.

Funding

Local governments and State Agencies have continued to improve their Civil Defense readiness through the Matching Fund Program, the Personnel and Administrative Expense Program, the Surplus Property Donation Program, and the Federal Contribution Program (Hardware). The funds were made available under Public Laws 85-606 and 85-921.

During Fiscal Year 1972, the Division of Civil Defense, State Agencies, and local political subdivisions spent a total of \$441,057.12 for Personnel and Administrative costs. One-half of the total amount was furnished by the Federal Government.

<u>FISCAL YEAR 1972</u>	<u>FEDERAL SHARE</u>
Division of Civil Defense	\$ 96,255.11
<u>OTHER STATE AGENCIES</u>	
Department of Agriculture	\$ 532.50

Civil Defense Activity

During the past year Civil Defense has continued to show progress in various areas of the Civil Defense Program. The following paragraphs are examples of the accomplishments attained during the FY-72.

Education and Training

University of Kentucky Civil Defense Extension Program:

COURSE	NO. COURSES CONDUCTED	GRADUATES
Radiological Monitoring for Instructors	1	3
Plans and Operations	3	49
Radiological Defense Officer	1	3
Emergency Operations Simulation Training	3	122
Public Officials Conferences	9	324
Civil Defense Management	1	10
Radiological Monitoring	10	134
Shelter Management	1	10

Contract ran from September 1971 through July 1972. A new contract is now being negotiated.

Kentucky Department of Health

The Office of Health Mobilization coordinates the Medical Self-Help Program which is being taught in 98% of the Kentucky High Schools and Adult Organizations. During the FY-72, 2,379 classes were taught with a total of 73,974 persons being certified. This makes a grand total of 17,060 classes being taught and 508,261 persons being certified to date.

Kentucky Division of Civil Defense

This Division is the coordinating agency between State and Local Civil Defense Organizations. Public Officials Conferences, Emergency Operations Simulation Training, and Radiological Monitoring were prime areas of Training for the Division of Civil Defense during the year.

A total of nine (9) Public Officials Conferences were conducted with 324 persons in attendance. Three (3) Emergency Operations Simulation Training Exercises were conducted with 112 persons in attendance and ten (10) Radiological Monitoring courses were conducted with 134 persons being certified as monitors.

Resources and Production Officer

During Fiscal Year 1972 there were numerous goals accomplished by the Resource Officer such as: (1) Continuous updating of the Emergency Resource Management Plan; (2) Accumulation of all types of disaster information for the Governor's Office and Civil Defense, which covered floods and the Chlorine Barge Emergency in Louisville, Kentucky; (3) Administrative help to local levels in their recovery from the above disasters; (4) Training classes in Map Reading and its relation to Search and Rescue were given to numerous Rescue and Civil Defense Units located throughout the State; (5) Resource material is continually being accumulated and recorded in resource books for

future use in the event of State wide emergency. Activities in detail are as follows:

1. The initial distribution and related briefings of individuals in regard to the Kentucky Emergency Resource Management Plan is completed for all practical purposes. Of the 460 individuals who were scheduled to receive the Plan, all except 5 Judges have been briefed. The updating of the Plan is continuous.

In relation to the foregoing the Resource Officer attended meetings held in the new Region IV of OEP, at Thomasville and Atlanta, Georgia. Emphasis was placed on the Economic Stabilization Annex of the Emergency Resource Plan and Councils of State Governments proposed legislation.

2. Accumulation of disaster information for the Governor's Office was gathered in the form of anticipated and existing disasters and also in the form of inventory information which is critical in the event of a national disaster. These inventories consist of food stocks, health areas (doctors, nurses, etc.), vehicle inventories and other critical information.

3. Much of the Resource Officers time was taken in administrative aid to local entities, during the FY in regard to three (3) past floods and a new flood declaration made by the President on 15 May 1972. This work specifically involves helping these entities apply for disaster aid and reimbursement, whichever the case may be, and following the paperwork through to its conclusion.

4. The Resource Officer also participated in the Chlorine Barge Emergency at Louisville and maintained state coordination with the Emergency Operating Center. This period extended from 24 March to 6 April 1972 and continuous updating was provided to the Governor, as well as the Adjutant General. The administrative work in this regard is almost completed pending State and Federal Audits.

4 a. A recapitulation of this period of activity is as follows:

b. Distribution and related orientation of the Emergency Resource Management Plan to State and private sector individuals to date. 100

c. Distribution to Judges. 10

d. Total Distribution to date. 455

e. The Resource Officer attended meetings at Southern Regional Disaster Preparedness Conference on 27 & 28 January 1972, and Council of State Governments meeting in Atlanta also, both meetings held by the Office of Emergency Preparedness (Region IV). Meetings 2

5. Disaster information was gathered for the Governor's Office following the April 1972 flood, which would eventually be declared a disaster area by the President. This Declaration is now covered by State-Federal Agreement OEP-332-DR.

6. The number of local entities being worked and now about to be finally resolved are as follows:

Flood Disaster OEP-282-DR	<u>14</u>
Flood Disaster OEP-288-DR	<u>9</u>
TOTAL	<u>23</u>
Current Flood Disaster OEP-332-DR	<u>22</u>
GRAND TOTAL OF LOCAL ENTITIES still involved in disaster work	<u>45</u>

Future plans call for continuous updating of Emergency Resource Management Plan. Other future plans call for continued inventorying of critical state resources and updating this information. The gathering of disaster information for the Governor's Office is a continuous operation as well as the work of past flood disasters.

The Communications Section is responsible for: Maintenance and operation of entire communications network, programming communications facilities and equipment for entire state, and maintenance and operation of the State Warning System.

Communications - The Emergency Communications Center is located in Room 60 of the Capitol Building adjacent to the Emergency Operations Center. Equipment is installed to operate in the following communication systems and all is operational.

The following systems were installed in the center.

1. State Police Mobile and main nets.
2. State Highway Department radio net.
3. Fish and Wildlife Resources radio net.
4. Forestry Division radio net.
5. RACES net.
6. U. S. Army Corps of Engineers radio net.
7. National Guard radio net (Military Support to Civil Authorities).
8. EBS link to AM radio WFKY.
9. EBS link to WHAS in Louisville (AM - FM - TV)
10. CDNARS (Radio, Teletype, and voice to Region II, Olney, Md.)

The following circuits are in the operations center for daily use.

1. NOAA weather net.
2. CDNAVS (Voice to Region II, Olney, MD.)
3. Western Union TWX.

4. NAWAS net (National Warning System)
5. CDNATS (Teletype to Region II, Olney, MD.)

The Communications center will not be fully manned except in time of emergency. Employees of the state agencies will operate the respective nets.

The Communication section participated in the following exercises during the past year:

1. Rescue Squad exercise at Ft. Campbell, Kentucky.
2. Rescue Squad exercise at Ft. Knox, Kentucky.
3. Rescue Squad exercise at Camp Webb, Kentucky
4. Rescue Squad exercise at Bluegrass Army Depot.
5. State Wide Civil Air Patrol - CD Exercise.

State Weather Warning Service

Severe weather warnings have been increased during the year from the surrounding counties' school officials, to include Telephone Companies, Departments of Highways, Motor Transportation, Fish and Wildlife, and Power Companies. Plans are being formulated to expand this service to other State Departments.

Plans and Operations

Plans

1. The Revision of the Operation Snow Plow Plan has started to incorporate the flow of traffic from the new Capitol Plaza Building Complex during Severe Weather.
2. Revise and update the Civil Defense Identification Card issuing procedures.
3. Completed the revision of the State Emergency Operation Plan to reflect the subdivision of the State into 15 Area Development Districts.
4. Integrate the communication equipment of U. S. Forest Service into the Kentucky State Emergency Communication Net.
5. Six 3-day seminars are scheduled for local Civil Defense Directors throughout the State.
6. Completed three (3) local Emergency Plans, and updated 25 such plans. Further updating of local Emergency Plans will continue until all are completed.
7. Schedule nine (9) on-site assistance visits to Kentucky Area Development Districts.
8. Scheduled 18 Natural Disaster Exercises for FY-73.
9. Conducted eight (8) Natural Disaster Exercises in FY-72.

10. Published and updated list of Rescue Squads for local officials and State Police Posts.

11. Civil Defense personnel were engaged in the following activities during the year:

- a. Engaged in 257 public speaking presentations.
- b. Prepared 243 news releases.
- c. Had 321 briefings for Public and Industry Officials.
- d. Civil Defense Rescue Units were called on 253 missions.
- e. Civil Defense Fire Departments answered 375 calls.

Operations

1. Conducted emergency operations in the flash flooding in July 1971. The effected counties were: Elliott, Morgan, Wayne, Bath, Menifee, Rowan, Martin and Johnson. However, the critical area was the Cave Run Temporary Dam which was in danger of breaking. Civil Defense personnel coordinated the evacuation of approximately 1,500 people from the Salt Lick and Farmer area. Mass feeding station was set up at Morehead for 700 people. Civil Defense Units from adjoining counties assisted in this emergency.

2. The State Civil Defense Emergency Operation Center was activated in December 1971, when multiple tornadoes touched down in six (6) counties. The damage in these counties resulted in a Presidential Declaration of a Major Disaster Area. The Civil Defense personnel were engaged in all types of Emergency Operations in the effected area.

3. The flood in February 1972 effected 18 counties. Civil Defense Units in these and surrounding counties were engaged in rescue, evacuation, traffic control, coordinating housing, feeding and clean up details.

4. State Civil Defense Office was notified in March 1972 that a Chlorine Tank Barge was stuck in McAlpine Dam in Louisville. Civil Defense personnel made arrangements for the feeding, housing and transportation of these personnel during the 2-day transfer operation. The incident was declared a pre-disaster situation under Section 221 of Public Law 91-906.

5. Conducted emergency operations in 45 counties as a result of the flooding in April 1972. The State Emergency Operations Center coordinated the operations of State and Federal agencies, and also the Civilian Welfare Agencies in evacuation, feeding, and housing of persons effected in these areas. As a result of the damage, 29 counties were declared Major Disaster Areas by the President.

6. The resources of Civil Defense were used in May 1972, when a massive search was organized to find a 13 year old girl reported missing. The search was in the Red River Gorge area of Powell and Menifee counties. Civil Defense personnel coordinated the search in which approximately 300 people took part. Personnel from 5 state agencies, U.S. Forest Service and American Red Cross participated.

7. Rescue Squad Field Exercises were conducted at Camp Carlson, Fort Campbell, Camp Webb and Bluegrass Army Depot. Rescue Squads throughout the State and adjoining States attended. Six (6) Rescue Squad Field Exercises are planned for Fiscal Year 1973. There are 117 active Civil Defense Rescue Squads in Kentucky.

Radiological Maintenance & Calibration Facility

The RADED Maintenance Calibration Facility located in the Arsenal Building, Frankfort, Kentucky was established in mid 1965 with contracts to the Federal Government to maintain all Radiological equipment in the State of Kentucky. All material, money, and equipment are granted by the Federal Government.

During the period of 1 July 1971 through 30 June 1972 volume of work consisted of:

Instruments repaired, inspected and serviced	10,240
Kits processed	2,039
Instruments calibrated	8,635
Dosimeter chargers (modified and repaired)	850
Sites inspected (operational and shelter)	2,039
School training kits processed	75
Station directory completed	100%
Dosimeters processed	12,713
Retrofit (modification CDV 715)	400

In addition to the above totals, 1,351 instruments were salvaged in accordance with State and Federal regulations. Each instrument was replaced with a new or current model.

The RADEF facility also supplies sources and training instruments for monitoring classes held at various times and locations throughout the State.

The entire State was covered during this time.

During the Fiscal Year shop personnel have received 40 hours of specialized training to increase their capabilities. The kit exchange program as of 30 June 1972 has resulted in over 75% of State and Federal Agencies within the State as being completed and with up-to-date equipment.

Health Mobilization (hospitals) issued:

Dosimeters	1,029
Chargers	88
New monitoring stations created	97

Shelter Officer

This section is responsible for locating fallout shelter space to be used in the event of a nuclear attack. Food, sanitation, and medical supplies have been deleted from the Federal inventory and additional shelter spaces will no longer be stocked.

325,000 additional shelter spaces were located in FY 1972 bringing the State total of shelter spaces up to 2,773,000.

Mr. Arthur W. Mills, Assistant Chief Civil Defense Support Branch, United States Corps of Engineers, has been assigned to the Division of Civil Defense, Commonwealth of Kentucky, for a period of 365 days starting 1 May 1972. This assignment is to provide needed engineer staff capability in the area of shelter development in the Commonwealth of Kentucky. This assignment was made under the provisions of Title IV of the Inter-Governmental Personnel Act of 1970. The Federal Government is obligated to pay base salary and all personal benefits plus travel and per diem estimated to be \$26,500.00.

Community Shelter Planning

The Kentucky Office of Community Shelter Planning was established in 1966 to develop practical procedures by which the citizens of each county might make the most efficient use of the available fallout protection shelters and to inform and prepare local officials for their responsibility during and after a nuclear attack. In 1971 the Office was assigned the additional responsibility of preparing Area Development District (ADD) Community Shelter Plans and the identifying of potential natural disasters and the resources available to counter them in each ADD. In fulfillment of these responsibilities this Office has prepared Community Shelter Plans for each of Kentucky's 120 counties and in two (2) of the Commonwealth's Area Development Districts.

The Community Shelter Planning Office is 100% Federally funded. The budget for Fiscal Year 1972 was \$26,371.83, of which \$19,414.23 was expended. Office Staff consists of a Community Shelter Planner, a secretary and a part-time draftsman. This Office provides supporting assistance to and in return receives assistance from the other sections of the Kentucky Civil Defense Organization, various Federal and Commonwealth agencies and the officials and staffs of Kentucky's ADD's, counties and cities.

During Fiscal Year 1972 the primary concern of the Community Shelter Planning Office was the development of Community Shelter Plans and the location of potential natural disasters in the ADD's. As of the end of Fiscal Year 1972 studies have been completed for the Green River and Lincoln Trail ADD.

The Active Militia is authorized only when the Kentucky National Guard is on Active Federal Service. It is not provided for when the National Guard is under state control.

KENTUCKY BUREAU OF VETERANS AFFAIRS

Mission

The mission of the Bureau is defined in KRS Chapter 36.065. It provides for the following services and support to the Commonwealth's veterans of military service, their dependents and/or survivors and to like persons residing in other states when requested:

1. Prepare in proper form, present, and prosecute the claims with the Veterans Administration and other Federal agencies.
2. Secure and expedite action on the claims.
3. Keep in contact with the Veterans Administration so that the status of any claim may be known at any time.
4. Continue to survey the State to make certain that no veteran or his dependents are neglected.
5. Perform such other duties as the Bureau considers necessary or desirable in the accomplishment of the purposes for which the Bureau was created.

Organization

The Bureau is an independent agency of the State Government within the meaning of KRS Chapter 12. However, in certain administrative and fiscal policies and procedures it falls within the jurisdictional framework of the Department of Military Affairs.

The Agency is organized as follows: (1) The Executive Board (Four appointed members of the Bureau and The Adjutant General) (2) The Administrative and Operations Section, (3) The Claims Section, and (4) The Field Services Section.

The Executive Board

KRS Chapter 36.065 provides that The Adjutant General of Kentucky shall act as the Chairman of the Bureau, and that the Governor shall appoint the four other authorized members, each of whom shall be a veteran with service during time of war or hostilities wherein American troops were engaged in conflict with an armed enemy.

The law further provides that insofar as it is practicable the Governor, in making the appointments to the Bureau may give due consideration to a fair representation on the Board of nationally recognized veterans' organizations active in Kentucky, based upon the size of their membership in this state.

The members of the Bureau who are appointed to four year terms, receive no compensation for their services, but shall be reimbursed for their actual and necessary traveling expenses and lodging incurred in the proper performance of their duties in or out of this State.

As of 30 June 1971 the Executive Board consisted of Major General Larry C. Dawson, Kentucky National Guard, as the Chairman; Honorable Harold Y. Saunders, Shelbyville, Kentucky as the member representing the Department of Kentucky, The American Legion; Honorable John Vicini, Lynch, Kentucky as the member representing the Department of Kentucky, The Veterans of Foreign Wars of the United States; and Everette S. Stephenson, Louisville, Kentucky as the member at large. There was one vacancy on the Board at the close of the period. During the Fiscal Year the Board met in Executive Session three times and informally once. Mr. Homer W. Eversole, Louisville, Kentucky is the Director of the Board.

Administrative and Operations Section

The Administrative and Operations Section, together with the Claims Section, is located with the Veterans Administration Regional Office in the new Federal Building at 600 Federal Place.

The Administrative and Operations Section is staffed by the Director, a Principal Clerk Stenographer, a Senior Clerk and two Clerk typists.

The Claims Section

The Claims Section is staffed by the Principal Claims Examiner, who is also the Assistant Director, a Senior Claims Examiner, a Claims Examiner and a Clerk Stenographer. Clerical and other support is furnished to this section by personnel in the Administrative and Operations Section.

The Field Service Section

Local counseling service and assistance are provided throughout the Commonwealth by employing a system of Field Representatives to visit each County Seat on a regular monthly basis. Each Field Representative is assigned to a definite geographic area of responsibility. They are eight in number and numerically designated from West to East across the State with an additional one, the ninth, being assigned to the 500 bed Veterans Administration Hospital, Louisville, Ky.

The districts vary in size from nine to eighteen counties in number. Controlling factors in determining the size of each district are veteran population, institutional requirements such as the Kentucky Children's Home, State Mental and Tuberculosis Hospitals, the Veterans Administration Hospitals at Lexington, Cincinnati, and Huntington, State Penal Institutions, etc., and economy in mileage and travel costs.

Functions

In consonance with its assigned mission, the functions of the agency are designed to provide basic assistance to Kentucky's veterans of the Armed Forces of the United States, their widows, orphans, or dependents, in the proper preparation, presentation and prosecution of their claims for compensation, pension, hospitalization, education, and training and other benefits to which they may be legally entitled.

The agency considers its mission to be always of a humanitarian nature, and to this end it provides counsel and guidance to veterans, their widows and orphans, and dependents concerning various problems. These problems frequently cover social security, unemployment, welfare, family services and missing veterans, or recovery of accrued military pay, lost or destroyed discharges, review of unsatisfactory discharges, back military pay, decorations, headstones and markers, prisoner of war claims, reemployment rights, gratuity pay and travel pay.

The agency is frequently called upon to render assistance to the members of Congress, the Governor, the State Legislature and other State, County and City officials in solving veterans' problems for their constituents.

The community relations aspect is not overlooked, and information on veterans' rights and benefits is furnished to civic, church, and veterans groups and to city and county officials when it is requested by them.

MONETARY BENEFITS AWARDED BY
VETERANS ADMINISTRATION TO CLAIMANTS
REPRESENTED BY KENTUCKY BUREAU OF VETERANS AFFAIRS

July 1, 1971 to June 30, 1972

COMPENSATION (Living veterans); PENSION (Living veterans); COMPENSATION & PENSION (Survivors); and EDUCATIONAL ASSISTANCE	\$5,681,648.5
COMPENSATION (Living veterans) (Retroactive Pay)	194,218.8

PENSION (Living veterans) (Retroactive pay)	\$ 914,312.69
COMPENSATION & PENSION (Survivors) (Retroactive Pay)	191,783.48
EDUCATIONAL ASSISTANCE (Retroactive Pay)	11,085.00
BURIAL ALLOWANCE & ACCRUED	81,143.78
INSURANCE	<u>453,573.53</u>
GRAND TOTAL OF ALL MONETARY BENEFITS	\$7,836,433.10

COMPILATION OF SERVICES RENDERED
KENTUCKY BUREAU OF VETERANS AFFAIRS

July 1, 1971 to June 30, 1972

INCOMING MAIL (Pieces)	29,706
OUTGOING MAIL (Letters)	8,029
