

PERFORMANCE AWARD: For his squadron's "outstanding performance in the defense of South Korea, January-April 1969," Lt Col Larry Quebbeman received the 5th Air Force plaque from Lt Gen Thomas K. McGehee, commander of U.S. forces in Japan and 5th AF. It was only the second such award ever presented a unit.

CENTER PHOTO: Briefing four squadron pilots on a mission of reconnaissance, Lt Col Quebbeman (seated) works with Marty Case, Roger Sanders, Bill Seiber, and Mick Gannon. **BELOW:** Suiting up for the flight, aided by Ken Wheatley and Paul Yahne in Personal Equipment Section at Itazuke AB, Japan.

The Year 1969 . . .

FIERY SEND-OFF: As the Voodoos prepared to leave Itazuke, much press and TV coverage from the Japanese media was present because departure of the KYANG reputedly marked the end of use of that facility by military jets. Little did anyone suspect the departure would include a dramatic and harrowing aircraft accident. Narrowly escaping serious injury, Capt Bill Seiber rode his RF-101 until the fuel tanks were clipped off by the last arresting barrier. He walked away!

*Roughly translated: THESE CRAZY AMERICANS WILL DO ANYTHING TO GET ON TV!!!

—Cartoon by Paul Coyle

PANNING ITAZUKE: This pan camera view of Itazuke Airbase at Fukuoka, Japan, was shot by a Voodoo camera directly overhead.

Tour Is Completed

April 1969—Back to Richards-Gebaur

WELCOME HOME PHOTOS: In the midst of the excitement over the homecoming of the 165th Tac Recon Squadron to Richards-Gebaur April 24, 1969, Maj Richard L. Frymire took a second to show Capt Ken Stick of Reno how to operate his new movie camera, bought in

Japan. With the flight leader are Frymire's wife, Phyllis, and their children, who had been living near Richards-Gebaur during the Japan deployment.

RETURN TO HOME BASE: After thousands of miles back across the wide Pacific, the aircrews climbed back in their Voodoos for the trek home. (TOP) They were a glorious sight to those waiting eagerly on the flight line at Richards-Gebaur, including the crew chiefs who park-

ed them or (LEFT, BELOW) helped the pilots climb wearily from the cockpit, like Capt Art Tesner. (RIGHT, BELOW) A cold beer was waiting: Ken Glass, Fred Arnold, Tom Johnson, Bill Irion, Billy Yeiser, Tesner, and Dick Frymire.

June 1969—Deactivation at Shewmaker

RETURNING THE COLORS: Brig Gen Jack H. Owen, commander of the 123d Tac Recon Wing during the entire recall period, brought the unit's colors home and returned them to the Commonwealth of Kentucky. Receiving the colors was Maj Gen Larry C. Dawson, the adjutant general (shown placing the wing colors with the Kentucky color guard). **INDIVIDUAL ACCOMPLISHMENTS:** The work of a number of individuals on behalf of the Air Force won recognition. Here Gen Owen congratulates Maj Fred Cross, who was named an "Outstanding Procurement Officer" for his work at Eglin AFB, Fla.

MEDALS PRESENTED: At the deactivation ceremony held at Shewmaker ANGB June 9, 1969, the USAF's representative, Brig Gen Donavon Smith, handed out commendation medals to, from left, Lt Col L. A. Quebbeman, Maj Fred Cross, Maj Harry Greschel, Capt Walter Baker, and Sgt John Ripy. **ABOVE:** Individual medals were won by 37 men during the call-up, including a commendation for Maj Don Engleman, presented by Maj Gen Larry C. Dawson.

PARADE AND REVIEW: More individual members of the KyANG received awards for personal excellence in July 1969 at an honors ceremony. None better exemplified the accomplishments of the Air

Guard than Chaplain W. E. Hisle (opposite page), aided by his son, Billy, 10.

Chaplain Hisle—Spiritual Example to the KyANG

One of the best loved and most faithful members of the KyANG through the years was the wing chaplain, William Edwin Hisle. In his civilian responsibility, the Rev. Mr. Hisle was pastor of the Centenary Methodist Church at Shelbyville, Ky. Prior to coming with the Air National Guard he had served a tour of duty with the U.S. Army as a chaplain, including duty in Korea during the first period of conflict there.

No one more exemplified a spirit of patriotism and attention to duty than Chaplain Hisle. His protestant services were always well-attended on drill weekends and he was active in many areas of community service on behalf of the KyANG even before such activity had a "rebirth" of emphasis following the end of the draft.

Chaplain Hisle was recalled with the unit in 1968 and when orders were received separating many "support" personnel from the Wing Headquarters, he received orders to go to Taegu Air Base in South Korea. While serving the Air Force personnel at that base he became interested also in an orphanage nearby, the Eorini Chip Orphanage. The needs of the children there were a particular concern to Chaplain Hisle and while he was at Taegu he worked to help them all he could. It was natural that the chaplain enlisted the cooperation of many others in the process.

While in Korea, Chaplain Hisle began having trouble with his voice. As weeks went by, he became more and more hoarse and finally was

returned to the United States in January 1969, being assigned to the Air Force Hospital at Scott AFB, Ill., until about May of that year. He then returned to Shelbyville where he had resided before the Pueblo call-up, and continued periodically to receive treatments for the ailment, but to little avail. He continued to lose motor coordination and was confined to a wheelchair by the time the unit was deactivated in June 1969. In July he was able to return to Shewmaker ANGB for an awards presentation ceremony where he was given the Air Force Commendation Medal for his efforts on active duty. His 10-year-old son, Bill, pushed the wheelchair that day, dressed in a replica of an Air Force uniform.

Although he could not return to active ministry, he continued his interest in the Air Guard, and particularly in the Eorini Chip Orphanage at Taegu. He solicited many gifts for the institution and though very weak, made a trip back to Korea for one more visit to see what he could do to help the children. Helping him on that trip was his wife, Helen, whose support had been of great help to him through the years. When he died on Sept. 19, 1971, the KyANG lost one of its greatest members—and one of his final requests was that in lieu of flowers his friends send gifts to the orphanage.

He was awarded the Air Force Meritorious Service Medal during the final months of his life, the first member of the KyANG ever to receive the honor.

The Year 1970—

Wing Wins Outstanding Unit Award

GOVERNOR PRESENTS: Louie B. Nunn, who had taken part in the deactivation ceremony the preceding June, came to Savannah to pin medals on some outstanding Air Guardsmen. They included MSgt Eslie Black. The governor was flown to field training in a two-seat Voodoo, and appeared at camp in a flying suit (above).

BEAN SOUP NO. 1: The first annual bean soup festival was held at Shewmaker in 1970. Organized to begin to compensate for the end of the problems of community relations because of the unpopular war in Vietnam, the Bean Soup Feast grew year by year to become a valuable Air-Guard-Community event. It was originated by Maj Gen Larry C. Dawson, the adjutant general. Shown above are two stalwarts who captained many Feasts for years after, Lt Col Charlie Sauer (left) and CMSgt Norman Thomas (center). That's MSGt Bobby St. Clair in the background (note his hat is smaller, not as big as a chef's hat).

BACK IN THE POOL: Needing somewhere to keep up on survival training, the pilots took to the pool at one of the Louisville country clubs. Looking like the creature from 3,000 fathoms, Capt Gary Burge learned how to manipulate a parachute if you happen to get trapped underneath. (BELOW) Maj Fred Bradley took his turn, too, proving it's harder to get into a rubber life raft than to get out of, especially if you are wearing flying gear and a Mae West.

The Year 1971—

KyANG Recovers from Activation

MOBILITY BAG INSPECTION: In TAC the emphasis continued to be on mobility of all units. Here Jim Kessler, a BEMO supervisor, hands out a canteen to an airman who was short one in his mobility bag. They were getting ready for the big inspection in 1971.

PUNCH CARD XX: Back to operational exercises, Col Verne M. Yahne, wing commander, is greeted by Maj Gen Cunningham, commander of the Alaskan Air Command, while Maj Gen Larry C. Dawson, Kentucky's AG, looks on. Partly hidden is Lt Gen Edmundson, vice commander of the U.S. Strike Command.

RATED OFFICERS: They were on the "first team," the men with the wings on their chests. From left, they were (kneeling): Roger Sanders, John Silverman, Scott Seward, Eddie Lloyd, Art Tesner, Don Ryan, Pete Snyder, Jim Long, Don Majors, Don Britton, Bill Leslie, and Dick Frymire (squadron commander). Standing are Otis "Bo" Bowen, Gary Burge, Tom Scott, John Conaway, John Smith, Jack Owen, Eugene Kinnaird, John Karibo, Larry Quebbeman, Bill Gast, Jim McClure, Jerry Lents (AF adviser), Carl Black, Verne Yahne, and Bob Hendricks.

TECHNICIANS RETIRE: The first air technicians to retire because of reaching the age to do so were CMSgt Bob Botkin and CMSgt Bob Harris. (Center) Col Yahne, the detachment commander, presented Botkin with a special vehicle to carry his belongings, a two-wheel cart from the electric shop. (Below) Harris, veteran motor pool superintendent, received his retirement certificate from Col Yahne while friends joined in good wishes.

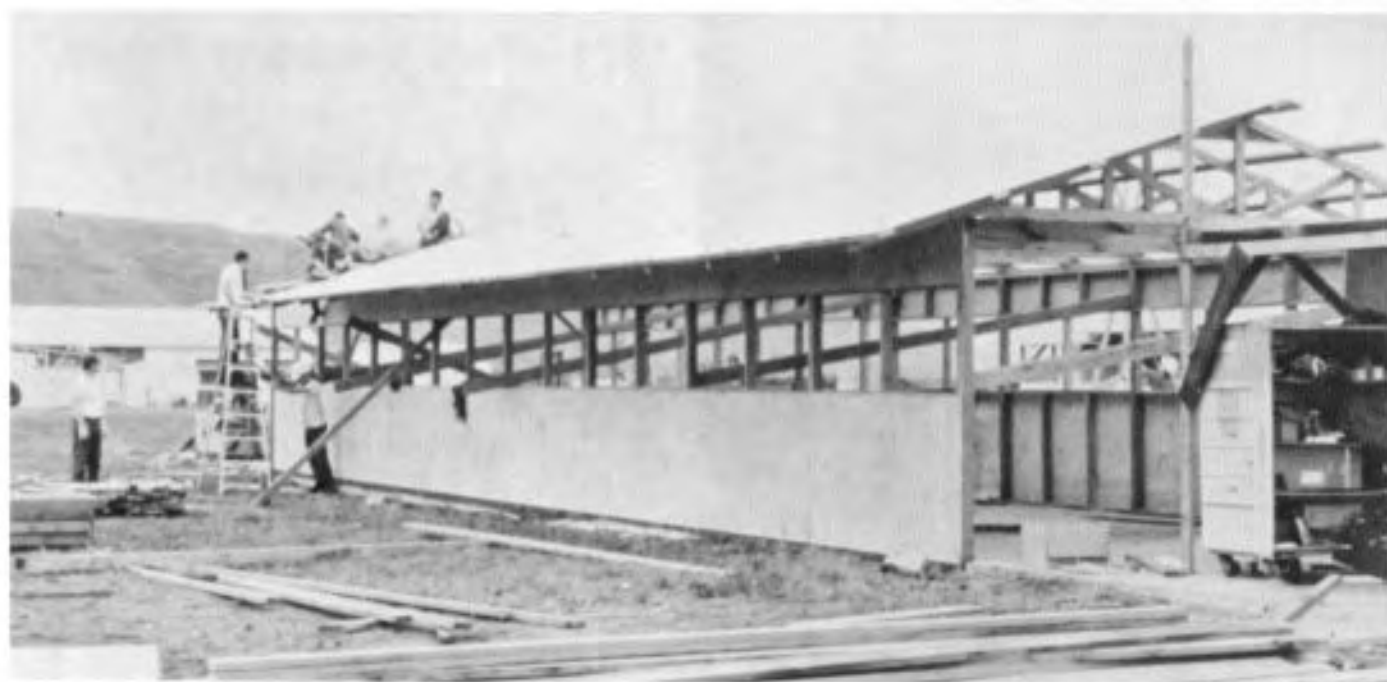

1971—Two Veterans Retire

The Year 1971

GREETINGS FROM HAWAII: The Civil Engineer Flight was formed shortly after the deactivation of the KyANG because of the demonstrated importance of their construction capability. In 1971 the Engineers pulled the first of several field training encampments separate from the rest of the Air Guard of Kentucky. They went to the island of Maui, farthestmost of the Hawaiian chain, to work on erecting a barracks for the HANG field training site. Some took their wives on the trip and morale in the unit took a tremendous turn upward!

1971 FIELD TRAINING: The adjutant general visited the men at Savannah, Ga., looking over the various shops during field training in 1971. Here, Goatley, McIlwain and others showed Gen Dawson the metal shop area. **PRIME BEEF:** Wearing combat gear and operating in the January chill at Tyndall AFB, Fla., the Civil Engineers' Prime Beef Team went the route in proving why they were an outstanding unit. Note weapons stacked in the background, while one man stands guard.

The A-37 Dragonfly (The One We Didn't Get)

A-37 DRAGONFLY: The A-37 was a development of the Cessna T-37 trainer designed for use by the U.S. Air Force in counterinsurgency or close air support of ground forces, particularly in Southeast Asia. It had about three times the power and twice the gross weight of the T-37 which had been in production since 1955. Built by the Cessna Aircraft Co. at Wichita, Kan., about 500 of these aircraft were manufactured for the Air Force and eight allied nations. The first A-37 was flown in 1963 and the B-model was first flown in 1967. It was particularly useful on short unimproved airstrips. Improvements on the B-model included installation of two J85 engines which increased the thrust from 5,700 pounds. Other changes included installation of new electronic gear, larger wheels, tires and brakes, and a gross weight increase from 6,000 to 12,000 pounds. A 7.62mm rapid-fire minigun in the nose capable of firing 6,000 rounds per minute. While the A-37 proved to be quite effective in delivering ordnance to targets in Vietnam, it was not an aircraft which would have been welcomed by the KyANG because it represented a considerable loss in personnel spaces which would have been allocated to the unit. The Dragonfly was the "one that got away," much to the pleasure of the Kentucky Air Guard.

SPECIFICATIONS: Wing span 35.8 feet; length 29.3 feet; height 9.2 feet; speed 478 mph; ceiling 25,000 feet; range beyond 1,400 miles with in-flight refueling capability; crew, one or two pilots; armament, 4,855 pounds of ordnance, 7.62mm minigun, and other ordnance mounted on wing pylons; maximum weight 12,000 pounds; power plant two GE J85-17A jet engines with 2,850 pounds thrust each.

The Year 1972—

Semonin Commands
Wing . . . Not A-37s

SHE GOT A RIDE: After several rounds of pleadings and promises, Col Yahne delivered on a ride for TSgt Elizabeth Reeves of Tac Hospital. At field training in 1972 she was given a full flying suit, helmet and the works. With Yahne at the controls, she won a free ride in the back seat of a dual model Voodoo, the TF-101F (background). Miss Reeves was an X-ray technician.

The Year 1972 AG in Blue Suit

THE NEW TEAM: Maj Gen Richard L. Frymire (background, with necktie) conferred with Lt Col John B. Conaway, the new detachment commander of Shewmaker. The scene was at summer youth camp near Greenville, Ky., where the general was making a site visit to check on that program of the Kentucky Guard. **BELOW:** With his blue suit on, Gen Frymire briefed the vice commander of TAC, Lt Gen Dale Sweat (left) during March 1972. Frymire is a former commander of the 165th Tac Recon Squadron and personally took the visiting general through the facilities of Shewmaker ANGB.

TENT SHENANIGANS: It was a close call for a while, as to who would win the battle, but eventually Tac Hospital's men took charge. The tent, part of the mobile dispensary, has to be set up periodically. Leading the attack was Maj John Karibo, flight surgeon and hospital commander (in dark flight suit). On the far left is MSgt Jim Oney, SSgt Todd Hartzmyer is standing and Tom Hibdon is bending over. Halfway up (second photo), things are looking better, but in the end, the Hospital forces had triumphed once again (third photo).

GRADING FILM: Working over a light table is everyday business in the photo-intelligence arena. Lt Col Stanley Worsham (magnifying glass) is the old-timer, while the new guy is 2d Lt Bob Fields, who became civilian personnel officer in the technician detachment.

The Year 1972

SUMMER CAMP: Summer in Savannah, Ga., always exciting for the enlisted men, brought this group together. From left, Walter Roberts, John Yunt, Mike DeWitt, David Owens, Dick Hilton, Charlie Braun, Jim Lyddan, and John Wuertz (on cycle).

SENTRY CANE CUTTER: This bunch went to Roosevelt Roads, Puerto Rico, in July 1972. From left, they are (kneeling) Ray Miller, Don Pack, Frank Everett, Dave Yahne, James Lockard, Frank Green, Elmo Crandell, Worth Smith and (standing) Paul Coyle, Wendell Littlefield, Don Redmon, Bob Fields, Bill Gast, Stan Worsham, Gene Kinnaird, Jim McClure, Pete Snyder, Bill Spencer, Jerry Lents.

NEW SNACK BAR: The KyANG has had several snack bars over the years, including one inside the Hangar, and one in a line shack. The Civil Engineers built this one in 1972 as part of their summer field training, taken at Shewmaker ANGB in Louisville.

WEAPONS SYSTEM: After long discussions and delays in receiving the "real thing," the unit received a set of steel mobile vans called a WS-430B. They housed a complete photo lab and intelligence complex in inter-connecting, air-conditioned vans. Here one is unloaded at Shewmaker as it arrived in November 1972. **COLONEL TAKES LEAVE:** Col William J. Semonin (left) congratulated Col Verne M. Yahne as the latter was retired in ceremonies Oct. 13. Col Semonin took command of the 123d Wing while Lt Col John B. Conaway replaced Col Yahne as full-time air commander of the base detachment at Shewmaker.

1972—Change of Command

The C-131 Samaritan

C-131 SAMARITAN: The twin-engine C-131 was used primarily as a flying hospital ward to carry patients on domestic flights to and from specialized medical centers within Europe and the United States. Specially designed for this type of aeromedical evacuation, it would carry 27 patients and the necessary medical attendants. The KyANG received its C-131 to replace the C-54 in 1975 when the latter was retired after long years of service. The C-131 is manufactured by the Convair Division of the General Dynamics Corp., and fitted with airline-type seats it can carry 48 passengers. Used as a cargo carrier it could haul up to 18,000 pounds of payload. It flies with a crew of two, although usually a flight engineer or two would be aboard the aircraft. The C-131 is basically a different version of the T-29 "Flying Classroom" used for training navigators. In the KyANG the Convair is used as a passenger and cargo support aircraft which is both comfortable and servicable. It climbs faster than a C-54, although it would not carry as heavy a load as a Skymaster.

SPECIFICATIONS: Wing span 91 feet, eight inches; length 74 feet, eight inches; height 27 feet, four inches; speed 300 mph; ceiling above 25,000 feet; range beyond 1,000 miles; crew of two; maximum weight 55,000 pounds; power plant two Pratt & Whitney R-2800-99W piston engines of 2,500 hp each.

The C-54 Skymaster

C-54 SKYMASTER: The C-54 Skymaster, manufactured by Douglas Aircraft Co., is the same as the commercial DC-4. This aircraft was in wide service around the world in both military and civilian versions. It became a standard Air Force heavy cargo transport in 1942, and a workhorse of the Military Airlift Command (MAC or MATS) until the arrival of the C-135 jet transport. The Skymaster has a long list of accomplishments, even to carrying coal during the Berlin Airlift in 1948 when every available C-54 was pressed into service. During the Korean War they were converted to litter-carrying planes, returning battle casualties to the United States. They were largely converted to passenger-carrying aircraft and later allocated to the Air National Guard. The KyANG was given one C-54A in 1965 to replace the C-47 which had been recalled for conversion into a gunship for Vietnam. The C-54 was used during the Pueblo recall of 1968-69 when a second Skymaster was temporarily assigned. Later, during the 1973 shuttle runs to Wright-Patterson AFB, a second C-54 again was assigned to the KyANG. They would carry about 50 passengers fully loaded, although the Kentucky aircraft were not of that configuration (bucket seats). They would haul about 28,000 pounds of cargo otherwise. The last one was returned to the Air Force in May 1975.

SPECIFICATIONS: Wing span 117 feet, six inches; length 93 feet, nine inches; height 27 feet, six inches; speed 300 mph; ceiling above 30,000 feet; range beyond 2,000 miles; crew of five or more; maximum weight 82,500 pounds; power plant four Pratt & Whitney R-2000-9 piston engines of 1,450 hp each.

The Year 1973

Runway Problems
at Standiford . . .

MISSION COMPLETED: For a brief time after ascending to the position as adjutant general, Maj Gen Richard L. "Dick" Frymire kept current in the RF-101. Here he drops a bag of flight gear to a waiting crew chief after flying a mission at Wright-Patterson AFB near Dayton, Ohio.

. . . and the Wright-Patt Deployment

BUCKEYE BRIGADE: Major scheduled repairs on runway 1-19 at Standiford forced the flying operations to switch to Wright-Patterson AFB, Ohio. (Above) Col Larry Quebbeman of wing operations and Lt Col Jim McClure, group commander, planned their flights at the Wright-Patt Base Ops. (Center) Maj John L. Smith, ops officer for the 165th Squadron, explains the mission to Quebbeman (left) and McClure at the small flightline building where KyANG detachment functioned. (Below) Maintenance operations were especially harrassed by the cramped quarters and limited facilities, but managed to keep the Voodoos in the air and on schedule.

The Year 1973

CAM SQUADRON INSPECTION: Lt Col William P. Gast (above, center) leads the way around one flight of the 123d Consolidated Aircraft Maintenance Squadron during an annual inspection. On his right is the CAM Squadron "first shirt," SMSgt Tom Scully, who later won a direct commission. Gast served as squadron commander from 1969-75. **WOMEN JOIN KYANG:** Mrs. Jane Hunter, left, and Miss Karen Goeing were newsmakers in 1973 when they enlisted. Symbolic of the changing emphasis on recruitment of females and minorities, Mrs. Hunter was the first "mother" to be enlisted and Miss Goeing was first to undergo technical training in a technical career field, electronics repair. Swearing them in was Col James "Fred" Arnold, state chief of staff.

BEAN SOUP MARCHES ON: What started as the most unlikely of all conceivable community relations projects, the Annual Bean Soup Feast, enlisted a second generation helper (top left) in the person of SSgt Thomas. Stirring the soup with what looks like a boat paddle (but isn't), Thomas was the son of CMSgt Norman Thomas, who supervised the preparation of the soup for several years. A long-time friend of the Air Guard, State Treasurer Thelma Stovall (directly above) was welcomed to the Soup Feast by Air Commander John Conaway and Chief of Supply Harry Greschel. **SETTING FIRE:** MSgt Garland Smothers sets the torch to a practice fire at summer camp during 1173, once again at Savannah. **HEAVY HITTERS:** It looks like murderer's row, from left, along the bench of the KyANG Softball Team: Steve DaPonte, Mark Shirley (partly hidden), Edgar Schulz, Bobby St. Clair, and Orran Story.

The Year 1973

NCO ACADEMY: Lt Col John B. Conaway (above, left) was often requested as a graduation speaker at the ANG NCO Academy located at McGhee-Tyson Field near Knoxville, Tenn. A continued emphasis was being placed upon professional training for NCOs. **X-RAY VIEW:** TSgt Elizabeth Reeves, an x-ray technician in Tac Hospital gives a pointer

to Sgt Nancy Marchand (right), **CIVIL ENGINEERS:** They hit the ground running during the strenuous test of their capability to solve even the most difficult problems under combat simulation. The 123d Civil Engineers' Prime Beef Team was at Tyndall AFB, Fla., in 1973.

The Year 1974—

Quebbeman,
Bradley Command
The Wing

PEGASUS PARADE: Without the pressures of the Selective Service draft to help fill vacancies, more and more emphasis was placed on community visibility. Here the KyANG entry in the Pegasus Parade moves down Broadway. The women emphasized that the KyANG was an "equal opportunity" employer. Pilots Steve Stengel and John Silverman portrayed the glamor of flying. Jet Pilot won the Derby in 1947—the year the KyANG was founded! **MOBILE VANS:** Set on the concrete pad prepared especially for the purpose, the WS-420B photo/intelligence vans were in place and operating.

The
Year
1974

CE IN PUERTO RICO: SSgt Bruce Bogart cuts a concrete block during a 1974 project which took the 123d Civil Engineer Flight to Ramey AFB, Puerto Rico. The Engineers were becoming widely recognized and much in demand for their skills, but pulling field training in Puerto Rico wasn't so bad on their own morale as a unit, either.

Voodoo

Tales

123rd TACTICAL RECONNAISSANCE WING

VOODOO TALES Starting out as "Vapor Trails," the base newspaper name was changed to "Canberra Tales" when the unit flew the RB-57 Canberras. The switch to "Voodoo Tales" was an obvious necessity of The Voodoo Years. Ultimately the newspaper would be known as "The Phantom's Eye" when the transition to RF-4Cs took place in 1976. The paper was begun by Maj Joel Stokes, continued by Maj Livingston Taylor and Maj Bruce Blythe, then by Lt Col Don Armstrong, and finally by Capt Ed Tonini. **PLAQUE PRESENTATION:** Capt Don Durbin (center left) had been a crack shot for many years, but in 1974 won the NGB rifle championship. Lt Col Conaway presented him the trophy as he completed the officer training course at McGhee-Tyson. Capt Richard Jett is visible in the background. **TV CAMERAS:** (Center right) The closed-circuit television section was a marvel of KyANG know-how. Going on the air in 1974, it combined the talents of Lt Col

Jack Crowner, SSgt Dave Voegele, Sgt Tim Berscheidt, and Sgt Alex Felinske. **SWEARING-IN** (Lower right) "All in the Family," a popular TV show, might be the title of this scene, Maj Edward C. Martin gives the oath of enlistment to his daughter, Julia, while TSgt Dick Wilson watches his sister, Wanda, join the KyANG, too. Recruiting continued to be a matter of major importance and the enlistment of women into the Air Guard became more and more commonplace. Wilson was a long-time member of the motor vehicle section in Combat Support Squadron and Martin was logistics plans officer for the KyANG. **UNIT ACHIEVEMENT:** (Lower left) Group Commander (Lt Col) Carl D. Black (left) presents the TAC Unit Achievement Award to Lt Col Billy J. Yeiser, group deputy commander for operations, for an accident-free flying year in 1973-74.

TORNADO DAMAGE: One of the worst natural disasters ever to strike the Louisville area was the multiple tornado day of April 4, 1974. Here (top photo) is one of the aerial photos taken to assess the damage done. **OUTSTANDING GUARDSMAN:** SSgt Daniel Jones, administrative supervisor of the Combat Support orderly room, was named the best enlisted man in the Kentucky National Guard. He was recognized by Gen Frymire at the 1974 convention of the National Guard Association of Kentucky. **GOIN' TO THE FAIR:** Tail No. 001 was taken to the State Fair twice, as shown at right being lifted by a cargo chopper of the Alabama Army Guard. This aircraft is located now at the main gate of the Air Guard base on Grade Lane, a permanent static display.

The Year 1975—

Combat Rating Is Confirmed

VIP TARGET PRACTICE: State Sen. William L. Sullivan of Henderson represented the governor of Kentucky, Julian Carroll, at Volk Field, Wisc., trying out an M-16 on the target range. A planeload aboard the support aircraft of the KyANG visited the field training site in June 1975. (BELOW): A visit by the director of the Air National Guard, Maj Gen John Pesch (center) included a trip through the WS-430B mobile processing vans. From left are TSgt Clarence Ruffra, Col L. A. Quebbeman, Maj Gen Richard L. Frymire, and Lt Col John B. Conaway.

VOODOOS ON THE LINE: The unit had been operating with a fleet of C-model Voodoos since 1972. Here, in almost perfect array, the RF-101s line up nose-to-nose with one of the sharp-pointed TF-101F models, while a long crew chief surveys the situation as if to see if this kind of perfection could possibly be improved. JR AFROTC: These are volunteers who worked with area Jr. AFROTC

in Louisville, from left; TSgt John Pearl, MSgt Mevin Richardson, MSgt Tom Rogers, MSgt George Helm, TSgt Bob Eppler, Maj Joe Kottak, TSgt George Miller, MSgt Kenny Franklin, and TSgt Charles Lurker, all full-time technicians. They had spent many hours instructing on various aspects of aviation.

OLD SOLIDER: "Willie" Gast, always known for his jokes and good humor, showed up at a medal-pinning review ceremony dressed in a complete World War I colonel's uniform. Obviously amused are, from left, Brig Gen L. A. Quebbeman, (Gast), Fred Arnold and Col Fred Bradley. **BELOW:** Maj Gen Richard Frymire personally pins the rank on new Brig Gen Lawrence Quebbeman, the assistant adjutant general for air.

PORTABLE PHOTO LAB: In order to get the vans for the mobile photo processing lab to Volk Field, it was necessary to shut them up securely and get them to the flightline. Here several KYANG technicians work with one of the 13 vans to get it aboard a C-130 Hercules.

The Year 1975

"FILE 13" PRESENTED: MSgt Paul Coyle, the perennial cartoonist of the KyANG, presented Lt Col Carl D. Black, 123d Wing deputy commander, with his "File 13" cartoons done about Operation Solid Shield '75. SSgt Dick Scanlon presented a framed plaque, too.

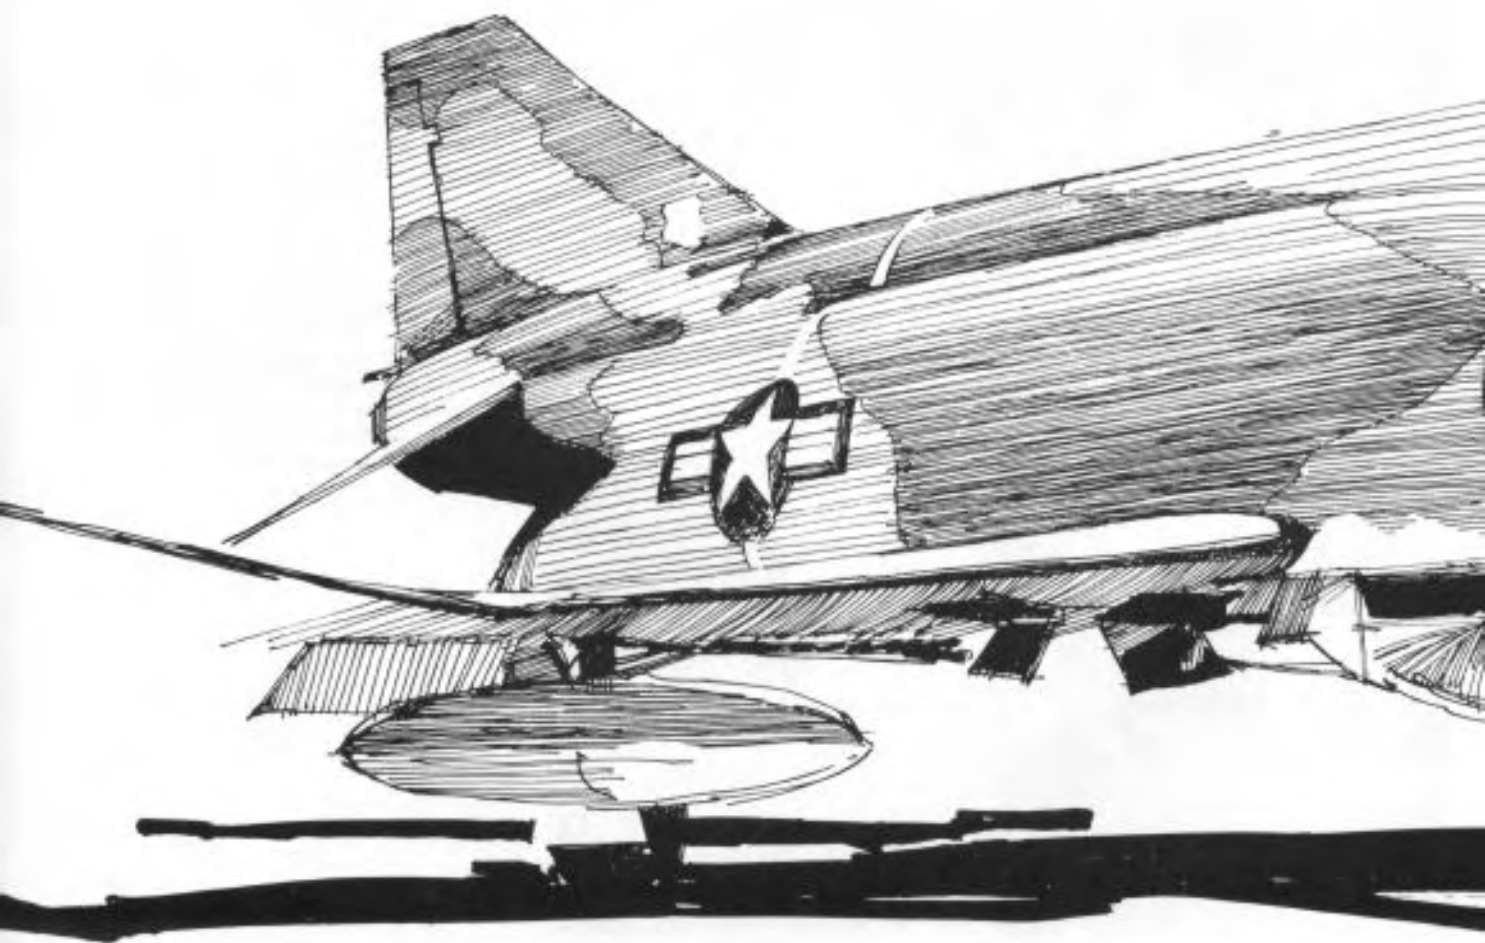

OPEN HOUSE: (Right) An open house Sept. 6 at Shewmaker drew a small crowd to see many kinds of aircraft, including this F-106 from the Michigan Air Guard. The pilot is Capt Greg Maciolek of Romulus, Mich.

INTERVIEW: Doris and Tony Fernandez rated special attention from TV personality Julie Shaw of WAVE during the 1975 Bean Soup Feast. Tony is the food supervisor for the Kentucky Air Guard.

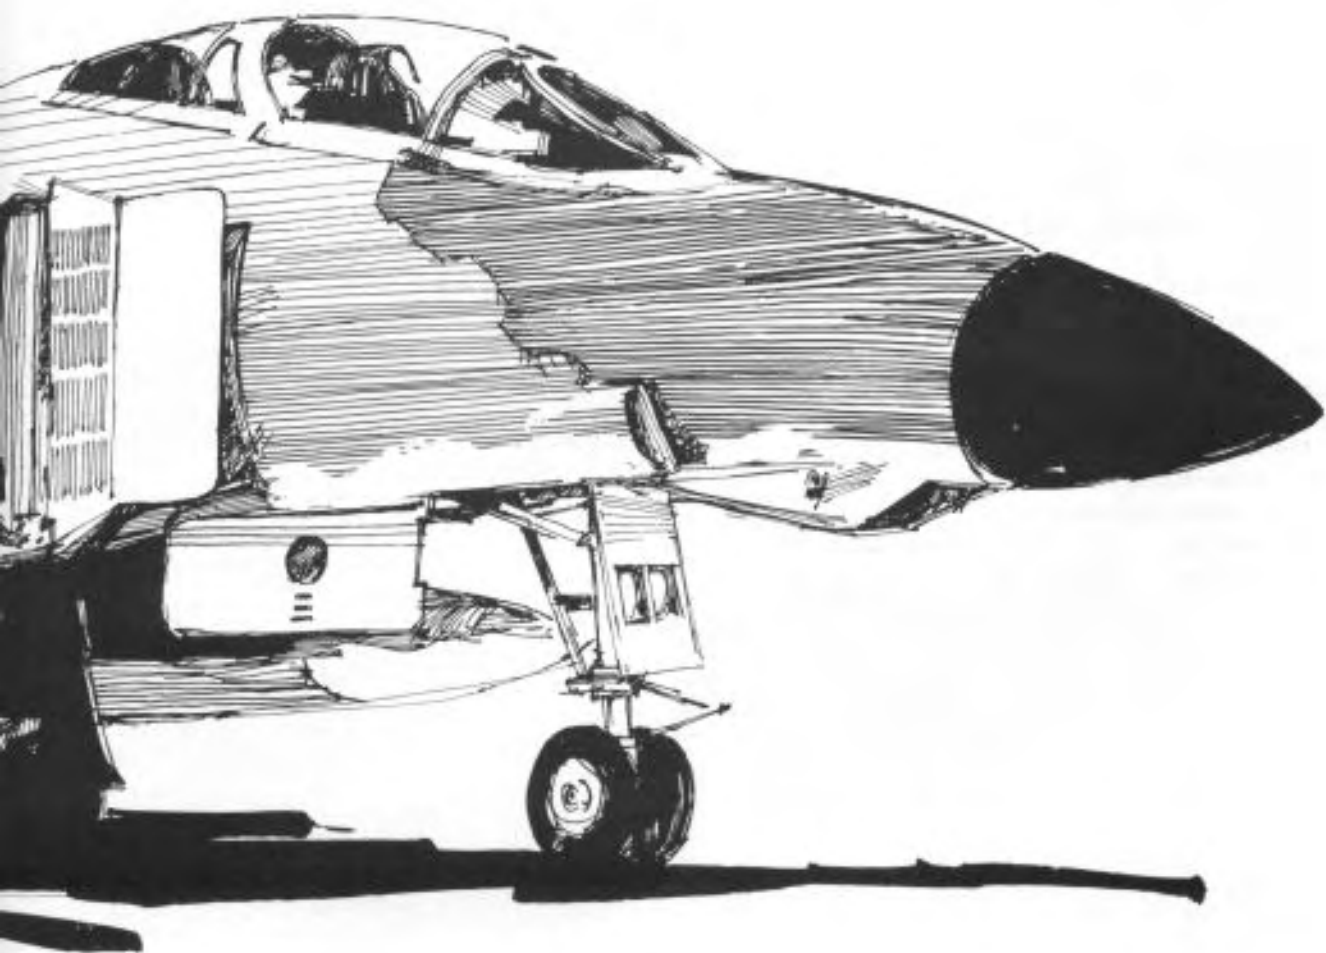

CARPENTRY WORK: The CE Flight did the entire job of renovating the interior of the Base Supply Building, creating new offices and a classroom. Here TSgt Vernon Cantrell marks some paneling to be installed in one of the rooms. **ABOVE RIGHT:** The Red Cross Bloodmobile made its annual visit and many Air Guardsmen donated, including TSgt Marshall Leigh, TSgt James Givan, and Capt Thomas G. Mooney. **CENTER LEFT:** Three new full colonels rate recognition, including John B. Conaway, Fred W. Cross, and Carl D. Black, shown here with Maj Gen Richard Frymire (second from right). **NEW HEADGEAR:** Despite the way it may look, Maj Stewart Byrne was getting form-fitted for a new flight helmet. TSgt George Newman was pouring the plastic into the mold, assisted by Sgt William T. Smith, both of the personal equipment section.

1976-77 **The Phantom Years**

The RF-4C 'Phantom II'

Recon Aircraft

RF-4C PHANTOM II: The RF-4C is a two-place, twin-jet tactical reconnaissance aircraft. Primary mission of the McDonnell-Douglas Corp. Phantom is photographic reconnaissance—all-weather, day or night, high or low. For extended range assignments, both centerline and external wing tanks could be carried, or the RF-4C could be refueled in flight. Optical sensors, including framing and panoramic cameras, are located in three camera stations located in the nose section of the Phantom. Electronic sensors including forward-looking radar, side-looking radar, and an infrared reconnaissance capability. Other facets include photoflash cartridges which could be ejected, annotation of data on film, an HF communications set, and vertical stabilized camera mounts. Operational since 1965, it was the photo reconnaissance workhorse in Vietnam and Southeast Asia. Camera equipment included one KA-56 low-altitude panoramic camera, KS-72/87 high-speed framing camera, T-11 mapping camera, and a KA-55 high-altitude panoramic camera. Infrared line scan sensor, and the radar systems provided other reconnaissance capabilities. The KyANG received the Phantom on short notice in 1976 and immediately began a transition that was completed in less than a year. It carried a pilot and a weapons systems officer.

Day-Night, All-Weather

SPECIFICATIONS: Wing span 38 feet, five inches; length 63 feet; height 16 feet, five inches; speed 1,600 mph; ceiling above 50,000 feet; range beyond 1,400 miles; maximum gross weight 53,000 pounds; power plant two GE J-79-GE-15 turbojets with 17,000 pounds thrust each.

PHANTOM ON DISPLAY: Gov. Julian M. Carroll was one of the early visitors to the KyANG exhibit at the 1976 Kentucky State Fair. With much advance planning, and moving in the dead of night, a crew of maintenance, security and other technicians moved the "new" RF-4C across Watterson Expressway and down side streets to the fairgrounds. Here Gov. Carroll is given a briefing on what the Phantom will do by the technician Air Commander, John B. Conaway. Looking on with possibly greater interest is the governor's son.

1976-77

The Phantom Years

BY THOMAS D. SCOTT
AND DONALD L. ARMSTRONG

By some measurements, the Years of the Phantom were somewhat overdue in arriving. With two of the groups assigned to the parent wing already flying the RF-4C Phantom II, there were those who felt the 123d Tac Recon Wing Headquarters and its 165th Tac Recon Squadron already should have had the Phantom conversion.

The official announcement from the Pentagon was made March 11, although ground school for many of the aircrews had begun the latter part of January. The Phantoms had two seats, instead of one as in the Voodoos. Thus a new member of the aircrew was added, the weapons systems officer (WSO). One task of the conversion to RF-4s would be to recruit 27 or more WSOs (popularly pronounced WEE-zohs). Col Conaway and the base detachment had much to do, WSOs were only one of the specialties to recruit.

The conversion brought in mobile training detachment (MTD) personnel to assist in the transition. Classrooms were set up in all available locations on base, from the existing spaces such as the supply classroom, to the mess hall. Mock-ups and training devices were everywhere to be seen, with additional power units set in place to run the equipment.

Recruitment of the new specialty areas and finding WSOs went on apace. By the end of June, eight WSOs were combat-ready and there were 20 who had been inducted into the unit. New support personnel included 70 military spaces and 25 more full-time air technicians, which now were authorized for the KyANG. One effect of the added manpower was to drop the percentage of strength to about 90 percent.

That wasn't typical of the KyANG, which had prided itself on being at the top of the list. Just prior to the conversion the recruiter team—SMSgt Howard A. Curtis, SSgt Jerry Alred and others—had been named as one of the five best in the nation for average strength and retention rate. They were faced with a no-draft environment replete with tough competition. The "Palace Chase" program of the regular Air Force helped the KyANG find persons on active duty who wanted out and would take an ANG enlistment to achieve that end.

The first RF-4C arrived Feb. 27, and the pilots were already heading for Shaw AFB for transition in the Phantoms, although a few already were familiar with them from tours of duty in Vietnam. The 165th Squadron received a total of 19 Phantoms, transferred from Alconbury RAF Station, England. A detachment led by Maj Edgar Schulz had gone there

earlier to check out the aircraft from the maintenance standpoint.

By March 15 with the departure of the Voodoo fleet and the influx of the new Phantoms, the C-rating of the 165th Squadron dropped to the lowest rung, C-4. It was anticipated, however, and had no direct effect on morale at any echelon.

The same month the annual meeting of the National Guard Association was held in Louisville. SSgt Daniel G. Jones, a member of the orderly room staff of the 123d Combat Support Group, was named as the outstanding National Guardsman in Kentucky. Jones addressed the convention and received an award appropriate to the honor.

The year 1976 was very much involved with presentation of awards. Maj Gen Richard Frymire, who had been reappointed to his second term as Kentucky's adjutant general, was presented the Legion of Merit Oct. 4 by Gov. Julian M. Carroll. Col Charles W. Sellins also was presented the Legion of Merit at the NGA Convention.

Others receiving awards were:

Meritorious Service Medal—Col Carl D. Black, Col Fred F. Bradley, Col John B. Conaway, Col Eugene F. Kinnaird Jr., Col James S. Long, Lt Col Robert R. Mansfield, Lt Col Stanley A. Worsham, Lt Col William D. Seiber, CWO Jack E. Gowen, and posthumously to CMSgt Theo L. Dezarn.

Air Force Commendation Medal—Lt Col Jack M. Crouner, Lt Col James M. Kline, Maj George A. Duncan, CMSgt Vincent R. Michelena, SMSgt Walter Carter (OLC), MSgt Harris R. Borland Jr., and SSgt Daniel G. Jones, Jr.

ANG Meritorious Service Award—Col Robert K. Hendricks.

Kentucky Distinguished Service Medal—Col James F. Arnold Jr., Col William H. Beck, Col Robert K. Hendricks, Col James H. McClure, Col William J. Semonin, Lt Col Joseph B. Edwards, Lt Col Edward C. Martin, CMSgt Russell W. Brown, CMSgt Howard D. Edwards, SMSgt Christopher T. Baker, SMSgt Marion R. McNeil, and MSgt Edward B. Brennan.

Kentucky Commendation Ribbon—SMSgt Samuel M. Duncan, MSgt Rollyn H. Blankenkemper, MSgt William E. Byrum, TSgt Cecil G. Greenwell, TSgt James F. Salley Jr., TSgt Roy Swartwood, SSgt Norman G. Gentry, SSgt Elizabeth J. Church, SSgt Daniel B. Kennedy, Sgt James W. Ray Jr., and A1C Michael L. Schmidt.

The use of the name "Shewmaker" to designate the ANG Base in Louisville was discontinued, for the most part, in 1976. Based on world-wide listings of airfields, most standard

references used the designation Standiford Field. Mailing addresses and stationery were gradually changed to refer to the base as "Standiford Field (ANG)."

The usual concept of annual field training was shelved in 1976 as inadequate. Because of the conversion summer camp plans for Gulfport, Miss., were cancelled and the units were placed on "Texas Plan" or year-around training so that Air Guardsmen could attend classes or undertake training as necessary. The pilots had sent their first group to Shaw on Jan. 27. Those who had completed transition flew the Phantom, and those who had not continued flying the Voodoo until their turn came for transition. By June 30 there were 19 pilots and eight WSOs combat ready.

By the close of the fiscal year June 30, the unit flew the Phantoms more than 850 hours, counting from March 2 when the first local flight in an RF-4C was made. The 3,612 hours flown in 1975-76 with the Voodoo had placed tactical training well on its way to completion when the conversion began to take hold. During the months of April and May air technicians and maintenance specialists from CAM Squadron attended 9,015 manhours of instruction given by the Air Force FTD faculty. Some 3,340 hours more were held during June.

Another important activity taking place in 1976 was the relocation of the Base Comptroller Offices to the middle wing of the O&T Building, and conversion to a more modern system for both comptroller and supply functions. The newer equipment, called RJETS, provided the KyANG a hook-up with both the Burroughs 3500 and Univac 1050-II computers at Blytheville AFB, Ark.

As of June 29 the federal recognition of the rank of major general for Richard L. Frymire was confirmed. As adjutant general he had been first appointed a major general on state orders in December 1971 by Gov. Wendell Ford, and reappointed to the same office and rank by Gov. Carroll in 1974.

Community relations activities were conducted throughout the year to keep the KyANG in the public eye. For the fifth consecutive year the Air Guard's annual Bean Soup Festival, this one Jan. 22, was held to raise funds for sending needy children to open air summer camp at Camp Green-shores on Barren Reservoir. Profit for the festival reached \$2700, one of the best on record. More than 2,000 friends of the Guard purchased tickets. For several years Lt Col Joel L. Stokes had been project officer for the Festival, with major help coming from food service supervisor MSgt Tony Fernandez. For a number of years the bean soup had been prepared by Lt Col Charles Sauer and CMSgt Norman Thomas Sr.

Other activities of note included a dispensary set up for the Kentucky Derby in May by Tac Hospital. The medics also provided their services for the Derby Festival Balloon Race, the St. Patrick's Day parade in March, and the March of Dimes Walkathon in April.

The KyANG co-sponsored a "Bicentennial Salute to Military Aviation" on June 5 at Ft. Knox. The Air Force's precision aerobatics team, "The Thunderbirds," highlighted the program that also included a spectacular fly-by featuring the new RF-4s of the Air Guard. Narration for the Air Guard part of the show was read by TSgt Dave Voegelé of the Base Information Office.

Proving command interest in the Phantom conversion, the TAC commander, Gen Robert J. Dixon, visited Standiford (ANG) on May 16. He received a briefing led by the wing

commander, Col Fred Bradley, on the progress of the RF-4 transition.

Construction during the fiscal year included completion of the new Avionics/NDI Shop, which was wired substantially by the 123d Comm Flight. Also completed were a new Gate House addition, alterations to office space, an addition to the Carpentry Shop, and completion of additional parking areas.

The Weather Flight and Comm Flight continued to blaze a trail by their performances. The Comm Flight, rated C-1 for more than three years, led by Lt Col Winfred Appleby and Lt Col Norris Delph, continued its effective recruitment and training programs. The Weather Flight presided over by Maj Donald Engleman, aced its MEI by MAC during April and kept its C-1 rating going. During their annual inspection in February, the Comm Flight did not receive a single discrepancy.

The 148th Tactical Reconnaissance Group at Deluth, Minn., was first placed under the control of the 123d Wing, and then removed with a sort of indefinite status, even though TAC orders were published.

By the end of the year serious plans were being made by the State Headquarters staff for the 30th year reunion of the KyANG on Aug. 28, 1977. Overall leadership was provided by Col William P. Gast, state chief of staff. Named editors of the 30-year report of the KyANG were Lt Col Donald L. Armstrong and Col James S. Long. Col Winfred Appleby was chosen as photographic editor of the book. Maj Thomas G. Moonéy was appointed treasurer of the project, which was operated completely on private subscriptions and commercial advertising. Col Billy J. Yeiser was named to organize static displays for the Aug. 28 celebration and planning for the program on that day was assigned to Maj James A. Dougherty. Named writers on the book project were Col Eugene Kinnaird, Col Robert Hendricks, Lt Col Samuel L. Cooper, Col James Long, Maj Tom Moonéy, Maj Richard H. Jett, and Lt Col Thomas D. Scott.

The Year 1977— Year of the Reunion

Genuine enthusiasm over the prospects of publishing a 30-year report on the accomplishments of the Kentucky Air Guard became more and more of a driving force for State Headquarters as 1977 progressed. Committees were formed, assignments made, and the monumental tasks were begun. The job of collecting photographs proved to be most challenging, and Col Win Appleby of State Staff spearheaded an effort which eventually netted an estimated 2,000 prints of all sorts of Air Guard scenes, from the very serious to the most humorous. Also helpful were the many clippings of newspaper articles of past years which eventually will be copied and added to the permanent records of the KyANG. Space prohibits any listing of the names of those who have cooperated in the reunion projects, but generous support came from every quarter, including many former Air Guardsmen.

The KyANG's sixth annual Bean Soup Feast and open house was held Jan. 20. Gallons of hot bean soup, piles of cornbread, mountains of cole slaw, a variety of cakes, and soft drinks or coffee were dispensed in the mess hall. Adults paid \$2 and children under 12 or senior citizens shelled out

1976-77: The Phantom Years

BLACK AND IRION: First RF-4C flight

just \$1.25 each for the treat. The new RF-4C Phantoms were on display during the open house. Proceeds were channeled to the Kentucky National Guard Youth Camp, \$2,000 profit from just less than 1,300 persons who went through the lines from 10 a.m. to 7 p.m.

January was marked by the most severe cold weather in the history of the state, particularly inconvenient with the energy shortages. The maintenance crews were forced to cancel 76 scheduled sorties because of the snow and cold. The 123d Consolidated Aircraft Maintenance Squadron command had changed from Winfred L. Appleby to Lt Col Norris C. Delph the previous October. Delph had been commander of the 123d Communications Flight and was followed by Maj Henry S. Youd in that capacity. Appleby moved up to State Headquarters where he and Billy J. Yeiser were advanced to the rank of colonel.

Other consequences of the energy crisis saw the Air Guard Base cut off from natural gas as a source of heating fuel. Fuel oils were substituted and at one point the ice-covered roads halted deliveries altogether and at the most critical stage oil reserves were down to a two-day level. Temperatures in office and working areas were lowered to 63 degrees to further cut on consumption of fuel.

To avoid excessive exposure for pilots and WSOs, and for ground crews in the cold, many missions went South, overnight and back the following day, accomplishing two or three sorties on each trip. The revised operations approach resulted in more than 300 hours of mission time at about half of the exposure to cold weather. Aircrews were required to take vacation leave from their jobs, if they were part-timers, but the results were healthy for the mission.

An inspection team from TAC had conducted the first ORI on the unit Dec. 2-6, 1976, since receipt of the RF-4Cs by the KyANG. The unit experienced difficulty with some phases, although the percent of missions accomplished overall had been 92 percent. Several minor problems resulted in a heavy reduction in the final outcome of the inspection. A decision was reached to retake the ORI as soon as it could be rescheduled.

Accordingly, Feb. 5-6 saw the 165th Tac Recon Squadron undertake the ORI task once again. This time the end result was much more to the desired level and the ORI team reported a satisfactory outcome. The biggest news, however, was the

successful conversion in less than a year, and return to a combat ready rating of C-3.

February also saw an assault on night radar missions for the Phantom jets. A new approach incorporated a mission en route to a nearby base, where the aircraft would land. After a quick "turnaround," the aircraft would fly another low-level radar sortie on the way back to Standiford Field. Arriving at Louisville at nearly midnight, the aircrews and ground crews had spent a long and tiring day, but the radar night missions were brought up to desired levels. Other ops training included flights which simulated missile threats, anti-aircraft fire, and hostile aircraft.

Also in February Lt Col John L. Smith, commander of the 165th Squadron, moved to the post of assistant wing operations director. Lt Col Austin "Pete" Snyder became squadron commander and Maj Joseph L. Kottak moved to the operations officer post in the 165th. In June Snyder moved out-of-state and by July Kottak was elevated to squadron commander. Maj William M. Irion became squadron ops officer.

From May 14 to June 11 the flying operations were moved to Ft. Campbell Army Air Field near Hopkinsville. The move was necessitated by an improvement project at Standiford Field which involved installing high-speed turn-offs and resurfacing some taxiways. Nine aircraft, aircrews in two-day rotations, and about 20 ground crew members at a time supported the operations there. From that point the flying program switched to Savannah, Ga., June 11-25, for annual field training. The aircraft and some maintenance personnel stayed at Savannah where operations continued from July 5-10, and on July 13 the Phantoms returned to Louisville where normal flying resumed.

Even with the interruption, it was a year of intense training for the Phantom aircrews. Eight months after the onset of the conversion the unit had moved back to C-3, by the last of May the squadron was C-2, and their forecast was to reach C-1 (the top) by August, but probably sooner. During March 26 aircrews went through emergency procedures training in the flight simulators at Shaw AFB, S. C. Another kind of ground training called "illustrative tasking" teaches the crews how to fly the European and Asian theaters of operations, and then the pilots and WSOs go to Shaw for simulator exercises which allow them to practice what they have learned in this process.

Feb. 4 the U. S. Senate confirmed the promotion in rank of Fred F. Bradley, wing commander, to the level of brigadier general. General Bradley, a native of Providence, Ky., became the fourth wing commander, but the first one since early in 1970, to wear the authorized rank for the position. He had assumed charge of the 123d Tac Recon Wing in December 1974 and in civilian life is an attorney and land owner in Franklin County, Ky., where he farms and raises thoroughbred race horses.

Maj Gen Richard L. Frymire, an Air Guardsman and the incumbent adjutant general of Kentucky, was appointed by the secretary of defense to serve on the Reserve Forces Policy Board for a term of three years. This prestigious group offers direct advice to the secretary on matters of high-level policy. General Frymire also served as secretary to the Association of the Adjutants General of the United States.

In early March word was received that John B. Conaway had been appointed by the secretary of the Air Force to become deputy director of the Air National Guard in the National Guard Bureau. While several former members of the Ky-ANG have served as Bureau level, it was the highest honor yet achieved. As of April 1 Conaway pinned on the rank of brigadier general, officially recognized by the U. S. Congress. He had been an air technician since 1965 and became commander of the base detachment since 1972. He also was serving as a vice commander of the 123d Tac Recon Wing at the time of his appointment to the NGB post.

Replacing Conaway as air commander of the full-time technician detachment was Col Carl D. Black, a former group commander and more recently deputy wing commander for operations. Col Black also assumed the post of vice commander of the wing. Following him as the deputy for operations was Lt Col John L. Smith, also a full-time air technician. Smith was a former commander of the 165th Tac Recon Squadron.

In April the 123d Communications Flight was selected as the best unit of its type in the South, placing it in competition for world-wide honors. It placed first among 30 units assigned to the Southern Communications Area of AFCS. Under the current command of Maj Henry S. Youd, the flight had a long record of accomplishment under Col Winfred L. Appleby and Lt Col Norris C. Delph, including more than four years of being rated as tops in combat readiness.

A continuing effort at community relations brought 120 Air Guardsmen into action in support of the annual Walkathon of the March of Dimes Foundation in Louisville. The event was coordinated by Lt Col Harry C. Greschel, chief of supply for the KyANG, along the 25-kilometer route. Once again the Air Guard also cooperated with the Kentucky Derby Festival Committee by supplying some security and medical first aid help which might be needed by members of the Army National Guard on duty. The medics also supported the Derby Festival Balloon Race with a crew of volunteers, as well as performing physical exams for children attending the Youth Camp sponsored by the Air and Army National Guard of Kentucky.

Field training for 1977 was held June 11-25 at Savannah, high-lighted by a reconnaissance competition. A challenge had been issued to other recon units, but only the 155th Tac Recon Group at Lincoln, Neb., responded. The Kentucky boys defended their skill and won the competition in both day and night photography. Four aircraft from the Lincoln unit were engaged in a test of skill with four from Louisville. Judges of the events were members of the 123d Reconnaissance Technical Squadron of Little Rock, Ark., a part of the wing structure. The Civil Engineers had gone to Tyndall in January and Weather Flight pulled field training at England AFB, La., in June.

As the fiscal year closed there were 156 officers authorized and 143 assigned in the KyANG. For airmen the figures were 862 authorized and 795 assigned to all units. This came to a total of 1,118 authorized spaces and 938 members actually taking part. The closely-related area of recruiting showed that 108 prior service persons were enlisted and 37 who had no prior experience. Included in that figure were 17 blacks and 24 female members as affirmative action programs continued to be effective. In social actions, no formal complaints were processed during the year.

Maintenance was able to support 4244 hours of flying through July 1 for the previous 12 months, an average of 353.6 hours per month. This included 2756 sorties, an average of almost 230 per month. Aircraft operationally ready climbed steadily at the end of the year to 56 percent in the month of June, despite runway construction at Standiford Field and deployment to Ft. Campbell.

The Year 1976—

The Phantom Years Begin

PHANTOM FUEL: Sgt Gary Frye hooks the nozzle of a refueling hose into one of the new Phantoms on the flightline at Standiford. Training in all phases of care and maintenance of the RF-4C occupied a force of technicians and part-timers. Frye later won his commission in the KyANG.

RARE VISIT FROM TAC COMMANDER: Gen Robert J. Dixon, commander of Tactical Air Command (TAC), visited Louisville May 16, 1976, to see at first hand how the RF-4C conversion was progressing. Participating in the meeting were, from left, Gen Dixon, Maj Gen Richard L. Frymire, the adjutant general; Brig Gen L.A. Quebbeman, assistant adjutant general for air; Col Robert Williams, senior Air Force adviser; Col Fred F. Bradley, wing commander; Col Carl D. Black, deputy wing commander; and Col John B. Conaway, air commander and wing vice commander. **BEAN SOUP AGAIN:** SSgt Gary W. Stormes and SSgt Nancy M. Blanchard served on the chow line. **BACK AT THE HANGAR:** MSgt Ronald Trump (left) an engine maintenance instructor for the Mobile Training Detachment (ATC) shows SMSgt Chester Knight of the CAM Engine Shop about cockpit maintenance on the Phantom II.

FLYING OVER LOUISVILLE: For a time during the transition period both the RF-4C and the RF-101 were being flown by the KyANG. As new aircrews were checked out, they moved into the Phantom, while the others kept flying the Voodoo until their turns came. Here a "mixed pair" soars majestically over Louisville, with Churchill Downs visible in the lower right. **SIMULATOR AT SHAW:** The crews went to Shaw AFB, S. C., for transition as rapidly as they could be scheduled. Here Captains Bill Leslie (seated) and Bill Beams received instruction from Maj Bob Storms of the 18th Replacement Training Squadron, using the flight simulator. **GASSING UP TO GO:** SSgt Jack Moorman (right photo, by truck), a fuels specialist, and TSgt Howard McIntosh, a Phantom crew chief, team up to tank up the Phantom on a new load of JP-4 fuel.

The Year 1976

DOWNLOADING CAMERA: SSgt Chester Royse, a sensor maintenance repairman, downloads a camera from the nose section of a Phantom. The RF-4C included radar and infra-red systems which the older Voodoos did not have. **MASHING SPUDS:** TSgt Jess Curd, food service supervisor checks a vat of mashed potatoes at Shewmaker mess hall. **BUFFET STYLE:** With the assistant wing operations director showing the way, this group of chow-hounds found an enjoyable buffet table. **STANDING GUARD:** SSgt Michael O. Harp, a CAM crew chief, likes to collect old uniforms—this one from Revolutionary War days.

Modern Minuteman Stands Alert

The Year 1976

TEST BENCH INSTRUCTION: Sgt Russell L. Pace (above, left) receives some help from a USAF augmentee, SSgt Francis Lunsford, in autopilot repair. Some test bench equipment was long in coming, causing delays in critical areas, including combat readiness ratings. **NAVIGATOR TRAINING:** The process continued with instruction for a group of weapons systems officers (WSOs). Here Capt Terry Clodfelter (right) receives some help from Capt Sam McDowell, an Air Force navigation instructor. **VERSAMATS:** Still an important factor was the automatic processing equipment of the Photo Lab. Here Lt Col Stan Worsham (left) confers with TSgt Dennis Hall and TSgt Fred White about a roll of reconnaissance film in a 430B van.

EYEING THE NEEDLE: SSgt Bill Bedo seems to be taking a long look at the hypodermic needle in the hands of Maj Verna Fairchild, who is head nurse in the Tac Hospital. Bedo is an admin specialist in the medics, himself. **MAINTENANCE ON DOUBLE DUTY:** While one crew of technicians worked on a newer RF-4C Phantom, another was working on an older RF-101C Voodoo, part of a double-vision problem the CAM Squadron was having during transition.

The Year 1977—

Year of the Reunion

OUTSTANDING GUARDSMAN: TSgt Jay Lowe, right, is congratulated by the wing commander, Brig Gen Fred F. Bradley for selection as the outstanding Air National Guardsman of the year. In center is Maj Arnold Voglesong, an optometrist with Tac Hospital, who was presented a 20-year Faithful Service Plaque.

RETIREMENT GROUP: Representing among them a total of 160 years' service, this quintet of old-timers grinned their way right into retirement: from left, Ralph Bronger, Mike Crandall, Jim Jackson, Chester Knight, and Paul Bronger. They retired on March 14, 1977.

THE FALCON: A short-lived project during 1977 was to have been the contest to pick a name for the KyANG mascot, a falcon (above). Alas, the bird wasn't sturdy enough to last out the contest. **RECRUITING:** MSgt Louis Caufield and Lt Col Don Armstrong put the arm on a potential recruit at a Veterans Fair in May 1977. Caufield is the chief recruiter for the KyANG. **OUR MAN IN WASHINGTON:** Effective April 1, 1977, Col John B. Conaway became a brigadier general and took the post as deputy director of the Air National Guard, moving to the National Guard Bureau. **BELOW RIGHT:** A civil engineer wears his hard hat while using a bench saw. It was A1C Glendon Lay. **THE PHANTOM HIMSELF:** Known as "Spook," this little man, equipped with cloak and tennis shoes, has sneaked his way all over the world following the Phantom II jets wherever they have flown. This particular piece of art was drawn especially for the base newspaper put out twice each drill weekend for the KyANG, known as "The Phantom's Eye."

KYANG

1977 The Reunion

By DON ARMSTRONG

The great reunion of 1977 brought together 10,000 people at Shewmaker Air National Guard Base in Louisville. To be sure, not all of those attending were former or even present-day members of the Kentucky Air National Guard—but a great many were. It was the largest and most impressive event held in the 30-year history of the Kentucky Air Guard.

It was also a moment of triumph for the State Headquarters staff, and the personal brainstorm of Col William P. "Willy" Gast, who led the way as reunion project officer. While at first there were those skeptics who said it wouldn't happen, or it wouldn't be what was predicted, in the end it was all of that and more. Advance estimates of the crowd had been guessed at 3,000, and that figure was tripled!

Armed with a battery-powered megaphone, Gast shepherded former Air Guardsmen together for the huge group photographs shown on these pages. Middle-aged Airmen, grizzled NCOs, and aging officers stood shoulder-to-shoulder. They laughed and joked about old times, and grinned as their compatriots, wives, and families shouted at them from the ring of spectators who surrounded the roped-off area reserved for reunion photographs.

Perched high above the sweltering ramp on an aircraft maintenance stand was the official photographer, Charley Amster. All around the area others squinted through the viewfinders of Kodak Instamatics and squeezed off frame after frame. Each group which followed—six in all—brought a new wave of renewals. From time to time, the photos were held up at the final moment by a last-minute arrival of someone who was about to be left out.

Men and women, boys and girls of all ages, sizes and descriptions swarmed over the parking ramp to see an impressive array of aircraft on static display. Representing equipment used by the Kentucky Air National Guard at various times during the 30-year span, they included a T-6 Texan, a T-28 Trojan, a T-33 "T-Bird," several F-51 Mustangs, an F-100 Supersabre (in place of the extinct F-86 Sabre Jet), an EB-57 Canberra (representing the RB-57s), an RF-101 Voodoo, a B-25 Billy Mitchell bomber (representing the B-26 Invaders), a C-118 from the Naval Reserve (representing the old C-54 Skymasters), the unit's own C-131 Samaritan, an ancient C-47 Skytrain, a C-45 Voyager, a U-3 Blue Goose, and—of course—the present-day RF-4C Phantom II.

In charge of static displays, parking, refueling and other related details was Col Billy J. Yeiser. He received much assistance from Maj Dick Jett and SSgt Mike Harp, who took charge of getting all of the

really hard work done with the transient aircraft.

If the sight of a real, operating Mustang taxiing out for takeoff failed to thrill some, it was probably because they didn't understand what they were witnessing. Finally, the beautiful, sleek little F-51 was rolled up nose-to-nose with a parked RF-4C, preparing for the group-photo setting. It was the reincarnation of history, and a living replica of this reunion publication, "1947-77: Mustangs to Phantoms."

Behind the scenes were many, many hard hours, days and months of work in preparation for the reunion. Presiding over it all was the Assistant AG for Air, Brig Gen Lawrence Quebbeman. One of the most difficult processes of all was the collection of photographs. Col Winfred L. "Win" Appleby moved more than one mountain in collecting over 2,000 photos which told the story. All were displayed on an immense set of free-standing white panels on the main floor of the Hangar.

MSgt Scotty Barker, who works in Frankfort for the Department of Military Affairs, took charge of a thousand details. He had considerable help from base personnel at Shewmaker, too. Behind the scenes from his desk at the Boone National Guard Center, Maj Dick Jett supervised and helped MSgt Jim Turpin and SSgt Marilyn Uptegraft with the mailings which went out to present and former Air Guardsmen, and the answers which came back. There were others, so many others.

The former commanders and other dignitaries mounted the platform late in the afternoon to add closing comments appropriate to the occasion. The founder, retired Maj Gen Phil Ardery, spoke for the old-timers. Brig Gen John Conaway extended the congratulations of the National Guard Bureau, and Maj Gen Richard L. Frymire, Kentucky's first blue suit adjutant general, summed it up. Lt Col Jack Crowner, emcee, introduced Brig. Gen Larry Quebbeman, the assistant adjutant general for air, Brig Gen Fred Bradley, the present wing commander, Brig Gen [redacted] from 12th Air Force, and three other retired former wing commanders Jack H. Owen, William H. Webster, and Verne M. Yahne.

Finally, down swooped the Phantoms—bringing the present together with the past. They roared overhead, circled and came back again. Tired and very happy with the day's events, the crowd stood talking for quite some time. Some headed for the Club and others made their way home. The 30th anniversary reunion was history, and it was beautiful all the way.

KyANG 1947-51 (left to right), first row—Jackie Carwell, Tom Spalding, John Rice Sr., Martin Rice, Donald McGuire, Fred Stroberg, Ray Bundscheu, Joe Marcum, Earl Cundiff, C. B. Robertson, Bernie Shaughnessy, Tom Lamb, Paul Marks, Bob Stiles, John Buffat, Fred Street, Second row—Charles Posepny, Moss Harrigan, Lynn Morgan, Ray Sanders, James L. Doyle, Ed Lankford, Willie Goatley, Buck Childers, Jack Dunn, Donald Bolton, Jerry Plappert, Bud Marcum, Paul Bronger, Douglas McGill, Charlie Warren, Craig Alford, Bob Allen, Walter Carter, Bob Toomes, Carl Cox, Ed Stowers, unidentified. Third row—Jim Jackson, John Mulhall, Robert Botkin, Chris Baker, Winston Humphrey, Lou Scheu, Charlie Sellins, Ed Schulz,

Lynn Hayes, Stuart Gaines, M. E. Douglas, Stanley McGee, Albert Schmidt, Larry Quebbeman, Albert Higgins, Harry McAllister, Steve Ciukaj, Carl Schuster, Joe Shaughnessy, Gil Ralston, Ralph Bronger, Reuven Bass, Carter Simmons, Tom Murray, Sam Duncan, Louis Bruner, Bob Hendricks, Elmo Burgess, Jim Yonts, Jim Kline, Russell Brown. Fourth row—Bill Gast, Harold Kleinert, Charley Johnson, Nathan Steadley, Merrick Gray, William Whittle, Henry Hite, Charles Schramm, George Duncan, Jean DeConstant, Stan Berry, Jim Mehne, Roy Adams, Charles Wilson, Leonard Moore, Bill Moore, Mac McBride, Jack H. Owen, Ed Makoney, Don Belton, Charlie Sauer, Sam Cooper, Bill Vonderhaar, John Lawrence, and Milford Dutton.

KyANG 1952-56 (left to right), front row—Billy Williams, Fred Cross, Glenn Napper, Paul DeMeuth, Harry Greschel, Gene Weppner, Lester Spalding, Don Maddox, Ed Hornung, Paul Kessler, Bob St. Clair, Bud Marcum, Raymond Jeffries, Ray Harding, Mike Westerman, Carl Ebert, John Richeson, William F. Wathen, Jim Amburgey, Carl Cox, Henry Julliard, Chester Knight. Second Row—Don Farris, Win Appleby, George Newman, Lou Colgate, Ken Dungan, Lowell Webb, Jim McClure, Verne Yahne, Don Durbin, Hugh Carberry, Charles Cox, Charles Corfield, Ralph Hubbard, Jim Cline, Preston Williamson, Cliff Chapman, Edwin Roberts, Kenneth Archer, John J. Sales. Third row—Ian Griffin, Earl Duley, Gene Yost, Bob Lindsey, Bernie Hite,

Bob Lawrence, Cliff Sachleben, Hurst Forster, Melvin Richeson, Gerald Cortus, Leroy Martin, Jim White, Sam Farquahar, Jack Weber, Joe Schiller. Fourth row—Ed Holt, Jim Evens, Bill Dotson, Myrle Langley, Ed Holloway, Clarence Napier, John Lancaster, Ed Logsdon, Doug Dalton, Ed Wiseman, Jim Daugherty. Fifth row—Bill Bond, Paul Coyle, Charles Phillips, Sam Cooper, Richard L. Frymire, William H. Robertson, John M. Karibo, Ken Mayes, Leonard Moore, Jerry Korfhage, Don Krish, Charles Grass, Tom Scully, Bob Botkin, John Hethel, Don Westerman, Will Raymer, John Swenson, and Mike Crandall.

KyANG, 1957-61 (left to right), first row—Walter Baker, Dick Ottman, William H. Webster, Kent Troutman, Roy Ellis, Bob Costello, Norbert Goss, Charles Cobb, John J. Sales, Jack Cassidy, Fred Biechner, Gilford Clifton Jr., John Hill, Ken Elbert, Carroll Barrett, Charles Babb, Henry Nelson. Second row—Harold Thomas, Elliott Truman, Bill Seiber, Stanley Pohl, Glenn Miller, Jim Snodgrass, Doug Hensel,

Jess Brown, George M. Bowes, Michael Amin, Jerry Cassidy, Herman Englar, George McCracken, Pat Powell, Ray Yoder. Third row—Richard Lennan, Gene Gast, Emery Burnett, Richard Ellingsworth, Bob Keyser, Jack Finck, John Hubbard, George Becker, Jim Kessler, James S. Long, Edward C. Martin, Russell Johnson, Tom Bizzell, John Goulding, and Lou Phillips.

KyANG, 1962-66 (left to right), front row—Gary Brock, Jim Wolfe, Don Pack, Pat Henahan, Dan Clark, Hunter Moore, Dennis Hall, John Henry, Tom Brown, William H. Webster, Harold Graves, George Townsend. Second row—Kenny Glass, Glenn Hoehler, Jim Baldwin, Tom Bowling, John Charbonneau, Jay Paxton Sam Conder, Don Wilhelm, Don Baker, Wayne Bradley, Al Fiorucci, Carl D. Black, Marvin Perryman, Marshall Lay. Third row—John Pearl, Gary Ezell,

Mike Ryan, Don Krigbaum, Gary Bettag, Frank Alton, Bill Bailey, Charles Lockman, Gil Rechtenwald, Bill Cherry, Mike Cash, Perry McCollom, John B. Conaway, Art Tesmer, Norris C. Delph, James Archer, Stewart Ray. Fourth row—Norm Eppler, Bob Eppler, Paul Hill, Norb Whitlock, Joe Brown, Jerry and Jack Cassidy, Lyman Cooper, Thomas G. Mooney, Glenn E. Duhs, Marvin Crouch, and Don Armstrong.

KyANG, 1967-71 (left to right), front row—Billy J. Arnold, Jose A. Fernandez, Billy Joe Yeiser, Mick Gannon, John Smith, Robert Pulliam, George Hancock, Thomas McClure, Ray Bivin, William F. Pearce, Dan Noland, Bill Clark, Don Burch, Jackie Reed, Second row—Wayne Scott, Richard Jett, William Robinson, Robert Williams,

David Yahne, Steve Harned, Larry Belcher, Fred Lay, Harvey Lay. Row three—Richard Wilson, Steve Stengel, John Greene, Don Ryan, Larry Zettwoch, John Ogden, William Sale, Bob Allen, Charles Poole, and Vernon Cantrell.

KyANG, 1972-77 (left to right), first row—Dick Gould, Wayne Milan, Larry Ricketts, Jim Saltzman, Willard F. Cowan, Richard Ash, Alice Charbonneau, Jane Hite, Howard Rutledge, Jim Roth, Paul Price. Second row—Skip Weaver, Bill Irion, Don VonGruenigen, Bill Spencer, Niel Woodcock, Thurston Sullivan, Donald O'Toole, Jerry Dunsaway, Robert Kuhnle, Irvin Pope, Theresa Korte, Rod Logsdon, Sam

Caudill. Third row—Stewart Byrne, Austin Bond, John Catlett, Richard Eaton, Charles Ewing, Gary Wooden, Clyde C. Davis, Dwight Pounds, Tom Hardesty, John Silverman, Carol Crawley, Ken Coogle, Fourth row—Johnnie Kennard, Jack Moorman, Bill Moore, Rick Scanlon, Gary Walz, and Bill Eberle.

1977

The Reunion

FORMER WING COMMANDERS: Four retired former wing commanders of the 123d Wing were present for the 30th anniversary reunion. Four of them are shown here: Brig Gen Jack H. Owen, Brig Gen William H. Webster, Maj Gen Philip P. Ardery (shaking hands with Owen), and Col Verne M. Yahne, seated. If time had permitted, oh the stories they could have told! Two other wing commanders, Brig Gen Lawrence A. Quebbeman, now assistant adjutant general for air, and the present commander, Brig Gen Fred F. Bradley, also were on the platform. Absent was retired Col William J. Semonin of Louisville. **ALL THE GUARD'S MEN:** People, people everywhere. That was much of the story of the 30th reunion day. The crowd inched through the Hangar, listening to the entertainment from the Army National Guard Band, viewing the nostalgia photos on the serpentine display boards, or seeking shelter from the blistering sun on the ramp. Others farther out on the pavement enjoyed the displays of aircraft from Mustangs to Phantoms—where have we heard that phrase?

**The Crowd
Topped 10,000
August 28**

WELCOME BACK, PAT: In the year 1960 the KyANG dedicated Shewmaker ANGB in honor of John William Shewmaker. August 28 his widow, Pat, returned to the base with her husband, retired major Charles Phillips of New Albany. Here they converse with a former wing commander, retired Brig Gen William H. Webster (coat in hand, right). Mrs. Phillips was introduced to the audience by retired Maj Gen Philip P. Ardery, who presided over the ceremonies at which the base was named for the late Capt Shewmaker. Phillips is a bank president, the same profession as Webster. THIS IS SHEWMAKER: The huge Hangar building still bears the name of Shewmaker, emblazoned across the top of the structure (see photo, bottom left).

Pat Returns To Shewmaker For Reunion

THE GANG'S ALL HERE: Wives, children and even parents came to enjoy the extravaganza of the 30th reunion. (Top) The parents of Capt Edward W. Tonini enjoyed a bit of nostalgia as Elmore Tonini showed his wife, Cleona, and son, Ed (1969-present) how he once flew the B-25 Billy Mitchell medium bomber in World War II, as a pilot for the 350th Bomber Division stationed in Italy. (Right) Once the scourge of Kansas City, the trio of Little Robbie, Big Ed, and Old DA celebrated a chance to get back together again. From left are retired Lt Col Edward C. Martin (1962-76), Bowling Green, Lt Col Don Armstrong (1965-present) of State Staff, and Lt Col Charles B. Robertson (1950-69), retired and living at Finchville. (Below) The F-51 Mustang "Gunfighter" was the backdrop for a pair of stalwart pioneers. TSgt Leonard Moore (1950-52), left, talked over old times with the state air surgeon, Lt Col Samuel L. Cooper (1950-present).

The Reunion

GREETINGS FROM THE CONFEDERACY: The pilots from the Confederate Air Force brought wing commander Brig Gen Fred Bradley a special color print of some of the World War II aircraft which the southerners operate for the love of flying. It came as part of the platform ceremonies at the reunion, Sunday, Aug. 28. (Above) Welcoming Brig Gen John B. Conaway (1962-77), left, was Lt Col Jim Archer (1962-present), commander of the 123d Combat Support Group. Gen Conway is now deputy director of the Air National Guard at the National Guard Bureau in Washington, D. C. (Below) Aviation is for kids of all ages—father Norman Harned shows his son, 2-year-old Jeffrey, the nose of a B-25. Watching with interest is wife and mother Maureen Gentry. Norman is a technical sergeant in the 123d Comm Flight.

REUNION FLYOVER: The capstone of the "show" Aug. 28, 1977, was a beautifully-executed flyover demonstrating some of the capabilities of the RF-4C Phantoms being used by the KyANG. In the top photo the four-ship formation streaks across an August sky, leaving thin trails of exhaust smoke. **LIKE OLD TIMES:** Lt Col Bill Seiber, left foreground (1961-present), found a face among the throng who gathered to celebrate the reunion. He talked with retired 1st Lt Dan

Farris (1959-64) and his wife, Brigitte. Seiber's son, Will, and Lt Col Harry Greschel also are visible in the picture. **THOSE WERE THE DAYS:** A trio of veteran Air Guardsmen shared recollections, standing in the shadow of a Phantom II. Retired SSgt W. E. Whittle (1947-51), left, conversed with MSgt Joe Shaughnessy (1947-present) and SMSgt Chris Baker (1947-74) about memories of the early days.

The Chronology of the KyANG: 1947-77

1942

Jan. 15 . . . The 359th Fighter Group was created at Westover Field, Mass., composed of the following:

368th Fighter Sq
369th Fighter Sq
370th Fighter Sq

1943

April 7 . . . Headquarters and squadrons moved to Grenier Field, N.H.

May 25 . . . All units were moved to Republic Field, N.Y.

Aug. 23 . . . Units were moved again, this time to Westover Field, Mass., again.

Oct. 2-8 . . . In preparation for moving overseas, the units moved to Camp Kilmer, N.J., and from there through the New York Port of Embarkation for shipment to England.

Oct. 17 . . . Arrived aboard the U.S.S. Argentina in British Isles where the units became part of the Eighth Air Force.

December . . . Some of the pilots, flying with other units, had already seen combat when the group and squadrons entered combat officially. They began flying operations using the P-47 Thunderbolt fighter aircraft.

1944

April . . . The Thunderbolts were replaced with the newer P-51 Mustang.

At first, the squadrons were engaged primarily in escort activities to cover the bombers attacking airfields in France.

May . . . They began providing escort for bombers with the P-51 and its longer range,

striking rail centers in Germany and oil targets in Poland.

June . . . They supported the Allied invasion of Normandy, patrolling the English Channel, escorting bombers to the French coast, and attacking ground targets near the battle areas.

July . . . Through the remainder of the year they were engaged chiefly in escorting bombers over strategic targets.

Sept. 11 . . . The Presidential Unit Citation was awarded to the 359th Fighter Group and its units, including the 368th Fighter Squadron, for outstanding performance in action against the enemy in Germany.

The group and its squadrons were entitled to battle credits for participation in the following campaigns:

Air Offensive, Europe
Normandy Campaign
Northern France Campaign
Ardennes Campaign
Central Europe Campaign
Rhineland Campaign

1945

November . . . Personnel of the 359th Fighter Group and its fighter squadrons were returned to the United States aboard the Queen Mary and arrived at Camp Kilmer, N.J., where they were inactivated Nov. 10.

1946

May 24 . . . The 359th Fighter Group was redesignated as Headquarters, 123d Fighter Group, and allotted to the Air National Guard of Kentucky, together with its colors and World War II battle participation credits. The 368th Fighter Sq was also allotted to the KyANG with its colors and record, and redesignated as the 165th Fighter Squadron

(Single Engine) together with the 165th Utility Flight. Both units were assigned to the 123d Fighter Group.

July 22 . . . Organization of the units was authorized by the War Department. This organizational authority was extended in October and December during the process of organizing and manning the KyANG.

1947

Feb. 16 . . . Federal recognition of the Kentucky units was granted by the National Guard Bureau. Recognition of the group headquarters was temporarily withdrawn in June 1947. Personnel of the group headquarters were reassigned temporarily to the other units, particularly the 165th Fighter Squadron.

Original units of the Kentucky Air National Guard were:

Hq 123d Fighter Group
Hq Det, 223d Air Service Group
Det A, 223d Air Service Group*
165th Fighter Squadron
165th Utility Flight
165th Weather Station

*Detachment B of the 223d Air Service Group was allotted to West Virginia and Detachment C to Ohio. Also parts of the 123d Fighter Group were the 167th Fighter Squadron and 167th Utility Flight of West Virginia.

Sept. 20 . . . Federal Recognition for Headquarters, 123d Fighter Group was restored by the National Guard Bureau.

1948

Aug. 21 . . . Kentucky Air National Guard west to summer training for the first time, visiting Atterbury AFB, Indiana, until Sept. 4.

The Chronology of the KyANG: 1949-58

1949

July 8-24 . . . Summer camp training at New Castle County Airport, Wilmington, Delaware.

1950

Aug. 6-20 . . . Field Training was conducted at Lockbourne AFB, Columbus, Ohio, with the entire 55th Fighter Wing participating.

Sept. 25 . . . Advance detachment of the 123d Fighter-Bomber Group is created in anticipation of the call-up of the KyANG for extended active duty in connection with the Korean conflict. Personnel from Kentucky also are joined by men from the ANG of West Virginia and North Carolina.

Just prior to the activation of the unit, ten F-51s were flown to the West Coast and were transported to Korea aboard the aircraft carrier "Boxer."

Oct. 10 . . . The 123d Fighter Group, personnel and equipment and placed on active duty at the direction of President Harry S. Truman. They are ordered to report to Standiford Municipal Airport to serve for a period of 21 consecutive months unless sooner relieved. The unit is a part of the First Air Force, Continental Air Command. Elements called to active duty:

123d Fighter Group
165th Fighter Squadron
223d Air Service Group (less Det C)
165th Utility Flight

Their mission aircraft were 25 F-51Ds and four B-26s, along with two C-47s and six T-6 trainers.

Oct. 13 . . . The units were ordered to move at existing strength to Godman Field, Ft. Knox, Kentucky, at the earliest practicable date.

Oct. 19 . . . With much fanfare and publicity, the mobilized units were mustered at Standiford Field to prepare for moving men, equipment and aircraft to Godman Field.

Oct. 20 . . . They arrived at Godman where they were relieved from First Air Force and assigned to Tactical Air Command and Continental Air Command (TAC-CONAC) jointly.

Oct. 26 . . . Along the lines current at that time, the combined units of the former Air National Guard organizations from Kentucky, West Virginia and North Carolina

were merged at Godman Field and reorganized in accordance with the wing-base plan:

Hq, 123d Fighter-Bomber Wing
Hq, 123d Fighter-Bomber Group
156th Fighter-Bomber Sq (N.C.)
165th Fighter-Bomber Sq (Ky.)
167th Fighter-Bomber Sq (W.Va.)

Nov. 8 . . . Units will be redesignated as the 123d Fighter-Bomber Group and the 165th redesignated as a Fighter-Bomber Squadron.

Col Philip P. Ardery of Louisville, Ky., was named commander of the newly-created wing headquarters.

Dec. 1 . . . The wing is relieved from its assignment to ConAC and assigned directly to TAC, without change in strength or duty station.

1951

Jan. 22 . . . Units were moved under the control of Ninth Air Force.

The units continued to fly their F-51D aircraft and to train in their fighter-bomber mission. This included extensive air-to-air gunnery exercises at Eglin AFB, Fla., and Exercise Southern Pines in North Carolina during 1951. Other activities at Godman included Operation Snowflake, Operation Longhorn and a number of firepower demonstrations.

Replacements pilots for the F-51 were trained and sent to Korea for tours with Air Force units there. Five of the pilots were killed in combat, including Capt. John W. Shewmaker for whom the Air National Guard base at Louisville was later to be named.

Sept. 18 . . . The units were alerted for permanent change of station to Europe.

Oct. 12 . . . Advance detachment was ordered to move overseas through Westover Port of Aerial Embarkation, Mass., by Nov. 6.

Nov. 10 . . . Advance detachment arrives at Manston Royal Air Force Station, near Kent, England.

Nov. 15 . . . Main body of men and equipment left Godman Field for Camp Kilmer, N.J., and the New York Port of Embarkation for shipment overseas.

Dec. 7 . . . Remainder of the main body arrived at Manston RAF Station.

Dec. 16 . . . The Wing is reassigned to Third Air Force, to the US Air Forces in Europe (USAFE).

1952

After an intensive transition program to qualify the tactical pilots, the unit began flying the F-84E Thunderchiefs, the first jet aircraft ever flown by the unit.

The unit participated with NATO joint operations in many parts of Europe, including Grand Alliance at Neubiberg, Germany; Blue Alliance at Furstenfeldbruck, Germany; and Castanets at Tripoli in North Africa.

Feb. 9 . . . The 123d Field Maintenance Sq, the 123d Supply Sq and the 123d Transportation Sq were activated as parts of the Wing.

April . . . The Wing was given a rigorous operational readiness inspection by USAFE and achieved successful ratings, based upon the strictest criteria.

May 12 . . . Units receive word of still another reorganization to become effective June 16.

July 9 . . . The units themselves released from active status and returned to control of their respective state Air National Guard organizations. The next day, July 10, they were given federal recognition and were redesignated as Fighter-Interceptor units.

Since the Wing Headquarters was created during the active duty period, the 123d Fighter-Interceptor Wing and the 123d Tactical Hospital became state assets for the first time. The Fighter-Interceptor Group headquarters and the 165th Fighter-Interceptor Sq were also regained by Kentucky, while the 156th Fighter-Interceptor Sq returned to the North Carolina Air Guard and the 167th Fighter Interceptor Sq went home to the West Virginia Air Guard.

The Kentucky units resumed use of the F-51 Mustang, flying the mission of air defense under the Air Defense Command, now that they were back in Louisville.

The return of the Wing headquarters to the state of Kentucky represented a large net gain in troop strength, moving from 615 to a total of 1,121 authorized spaces.

1953

Jan. 1 . . . Units of the 123d Fighter-Interceptor Wing, including the Group Headquarters and the 165th Squadron, were re-

designated once more—this time as Fighter-Bomber units.

July 5-19 . . . Units of the wing participated in annual training exercises at MacNamara Air Base, Grayling, Mich. Joining in were units of the West Virginia Air National Guard, including the 167th Fighter-Bomber Squadron.

Sept. 28 . . . Four Air National Guardsmen were cited for their heroic efforts to rescue survivors in the wreckage of a chartered C-46 transport carrying soldiers from Camp Kilmer, N.J. to Ft Knox, Ky. Recognized for their bravery were Jess B. Brown, Walter Carter, Howard A. Curtis and Charles W. Simmons, all air technicians.

Nov. 20 . . . The wing completed its first inspection since returning from active duty, conducted by a team from First Air Force, Mitchell AFB, N.Y.

1954

All through the year a controversy raged in the Louisville area over whether Standiford Field runways would be opened to jet aircraft or whether there would be a new airport developed farther from the city. Col Ardery and Lt Col Lee J. Merkel worked diligently to convince city and Air Board officials of the need to modernize Standiford Field.

Mar. 5 . . . Brig Gen Winston P. Wilson came to Louisville to inform the Air Board that the ANG would settle for a 2800-foot extension to the existing runways of Standiford. It would bring the length to 7800 feet.

April . . . The Kentucky Air Guard received its first two jets, at Standiford Field, F-84s. However, they could only be used for ground training because the runway problem had not yet been settled.

Annual field training was held at Travis Field, Savannah, Ga., for the first of many times. The unit was to return to Savannah for field training in 1955, 1956, and 1957.

Oct. 6 . . . The Kentucky Medal of Valor was presented to Brown, Carter, Curtis and Simmons by Governor Lawrence Wetherby. They were the first recipients ever to win the Kentucky award.

1955

Jan. 24 . . . Philip P. Ardery, senior commander of the Kentucky Air National Guard since its founding, was promoted to the rank of brigadier general, the first Air Guardsman ever to wear a star.

July 1 . . . Units were redesignated as Fighter-Interceptor outfits.

Oct. 20 . . . Lt Col Merkel announced that the Air Force was expected to assign three T-33 jet trainers to the Air Guard for training pilots in the use of jet aircraft.

1956

Jan. 31 . . . Lee J. Merkel, veteran commander of the base detachment and vice commander of the 123d Fighter-Interceptor Wing, was killed in an air crash of an F-51 Mustang 10 miles north of Bedford, Ind. He was the third pilot to die in an air crash since Air Guard units began operating from Standiford Field. Thomas F. Mantell, Jr., was killed in January, 1948, near Franklin, Ky., chasing a UFO. Richard L. Ross died in October, 1950 in a crash at Ft. Knox.

April . . . Work was begun to extend the Standiford runway to 7800 feet to accommodate jet aircraft. Included were plans for the Air Guard's new aircraft, Sabrejets, to take off and land.

June 1 . . . Lt Col Verne M. Yahne was installed as base detachment commander, succeeding the late Lee Merkel.

Sept. 13 . . . The first of the long-awaited F-86 Sabrejets arrived at Standiford Field. The full complement of 25 Sabres was expected by Oct. 15, with three T-33s and eight T-28 trainers.

Dec. 18 . . . Bids for construction of the \$1.8 million expansion to the Air National Guard installation at Standiford Field were opened by the Corps of Engineers. The award went to Robert Simmons Construction Co., of Louisville, and enabled the Air Guard to move from the present-day Bremner Biscuit Co. facilities. Included in the expansion were a hangar, parking ramp and taxiways, supply and armament storage, a motor pool, a crash house, and fuel storage area. The new facility was located on a 51-acre tract on Grade Lane.

1957

January . . . Jets from the ANG were scheduled to start using the new extension of the runway by the end of the month.

June 17 . . . Four members of the Ky ANG were awarded Soldiers Medals for their heroism in an airliner crash at Standiford Field March 10. Decorated by Lt. Governor Harry Lee Waterfield were Jean W. DeConstant, Malcolm T. Bowen, James P. Lovelace and James R. Mack. The awards were made at Savannah where the 123d was undergoing field training.

July . . . Four new units were added to the KyANG, including a Headquarters unit, Air Police, Food Service, Installations and Communications Squadrons.

July 1 . . . The units have been redesignated as Fighter-Interceptors again under the Air Defense Command and began their new task of runway alert with their F-86 Sabrejets. Pilots were quartered and kept on a ready alert status on the flight line so as to be able to be airborne three minutes after an alert was sounded.

Nov. 16 . . . Two plaques in memory of Lee Merkel were presented to the Air Guard and to the family by representatives of the Standiford Civic Club.

Oct. 30 . . . 2d Lt Richard L. Hudson was killed in the crash of a Sabrejet near Vevay, Indiana.

1958

Jan. 15 . . . The 123d Fighter-Interceptor Wing, the Group Headquarters and the 165th Squadron were redesignated as Tactical Reconnaissance units, and the organizations brought under TAC. Units of the newly-reorganized wing were:

Hq, 123d Tac Recon Wing
Hq, 123d Tac Recon Group
117th Tac Recon Sq (Kan.)
123d Rec Tech Sq (Ark.)
154th Tac Recon Sq (Ark.)
195th Tac Recon Sq (Cal.)*
*Temporary Assignment

Another part of the reorganization was the release of the West Virginia and North Carolina squadrons from the 123d Wing.

Feb. 15 . . . Public announcement was made of the changes, including transition to reconnaissance aircraft with the RB-57B Canberra. The reorganization brought a total assigned strength of 840 officers and airmen.

Mar. 25 . . . The reorganization is completed by moving the wing from First Air Force to 14th Air Force under TAC.

June 27 . . . Plans were announced for the construction of an Operations and Training Building to be added to facilities of the Air Guard and Standiford Field, bringing the physical plant to a value of \$5.3 million.

Field training was accomplished for the first time at Gulfport, Miss., where the pilots of the 165th Squadron utilized both the F-86 and the RB-57 in order to accomplish its training tasks.

July . . . Operations in the new buildings at Standiford were begun in July, more than doubling the available space for many sections.

1959

National Guard Bureau called a meeting to assist ADC with RB-57 aircraft in an exten-

The Chronology of the KyANG: 1958-68

sive commitment called "Eye Opener," designating the ANG commitment to air defense missions. These exercises were held at McChord AFB, Wash.; Tampa, Fla.; Battle Creek, Mich.; Cold Lake and Saskatoon, Canada.

May 1 . . . Contract let for resurfacing the main north-south runway at Standiford with four-inch coating of asphalt, using ANG funds.

May 4-10 . . . First annual federal inspection following assignment of the RB-57B reconnaissance aircraft. Rating was the "best the wing has ever received."

August . . . Late in the month the transition to Canberras for unit aircrews was completed.

Aug. 15-30 . . . Field training was held at Gulfport, Miss., and was called "highly successful."

Dec. 23 . . . William Dunn Ott, a member of the KyANG since its organization, was appointed assistant adjutant general for air with the state grade of brigadier general.

1960

The annual report for the Adjutant General of Kentucky reported that construction for the period 1958-60 had come to a total of \$1.5 million. This included a \$470,000 Operations and Training Building, a \$34,000 runway barrier and the \$240,000 runway resurfacing project.

Commitments to "Operation Eye Opener" continued throughout the year as the KyANG accepted wider and wider photographic reconnaissance assignments.

March 31-April 1 . . . The 123d Tactical Reconnaissance Group and the 123d Maintenance and Supply Group were inactivated as of March 31. On April 1 the 123d Armament-Electronics Maintenance Sq was activated and the 123d Field Maintenance Sq was redesignated as the 123d Consolidated Aircraft Maintenance Sq. The 123d Transportation Sq and 123d Air Base Group were assigned to Arkansas but located in Louisville.

June 11 . . . The Air National Guard facility at Standiford Field was dedicated to the honor of a former member of the unit, Capt John William Shewmaker, killed in Korea Oct. 23, 1951, while flying with the 111th Fighter-Bomber Sq. Members of the family were guests of the KyANG for the occasion.

June 30 . . . Operational readiness index had remained at about 70% because of the organizational changes. The 746 men assigned against 847 spaces before the change were dropped in percentage of manning when 152 added spaces were added by the reorganization. Units were under Ninth AF (TAC) as of July 1.

Aircraft inventory at the close of the month -12 RB-57Bs, three RB-57Cs, and the ever-faithful C-47A.

July 2 . . . Federal recognition was extended to William Dunn Ott in the grade of brigadier general, making him the second general officer in the KyANG.

July 23-Aug. 6 . . . Field training was held together with the 117th Tac Recon Squadron from Hutchinson, Kan., and the 154th TRSq from Little Rock, Ark.

Nov. 30 . . . Brig Gen Philip Ardery announced that he would accept a new assignment at Headquarters, U.S. Air Force, in the Office of Information.

Dec. 4 . . . The 165th TRSq is one of nine ANG units designated as "outstanding" for operational readiness.

1961

January . . . Two more RF-57s from Kentucky flew to Alaska to join the one which had gone in October to perform advance photo coverage for "Operation Willow Freeze."

February . . . Seven more Canberras went to Alaska for 15 days. They completed 71 photo sorties in 200 hours of flying time before "Willow Freeze" was completed.

March 11 . . . Col William H. Webster assumed command of the 123d Tac Recon Wing from Brig Gen William Dunn Ott, who had been serving as acting commander since resignation of Gen Ardery. Webster, a banker, had moved to Louisville from San Antonio, Tex., and previously had been assigned to the AFRes.

April 1 . . . The 192d Tac Recon Sq of May ANGB, Reno, Nev., was assigned to the 123d Tac Recon Wing.

June 30 . . . With strength back above 90%, the unit was rated C-1 in combat readiness. A new Engine Buildup Shop was completed, valued at \$38,000.

July 22-23 . . . "Operation Big Sweat" brought the new command post into operation for the first time. The post was equipped with multiple telephones, other communications equipment and large status boards to chart unit operations.

Aug. 5-20 . . . Field training at Gulfport, Miss., was accompanied by commitment of eight Canberras and 60 men to "Swift Strike I" at Shaw AFB, S.C.

For the first time, personnel of the KyANG were flown by jet transport C-97s, giving the unit two additional days of field training time.

Sept. 6 . . . Six Canberras and a C-47 went to Bermuda for an ADC exercise. The RB-57s flew nonstop on return to Standiford Field.

1962

Aug. 2-16 . . . Field training was held at Phelps-Collins ANGB, Alpena, Michigan, together with the 117th and 192d Tac Recon Sq. Kansas unit was awarded the Spatz trophy during the encampment.

Oct. 14-15 . . . Group headquarters, shelved in 1960, was reactivated under the double-deputy organizational plan. The changes created the 123d Reconnaissance Technical Sq (Adams Field, Little Rock, Ark.), 189th Tac Recon Group (Little Rock AFB, Ark.), 190th Tac Recon Group (Hutchinson, Kan.), 152d Tac Recon Group (Reno, Nev.), all of which were placed under the 123d Tac Recon Wing, headquartered at Standiford Field Louisville.

1963

May-June . . . "Big Blast Papa" and "Apache Opal" exercises tested ADC radar and fighter interceptor capabilities along the East Coast, involved KyANG "intruders."

Aug. 9-24 . . . Field training at Gulfport Municipal Airport went on concurrently with Swift Strike III which took six Canberras and 120 men to Robins AFB, Ga. Kentucky units at Gulfport were joined by the Arkansas Air Guard.

1964

June 30 . . . KyANG registered about 111% of "programmed strength" because of the added pressure of the draft during the Vietnam conflict.

Aug. 1-15 . . . Field training was held at Otis AFB, Falmouth, Mass., with the 152d Tac

Recon Sq of Reno, Nev. It tested the long-range airlift capability of the ANG units of New York and Pennsylvania to transport 455 men and 89,000 pounds of cargo. While at Otis the units were visited by TAC commander, Gen Walter Sweeney Jr., and 9th AF commander, Maj Gen Marvin L. McNickles.

1965

January . . . for 11 days, around-the-clock work by KyANG technician mechanics modified all of the B- and C-model Canberras for use by the USAF in Southeast Asia. They removed the cameras, installed armament, changed seven engines and put five aircraft through phase inspection. Their work rated a commendation by Air Force Secretary Eugene M. Zuckert.

Feb. 16 . . . Public announcement was made that the 17 RB-57As would be replaced with the RF-101 Voodoo by October. The Voodoos operated at speeds up to Mach 1.5 (1170 mph) as compared with the Mach .85 speed limit of the Canberras (600 mph).

March 12 . . . Jack H. Owen, chief of staff for State Headquarters, and William H. Webster were promoted to brigadier general.

July 6 . . . The first Voodoo arrived at Standiford Field from Bentwaters, England, where the F-101s were used as air defense fighters. Crews had already gone to Shaw AFB, S.C., for training. Col Verne Yahne, deputy wing commander, was the first to solo, followed by Col Eugene F. Kinnaird, Lt Col Robert K. Hendricks and Lt Col James H. McClure.

Aug. 7-21 . . . Field Training was modified by transition training for the RF-101. The units stayed at Standiford Field to use the three Voodoos which had arrived by that time. Troops from out-of-town were quartered in a motel for the first time ever.

Oct.-Nov. . . . The RF-101, including extensive modifications to install camera systems and remove armaments, was valued at about \$3 million each. Model A and D Voodoos were modified to become G- and H-models, and the KyANG acquired a total of 24 Voodoos in the process. Total assets of the Air Guard in Louisville were now rated at \$74.6 million.

Nov. 26 . . . A controversy erupted involving the FAA and the Air Board operating at Standiford Field. At issue was a barrier cable installation needed by the ANG required for landing the Voodoo at speeds around 200 mph. The result was a suspension of flying operations by the KyANG from Standiford Field. Aircrews were ferried, almost daily, first to Ft. Campbell and then to McGhee-Tyson ANGB at Knox-

ville, Tenn., to continue in their transition training for the RF-101. (The cable functions as an arresting device in case of landing emergencies for the jets.) The FAA refused to budge because of its regulations which would not permit anything to protrude above the ground near a civilian runway.

1966

Jan. 28 . . . After much publicity and several attempts, a compromise was reached between the NGB and the FAA-Air Board. The cables were to be installed farther out toward the ends of the runways across areas called "blast pads."

April 26 . . . Voodoos began returning to Louisville from McGhee-Tyson. Work on the landing barrier was expected to be completed by the end of the week.

The 123d Tac Recon Group was declared winner of the 1965 Spaatz Trophy for flying proficiency while under the command of Col Eugene F. Kinnaird. The trophy was received by Maj Gen A.Y. Lloyd at the NGA annual meeting and presented to Col Kinnaird Nov. 19.

April 27 . . . Brig Gen Jack H. Owen was named to replace Gen Webster as commander of the 123d Tac Recon Wing. Col Yahne replaced Gen Owen as Chief of Staff of State Headquarters, Col Kinnaird became deputy wing commander and Lt Col Lawrence A. Quebbeman was named group commander.

June 4-18 . . . Field training at Savannah, Ga., was interrupted by Hurricane Alma, which struck the west Gulf coast of Florida with winds up to 93 mph. Aircrews were scheduled to receive their first air-to-air training in refueling the RF-101, but the Voodoos were moved back to Standiford Field.

September . . . The ancient C-47A (tail no. 48101) which had been assigned to the KyANG since the very first, was returned to the USAF to be modified as a "Magic Dragon" gunship for Southeast Asia. A new Goon was sent in from Tennessee for a time and later replaced by a C-54A Skymaster.

Dec. 12 . . . Brig Gen William Dunn Ott retired from the KyANG, after serving eight years in the post. No immediate replacement was announced.

1967

Jan. 14 . . . Gen Gabriel P. Disosway, commander of TAC, came to Standiford Field to present the Air Force Association's outstanding unit award for 1965 to Lt Col James J. McClure, deputy group commander for operations. It was the first time a four-

star general of TAC commander had visited the Air Guard base in Louisville.

Feb. 24 . . . Ten of the 24 FT-101 Voodoos have received the dull brown and green camouflage paint required by TAC for all of its units. Eventually all of the Voodoos were camouflaged except the two TF-101F "duals," which were used as trainers. These two-seat F-models remained painted gray.

June 2-17 . . . Field training at Savannah, Ga., included cross-country flights to the West Coast complete with mid-air refueling.

1968

Jan. 26 . . . All units of the KyANG except State Headquarters were called to federal service for a period of 24 months unless sooner released by the USAF, under direction of President Lyndon B. Johnson. Units affected by the call-up (gaining commands in parens) were:

- Hq, 123d Tactical Reconnaissance Wing (TAC)
- Hq, 123d Tactical Reconnaissance Group (TAC)
- 165th Tac Recon Sq (TAC)
- 123d Tac Hospital (TAC)
- 123d Combat Support Sq (TAC)
- 123d Consol Acft Maint. Sq (TAC)
- 123d Supply Sq (TAC)
- 123d Communications Flight (AFCS)
- 165th Weather Flight (AWS-MAC)

The no-notice recall brought 104 officers and 650 airmen of the KyANG to active duty abruptly, giving them no time to adjust civilian responsibilities. Nonetheless, within 24 hours, all of the Kentucky Air Guardsmen had reported for duty.

Also called to active duty were the units of the 189th Tac Recon Group and 123d Recon Tech Sq of the Arkansas Air Guard and the 152d Tac Recon Gp of the Nevada Air Guard, all of which were assigned under the 123d Tac Recon Wing at Louisville. The Arkansas units remained in place at Little Rock for the duration of the recall, while the Nevada units joined the wing at Richards-Gebaur AFB, Mo., in July 1968.

At their recall, the Kentucky unit possessed 20 RF-101 (G-H models), two TF-101Fs, one C-54 and three T-33 Shooting Stars.

The 190th Tac Recon Group at Hutchinson, Kansas, flying the older RB-57 aircraft, was not recalled to active duty and was reassigned, separating from the parent wing headquarters at Louisville.

Jan. 29 . . . All units began intensive combat readiness training under TAC standards.

The Chronology of the KyANG: 1968-72

Feb. 22-27 . . . The first group of 10 aircrews left Shewmaker for sea survival school, a process that was to continue until all of the pilots had undergone the process.

Mar. 27-Apr. 7 . . . The first group of pilots departed for Shaw AFB for combat crew training, again a process that was repeated until all of the pilots had completed the training. Once returned to Louisville, they continued the intensive training until all were combat ready. Part of the problem related to the C-3 rating of the unit at the time of recall, based on the recency of the RF-101 conversion.

April-May . . . A number of photo reconnaissance sorties were completed in all parts of the central United States. Photo recon assignments had been left undone largely due to need for combat reconnaissance crews and aircraft in Southeast Asia.

May 28 . . . The units were alerted that Wing Headquarters, Maintenance Sq and 165th Tac Recon Sq would be moved to Richards-Gebaur AFB, near Kansas City, Mo.

June 30 . . . Fifty-five sorties aboard C-130 cargo aircraft and 18 commercial van loads of equipment were processed and shipped to Richards-Gebaur AFB prior to the move.

July 9 . . . Farewell ceremonies at Shewmaker were presided over by Kentucky's adjutant general, Maj Gen Allen K. Carrel.

July 12 . . . Aircraft from the tactical squadrons at Louisville and Reno were deployed in flights destined for Richards-Gebaur. They were received at the new base the same day.

July 14 . . . Personnel of the Kentucky units not retained with the reorganized wing and squadrons were beginning to leave for other assignments. The 381 officers and airmen who went to Missouri with the unit were matched by 131 who were reassigned to 30 separate bases in the continental United States and 173 who were transferred overseas to 11 bases in Korea (156 to six bases), Japan (14 to two bases), South Vietnam (one), and Libya (one).

July 22 . . . The main body of wing troops arrived at Richards-Gebaur AFB. The advanced party opened buildings and other facilities July 18.

July 23 . . . The reorganized 154th Tac Recon Sq with 20 RF-101s left Little Rock AFB for Itazuke AB, Japan, for TDY. It was the first of the rotations which would be

followed by the 192d Tac Recon Sq of Nevada and the 165th of Kentucky.

Aug. 8 . . . Advance detachment from the 192d departed Richards-Gebaur for Operation Coronet Sombrero, which was flown from Howard AFB, Panama Canal Zone. They were to be followed on rotation by the 165th Squadron later on.

Aug. 16 . . . The 165th launched its party to Elmendorf AFB, Alaska, where they engaged in Operation Cool Optic II for the Alaskan Air Command. They returned Sept. 26 after extensive aerial photographic reconnaissance.

Oct. 16 . . . The 165th sent men and aircraft to Howard AFB to replace the 192d on rotation for completion of Coronet Sombrero under the USAF Southern Command.

Nov. 20-21 . . . The 154th Tac Recon Sq from Little Rock completed their rotation back from Japan and returned to home base.

Dec. 20 . . . The recalled units from Arkansas were deactivated in ceremonies held at Little Rock AFB, returning to Air National Guard status.

1969

Jan. 15 . . . The advance detachment from the augmented 165th Squadron departed for Itazuke AB, Japan. They would be followed Jan. 25 by the remainder of the squadron, which would utilize the equipment deployed originally by the Arkansas unit; the Nevadans redeployed to the United States Feb. 2 upon arrival of the Kentucky unit.

While on deployment to Japan and Korea, the 165th Squadron was cited for excellence by the commander of the 5th Air Force, Lt Gen Thomas K. McGehee. Gen McGehee presented a special plaque to Lt Col Lawrence A. Quebbeman, the 165th Squadron's commander.

Apr. 7 . . . Former ANG technicians from Louisville and Reno were released from Richards-Gebaur to return to home base to receive the units on deactivation.

May 18-25 . . . The Kentucky and Nevada units moved back to their former locations, taking with them personnel and equipment.

Apr. 22 . . . The 165th Tac Recon Sq redeployed to Richards-Gebaur from Japan. Returning they brought not only the Arkansas aircraft used there but also 11 C-141 loads of equipment, weighing about 50,000

pounds each, plus a DC-8 and two C-130s loaded with people. The Voodoos were flown with air-to-air refueling back through Hickam AFB, Hawaii, to Richards-Gebaur AFB, Mo.

June 9 . . . A deactivation ceremony was held at Shewmaker for units of the Kentucky Air National Guard. Included were presentations of individual medals to some of the 37 men who won medals for their service during the call-up, and a special plaque for the 123d Tac Recon Wing from the Louisville Chamber of Commerce's Armed Forces Committee.

During the recall period of 17 months, after several reorganizations which included inactivation July 18 of the 123d Tac Recon Group headquarters, the entire wing compiled a record of 19,715 tactical flying hours from a total of 11,561 sorties. The 165th Squadron processed 284,251 feet of film, delivered 257,200 prints and itself flew 7,192 hours in completing 4,438 reconnaissance sorties.

The recalled units acquired an additional C-54 on active duty and the Headquarters, Kentucky Air National Guard also retained a C-54 and one T-33 for support flying.

A total of 69 members of the units from Kentucky were discharged on expiration of enlistments during the recall, only five of whom were released for hardship reasons.

June 10 . . . Back at Louisville, the Kentucky Air National Guard resumed its regular responsibilities. Prime among all problems was replacement of the personnel lost during and immediately following the recall period. Headquarters, KyANG had established a holding detachment during the call-up and a large number of recruits were sent to basic military training. No field training was held in 1969.

The 123d Tac Recon Group, 123d Consolidated Aircraft Maintenance Sq and 123d Supply Sq, as well as other recalled units, were reconstituted as Air National Guard units. The 123d Field Maintenance Sq, created at Richards-Gebaur, was inactivated.

August . . . An all-out recruiting campaign was set in motion by the KyANG.

Oct. 18 . . . The 123d Civil Engineering Flight was created and shortly was ordered to form a "Prime Beef" team as part of intensified training for the new unit of the KyANG.

Dec. 15-16 . . . Brig Gen Jack H. Owen and Col Lawrence A. Quebbeman were called to Washington as commanders of the recalled units to receive thanks personally from President Richard M. Nixon.

1970

May 16 . . . Gen Owen moved to the position of Chief of Staff in Headquarters, KyANG, and was replaced as commander of the 123d Tac Recon Wing by Col Verne M. Yahne, who had served as state chief of staff and assistant adjutant general for air during the recall period. Col Yahne also continued to serve as base detachment commander during the same time.

June 13-27 . . . Field training was resumed at Savannah, Ga., where Kentucky Gov. Louie Nunn was flown June 20 in a TF-101F, to attend a review and awards ceremony. Col Thomas F. Marshall, a veteran member of the KyANG who had retired in 1966 after a long career including service as deputy adjutant general, died June 26. He had been appointed as assistant adjutant general by Gov. Nunn and was awaiting federal recognition at the time of his death.

June 30 . . . Strength of the units was increased by 12 officers and 160 airmen since the previous August. Assigned strength was 880, which was over 100% of programmed strength.

Oct. 1 . . . Gen Owen was reassigned to the post of assistant adjutant general for air, and also Lt Col William J. Semonin, commander of the 165th and more recently director of operations for the wing, was made chief of staff.

Nov. 3 . . . The Secretary of the Air Force awarded the entire 123d Tac Recon Wing and assigned units from Nevada and Arkansas the Air Force Outstanding Unit Award.

Dec. 1 . . . The 188th Tac Recon Group at Ft. Smith, Ark., was added to the list of units assigned to the 123d Tac Recon Wing. The Arkansas unit was converting to the RF-101C and assuming the reconnaissance mission.

1971

January . . . The 123d Civil Engineering Flight attended field training at Barking Sands on the island of Kauai, Hawaii, where they constructed two barracks for the HANG.

April . . . Lt Col James H. McClure replaced Col Lawrence A. Quebbeman as the commander of the 123d Tac Recon Group.

April . . . TSgt Louis Dusch, crew chief of C Flight, 123d CAM Sq, set an individual

record keeping one aircraft flying a total of 76 hours during the month without a breakdown.

June 12-26 . . . Gov. Louie Nunn returned to Savannah to present medals to several members of the KyANG. Maj Gen Gordon F. Blood, commander of 12th AF, presented the certificate and streamer for the unit colors emblematic of the Air Force Outstanding Unit Award won on active duty 1968-69.

June 30 . . . Construction projects included an addition to the Engine Shop, addition to the Motor Pool, a new POL Building and major interior remodeling for the Photo Processing Labs in the Hangar Building.

Aug. 17-25 . . . "Punch Card XV" took six Voodoos and 50 men to Eileson AFB, Alaska, for support of Army ground exercises. At about the same time the unit was also supporting another exercise, "Boldshot Brimfire 2-72", at Ft. Campbell, Ky.

Sept. 14 . . . Capt Roger M. Sanders was killed attempting to take off from Stadiford Field.

September . . . Chaplain William Hisle died after a long illness. His work with Korean orphans had been carried on despite his declining health and Lt Col Hisle was presented the first Legion of Merit won by a member of the KyANG.

October . . . A single U-3A and the T-33 support aircraft were returned to the USAF, but the unit kept the C-54 Skymaster.

Dec. 7 . . . Richard L. Frymire, former commander of the 165th Tac Recon Sq, became the first member of the KyANG ever to serve as adjutant general of the Commonwealth of Kentucky. He was appointed by Governor Wendell H. Ford.

December . . . The group transferred seven G-model RF-101s to the 189th Tac Recon Group at Little Rock and received 17 H-models from the 152d Tac Recon Group at Reno. The transfer gave Louisville a fleet of 28 "Hs" during the third quarter of FY '72.

1972

January . . . NGB announced a change of mission and conversion to A-37 tactical aircraft would occur early in FY '73. The mission of the group would change to close air support of the ground forces. Worst of all, the KyANG would have lost 180 military and 27 ANG technician spaces in the conversion.

Feb. 25 . . . James C. Pickett Jr., a former commander of the 165th Tac Recon Sq, was

named assistant adjutant general for air. He was appointed a colonel on state orders, but his transfer to the retired reserve earlier could not be waived and federal recognition was not granted.

April . . . Seven H-model Voodoos were sent to Davis-Monthan AFB, Ariz., for storage as the 165th was required to reduce its tactical aircraft to 20 RF-101Hs.

June 10-24 . . . Over 700 attended field training at Savannah, Ga., with 125 airmen transported there via C-124 Globemasters. Hurricane Agnes interrupted flying for a time, but caused no local damage.

June . . . Gen Frymire announced Kentucky would not undergo the mission change and would keep the Voodoos for the time being.

June 15 . . . The 188th Tac Recon Group of Ft. Smith, Ark., was notified it would undergo a transition to the F-100 tactical fighter aircraft. Concurrently, the Arkansas unit was relieved of assignment to the 123d Tac Recon Wing.

July . . . The unit acquired a fleet of C-model Voodoos from Selfridge ANGB, Mich., where the ANG unit gave up its reconnaissance mission. By July 12 had arrived at Louisville, by August 19 and by September the total of 20 RF-101Cs. The H-models were ferried to Davis-Monthan AFB for storage.

July 15-29 . . . The unit participated in Sentry Canecutter III at Roosevelt Roads, Puerto Rico.

July 17 . . . Col Verne M. Yahne, wing commander and base detachment commander (the latter for 17 years), announced that he was retiring. He was replaced July 17 by Col William J. Semonin as wing commander. Col Semonin had been serving as the chief of staff, Hq KyANG. Lt Col John B. Conaway was announced as Col Yahne's successor as base detachment commander, but with time for Col Conaway to understudy the complex responsibilities of the fulltime post as "BDC."

Aug. 3 . . . USAF formally notified the U.S. Congress it was withdrawing the A-37 conversion of the KyANG, and that no personnel cuts would be forthcoming for the Kentucky units.

Sept. 16-17 . . . Six Voodoos flew 42 sorties in a total of 66 hours in support of the 25th Anniversary of the USAF at Washington, D.C.

Oct. 15 . . . Ceremonies Saturday, Oct. 13, marked the retirement of Col Yahne which took effect Oct. 23.

The Chronology of the KyANG: 1973-77

Nov. 30 . . . Pilots from Kentucky took part in "Brave Shield III" with the 363d Tac Recon Wing of Shaw AFB in a test of the mobility of reserve forces.

1973

March . . . Major runway repairs scheduled for runway 1-19 at Standiford Field brought a need for an alternate flying location for the KyANG. The CBPO gained the capability of computer-operated personnel data systems called BLMPS, hooking Shewmaker to a B-3500 computer at Wright-Patterson AFB, Ohio.

April 2 . . . Sixteen Voodoos were deployed to Wright-Patterson AFB because of the resurfacing project. Aircraft shuttles on the C-54 went daily from Standiford to support the deployment. Personnel rotated on assignment for brief periods at W-PAFB while only qualified RF-101 instructor pilots were allowed to return to Shewmaker ANGB.

June 30 . . . Field training was altered so members of the military unit could help support the Wright-Patterson deployment, and the units made other arrangements for personnel of other support specialties to attend camp individually or in small groups. A second C-54 was assigned to assist in maintaining the shuttle to Dayton, Ohio.

July 1 . . . A reorganization inactivated the 123d Supply Sq and decreased the authorized spaces in the KyANG from 1,012 to 995.

Dec. 17 . . . Operations resumed at Standiford Field and the ANG returned to Shewmaker. Runway 1-19 received a new coat of asphalt and attention was focused on the KyANG because of the installation of a new BAK 12/14 arresting barrier, first of its kind on a civilian joint-use airport.

December . . . NGB ordered flying curtailed because of the nationwide fuel shortage. At the same time, closed-circuit television was inaugurated at Shewmaker, installed and manned by ANG personnel.

1974

Jan. 15 . . . Curtailment of flying ended, the unit has maintained its C-2 readiness rating despite fuel shortages.

Jan. 1 . . . Col Lawrence A. Quebbeman assumed command of the 123d Tac Recon Wing. Col. William J. Semonin moved to the post of assistant adjutant general for air, effective Jan. 17.

May 1 . . . The veteran Col Robert K. Hendricks retired as wing vice commander and Lt Col Fred F. Bradley, wing director of operations, replaced him.

June 1-15 . . . The number of persons attending field training at Savannah was curtailed because of the energy shortage.

June 30 . . . The group had acquired one-half of a WS-430B air-mobile photo processing complex. It consisted of 13 metal vans worth about \$760,000 and was installed on a concrete pad serviced by water, drains and electricity. In addition, the fiscal year has seen completion of \$630,000 worth of construction, one of the more active years since the base was built in 1958.

Dec. 10 . . . A major structural reorganization of the KyANG inactivated the 123d Tac Recon Group at Louisville and changed the wing command structure extensively. The Combat Support Sq became the 123d Combat Support Gp, and the 189th Tac Recon Group at Little Rock AFB was relieved of assignment to the 123d Tac Recon Wing at the same time. The 123d Reconnaissance Technical Sq at Adams Field was released from the Arkansas group and remained assigned to the 123d headquarters at Louisville.

Fred F. Bradley became commander of the wing, replacing Lawrence A. Quebbeman. As Col Bradley moved up, Lt Col John B. Conaway became wing vice commander. New posts of deputy commander for operations and logistics are created by the reorganization. Lt Col Carl D. Black moved from group commander to wing deputy for operations and Col William P. Gast was appointed wing deputy commander for logistics.

1975

The Communications Center won a "Tributary Award" for handling more than 8700 messages without error. The Comm Flight was rated C-1 for the third consecutive year.

February . . . John B. Conaway was promoted to colonel Feb. 8 and Carl D. Black was made colonel Feb. 9. Richard L. Frymire was recognized as a brigadier general Feb. 12.

Feb. 28 . . . Col Quebbeman was appointed as assistant adjutant general for air, replacing Col William J. Semonin.

April 4-7 . . . The units were given a rigid inspection which confirmed the C-1 operational readiness rating of the 165th Tac Re-

con Sq. It was the only reconnaissance unit in the reserve or national guard to hold such a rating at that time.

June 1 . . . Col Fred W. Cross was appointed wing deputy commander for logistics, succeeding Col William P. Gast.

June 15-29 . . . 15 Voodoos and 400 members of the tactical units attended field training at Volk Field, Wis., testing capability to operate with WS-430B. The 165th Squadron was processing photographs within six hours of arriving at Volk Field.

June 30 . . . A \$424,000 contract was awarded for construction of an Avionics/NDI Shop and other FY construction has included modifications to the Hangar Building.

Aug. 1 . . . Lawrence A. Quebbeman achieved federal recognition as a brigadier general, holding the position of assistant adjutant general for air.

Sept. 6 . . . Despite local problems with busing school children in Louisville, the unit sponsored an open house at Shewmaker which attracted 2,000 visitors.

Oct. 18 . . . The 123d Tac Recon Wing gained the 124th Tac Recon Group of Boise, Idaho, as part of the responsibility of the unit. The Boise group had just been converted to RF-4Cs and brought under TAC. Col Bradley flew to Boise and participated in the ceremony making them federally-recognized in their new role.

1976

The use of the name Shewmaker to designate the ANG base at Louisville was largely discontinued because of potential confusion over reference to Standiford Field in many publications.

Jan 17-18 . . . The staff of Hq, KyANG under command of Brig Gen Lawrence A. Quebbeman, supervised ANG participation in Helping Hand II, a simulated disaster relief exercise within the state.

March . . . The first RF-4C arrived Feb. 27, marking a major aircraft conversion, which was announced publicly March 11. The pilots were sent to Shaw AFB for training in the new Phantom II jets. As a result of conversion, 70 new military positions and 27 new technician posts were created and the budget of federal money increased from \$8 to \$11 million per year.

The 165th Tac Recon Sq received a total of

Coyle

THERE WAS THIS STUPID LOOKING BEAGLE, WEARING A WW I
FLYING HELMET ON A LITTLE DOGHOUSE AT 10,000 FEET —

19 RF-4Cs, transferred to the KyANG from Alconbury RAF Station, England. Refused by another unit, the conversion was abrupt and virtually without advance warning. It was long-anticipated and eagerly welcomed by the Kentucky units, however.

The RF-101Cs were flown to storage at Davis-Monthan AFB, Ariz. Two H-model Voodoos, the type held longest by the KyANG, were retained for static display, one in Louisville and the other at Boone National Guard Center, Frankfort. The last RF-101C left Louisville April 29. In the 11 years the KyANG had flown them, the Voodoos had served a total of 43,569 hours in the air.

March 15 . . . The C-rating of the tactical unit slipped to C-4 immediately on conversion to new aircraft. This brought to an end the 20-consecutive month record of the 165th Tac Recon Sq holding their C-1 rating.

June 29 . . . Richard L. Frymire, the adjutant general of Kentucky, received federal recognition of the rank of major general. He had been appointed to the two-star grade when he assumed office in December 1971 by Governor Ford and was reappointed by Governor Carroll in 1974.

June 30 . . . Construction during FY '76 saw completion of the new Avionics/Non-Destructive Inspection Shop, which was wired partially by the 123d Comm Flight. Also completed were a new gate house addition, alterations to office space, addition to the Carpentry Shop and completion of additional parking areas.

Sept. 1 . . . Col William P. Gast was promoted from director of operations at Hq, KyANG, to chief of staff for State Headquarters.

Nov. 10 . . . The 148th Tac Recon Group at Duluth, Minn., was transferred under control of the wing headquarters, but actual execution of the order was deferred indefinitely. It left the Wing Headquarters in supervision of the 124th Tac Recon Group, Boise, Idaho; 154th Tac Recon Group Reno, Nev.; and 123d Recon Tech Sq, Little Rock, Ark.

1977

Feb. 4 . . . Fred F. Bradley, commander of the 123d Tac Recon Wing, was federally recognized as a brigadier general, the fourth wing commander to wear the star authorized for the position.

April 1 . . . A very considerable honor came to the wing vice commander, John B. Conaway, who was approved by the U.S. Congress as deputy director of the Air National Guard at NGB. The action brought with it promotion to brigadier general.

Concurrently with departure of Gen Conaway, Col Carl D. Black was promoted to the post of wing vice commander and air commander of the technician detachment. Lt Col John L. Smith, former commander of the 165th Tac Recon Sq, was named to succeed Col Black as deputy wing commander for operations.

April . . . The 123d Communications Flight was named the outstanding unit of its kind in the entire United States.

June 11-25 . . . Field training once more returned to Travis Field, Savannah, Ga., for a reduced number of Air Guardsmen.

Aug. 28 . . . The KyANG celebrated its 30th anniversary as a component of the Air National Guard of the United States of America.

Facilities of the KyANG

By JAMES DOUGHERTY

Shewmaker Air National Guard Base, located on the southeast edge of Standiford Field in Louisville, Ky., is the present site of tactical operations for the Kentucky Air National Guard. The original 51 acres of land were taken on a 99-year lease from the Louisville-Jefferson County Air Board in 1958 and presently consists of approximately 61 acres of land with 24 existing buildings and one more under construction—a \$900,000 Squadron Operations Building.

Construction of the base began in 1956 and during July 1958 the Kentucky Air National Guard moved from the quarters rented from the Air Board since 1947 into its new facilities fronting on Old Grade Lane. The new base was financed entirely from federal funds and originally included the Hangar, Base Supply Warehouse, Auto Maintenance Shop, Fire Station, Hazard Storage Building, General Purpose Aircraft Shop, Pump Station, Gas Meter Facility, Utility Vault, Corrosion Control Storage Building, Rocket Storage Building, and a Recreation Center, as well as taxiways, parking aprons, roads, and the like. In the year 1960 the Operations and Training Building was completed. In 1961 a Traffic Check House was built at the entrance driveway. The Engine Shop was added in 1962, and in 1964 two quonset huts were erected as storage sheds for Base Engineering.

Runway barriers were installed in 1966 to enable the newly-assigned RF-101 aircraft to land within safety requirements of the U.S. Air Force. It was also during the same year that the AGE Shop and a 4,400-foot taxiway extension were constructed.

Physical property alterations during the Pueblo Crisis Call-Up of 1968-69 were confined to minor repairs and routine painting. In 1970, after the units returned to state status, the Photographic Laboratory facilities were extensively altered internally and an 1,800-square-foot addition was constructed for the Engine Shop. The Petro Operations Building

was completed in 1971 along with another bay for firefighting vehicles added to the Auto Maintenance Shop. In 1972 the Civil Engineer Flight completed a new civilian Snack Bar facility.

Construction progress continued through 1973 and 1974 in terms of some essential and badly-needed support facilities. One of these was a new \$38,000 Butler Steel Building of some 6,000-square feet used to warehouse mobility equipment storage. Others included a Base Engineering Maintenance Shop and a 1,277-square-foot addition to the Fire Station which provides fire and crash crews with sleeping quarters. A concrete pad 100 by 88 feet with water and electricity hookups was laid during late 1973 which provides the location for the WS-430B, a complex of inter-connecting photographic processing vans assigned to the 165th Tac Recon Squadron.

Another spurt of construction activity in the year 1976 saw completion of a 12,100-square-foot Avionics and Non-Destruction Inspection Shop built at a cost of \$328,000. A new Fuel Cell and Corrosion Control Maintenance Facility was completed in 1977 at a cost of \$550,000 and ground was broken for a Squadron Operations Building estimated to cost about \$900,000 and scheduled for completion in 1978.

As of the end of March 1977, the total value of all government-owned real property (not including the Squadron Operations Facility) was \$4,945,000. Not included in these figures, of course, are the extensive parking lots, roads, parking apron, taxiways, nor does it include Air National Guard contributions to extensions for the Sandiford Field runway and related resurfacing. It also does not include the cost of installing the initial runway barrier in 1966, nor replacing this with the BAK 12/14 barrier in 1973 now being utilized at Standiford Field.

THE NEW AIR GUARD BASE: After struggling along in the rented quarters at the Vultee Hangar, the Air Guard moved to new facilities across the way. This aerial view (right) shows the completed facility just after arrival of the RB-57 Canberras with almost all of the first construction visible. Note those empty spaces in the parking lot—a luxury not long to be enjoyed!

AERIAL VIEW: This prime vertical photograph shows the complete facilities of Standiford Field about 1965 prior to lengthening the second runway nearest Shewmaker ANGB. The Kentucky Turnpike (I-65) runs from top to bottom, with the Fern Valley exit visible at lower right. The view was made with a K-17 vertical camera from 23,400 feet altitude. **SITE INSPECTION:** Visiting the site of construction at the new ANG base at Standiford Field July 18, 1959, were: (from left) Brig Gen Philip P. Ardery, wing commander; Sr. Air Adviser Col Shannon Christian (1957-60); Lt Col Charles J. Cronnan; Col Harold B. Graves, Hospital commander; and Col Verne M. Yahne, base detachment commander.

BUILDING	AREA IN SQ. FT.	EST. VALUE	DATE BUILT

*Sq. Operations Bldg.	*	900,000	1978

(* Under construction)

NEW SNACK BAR BEGINS: Getting a lot of help in the process, Col Verne Yahne took the first spade of earth for the foundation slab of the Snack Bar (about 1972). Giving directions is Nancy Marchand, right, a personnel specialist. Helping with the spade is Lt Col Charles C. Sauer, left, the long-time personnel officer. In background is the base engineer, Maj Bill Seiber.

The C-45 Voyager

SPECIFICATIONS: Wing span 47 feet, seven inches; length 33 feet, 11½ inches; height nine feet, two and a half inches; weight empty 5,770 pounds, loaded 8,750 pounds; speed 230 mph; ceiling 20,500 feet; maximum range 1,500 miles.

C-45 VOYAGER: Used as a smaller-size support aircraft, when there were not enough passengers to warrant the larger C-47, the C-45 was acquired after the Korean recall of 1950-52 when the unit was short on aircraft. It could be flown by one pilot, if necessary, and did not require a crew chief. However, most often the co-pilot did accompany the aircraft as one of the crew and a crew chief (often Charlie Curry) sat in the cabin. There were seven seats in the C-45 which made it ideal for small groups of dignitaries. The seats, however, were not padded as were the ones on the C-47s and C-54s of the early days and the C-45 had a "standard military interior." "They were comfortable," said Col Eugene Kinnaird, "but nothing extra." Kinnaird's flight records indicate the C-45, which was manufactured by Beechcraft, probably went out of service after May 1960. The Canadian Air Force version of this Beechcraft Model D-18S was called the Expeditior.

Hi Neighbor! COME ON IN

Here's one neighbor you can feel free to visit
any day of the week.

He's the owner and operator
of your neighborhood Burger Queen.

Join him for breakfast, lunch or dinner...
because he's serving his community
the finest in Burger Queen variety.

Maybe you didn't know that Ashland is more than an oil company.

But you should.

1. We're America's leading independent refiner and marketer of petroleum products. We have seven modern refineries with a combined crude oil processing capacity of approximately 400,000 barrels a day.
2. We're the world's largest highway paver, a versatile construction company and a builder of offshore drilling platforms and drill ships.

3. We're a chemical industry leader; we operate chemical and mineral product manufacturing and distribution facilities in 28 states and 13 foreign countries.
4. We're one of the top 10 coal producers in the nation with interests in Alabama, Illinois, Wyoming, Kentucky, Tennessee and West Virginia.

Ashland Oil, Inc.

KYANG

1947-77 Mustangs to
Phantoms

A Final Note from the Editor

Every book carries with it the invitation to writer or editor to brainstorm some piece of prose which will explain to the world why the book was written. This final note will be no Swan Song for our multi-colored careers in the Kentucky Air National Guard, but if the comments do seem personal, we hope for your indulgence. The Kentucky Air Guard has been a labor of pride for many of us who have had some small part in bringing this publication, "1947-77: Mustangs to Phantoms," into being. It wasn't easy, we can assure you of that. While our experience is far from being unique, the immense task of producing this reunion book not only celebrates the first 30 years of the KyANG, but also represents a personal tour-de-force. It is our humble hope that the hundreds and hundreds of present and former Air Guardsmen, in reading these pages, will relive memories of yesterdays perhaps long forgotten. Memories make traditions what they are.

This book, then, is our personal statement. We would not be where we are today—one of the finest units in the whole world—if we lacked pride. That goes for all of us, whether part-time members of the military units, or full-time air technicians. This book is a sword, a way of saying thanks to the people who make up our great organization. It is not a farewell, but a sincere salute to the past, present, and future of the Kentucky Air National Guard, and to all our units mean

to this country and Commonwealth.

There is no possibility that this book will be without errors; you would only have to try one yourself to know how difficult that task would be. We apologize for those mistakes which have been made, but at the same time you should be aware that many gallons of "midnight oil" were burned to make it the very best we could.

Thanks, yes, much thanks is due to others who have carried the burdens with us. To Bill Gast, whose ideas and meticulous plans formed the blueprint for both reunion and book; to Gene Kinnaird, who had already spent so much time gathering materials; to our co-editor, Jim Long, who shared the load and expedited unnumbered details; to Dick Jett, who tied so many loose ends and who left no stones unturned; to our artists, Paul Coyle and Tom Foster; to the hundreds of present and former Guardsmen who loaned materials gathered so capably by Win Appleby; to our advertising director, Ed Tonini, without whose energies we would not have been able to pay the bills; to our bosses for letting us do it.

Finally, thanks to you who read this book. We hope it helps you to remember something very important to all of us—the task of the Kentucky Air National Guard in the years to come.

Don Armstrong, Editor
